Three Sons Are In Service Of Country One In The Navy, Two In The Army

THREE of the sons of Mr. and Mrs. J. F. Priest, No. 8 Lucerne apartments, are in Uncle Sam's fighting service and the fourth is eager to go as soon as his time comes.

Ralph C. Priest, radio operator, third class (above on the right) is on the cruiser Cincinnati. He rushed off to the navy as soon as war was declared. He was a collector for the G. H. and S. A. railway here.

Fred A. Priest, who enlisted in the quartermaster corps here in May, 1917, (above on the left) has been a sergeant for some time and on special inspection work frequently. He is well known around the city.

First Sergt. Carlos A. Priest, who was with the Eighth mounted engineers in the Pershing expedition into Mexico, is still with them in Camp Baker, wishing he might get overseas with his outfit.

Clarence M. Priest, the youngest eligible in the family for the army, is only 19, but his mother said he wanted to be called.

Several of the Priest boys were born in El Paso. The family is from Manhattan, Kan., many years ago.

American Ship Carrying Cargo For Army Sunk

Str. Dora Torpedoed 400 Miles Off France; Sub Possibly Destroyed.

London, Eng., Sept. 11.—The American steamer Dora, formerly under the Austrian flag, was torpedoed and sunk on September 4, approximately 400 miles off France, as the result of an attack on a cargo convoy. The crew was saved.

The steamship was struck at 6:29 oclock in the morning. A calm sea enabled all the crew of 65 to escape. They were picked up by destroyers.

Raider Exhibits Daring.

The submarine daringly took up a position about 150 yards from the starboard side of the convoy column and about an equal distance from the nearest destroyer and fired at the Dora, which was heading a column of three vessels.

The lookout reported seeing a periscope just after the wake of the torpedo was discovered, but nothing more was seen of the submarine.

The torpedo struck aft, throwing the cargo of army supplies as high as the mast top, but only one member of the crew was hurt.

Depth Bombs Dropped.

The escorting ships immediately dropped numerous depth charges where it was believed the torpedo came from. Owing to the speed with which the warships acted, and the close proximity of the U-boat, it is considered possible that the submarine was either destroyed or badly damaged.

This attack is somewhat different from the recent methods of U-boats in firing on lone vessels and giving no attention to protected conveys and it shows more reckless daring in effort to sink conveyed boats than has been usual during the past few months.
