

**Soul and Body  
For Sale.**

The New York World of a recent date gives the following account of a young man who desired to sell himself for the support of his mother:

"I am a young man 27 years old, 5 feet and 9 inches in height, weigh 138 pounds, am sound in every respect, and am for sale to the person who will agree to pay a reasonable sum to my mother, whom I have tried to support, but failed.

The person purchasing me must agree to pay her a certain sum of money each week as long as she lives, in return for which the purchaser can do with my body and soul as he or she may choose.

I do this only to save a poor lame woman, 65 years old, who has proved my friend when all else had deserted me, and has shared my poverty without grumbling, when she deserved better things.

I have tried every honest means known to find employment, and now I make this last effort to do some good so that I may at least have some excuse for existing.

I will make a willing and devoted slave, and do not care what becomes of me so long as my mother is provided for."
