

OLD PARTY LIES.

The Populist, K. of L., Farmers' Alliance and kindred organizations of Colorado are standing by Gov. Waite in his work. Last week a petition containing 25,000 names was sent to the Legislature asking them to pass such bills as would give immediate relief to the many thousands now in destitute circumstances. But the monopoly press suppressed this news item and inserted in its stead a string of lies.

Fortunately or unfortunately for us, we have been engaged in editing and publishing papers for about 14 years. Have published papers in three States and in several towns, but we never published a paper in twon until we come to this place but what we got on regular exchange every paper published in town, but since our advent in this city more than two years ago, but one paper has entended us commor courtiiseis, and it withdrew such courtiesis and seemed elated with downfall of our little hornet—the Emancipator.

It is not that we care so much about their papers, but the idea of ignoring common courtiesis, and at the same time slapping our cause in the face every week with concealed hands, is why we thus speak. Act like men gentlemen, or lay down you fabers to men of commor decency.
