Address, DR. E. CONE,
nov25-d1y COLUMBUS, OHIO.

Hostetter's Bitters on the Battle-Field.

It is satisfactory to know that our soldiers hospitals are no longer an impossibility since the life-saving preparation, Soldiers who, as private citizens, had become acquainted with its properties, have in many instances made a special request that HOSTETTER'S STOMACH BITTERS might be added to the medical stores of their regiments, and their wishes have not been unheeded. As a means of sustaining wounded men on the battle field, and of enabling troops to bear fatiguing marches under a blazing sun, it has been strenuously recommended by distinguished medical men, and the more so as they it will effectually supersede all the adulterated liquors, liquors and dangerous tonics that have heretofore been considered medicinal. Moreover, the fact that a small quantity of the Bitters mixed with water from any of the Southern or South-western rivers will prevent from affecting the bowels of the river, should be borne in mind by Army Paymasters, soldiers, and all who have occasion to visit those portions of our country. Persons who use HOSTETTER'S BITTERS in conformity with the directions, may rest assured of a defiance International Fever and all other disease generated by a vitiation of the unwholesome atmosphere upon an overtired frame.

☞ IMPORTANT TO CONSUMPTIVES.—The long looked for specific for the cure of Pulmonary disease is found at last. Allen's Lung Balsam has proved to be the most extraordinary medical preparation for curing Consumption. It not only cures Consumption, but relieves immediately the incipient stages, such as Coughs, Colds, Oppressions, &c., Pains in the Chest. It breaks up the most distressing cough in an incredible short time.

For sale by the Dealers in Family Medicines generally.

☞ CONQUEROR OF PAIN.—Dr. Kittridge's great internal and external medicine introduced a few days since by Dr. J. Henry Hildreth, is performing wonderful cures throughout the cities. The Doctor himself prescribes for the afflicted from his carriage, for any of those diseases which he is positive he can cure. If he can not do so, he will, in all candor, tell you so. Buy a bottle of his medicine, by all means, and try it, and if it does not perform all he represents it will do, return the empty bottle to room No. 12 Phœnix House, between two and three o'clock P. M., and he will cheerfully refund your money. d3t.

THE DAILY EMPIRE.

Dayton, Ohio,

Wednesday, Nov. 29, 1865.

Local Matters.

☞ BOARDING.—Several young gentlemen can be accommodated with boarding, in the residence of Mrs. T. R. Throp, corner Fourth and Perry streets. 3td

GOLD AND SILVER WATCHES.—Lessner & Bro. No. 102 Main street, have on hand a large stock of Gold and Silver Watches, which they are determined to sell out, even if they have to take less than cost. Call and see them. 4tdaw

RETURNED.—We had the pleasure this morning of meeting our old friend, Dr. Fuller, who has just returned from an European tour of several months. He is in excellent health, had a pleasant trip, and reports himself greatly pleased with the appearance of things "over the water." Dr. Egry, who accompanied him, is expected home next month.

"CHANGE OF BASE."—We have received a circular from C. W. Roback, the manufacturer and proprietor of the celebrated "Roback's Bitters," in Cincinnati, stating that he has disposed of his business to Prince, Walton & Co., who will continue the business at the old stand on East Third street.

TIME.—The Town Clock, which for so many years gave the "note of departing time" from the tower of Wesley Chapel, has been placed in the spire of the Third street Presbyterian Church. It presents a very lonely task, and still as heretofore, is a great convenience to the people of the section of the city in which it is located.

GRAND DISPLAY OF WATCHES, SILVER WARE AND JEWELRY.—The establishment of H. Kline, No. 328, Third Street, presents a grand and brilliant appearance. He has just made great additions to his former large stock of Gold and Silver Watches, Silver Ware, Diamonds, Jewelry, &c. His store is a perfect museum of curiosities in the way of the beautiful and attractive. It is well worth a visit, if only to see the elegant array of articles which are arranged with such excellent taste. His stock of Holiday Presents is unlimited, and as he is determined to sell at prices that will satisfy all, every body in want of articles in this line should give him a call. nov27d2t

TURNER'S OPERA HOUSE.—This magnificent structure—decidedly the most beautiful and imposing edifice, in architectural design and symetry, in the West—is attracting the attention and comments of the press in all sections of the country. This speaks well for the growth and advancement of our city. The truth is, that no city of its size and population, East or West, can boast of finer or more attractive public buildings and business houses than Dayton. People who passed through the city twenty years ago, should they return now, would scarcely recognize it as the same place. So much for the enterprise of our men of capital and public spirit, and the artistic taste and genius of our builders and mechanics. The fame of the Opera House has reached the great American metropolis, and the New York *Tribune* alludes to it in the following complimentary terms:

Messrs. Joseph M. and William Turner have erected, at Dayton, Ohio, an Opera House of elegant ensemble, and very liberal proportions. It is situated on Main street, and is one hundred feet in width, and five stories high, and the architectural style is that of the Norman-French.

