The MacDowell club presented two out of town artists Wednesday evening at the regular session of the club, whose talent combined with that of musicians of the city made a delightful evening. Madame Chris Stromborne of Copenhagen, Denmark, sang several numbers. She has a voice of beautiful quality, her high notes being clear and easy and her low tones of velvet richness. She showed versatility in changing from one style of song to another as well as linguistic capabilities by singing in English, French, Norwegian and Italian.

Enrique Rasoplo, the young vilonist who has delighted El Paso audiences several times since his stay in the city, gave three numbers, "Caprice Viennos," "Humoresque" and "Variations Tartini."

Mr. Rasoplo's shading of tone and ease of rendition gave great charm to his numbers. His playing of "Caprice Viennos" was probably the most appreciated.

Mrs. Oscar Lesser, who had charge of the program, gave a history of Dvorak's life and his "New World Symphony" and this was followed by the playing of the symphony as a piano duet by Mrs. F. O. Barrett and Mrs. D. L. Pickens. Miss Constance Fateman's two vocal numbers were also much enjoyed.

The accompanists were Mrs. Warren D. Small, Mrs. D. L. Pickens, and Miss Julia Foot.

A music program will be given Sunday evening at Central Baptist church, including orchestral numbers and a violin solo by Enrique Rasoplo. The program will begin at 7:45 o'clock.

Monkey In Zoo Takes Squirrel As Companion

San Francisco, Calif., Dec. 8.—Mme. Charlotte, the temperamental monkey who delights the children at Golden Gate Park, with her unending display of pranks, has at last secured a companion.

Charlotte, herself, solved the problem which long had perplexed superintendent David Wooster Taylor. The new companion to Mme. Charlotte is one of the brown squirrels that inhabit the park.

The squirrel, of an inquiring turn of mind, entered Charlotte's cage through a hole in the wire netting. Charlotte prevented exit by twisting the wire into place. The squirrel seems contented as food is abundant and on cool nights they snuggle together.

Previously Charlotte's loneliness had caused superintendent Taylor no end of worry. He placed a honey bear in the monkey cage, but Charlotte kept the bear awake by pulling his ears and he had to be removed.

A puppy placed in the cage proved too interesting a plaything for Charlotte, and he was removed much the worse for wear. A bird suffered a worse fate.

The superintendent Taylor threw up his hands in dismay. Another long period of loneliness for Charlotte until she solved the problem of a companion herself. Now all is well.

Find Mine Discovered Over Half Century Ago

Redding, Calif., Dec. 8.—Has the famous "Lost Mine" been found?

George Rice, Del Taylor, George West and George Bryner, Shasta county miners, declare they have found it and pioneer miners are inclined to give credence to their story.

The four miners who declare they discovered the long-lost mine last June and have since been working is have come out of the mountain fastness of the Squaw Creek district for the winter. They declare they located the mine 22 miles up Squaw Creek from Copper City.

The well-established story is that in 1853 some miners found a rich claim far up Squaw Creek. All but one of them was massacred by the Indians.

The survivor came down to Copper City and told the story of the riches that were abandoned, but he was soon afterward drowned in Pitt river.

For years and years efforts have been made by prospectors to find the lost mine. It remained for the four miners to find the claim last June. It is in an almost inaccessible region and it was only accidentally that they stumbled on it.

They found a chart 14 feet and old rusty tools indicating that the claim had been abandoned in haste. Clearing out the shaft they found a ledge of rich ore which proved to be gold quartz. There is lots of it, say the quartzet, and it is rich, too. The four are confident they have found the famed "Lost Mine."

This Man Dead Twice, But Still He's Alive

Chicago, Ill., Dec. 8.—Fred Emich is getting tired of telling people he's still alive. When a report goes out once of a man's death he can capitalize on it like Mark Twain and make a funny remark such as "reports of my death are mostly exaggerated."

But when the report goes around a second time, and you even receive flowers, it gets tiresome. At least Fred thinks so. He was reported first as being killed while in the front line trenches in France. He did have three bullets in him, but they didn't suffice to kill him.

Just the other day Emich was out automobile riding and had a smashup. He wasn't even hurt, but next day he received a big wreath for his funeral.

He returned the wreath with thanks, and now asks that his friends wait for positive confirmation before they begin sending flowers.

Soldier "Jazzed" His Leg Out Of Joint

San Francisco, Calif., Dec. 8.—L. H. Roy, of Fort Winfield Scott, is particularly fond of "jazz."

In fact, he was so fond of it that he "jazzed" himself into the Oakland emergency hospital the other night, suffering from a dislocated leg, received when he tried to outdance a "jazz" orchestra.

Roy was on leave from the military post and was passing a dance hall where the strains of the "latest" sensation in "jazz" came to his attention.

The temptation was too great. He went in and secured a partner.

Soon the orchestra shot into "high," so did Roy. The faster the music, the faster he danced. When it was all over the ambulance came for him. His leg was out of joint and he could not walk.

KILLED WHILE HUNTING.

Riverton, Wyo., Dec. 8.—R. Cohen has been exonerated by a coroner's jury here for the killing of his brotherinlaw, Sam R. O'Neil, whom he mistook for an elk while the two were hunting near Dubois.

O'Neil and Cohen were beating a thicket some distance apart when Cohen thought he heard an elk crashing through the underbrush. He fired, the bullet entering O'Neil's head and killing him instantly.

A Pretty School Frock

By GERTRUDE BURKSFORD.

MANY of the smart little frocks for school wear are originated in such fabrics as poiret twill and tricotine. Velveteen is also chosen not only for the practical dress, but in lighter colors it makes charming party modes. This attractive frock is fashioned from poiret twill. The upper part is cut from a very pretty deep flame shade. This sets straightly about the figure and is quite long-waisted in effect. At the normal waistline is a narrow band of navy blue poiret twill. This matches the fabric that is used for the pleated skirt. The collar and cuffs with frilled edges are made of white linen.

How a prospective mother prepared for baby's coming

Nature's Evolution. Of all the vital adventures in life, the birth of a baby is the climax of nature's most wonderful evolution.

During this period, nature is supposed to be preparing the internal organism of a woman for a safe and speedy delivery; but it is more the exception than the rule when nature, unaided, performs her part at the crisis in a manner to relieve pain and contribute to comfort.

"I was afraid," writes a prospective mother, "until an experienced mother told me about MOTHER'S FRIEND."

"—but now I cannot recommend MOTHER'S FRIEND too highly for I know it helped me wonderfully, and I can almost say my baby was born without pain. At the present time I am using it again, as I do not want to go thru the ordeal without it."

Three generations of prospective mothers have used MOTHER'S FRIEND. When gently applied, during the period of expectancy, it soothes the fine net-work of nerves, lubricates the broad, flat, abdominal muscles and prepares the way for an easier, quicker and practical delivery.

For valuable booklet—"MOTHERHOOD and The BABY"—free, fill in coupon below and mail direct to the makers of MOTHER'S FRIEND.
