Caught The Girl Killer

Fargo, N. D. — (Special to The World.) — William Gunner, age 22, night clerk in the Prescott hotel here, was arrested here at two this afternoon, charged with the murder of Marie Wicke, the girl found dead in a room at that hotel, following what, to the police, appeared one of the most brutal assaults ever perpetrated in the Northwest. Gunner had been clerk in the hotel here for nearly a year. Arrest followed unannounced work on the part of the police department. State's Attorney Greene, prosecuting the case in conjunction with the police officials, is said to have declared Greene may confess to the crime. Lynching activities are feared and officers are being held in readiness for any attempt on the part of an enraged public.

Miss Wicke was found in her room, Number 30, of the Prescott hotel a week ago, assaulted first, according to every evidence, with the marks of the brutal assassin showing on many parts of her body — and dead.
