THE DAILY EMPIRE.

Local and Miscellaneous.

Agents for the Empire.

Mr. THOMAS SPIELMAN and CHARLES H. ROBINSON, are authorized agents for the DAILY EMPIRE in this City.

DEMOCRATIC ALMANACS.—We have now a few Democratic Almanacs to supply those to whom we have promised copies.

SNOW.—Snow fell here to-day, not to any depth, is it true, but enough to remind us that old winter still lingered, giving us an occasional puff of his icy breath, and rendering a seat by the fire very comfortable.

☞ Bear in mind, all ye who are hungry and dry, that whatever may be the wind or weather, "Uncle Jo. Dodson's Station" will set its usual fine Lunch, to-morrow morning, at ten o'clock.

GOOD.—Our good-looking friend Kelly, editor of the Auglaize *Democrat*, was re-elected to the Mayoralty of Wapakoneta, on Monday last. At his first election he had about 20 of a majority; on Monday, 107. It is quite suggestive that a good Democratic editor can make a good Mayor.

☞ We met a gentleman from Hamilton, to-day, who informed us that the regular Democratic ticket was elected in that city at the late charter election. There were two other tickets in the field—an Independent one and an Abolition ticket, but Democracy was triumphant.

FIRE.—An alarm of fire this morning brought out the steamers in good time—the Western leading off in gallant style and being at the scene of disaster, which, we are informed, was somewhere in the Eight Ward, where somebody's chimney was burning out.

WHIPPED IN.—The refractory members of the Rumpee at Columbus were "whipped into the traces" the other day, and voted for the joint resolution submitting the question striking the word "white" from the Constitution. This is the issue for the fall campaign. The *Journal* says "there is no argument against it, because it is conceded that the colored people are human beings," etc. "Colored people," that takes in all races, Indians, Chinese, etc., but we shall see about the argument some of these days.

TO ADVERTISING AGENTS.—Under a law of this State publishers are prohibited, under severe penalties, giving place in their columns to such advertisements as "Dr. Harvey's Golden Pills," etc., and we take this method of informing them that hereafter no such matter will find place in our columns.

We are truly rejoiced at the passage and enforcement of the act, as we think all such matter is not only demoralizing in its effects, but has a tendency to increase crime.

There are one or two old contracts yet unexpired with us, but the advertisers may have the benefit of other matter, to the same amount of space, in our columns. Those that have been in the paper will be excluded from our columns.

"PUBLIC SAFETY."—A correspondent of the *Journal* over the signature of "Public Safety" says: "Rumor informs us that we have in our midst as many as sixteen of the infamous gang who were shortly since expelled from Mansfield, Ohio, and farther that they are known to Marshal Hale." And the tenor of his article is to know if something cannot be done to relieve us of this set of rascals. A very commendable spirit manifests itself in the article of "Public Safety," and the desire to rid the community of a class who live by villainy—robbery, arson and murder—is a laudable one, and a consummation devoutly to be wished for. But the *Journal*, in its remarks, instead of suggesting some means to be used to rid us of the rascals, dips its pen into its *political* ink pool and makes a fling at the Mayor by saying: "Marshal Hale can't do anything with rascals unless the Mayor convicts them." How will the Mayor convict, if Marshal Hale and the police force that may be under his control, do not bring them before the Mayor for trial. But Marshal Hale *can* do something to relieve the city of these rascals, if he knows them, as is asserted. He can warn them to leave the city, and if they do not do so, he may arrest them as vagrants, they having no visible means of support, and bring them before the Mayor, who may then take action in the case, or cases, brought before him. Let the Marshal and the police but do their duty and they will not find Mayor KENNEY remiss in his.

THE METROPOLITAN POLICE LAW.—The Cincinnati *Commercial* thus expresses its opinion of the outrageous and contemptible measure:

"It purports to be a general law, but is made, by limitations as to population, to affect only Columbus, Dayton, and Toledo, and is designed to take the control of the local police from the people of those cities. No pretense is made—or, if made, it is nothing more than a bald pretense—that those people are less capable than others to regulate their own affairs, or that their police management of men are worse than those of Cincinnati, Cleveland, or any other considerable town in the State. But the voters of the places thus subjected to legislative guardianship have sometimes, it appears, elected Democratic officers. This may be evidence that their politics are not in a healthy condition, or that they do not properly appreciate some gentlemen of orthodox views, who are always ready to sacrifice the serene joys of private life and accept the cares of office, for the public good. But to sequester the political rights and franchises of a municipality, in order to make places for a small squad of greedy office-hunters, or because its people are not in accord with the ruling party in the State, is a piece of injustice at once tyrannical and stupid, and is altogether too dangerous to be tolerated as a precedent. It will, if allowed to stand, unsettle the foundations of municipal government throughout the State, and leave the affairs not only of cities and villages, but of counties and townships, at the mercy of the chance legislative majority of the hour; for if the State is to appoint and control the police of a city, there is no conceivable reason why all other officers may not be similarly controlled. And if a city may be thus punished for contumacy in politics, why not any and every other species of local organization?

