# PACKAGES FOR MEN IN FRANCE

## Mail is Filled With Presents For the Boys at the Front.

When the wives and mothers of the El Paso boys who are with Gen. Pershing in France read the Associated Press dispatch to The Herald Thursday evening from Washington, announcing that packages and magazines could be sent to the soldiers at the front there was a flood of packages mailed at the local postoffice. Comfort bags, candies, tobacco, pipes, reading matter and scores of other things that the fighting men in France will enjoy were mailed.

Letters and magazines sent to the soldiers in France require the same rate of postage that they do for mailing in the United States. It does not require any more postage to mail a letter to the expeditionary forces than it does to send one to Las Cruces. Packages can be mailed at the rate of 12 cents a pound.

It was stated at the postoffice Friday that since the order that magazines could be sent to the front for one cent postage there has been thousands mailed to the soldiers in France by El Pasoans.

**CARRIERS' DAY.**

Tomorrow being the last Saturday in the month, Herald carriers will present bills for July subscriptions. Subscribers will please note and have the amount they owe ready for the boys.

# AMARILLO HAS SURPLUS OF MEN

## Panhandle Metropolis Enlists More Than Its Quota For the War.

Amarillo, Tex., July 27.—Amarillo has 162 enlisted men above her quota. Wednesday night Capt. Barton's company that soon goes to Ft. Worth, and Lieut. Malone's recruits, which go to San Antonio to bring troop B to its full strength, were given a big farewell reception in Woodmen's hall. The National House girls were hostesses. S. P. Huff, chief justice of the seventh court of civil appeals, made an address. He said:

"Thomas Jefferson wrote democracy for the United States but Woodrow Wilson is writing democracy for the world. Our forefathers inaugurated a system of government that has positively influenced every constitutional government on earth. We planted bigger than we knew and the results to be witnessed more and more.

"I have felt this to be our war from the first. We sowed the seed of democracy the world over and now we must make the future of that democracy safe and secure."

Many local men are enthusiastically talking Judge Huff as a candidate for governor.

**LAX-FOS—An Improved Cascara**

A digestive liquid laxative, cathartic and liver tonic. Combines strength with palatable aromatic taste. Does not gripe or disturb stomach. 50c.—Adv.

# U. S. TOO SLOW SAYS COLONEL

## Roosevelt Declares Inefficiency Shown; Urges No Disarmament.

Pittsburg, Pa., July 27.—Col. Theodore Roosevelt, in an address here last night in connection with the convention of the Loyal Order of Moose, declared it would be a fatal mistake for the United States to abandon the principle of enforced military service after the war. He said the protection of the United States made a large standing army necessary.

The former president attacked those who would give poattoes and money to the successful prosecution of the war but would withhold their lives from the firing line. He said patriotism finds its finest expression in the face of shells and cannon.

Col. Roosevelt told all his family who were eligible were now lined up for war service and that "it's not my fault that I'm not over there now."

**Marvelous Inefficiency.**

He declared the United States had shown marvelous inefficiency since war had been declared; that the government did not have a single airplane fit to send to Europe; no heavy artillery, and that Pershing's troops would have to trust to French artillery. He said American submarine chasers operating with the British fleet constituted but a tiny fraction of the British fleet and that it would be a year before the United States had any large number of cargo ships.

**Army Lacks Rifles.**

"We have not enough rifles for our men," said Col. Roosevelt. "We are painfully short in equipment. We have not yet begun to assemble the draft army, the first elementary officers' training camps have not been finished, the national guard has only just begun to mobilize.

## GEN. GLOOM TASTES DEFEAT AT HANDS OF TENTH CAVALRY

Officers, enlisted men and civilians connected with the army and their families making up the garrison at Fort Huachuca, Ariz., enjoyed a rare treat at the annual picnic of the 10th U. S. cavalry at Garden Canyon on July 21. The unique picnic order discloses well laid plans, the minute details of which were worked out with a sense of military precision.

One paragraph of the picnic order, for instance, says:

"The supply troop 10th cavalry, will furnish transportation for the following ammunition: 500 bottles soda water, 200 pounds cake, 60 gallons ice cream, 1000 pounds of ice, 400 pounds of bread, 250 gallons of lemonade."

