THE BASIS OF REPUBLICAN GOVERNMENT.

Resolved, That the several States composing the United States, are not united on the principle of unlimited submission to their General Government, but that by compact, under the style and title of a Constitution of the United States, and of amendments thereto, they constituted a General Government, for special purposes—delegated to that Government certain definite powers, reserving, each State to itself, the residuary mass of right to their self-government; and that whenever the General Government assumes undelegated power, its acts are unauthoritative, void, and of no force; That to this compact each State acceded as a State, and is an integral party, its co-States forming, as to itself, the other party; that the Government created by this compact was not made the exclusive or final judge of the extent of the powers delegated to itself, since that would have made its discretion, and not the Constitution, the measure of its powers; but that, as in all other cases of COMPACT AMONG POWERS HAVING NO COMMON JUDGE, EACH PARTY HAS AN EQUAL RIGHT TO JUDGE FOR ITSELF, AS WELL OF INFRACTIONS AS OF THE MODE AND MEASURE OF REDRESS.—*The First Kentucky Resolution of 1798.*

The Nashville and Chattanooga Railroad—by gross mismanagement and shameful neglect, lost a great deal of freight at Chattanooga, by the late flood, which they refuse to pay for. Their road is, and has been, badly managed.

A San Francisco dispatch says the bark Nannikeag went ashore at Drake's Bay in a heavy storm, April 12. The vessel and cargo were a total loss. The passengers and crew succeeded in reaching land in safety.

A man named Ingram, believed to be an accomplice in the recent murder of General Bailey, in Vernon County, Missouri, has been hung by the citizens, under sentence by Judge Lynch.

The counterfeiter, W. Rich, who was arrested in Cincinnati and taken back to New York, has made a detailed statement of all his transactions. It covers ninety-five foolscap pages.

Late advices from Panama present a picture of anarchy and militaty despotism in Columbia. Masquera has finally broken up the Congress by military force, and imprisoned sixty-eight Senators and Representatives, among them ex-President Murillo, and his rival at the next election.

The New Haven *Register* says that Mr. Logan, the Democratic candidate in the Sixteenth Senatorial District of Connecticut is defeated by four votes. This gives the Senate to the Republicans by one majority. Quite significant how readily that majority of *one* might have been overcome.

☞ Be careful what poultry you eat. The Cincinnati papers of this morning all contain such items as this: We have been told by several farmers that the finest, fattest chickens they have upon their farms have been, within the past few weeks, stricken down with something that seemed like the cholera, of which they died in a few hours. It is said that those same chickens, some of them, find their way to our markets.

THE FRUIT.—The Cincinnati *Gazette* brings us, this morning, the gratifying intelligence that the prospects are brightening. The approximation to warm weather last week has so far developed the bud of the trees as to show that we will have plenty of peaches, apples, pears, cherries, etc., if no untoward weather intervenes between this time and the development of the fruit.

BY TELEGRAPH.

Washington News and Gossip.

WASHINGTON, April 16.—I learn to-night, from an authoritative source, that the Attorney-general has not given his opinion to the President, nor has he been called upon to give his opinion upon the tenure of office law.

The decision of the Solicitor of the Treasury, was submitted to Mr. Stanbery, and by him concurred in. This Tenure of Office Law appears to be generally misunderstood, and is bound to be productive of great confusion.

In view of the probable adjournment of the Senate to-morrow afternoon, as construed by the same, the Executive has no authority to appoint a person to fill an office in a case where the Senate had adjourned without confirming the nominee of the President.

Col. W. H. Taylor was again nominated to-day for Postmaster of Cincinnati. Should he be rejected, as is probable, in time to send in another nomination before the Senate adjourns, Thos. H. Yeatman, Esq., will be nominated.

The Supreme Court to-day refused to entertain the Mississippi bill against the President, but allowed the Georgia bill to be filed, as the objection did not apply.

The Austrian Minister, Count Nydenbruck, has warmly thanked the Secretary of State for the kindness and promptness with which he acted in the request of the Austrian Emperor relative to Maximilian.

In granting a hearing in the Georgia Injunction case—the President not being made a part—the Court by no means admits that it has jurisdiction of the subject. In the Mississippi case it, in effect, decided that whether the President was doing wrongly or not, the Court would not interfere with him in the exercise of his duties as an executive officer. In the Georgia case the counsel understood the Court to hold that there is nothing in the position of the Department Commander to prevent an injunction, if he is acting in an unconstitutional manner, and if the Court has jurisdiction on the subject. A final decision cannot be expected for two weeks. The Court, it is expected, will hold no jurisdiction.