A letter has been received by the President of the Chamber of Commerce of Cincinnati, from Sidney, O., inclosing $202 25, which had been collected in that town for the relief of the starving and destitute in the South.

The Means Provided.

If the *Journal* will take the trouble to read the following section of one of our City ordinances, it may possibly discover that a way is provided for ridding the city of the rascals referred to in an article over the signature of "Public Safety." The section reads as follows:

"SEC. II. Every person being a vagrant, mendicant, street beggar, or common prostitute, within the city, shall upon conviction thereof, before the mayor, be fined in any sum not less than one dollar, nor more than twenty, or shall be imprisoned any time not exceeding thirty days, or both, at the discretion of the mayor; and all such persons found strolling or loitering about the streets, alleys, or public grounds of the city, shall be arrested or removed therefrom."

Whose duty is it to arrest those parties, or remove them from the places mentioned in the above section? Is it the duty of the Mayor or the Marshal? Is the Mayor to convict before the party is arrested? We admit he has Abolition precedent for so doing, but does not the law require that the Marshal or the police shall arrest or remove the parties referred to? We advise the "swamp-angel" to look after his pet official and post him as to his duty, after he shall have learned from reading the ordinance what his duty is.

OHIO LOCAL ITEMS.

Captain Wetmore has recovered $7,000 damages from the Little Miami Railroad, for an assault committed on him by a baggageman armed with a hatchet. We well recollect the incident which was one of the most brutal assaults in war annals.

The Cincinnati National Theater has been leased by Samuel Colville, late of Wood's Theater, New York. He announces that he will produce the "Black Crook," and bring out Edwin Forrest within a few weeks.

INSANITY.—Mr. Stephen Dorsey, a young man of wealth and culture, one of the owners of the Woolen Mills, at Tiffin, on Saturday last, in a sudden fit of derangement, leaped from the cars of the C. & T. Road, near Bellevue, Ohio, and was so badly injured that he cannot possibly survive. There had long been observed a tinge of insanity in his mind.

CLEVELAND JUBILANT.—The *Plain Dealer* is poking several good-natured funs at the Cheesedom Rads., on account of their heavy use-up in that city, which, "in a nut shell," is this: The Democrats elect their Mayor by five hundred majority. They gain nearly thirteen hundred votes over last fall election, and they gain two Councilmen. There is one drawback to our elation over the result of this election, however: Cleveland is now a "disloyal" town. Just look at it: Our city has now a Mayor who is a traitor and an "enemy of his country." Isn't that about as near being "disloyal," as could be? It is a sad thing, my friends, to have Cleveland pass into the clutch of a "traitor;" and therefore, while we Democrats raise our hats for a "tiger" or two over the result, let us not forget to drop a tear at the defeat of "loyalty" and "great moral ideas."

By the burning of the great Lindell Hotel, at St. Louis—a loss of $1,000,000, and insured on $405,000—but one Cincinnati company got caught; that was the Enterprise, for $10,000.

A white swan was shot near Zanesville, on Tuesday last, which measured seven feet from tip to tip of wings.

An immense number of small stills, capable of turning out one or two barrels of liquor per day, have recently been manufactured in Cincinnati for the Southern States.

The Flax Mill of Dunn, Clark & Co.'s, at Cedarville, Ohio, was destroyed by fire on the night of the 1st inst. Loss $5,000.

Adamson's barrel factory, at Salem, Ohio, was partly burned on Tuesday night. Loss over $3,000; fully insured.

The Oxford *Citizen* announces the death of Dr. Burtis, Professor of Greek in the Miami University. He died in that village on Friday morning last.

☞ A nice haul was made yesterday morning by pickpockets, at the Ohio and Mississippi depot. Mr. Kring, of Missouri, had no sooner landed from the cars than some quick-handed "knuck" abstracted from the left-hand pocket of his pantaloons a roll of money—$3,880—done up in a piece of paper. There was one thousand-dollar bill, several five hundreds, and the rest in fifties and twenties.

AMERICAN
WALTHAM WATCHES.

We claim and are prepared to prove that the American Watches manufactured at Waltham, Massachusetts, are not only equal, but far superior to the watches of England, Switzerland and France. We also claim that they are CHEAPER, MORE ACCURATE, MORE DURABLE, and more easily kept in order and repaired than any other watches in the market.

Because in each one of the very numerous parts of which a watch is made up, we attain, by mechanical power, nearly *absolute* mathematical precision and uniformity, making every watch of any one style a true copy of its model.