The Tenth cavalry officers and troopers, mounted, gave life and color to the scheme of the advance to the grounds.

Chaplain O. J. W. Scott, 10th cavalry, introduced Rev. H. A. Wells, of El Paso, who treated the joy-seekers to a short talk on the benefits to be derived and the securities of clean fun for armies.

Lunch was served at 1:30 p. m., to over 1000 persons.

The entertainers of the regiment had erected a stage on the grounds and the magician and tumblers and clowns kept the picnickers laughing during the afternoon.

The regimental band of 28 pieces furnished music for dancing throughout the day.

"Cease firing" was sounded at 4 p. m., and the general call ended with tents falling and troops saddling for the end of a perfect day.

## EL PASO DOCTOR ASSIGNED TO DUTY AT FORT BLISS

Dr. Paul Gallagher, of El Paso, recently enlisted in the medical officers' reserve corps, has been ordered by the war department to active duty at Fort Bliss. The orders become effective immediately. Dr. Gallagher has a commission as a first lieutenant. He will be placed on a board of officers who are specialists in tuberculosis treatment.

Contract surgeon Frank S. Littleton has been ordered to duty at Fort Bliss.

Lerner's Shoe Sale Closes Saturday.—Adv.

## *War Song Dedicated To Capt Burges and His Company Of Boys*

Judge A. J. Robertson, of El Paso, a retired member of the New York bar, has written a song and dedicated it to Capt. Richard F. Burges and the boys of company B, First Texas infantry. Judge Robertson suggests that if any El Paso musician will set the words to music, it may make a war song for the El Pasoans and other troops. Capt. Burges pronounces the song excellent and believes there is musical talent enough hereabouts to set it to music. The words follow, the song being entitled "Hurrah for the Sammies":

We are coming, Uncle Sammy, from the valleys and the hills
We are pouring from the counting house and swarming from the mills.
Our hearts aflame with hate, with hate against a Teuton wreck,
We are with you Uncle Sammy, a hundred million strong.

CHORUS

Hurrah for the Sammies! Hurrah for the Yank;
Well keep Old Glory in the van and never let her sink.
We've got the men, they've got the wind, we've got the billions, too;
And we'll show the Hoosier kaiser what Yankee grit can do.

We are ready, Uncle Sammy, for any kind of stunt—
With the Frenchies in the trenches or on the British front;
With the Russians or Italians, "It makes no never mind."
They'll always find us up in front and never back behind.

CHORUS

Hurrah for the Sammies!—

We used to fight the Britisers, but that was long ago;
And now it's "hands across the sea," to fight a common foe;
The Frenchies fought with us before, when we were sore beset;
And now we're paying off the score in the name of Lafayette.

CHORUS

Hurrah for the Sammies!—

We are keen for any service, whatever it may be—
Whether sailing through the atmosphere or underneath the sea.
Give us some poilu sector where the shooting's superfine,
And we'll drive the kaiser's hochas across the river Rhine.

CHORUS

Hurrah for the Sammies!—

## "SLACKER" CHARGE AGAINST MULHOLLAN IS DISMISSED

Nathaniel Bradley Mulhollan was released from federal custody Thursday, after he was given a preliminary hearing before United States commissioner Samuel L. Kelly on a charge of failure to register on June 5. He produced proof that he had registered at Marshall, Tex., showing card 418, precinct 1, in that city. He said Friday that telegraphic inquiry by government agents confirmed the authenticity of the certificate.

Mulhollan, who was employed by the United States immigration service as a stenographer, said the alleged claim that he had uttered remarks against the flag was a mistake; that he had not done so. He has left the immigration service, it was said Friday morning.

## ARMY MACHINISTS RUSH TO GET INTO REGULAR SERVICE

The approach of the date for the selective draft has caused an increase in enlistments in the regular army. There has been an average of 18 enlistments a day since the numbers for the draft were drawn.

Practically the entire number of employes in the government machine shops at Fort Bliss have enlisted in the enlisted men's reserve corps as machinists of the first class. There are about 200 employes in the machine shops. Because of the great demand of the machinist experts at Fort Bliss, only a small number is being relieved from work daily to enlist. Officers at the machine shops are releasing 10 men daily to appear at the recruiting station.

