THE editor of this paper desires to inform several gentlemen that give us the cordial hand shake when they meet us, and stab us in the back whenever they have a chance, that we propose in a short time to give some interesting reading matter in regard to some of their past political deals. One man in particular that came here not long since and poses as a leader in the Populist party will get it from us shortly where the bottle received the cork. The DAWN was started for the purpose of publishing articles pertaining to the People's party's interest, and not to forward the interests of men branded as Honest Tom and Honest Jim, or anybody else that wants to pose as a great man. These men can fool the public some times, but not always, and although the DAWN is small, we propose to show a few that we are under no obligation to not expose their hypocrisy. They are trying to make the Populists of Kittitas county believe they are here to reform the world, when the truth of the matter is they are looking out for their personal gain. THE DAWN is here to stay, and we don't propose to be bulldozed by would-be leaders. Stand from under or render unto us that which rightfully belongs to us.

"The editor of the DAWN advertises his fine shot-gun and a full set of reloading tools for sale at a bargain. Mr. Ready must be going away."—Capital.

It is another man's gun we advertise for sale. Whether the Irish Monkey goes or stays, would have no bearing on the gun question. A squirt-gun would be the proper kind of weapon to use on that kind of game.

Aud now comes the information that the Georgia legislature failed to make any appropriation for the militia, hence it will be compelled to disband. Good! We trust the Washington legislature may prove as derelict. Georgia usually appropriated from \$20,000 to \$25,000 yearly for the maintenance of the militia but Washing, with about one-fifth of the population, set aside \$80,000 for two years! And the republicans even wanted to appropriate \$112,000. About all such appropriations are for, anyhow, is to enable the militia to take an annual picnic.—*Evening Post*