THE CONTINENTALS.—This excellent quartette will be with us to-morrow (Thursday) evening, when we anticipate an array of beauty and refinement seldom collected at an exhibition of a public character. The Continentals have been making a tour through Ohio, north of here, and the Press speaks universally in praise of them. With the rich gift of rendering the finer of the operatic airs, in a style of pathos and melody unsurpassed by any similar quartette in the country, they are spoken of as possessing power, in a more forcible degree than is ever brought together by a similar collection. We are almost enthusiastic in our anticipation of enjoyment, and hope that every one who loves and feels the power of good music, well rendered, will be on hand to hear them. They sing in Cleng's Hall, for two evenings only, and we know the hall will be well filled.

SOIREES DRAMATIQUE.—The popular play of the "French Spy" was enacted in excellent style last night, Miss Mollie Williams appearing to the best advantage in the several characters of "Henri St. Alme," "Hamet" and "Mathilde." Mr. Vincent acquitted himself to the entire satisfaction of all present, especially in the funny farce of "An Object of Interest."

The beautiful Irish drama of "Colleen Bawn," to be followed by the pleasing burlesque of "Jenny Lind," will be presented to-night, in both of which Miss Williams and Mr. Vincent will appear in the leading characters. It will be one of the most attractive entertainments of the season, and a full house may be anticipated.

GREAT BARGAINS.—Sternberger & Co., dealers in Clothing, desire to have it understood that they have one of the largest and best selected stock of Clothing in the city of Dayton, and are selling at prices which will make it an object to every body to give them a call. Their stock of overcoats is very large, and the prices cannot fail to please. Chris. Greene is one of their salesmen and will be pleased to wait upon his numerous old friends.

THE "CONQUEROR.—The agent for the sale of the "Conqueror of Pain," informs us that he is meeting with great success. We know of a number of persons who have used it for colds, sore throat, tooth ache, neuralgia, &c., who speak in the highest praise of its magical effects in the cure of these complaints.

E. O'BRIEN, 301 Second Street keeps always on hand a choice lot of groceries, wines, liquors, cigars, tobacco, and fish. A more clever fellow never lived—don't forget the place. All liquors pure—good nuts can be had there—bags thrown in. nov28-d&w

☞ George H. Wilson having purchased the Boot and Shoe store of Mr. Phillips, No. 237 Third street, is now prepared to sell Boots and Shoes cheaper than any other store in this city. Remember that 237 Third street, next door to the Montgomery House has the cheapest Boots and Shoes in this city. nov28d3t

MORE LIGHT.—The bridge across the Miami, on Bridge street, has been lighted with gas, at which the inhabitants of Dayton View and the adjacent country are greatly rejoiced. The Gas Company are pushing forward their work, and the Main street and Mad River bridges will soon "follow suit."

AT COST—GREAT BARGAINS.—Lessner & Bro., No. 102, Main Street, opposite the Phillips House, are now offering their entire stock of Overcoats and Winter Clothing AT COST. As this is the season of the year when such goods are needed by every body, the public will at once see that this is the place to buy, if they want good bargains. nov27wadtkw

PREMONITONY.—There was a light fall of snow last night, admonishing us that winter is at hand. The unusually pleasant and delightful weather for the last month has induced many to defer preparation for the "cold, chilly winds of December." They will soon be upon us, and blessed are they who are provided with the comforts of food, fuel and warm clothing. Those who are destitute of these things should be sought out by the charitable, and their necessities provided for. We are told on the highest authority, that "God loves a cheerful giver," and it is true.

☞ MUSIC LESSONS.—Mrs. J. F. Bollmeyer will give lessons on the Piano to a limited number of pupils. The lessons will be given at the residences of the pupils, or at her room No. 357 First street, as may be desired.

THERE were twelve divorce cases before the Cuyahoga Common Pleas on Saturday.

☞ DR. MOTT'S VEGETABLE LIVER PILLS are composed of chemical vegetable extracts, mostly from plants growing in our own country; some of these plants have a direct action on the liver, others upon the skin, others on the kidneys, and others upon the bowels and lungs. It is by a peculiar chemical combination of all these extracts that these Pills are made to possess the most extraordinary efficacy for curing diseases growing out of derangement of the bowels, kidneys, or liver. In cronic diseases, or diseases of long standing, such as Liver Complaint, Dyspepsia, Constipation of the Bowels, Erysipelas, Scrofula, Goiter, Scald Head, Barber's Itch, Sore Eyes, Pimples on the skin, and old sores, the treatment with the Pills should be continued for a longer time than with less stubborn diseases. These Pills have become so much of a favorite, that it is only necessary for us to say that they are for sale by all the principal druggists and dealers in family medicines.