## STUDENT OFFICERS' BOARD WILL EXAMINE TILL AUG. 7

Examinations of men of El Paso and the surrounding army district for entrance to the Leon Springs, Texas, training camp for student reserve officers are being continued by the board headed by Capt. Fitzhugh Lee, at rooms 11 and 12, chamber of commerce. More than 50 have been examined out of about 130 applicants. The board will continue until Aug. 7.

# LOCAL BOARDS GET QUESTIONS

## Don't Send Inquiries To Washington, Says Crowder.

Washington, D. C., July 27.—Thousands of men registered under the selective service law have been flooding the provost marshal general's office with questions regarding their qualification for exemption from service and on other subjects. As a result the provost marshal general today promulgated rules under which no questions from individuals or from local exemption boards will be answered by his office.

These rules follow:

1.—Questions by individuals should be asked of the local board nearest them. If the board is unable, after consideration of the regulations and rulings, to answer the question, it should forward the question to the governor for decision.

2.—Questions from local boards should never be addressed to the provost marshal's office, but in all cases should be forwarded to the governor of the state.

3.—In no case will opinions or rulings be given on individual cases that have not yet been presented to the proper local board.

**Newlyweds May Be Exempted.**

Provost marshal general Crowder in a statement today said it was likely that men married since the declaration of war, including those suspected of being slackers, could obtain exemption by establishing the total dependency of their wives.

Reports of the first selection boards to fill their quotas for the selective draft army are eagerly awaited by Washington officials because they will give the first definite information as to the probable percentage of rejections to be expected among the ten million registrants for physical reasons or for dependents.

**Reject One Out of Four.**

All available statistics indicate a probable rejection of one in every four for physical disability. In localities this will vary greatly. There is no available data as to dependents, however, or as to how many must be excused under industrial exemptions.

It appears probable that peculiar results will be brought out in some districts. If the reasoning of some officials is correct, the lowest rejection and exemption rates will be disclosed in wealthy towns, in communities such as the suburbs of large cities, where men of comfortable incomes make their homes. Sons of such men, it is suggested, have had better food, better care and better surroundings than the factory hands of nearby towns, and they should be in better physical condition.

In factory towns, on the other hand, the rejection rate for physical disability probably will be high. Virtually every married man of those registered in these places is the sole support of his wife and children, if any.

**AL JENNINGS HERE.**

Al Jennings, formerly candidate for governor of Oklahoma, is in El Paso attending to business affairs and is stopping at Hotel Sheldon. He expects to remain here for several days.

# T. N. G. TROOPS PASS IN REVIEW

## Gen. Bell and Staff Watch Them; Crowds Applaud and Hear Concert.

El Paso's newly organized national guard units, companies A and B first Texas infantry, the supply company, and hospital company No. 2, passed in review before Gen. George Bell and his personal staff composed of Capt. Vaughn Cooper and ... Fitzhugh Lee and W. H. Simpson, and Lieut. Col. H. E. Stevenson and Capt. R. F. Burges, representing the Texas national guard, and gave an exhibition parade followed by a musical entertainment at Cleveland square for thousands of cheering admirers Thursday evening.

The reviewing officers were stationed on the balcony of Hotel Sheldon facing Pioneer plaza amid a display of American flags and bunting. The occasion was a tribute to Col. Stevenson, one of the men instrumental in organizing the new companies, and who had been ordered by Gen. John A. Hulen, commanding the Texas brigades, to report at Houston.

**Crowds Applaud Soldiers.**

The companies formed at the chamber of commerce building and promptly at 7:30 o'clock the column, headed by the fifth cavalry band, marched to the reviewing stand and east on Mills street to Mesa, up Mesa to Franklin, west on Franklin to North Oregon, north to Missouri; thence to the south side of Cleveland square, where the companies were dismissed and the soldiers intermingled among the crowd on the square in an effort to obtain more recruits for their respective organizations. The showing of the troops was applauded by crowds on the streets.

**Little Girl Dances.**

Following the parade the band gave a concert from the platform, which was made one of the interesting features of the evening by the dancing of eight year old Mary M. McVitz, who received repeated encores in appreciation for her pretty steps in the "hesitation" and "grapevine" dances.