The Supreme Court will take up, to-morrow or Wednesday, the Massachusetts liquor cases, wherein some five thousand persons are interested. The question at issue is the protection which the internal revenue tax of two dollars per gallon affords the tax-payer where his business is prohibited by State or municipal law.

The President sent in to the Senate to-day, nominations to fill every vacancy, provided they are confirmed, now existing in the civil and military offices. It was estimated that more than half would be rejected. The most prominent nomination made was that of General Herron as United States Marshal for Louisiana.

The name of Alex. Reed, as Postmaster of Toledo, was sent to the Senate to-day. He is brother of two Cincinnati editors of that name, and his confirmation was earnestly opposed by Toledo politicians.

The Senate spent two hours to-day in discussing the nomination of S. L. Capron, of Illinois, as Commissioner of Agriculture, and postponed it until December next. The opinion was expressed in the debate that the agricultural societies throughout the country should unite on a good man for that place, and that the President should nominate the one agreed on.

The Senate to-day confirmed Lewis Lambright as Postmaster at Middletown, Ohio, and rejected Moses H. Kirk, Upper Sandusky; Norman R. Brown, Van Wert; Lemuel Jeffreys, Wooster.

Senator elect, Garland, of Arkansas, is in Washington, and has prepared a petition for an injunction against the enforcement of the Sherman bill in the State, and will make a motion to file it in the Supreme Court next week.

In the case of the Peterhoff, captured while attempting to enter the Rio Grande, during the war, the Supreme Court yesterday ordered the release of the vessel and all of her cargo except contraband goods, on the ground that that river was as much Mexican as American, and that a blockade of neutral waters could not be maintained.

The Executive Board of the Soldiers' National Asylum have resolved to purchase White Sulphur Springs for the Soldiers' National Asylum, conditioned that the Cleveland and Columbus Railroad Company will construct a branch line from their road to White Sulphur—some nine miles—and run daily passenger trains there. Otherwise they will locate the asylum in Dayton, if the citizens will pay them $20,000.

Matters at Columbus.

COLUMBUS, April 15.—The bill to amend the Penitentiary Law was read three times, and the question on the passage was debated at length. It reduces the minimum to be paid for convict labor from seventy to sixty cents. By an amendment the minimum was raised to seventy cents, including youths, women and old men. The bill passed.

Mr. Berry called up his resolution calling upon the Secretary of State to report to the Senate the amount paid for telegraphing the proposed Constitutional amendment to the different papers of the State, but the majority were afraid of exposure and voted it down.

The House passed the bill taxing the National bank shares under the late decision of the Supreme Court.

The Senate, in Executive Session, confirmed Clark McDermont, of Montgomery, as Commissioner for the erection of a new Lunatic Asylum, vice Cushing resigned.

Royal Taylor was re-appointed agent for soldiers' claims.

The Railroad bill will be reported back to-morrow by the committee having it in charge, with a recommendation that the Senate concur in the House amendments. Unless there is a better attendance in the Senate to-morrow than to-day, the amendment cannot receive a constitutional majority and will fail. The sections relative to fencing, which were struck out by the House, will not be restored.

Considerable doubt having been expressed as to the confirmation by the Senate of General George B. Wright for Commissioner of Railroads and Telegraphs, the name of Jacob Blickensderfer, for many years connected with the Public Works of the State, is mentioned as a probable candidate.

The Democrats held a caucus this evening, at which speeches were made by Judge Thurman and several Democratic Senators and Representatives, and considerable enthusiasm manifested for a vigorous and stirring State campaign.

Removal of Dead Soldiers—Graves Robbed.

CHICAGO, April 15.—The removal of the rebel dead from the old city cemetery to Rose Hill, has been going on for some time past. About 4,000 bodies were interred during 1863 and 1864. The work will be completed in about ten days. A few of the graves were found empty, showing that the resurrectionists have been at work.

Constitutional Convention.

BALTIMORE, April 15.—The Constitutional Convention is carried by 10,000 majority. It assembles at Annapolis on the second Wednesday in May.

From Pittsburgh.

PITTSBURGH, April 15.—Walter Brown, of Portland, Maine, who is to row a race over the Monongahela course with James Hamill, on the 21st of May, arrived here yesterday. The race promises to be a very interesting one, and the purse is $2,000.

It is said that some of our rolling mills are about to start up again, the publishers going to work at the reduction.