☞ ANCIENT FINE ARTS.—*To the Editor of the New York Herald:* Respecting the relics of porcelain ware found in the late exhumations at Herculaneum, which have been forwarded to the Society of antiquities in London, whereof your correspondent says the bottle resembling Drake's Plantation Bitters was undoubtedly placed among the ruins by the agent of Dr. Drake, we desire to state that he is incorrect in every respect. If a bottle was found there bearing our lettering, the language of the Romans was different from the accepted literature of that day. Our Agent has other business than this in Europe, and has not been in Italy at all. No doubt Americans carry Plantation Bitters to Rome; but trying to impose upon a society of Antiquarians in this way seems quite useless, and we do not appreciate the joke. It is unnecessary for us to spend money in Europe while we are unable to supply the demand for these celebrated Bitters here.

Respectfully, P. H. DRAKE & CO.

☞ Mothers, who wish to find a medicine peculiarly adapted to the cure of humors and eruptions in their children, will find a safe and sure one in Scovill's Blood and Liver Sirup, which is acknowledged to be the best Blood Medicine known. Physicians attest to this.

☞ SUNSHINE FOR THE SAD.—Are you low spirited, tremulous, subject to faintness, afflicted with any local weakness, or with general debility, tonic thy system with Biokrene. Though harmless as water it is the most potent tonic and regulator in the world. Depot, 28 Dey st., New York. Sold by all Druggists.

☞ CONSUMPTION CAN BE CURED.—A fair trial of DR. HALE'S BALSAM will convince the most skeptical sufferer that this medicine has no equal in the world for the cure of the different stages of this dreadful disease. Every CONSUMPTIVE ought to read the certificates of remarkable cures, and know its value.

MICHIGAN APPLES AND POTATOES.—James Stansel has received another lot of those fine Michigan Apples and Potatoes. They can be had at J. Y. Nauseth & Son's Fruit Store, Main Street, and at Gillis' Flour and Feed Store, Fourth Street. Call soon, as they are going rapidly. nov29-3td

THE Cincinnati Police have reported to the Mayor seventeen gambling houses, one hundred and twenty-eight houses of prostitution, and one thousand seven hundred drinking saloons within the city limits.

☞ STANDARED HOMEOPATHIC MEDICINES.—The agent of Humphrey's Homeopathic Specifics has received a very important addition to his list of Humphrey's Specific Homeopathic Remedies in the shape of Specific No. 34, which cures diptheria and ulcerated sore throat. These specifics have obtained a wide celebrity among the medical practitioners and are very largely used by them, being prompt, efficient, reliable and convenient. An extended advertisement in another column gives a list of the different species, the diseases which they remedy, and the prices. The cases for family use are especially worthy of attention, and also the new department of veternary specifics. The headquarters of Humphrey's Specific Homeopathic Medicine Co., is at 562 Broadway, New York.

DR. JOHN BULL'S

Compound Cedron Bitters.

Latest and Most Important Discovery

OF THE

NINETEENTH CENTURY!

NO MAN'S NAME IS MORE INTIMATELY connected with the history of MATERIA MEDICA of the United States, or more favorably known as a pioneer in Medical Discovery, than that of

John Bull, of Louisville, Kentucky.

His inimitable preparation of **SARSAPARILLA** has long stood at the head of the various compounds of that valuable drug.

HIS COMPOUND OF WILD CHERRY HAS BECOME A HOUSEHOLD WORD THROUGHOUT THE WEST AND SOUTH. HIS WORM LOZENGERS, IN LESS THAN A YEAR AFTER THEIR INTRODUCTION ATTAINED A REPUTATION AS WIDE SPREAD AS THE CONTINENT OF NORTH AMERICA.

But the crowning glory of his life remains to be attained in his discovery, or rather combination, for he does not claim to have been the discoverer of Cedron, which is the basis of the Bitters now offered to the public. That honor belongs to the native inhabitants of Central America to whom its virtues have been known for more than two hundred years. Armed with the Indian hide defiance to the most deadly malaria, and handles, without fear, the most venomous serpents. It is a belief with them, that while there is breath in the body, the Cedron is potent to cure, no matter what the disease may be.

While Dr. Bull is not prepared to endorse this extravagant pretension, he is nevertheless satisfied from a thorough examination of the evidence relating to its virtues, that it is a remedy and preventative for all diseases arising from exposure, either to change of weather or climate, or to miasmatic influences, it stands

WITHOUT A RIVAL!