It was reported that following the parade speakers would be heard at the square, but the speakers did not present themselves and the crowd dispersed immediately after the concert.

**Form Provisional Battalion.**

The provisional battalion was commanded by senior Capt. J. F. Colley, who also had charge of company A, of 143 men. Then followed company B, 111 men, commanded by Lieut. Frank A. Lefteur; the supply company, 48 men, Capt. W. W. Windham, and the hospital company, 87 men; Maj. Thos. J. McCamant. Companies A and B were in uniform, without arms.

"I am informed by Col. Stevenson," said Capt. Colley, "that the first company in condition to pass federal inspection with 150 men would immediately be taken in and ordered to a training camp, and as company A requires only six more men to reach the prescribed total we expect to receive orders within the next few days."

**To Receive U. S. Flag.**

Company B will march to Cleveland square Saturday evening to receive a beautiful silk United States flag from Robert E. Lee chapter, United Daughters of the Confederacy. The flag was unpacked by Capt. Richard Burges Friday morning. Wade Hampton chapter, U. D. C., will present the company with a Lone Star flag.

# BELGIANS KILL A GERMAN SPY

## Reward Offered For Assassin; Seven Belgians Are Shot at Liege.

Amsterdam, Holland, July 27.—Les Nouvelles, of Maestricht, reports that one of the chiefs of the German espionage service in Belgium, was assassinated last Friday at Loumel, Belgian Limburg. No trace of the assassin has been found. A reward of 1000 marks has been offered in notices posted everywhere.

The newspaper also reports that seven Belgians were shot at Liege, July 12, including the Swiss curate of St. Lambert's parish at Herstal, a Swiss living in the same parish and a commissioner named Lejeune.

The priest is reported to have been deprived of food on three occasions for three days at a time in an attempt to compel him to speak, and his assistant was tortured for the same purpose. The Germans compelled them, the newspaper says, to drink a drug which affected their nerves, but they refused to speak.

## *Navy Takes Down Bars To Enlist All Cooks Possible Each Week*

Cooks are wanted for the United States navy, according to instructions received Friday by Lieut. S. P. Tracht, naval recruiting officer at El Paso, from the navy department. The advices were that in order to enlist as many cooks as possible the weekly quota of ten enlistments recently set for El Paso should not be taken into consideration. All cooks possible will be enlisted.

Cecil Adrian Miller enlisted Thursday as a landsman for electrician in the navy and was sent last night to Vallejo, Calif., to enter training.

## MEXICAN "SNIPERS" WILL BE FIRED ON, SAYS GEN. BELL

Complaints made to Gen. George Bell, jr., army district commander, by Mexican consul Eduardo Soriano Bravo that a Mexican soldier was wounded by an American border patrol following a sniping attack opened by Mexicans on United States troops on July 17, has resulted in Gen. Bell informing the Mexican consul that the American patrol did what he expected of it.

Gen. Bell informed the consul that his troops are instructed to fire back whenever they were attacked from the Mexican side of the border. Frequent attacks have been opened by Mexicans on the American border patrol, it is reported, but the incident of wounding the Mexican is the first which has been brought to official attention.

## GERMAN MECHANICS REPAIR GUNS FOR MURGUIA, REPORT

A force of German mechanics is employed by the Carranza military commander in Chihuahua, Gen. Francisco Murguia, repairing cannon, rifles and equipments for the Mexican army, according to reports to United States government agents here.

# NEW CORNELIA ACQUIRES AJO

## Big Deal in Arizona Copper Properties Reported at Bisbee.

Bisbee, Ariz., July 27.—The New Cornelia Copper company, it was stated here today, has acquired the holdings of the Ajo Consolidated Copper company, adding 24,000,000 tons to its present 42,000,000 tons estimate blocked out. The Ajo holdings also are believed to contain additional large possibilities. The deal adds materially to the New Cornelia's steam shovel area.

With the underground mining added by the deal, it is believed a large camp at Ajo practically is assured.

Details of the deal have not yet been made known, but it is said it elevates the New Cornelia company into the ranks of the big tonnage mines, and will add to its earning capacity.