This similarity in structure reduces the cost of production; it secures uniformity in results, it perpetuates and *infallibly* diffuses any excellence that may be once achieved, and makes it easy to repair any injury sustained, or replace any part that may be lost or destroyed.

In addition to these mechanical advantages, our Watches are simpler in structure, and therefore stronger, and less likely to be injured than foreign watches.

How they run under the hardest trial watches can have, is shown by the following letters:

PENNSYLVANIA RAILROAD COMPANY.
OFFICE OF THE GENERAL SUPERINTENDENT, ALTOONA, PA., 15th December, 1866.

Gentlemen: The watches manufactured by you have been in use on this railroad for several years by our engineemen, to whom we furnish watches as part of our equipment. There are now some three hundred of them carried on our line, and we consider them good and reliable time-keepers. Indeed, I have great satisfaction in saying your watches give us less trouble, and have worn and do wear much longer without repairs than any watches we have ever had in use on this road. As you are aware, we formerly trusted to those of English manufacture, of acknowledged good reputation, but as a class they never kept time as correctly, nor have they done as good service, as yours.

In these statements I am sustained by my predecessor, Mr. Lewis, whose experience extended over a series of years. Respectfully,

EDWARD H. WILLIAMS,
General Superintendent.
American Watch Co., Waltham.

NEW YORK CENTRAL RAILROAD.
LOCOMOTIVE DEPARTMENT, WEST DIVISION, ROCHESTER, Dec. 24, 1866.

Gentlemen: I have no hesitation in saying that I believe the great majority of Locomotive Engineers have found by experience that Waltham Watches are the most satisfactory of any for their uses. They run with the greatest accuracy and steadiness, notwithstanding the rough riding of an engine, and as I have never known one to wear out they must be durable. I hope to see the time when Railway Companies will generally adopt your watches, and furnish them to all engineers and conductors. In my opinion it would greatly tend to promote regularity and safety.

Yours respectfully,
CHARLES WILSON, *G. Chief Engineer,*
Brotherhood of Locomotive Engineers.

SUBGENATION:

THE NORMAL RELATION OF THE RACES—An answer to "Miscegenation." Price, 25 cents.

AQUA DE MAGNOLIA.—The prettiest thing, the "sweetest thing," and the most of it for the least money. It overcomes the odor of perspiration; softens and adds delicacy to the skin; is a delightful perfume; allays headache and inflammation, and is a necessary companion in the sick room, in the nursery and upon the toilet sideboard. It can be obtained everywhere at one dollar per bottle.

Saratoga Spring Water, sold by all Druggists.

S. T.—1860.—X.—The amount of Plantation Bitters sold in one year is something startling. They would fill Broadway six feet high, from the Park to Fourth street. Drake's manufactory is one of the institutions of New York. It is said that Drake painted all the rocks in the Eastern States with his cabalistic "S. T.—1860.—X.," and then got the old granny legislators to pass a law "preventing disfiguring the face of nature," which gives him a monopoly. We do not know how this is, but we do know the Plantation Bitters SELL as no other article ever did. They are used by all classes of the community, and are death on Dyspepsia—certain. They are very invigorating when languid and weak, and a great appetizer.

Saratoga Spring Water, sold by all Druggists.

"In lifting the kettle from the fire I scalded myself very severely—one hand almost to a crisp. The torture was unbearable. * * * The Mexican Mustang Liniment relieved the pain almost immediately. It healed rapidly, and left very little scar. CHAS. FOSTER, 420 Broad st., Phila."

This is merely a sample of what the Mustang Liniment will do. It is invaluable in all cases of wounds, swellings, sprains, cuts, bruises, spavins, etc., either upon man or beast.

Beware of counterfeits. None is genuine unless wrapped in fine steel plate engravings, bearing the signature of G. W. Westbrook, Chemist, and the *private* stamp of DEMAS BARNES & CO., N. Y.

WHAT DID IT?—A young lady, returning to her country home after a sojourn of a few months in New York, was hardly recognized by her friends. In place of a rustic, flushed face, she had a soft, ruby complexion, of almost marble smoothness, and instead of twenty-two, she really appeared but seventeen. She told them plainly she used Hagan's Magnolia Balm, and would not be without it. Any lady can improve her personal appearance very much by using this article. It can be ordered of any druggist for only 50 cents.

Heimstreet's inimitable Hair coloring has been steadily growing in favor for twenty years. It acts upon the absorbents at the roots of the hair, and changes it to its original color by degrees. All instantaneous dyes deaden and injure the hair. Heimstreet's *is not a dye*, but is certain in its results, promotes its growth, and is a beautiful Hair Dressing. Price 50 cts. and $1. Sold by all dealers.