And justly deserves the reputation it has so long enjoyed in Central America and the West Indies.

IN DYSPEPSIA

As to its attendant train of symptoms, it acts more like a CHARM than any medicine. There is nothing in the whole range of Materia Medica that can for a moment bear a comparison with it in this disease.

A full account of the wonderful plant may be found in the eleventh edition of the United States Dispensatory, page 1387 and 1388.

A series of experiments in which Dr. Bull has been for years engaged, has just been brought to a successful termination, and he is now enabled to offer to the public a combination CEDRON with other approved tonics, the whole preserved in the best quality of copper distilled Bourbon Whisky, which he is confident has no equal in the world.

He might furnish a volume of certificates, but the public have long since learned to estimate such things by their true value. The safest plan is, for every one to test for himself the virtues of a new medicine.

GIVE THE

CEDRON BITTERS.

One Trial and You Will Never Use Any Others.

It is not necessary to publish a long list of diseases for which the CEDRON BITTERS are a specific. In all diseases of the

BOWELS, LIVER, OR KIDNEYS,

IN ALL AFFECTIONS OF

Brain, Depending upon Derangement of the Stomach or Bowels, in Gout, Rheumatism, and Neuralgia, and in FEVER AND AGUE.

It is destined to supercede all other remedies. It not only cures those diseases, but it prevents them. A wine glass of the Bitters, taken an hour before each meal, will counteract the effects of the most unhealthy climate, and screen the system against the least disease under the most trying exposure.

From Washington.

[Special to the Cincinnati Enquirer.]

WASHINGTON, November 28.

The President has evidently suspended the pardoning process, with a view to affording Congress an opportunity to suggest some general policy upon the subject. The abuse of the amnesty specially granted has occurred in only a few cases, and is not chargeable to any considerable portion of over 20,000 of pardoned rebels. This, therefore, is not the cause of the suspension of special pardons, but as there has been no meeting of Congress since the advent of Mr. Johnson to the Presidency, he regards it simply a matter of respectful deference to that body to await an expression of opinion upon important subjects for Executive action.

Mexican affairs were of the Monroe doctrine, and will be finally asserted. Its immediate practical enforcement in the case of Mexico will not be recommended by Congress, but will be left to its own action under consideration.

There was a full meeting of the Cabinet to-day. The result will transpire in the forthcoming Presidential message. It is whispered that while the principal wise decision as to what course shall be adopted, the War department is preparing to abandon, or, at least, unite the proportions of some of its features, which were barely tolerated as a military necessity during the war, but are regarded with decided aversion in these piping times of peace.

A wholesome fear of investigating commissions induces this preparation to set our military house in order, in view of a resumption of civil authority throughout the land.

As the Senators and members of Congress begin to thicken at the capital, the question of the admission of Southern members elect assumes more definite shape daily.

The expressed determination of the President is to see justice done; and his policy will be warmly advocated by many of the strongest and ablest men in both Houses of Congress. The Radicals, except a few of the extreme ultraists, show evident signs of weakening in their assault on the Administration. They are not ready to thrust themselves out into the cold, and lose their identity with the Administration.

They find already that the can not drive Mr. J. from his position, and they are figuring up all sorts of *finesse* and flank movements.

Humphrey Marshall is negotiating for the purchase of the old *National Intelligencer*. He proposes to make it a powerful administration advocate.

Foreign News.

PORTLAND, ME., Nov 28.—2:30 P. M.

The steamer Nova Scotian, from Liverpool, 16th, *via* Londonderry 17th, has arrived at this port, with five days' later news than already received.

The London *Times* says it is reported that Mr. Cushing is instructed not only to cooperate with Mr. Adams in bringing the respective claims of the two Governments to a settlement, but to ascertain the opinions prevailing in England concerning American finance. Such a purpose, it says, will strongly attest the pacific disposition of the American Government, and as good credit means sound policy and good administration, such views should be encouraged as a benefit to the whole world.

The London *Star* says there is but little doubt that Earl Russel has determined to submit a reform bill to the House of Commons.

It is stated that the cold weather has had no effect in staying the cattle disease, but that the frost and rain rather aggravated it.

Stephens, the Fenian Head-center, has been again remanded for further examination. Martin Higgins, reported to be another Head-center, has been arrested and remanded for trial.

The Dublin *Evening Mail* states that a person was dispatched from New York in September, and arrived here with credentials to appoint another Head-center in place of Stephens. He accomplished his mission and returned. The name of the new Head-center was kept a secret.

American Securities.—Satterthwaite's Circular of the 19th inst. says a fair amount of business has been done, and a considerable amount of Government stock was taken off the market on continental account, but without in any degree affecting the prices. The uncertainty prevailing as to the political situation of England and America checks any tendency to improvement.