AMERICAN
WALTHAM WATCHES.
I.—We claim, and are prepared to prove, that the American Watches, manufactured at Waltham, Mass., are not only equal, but far superior to the common watches of England, Switzerland, and France.
II.—While we admit that it would be difficult to excel the masterpieces of the eminent European manufacturers and while we do not claim to have made any decisive improvements over them, we do assert and challenge a successful denial, that our superior class of watches are fully equal, *in every respect*, to the most expensive specimens of foreign chronometrical art.
III.—We claim that our Watches are cheaper, more accurate, less complex, more durable, better adapted for American use, and more easily kept in order and repaired than any other watches in the market.
IV.—The reasons why our Watches possess these advantages over their European rivals are chiefly:
First. Because the principle of the division of labor is carried out in our workshops to its extremest limits, not in human industry only, but in machinery as well. Every watch passes through hundreds of hands and hundreds of machines.
Second. Because we promptly adopt every new invention to perfect our machinery, and every proffered improvement in the structure of watches.
Third. Because in each of the very numerous, minute, and often microscopic parts of which a watch is made up, we attain, by mechanical power, nearly *absolute* mathematical precision and uniformity, which it is utterly impossible to achieve by manual labor. Wheels, pinions, escapements, balances, springs, and screws—exact counterparts in weight, circumference, and dimensions—are turned out by millions by the unerring, because unswerving, iron hands of machinery. Hence, every watch of any one style is a true copy of its model.
V.—These results enable us to defy foreign rivalry, because no similar uniformity and precision is attainable by hand, and because in Waltham alone is machinery exclusively employed in the manufacture of this intricate and delicate mechanism.
VI.—Now, as will be seen at once, this similarity in structure reduces the cost of production; it secures uniformity in results; it perpetuates and *infallibly* diffuses any excellence that may be once achieved; and makes it easy to repair any injury sustained, or replace any part that may be lost or destroyed.
VII.—In addition to these mechanical advantages, our Watches are simpler in structure, and therefore stronger, and less likely to be injured than the majority of foreign watches. They are composed of from 175 to 200 pieces. In an old English watch there are more than 700 parts.
VIII.—We began our experiment in 1853 in the face of a formidable prejudice against American watches. Our system was new and untried. We have steadily increased our facilities, until now we employ over 700 artisans, and sell 70,000 watches a year. Nearly a quarter of a million of our watches are in use to-day in every State of the Union, as well as in the Mexican and British Provinces and Colonies. Their universal popularity is the best proof of their merit that we can produce. They have won their way in spite of every opposition and o. inamemorial prejudices. Hundreds of dealers all over the country have expressed their preference for our products after a long and practical experience with foreign watches.
Any of the grades of Waltham Watches may be purchased of watch-dealers generally throughout the country.

CLOTHING!
New Goods, New Fashions, New Prices.
H. SCHWARZ,
WHOLESALE AND RETAIL DEALER IN
Custom Made Clothing,
And proprietor of the well-known
EAGLE CLOTHING STORE,
118
Main street, 3 doors south of Market House.
I WOULD ing leave to announce to my numerous friends and customers and the public of Montgomery and adjoining counties that I have now on hand and am daily receiving an unsurpassed stock of custom made CLOTHING, for both
SPRING & SUMMER TRADE
Including all the styles now in fashion for Men, Youth, Boys and Children of all *ages and sizes*.
OUR FACILITIES.
The above goods were purchased by myself for CASH and were made up according to my orders and for my trade, in the most approved STYLES, and of material which I warrant will give all and every one entire satisfaction.
MY EXPERIENCE.
My experience since in the clothing trade has taught me to pursue but one course, and that is to deal with all men alike—give each and every one satisfaction—keep nothing but the *best of goods, well made*, and what is more, sell them cheaper than the rest of clothiers, and with a living profit.
PRICES.
Having carefully watched the varying markets, I took advantage when at it, lowest and selected such *bargains* as nothing but to sell at such *prices* defying all competition, no matter what they may publish or offer. All I ask is a fair examination and comparison of goods—there being a great deal of imitation now—days in market.
Our line of Gents' Furnishing Goods is also complete, including all styles of white, colored and ruffled shirts, beautiful cravats, Neckties, Handkerchiefs, Socks of all colors, and a large stock of
PAPER COLLARS
I also purchased a entire new stock of Hats and Caps which I have determined to sell to all those buying clothing of me and for the accommodation of our trade, AT COST.

Are also kept on hand.
Again thanking my kind patrons and friends for their generous and liberal patronage, hitherto extended me, and shall promise them and all those desiring to patronize me that in *future* as in the *past*, I shall study the interests of my customers truly as much as my own.
Very respectfully,
