Land Office Business.

I have recently made arrangements to get money cheaper than ever before. I want to put out $100,000 in Ward and Bottineau county farm loans before May 1. If you want to make proof and a loan, write to me stating your wants, and I will guarantee that I will give better satisfaction than anybody else. I also buy and sell land.

I recently purchased the Sawyer townsite and have for sale a number of choice business and residence lots.

I make farm loans and buy and sell farms. If you want to sell your farm, list it with me. I will guarantee to get you a purchaser if you do not want too much for your land.

I Can Do You Poor Work!

Yes, I will admit that I could turn out poor jobs and make more money for the time being, but I am here to establish a reputation. I expect to be painting in Minot ten years from now, and what's more, I expect my work to last that long or longer.

I make a specialty of calcimining, painting of all kinds, paper hanging and decorating.

CHASED HUSBAND WITH BUTCHER KNIFE

About a week ago a little excitement was created in Granville by Mrs. Stevens, wife of a printer who works on the record. Mr Stevens is a good printer and a good fellow but likes booze better than he does his wife. When enjoying a good spree he was locked up at his home but managed to escape the ever rigilant wife and started down town. Mrs. Stevens grabbed a sharp butcher knife and started in pursuit. She was gaining on her fleeing spouse when he chanced to hide behind some box cars and escape. Later he was induced to return by Landman Kosper. The two walked bravely up the street when Mrs. Stevens, who was watching, again started after her husband and Kosper thinking that his life was the one the woman sought, started down the street, passed a jack rabbit or two, never stoping to look around till he was safe in the far distance.

The Minot Creamery is now making ice cream.

LADIES PLEASED WITH OPENING

The New Cash store gave its formal opening to the ladies of Minot and vicinity last Saturday afternoon, and it will be long remembered. All afternoon the ladies entered the beautiful store and were seated at tables and given ice cream and cake. Each lady was also given a beautiful carnation. The proprietors of the new store are very much pleased with the business they are getting in Minot.

BURT TOWNSHIP.

Bill, did you hear the question?

Willie Nixon attended summer school in Minot.

Mr. Moore has been breaking sod on Emery Honer's claim.

For Sale—Several dozen chickens. Inquire of Knute Holom.

Mr. Knute Holom spent several days last week visiting at Norwich.

John, are you going into the poultry business? Here's success to you.

Wanted—By a lady about to travel to the Pacific coast, a companion. I will go out breaking by the day. Long hours guaranteed. Address, Bob Wilson.

For Sale—Cream and milk. Eggs manufactured while you wait. Inquire at Blom ranch.

Everyone is thinking we will have a fine crop this year. The rain man is very bountiful.

Harry Blom is having a foundation built for his house. A barn, a fence, a house—what next?

Wanted—A detective to solve the mystery of Ed Okin's presence at the court house some time ago.

Miss Pearl Blom arrived a few weeks ago and will spend the summer with her sister, Mrs. W. D. Wilson.

Quite a number of young people from this vicinity went to Minot to witness the races Thursday. Too bad it rained.

Mr. Herman Otto has returned from an extended visit in Stanley, and some certain one of the fair sex wears a broad smile.

Mr. H. P. Rygmyr and John Flom spent one Saturday night on the Mouse river fishing. They caught several large fish.

The buggy that has the iron-gray trotter hitched to it makes its regular three-times-a-week visit to the house on the high hill.

We all think that "possession is better than pursuit," so the question is not debatable. The author may have her opinion all the same.

An ice cream social is to be given at the Burt school house next Friday night, June 23rd. We hope all will come and have a glorious time.

We are glad to see Mr. J. Johnson with us again. He has been so busy farming that he has not been able to get off his 100 for the last three months.

It is to be regretted that the person who read the paper on "Chickens," at the Farmer's meeting, does not start a poultry farm for she certainly would make a success of it, judging from the paper.

A certain young man is putting a fence around a part of his farm. We wonder if he doesn't know that the coulee will be pretty bad to cross in the winter time and his road will be twice as long.

A great disappointment was undergone by one of our popular young ladies. She dressed for the occasion and waited from eight o'clock until twelve for a young man to come and take her to a box supper. Wonder if it will happen again.

There is a very small fell lives near Des Lacs
Who has a buggy all painted black
He drives a broncho
And he has to trot o
Toward the southeast
Every Sunday—poor beast!
