Would you make Populist votes if you could? You can make them by getting people to subscribe for the DAWN. Only 50cts a year.

The people are eternally kicking about high taxes and yet they continue to vote to keep the old frauds in office who are determined to perpetuate high taxes and employ a house full of deputies to do the work of one man.

The freight on wheat from Chicago to Liverpool is 7 cents per bushel, while from Ellensburg to Tacoma, a distance of 120 miles, it is 12 cents per bushel. From Chicago to Liverpool the distance is more than six thousand miles.

The DAWN, published in Ellensburg, Washington, is not larger than my hat, but contains more reading matter than half the 7 column papers filled with baking powder advertisement. It is neat and as convenient to read as this issue of the Sun and is read, no doubt, by as many people as the larger papers.—Sun, Arcadia, Florida.

The Populist members of the incoming legislature should have the hearty support of all good Populists throughout the State. But at the same time they must remember they were sent there to work for reform as a party, and not to try to foist upon the people some individual hobby. Whenever they attempt anything of the kind they should be called down. The members should be accredited with honesty of purpose until they show themselves to be otherwise. It will not hurt an honest man to watch him and it is decidedly beneficial to the public that a rogues acts be closely scrutinized.

OH SAY! when you hear a republican say he is in favor of free silver don't you "kind er" have a sneaking idea he is lying?

THE MONTHLY DAWN is one of the best educators published on the coast. Only 10cts a year.

If every bushel of wheat grown in Kittitas county this year was sold at the present market price, would it bring enough money to pay the running expenses of the county for one year? Who is prepared to answer this question?

The way to reform is to reform, as old John Sherman said by re-sumption, and now that the county officers-elect are soon to assume their respective positions, let them inaugurate a system of reform in the interest of the tax-burdened and mortgage-ridden people.

LAST week the Seattle Telegraph, the leading democratic paper of the State, was sold to the Post-Intelligencer management. The democracy of Washington labored for years to establish a first-class journal and as a result founded the Telegraph. And now after a brilliant career of about four years they see it pass under the control of the republicans, and they are left without a first-class organ in the State.

We have seen the beginning of the end of the democratic party in this as well as in other States.

Poor old democracy will soon be a thing of the past.

"Leaf by leaf the roses falls,
Drop by drop the springs run dry,
One by one beyond recall."
Democracy is left to die.

AN Eastern A. P. A. paper says: "The A. P. A. will put a national ticket in the field in 1896, and that it will elect its men; that their politics may be anything, but they must be true and tried A. P. A. men."

That's a dead give-away. The A. P. A. is, as we have often said, a republican organization and may be properly called an Anti-Populist Association. It gathers into its folds a few Populists, it is true, but it gives them crumbs of comfort and their votes and the offices to the republicans. We have a sample of this right here in Ellensburg, where a true and tried Populist candidate was turned down by the A. P. A. Populists and an A. P. A. republican elected to a fat office.

When will the Populists learn to let this Populist killing order alone? The time has arrived when no true Populist can afford to enter into any entangling alliances with this un-American organization.

We believe the time has come when either the People's party or the A. P. A. must go down. Which shall it be?

Every person receiving a copy of THE DAWN will please consider it an invitation to subscribe. Only 50c. a year.

We heard read a portion of a letter inquiring if there were any democrats in Kittitas county. The writer stated that if there was one, to be sure and capture him and send him to the Smithsonian Institute as a natural curiosity.

While it is not a curiosity to find a democrat in this county at the present time, it surely will be a curiosity to find a democrat anywhere after the next general election.

Those republican convicts that assisted Warden Coblentz in defrauding the State it seems, are not required to wear the prison garb although convicts committed to serve out a sentence for violation of law; they are simply gentlemen under restraint.

The parties charged with robbing the bartender in one of the saloons last Monday morning, were discharged by the Justice, Friday.

May we be allowed to enquire when the Executive Committee of the Populist party intend to meet and settle bills contracted by them?

Business is business, and if the bills cannot be paid soon, the Committee can at least show good faith and endeavor to treat creditors honestly.

This is how Babcock, chairman of the republican national committee views the issue of more bonds:

"I would be willing," "if this was a republican administration and the treasury was in the condition which now confronts it, to stay up night and day until congress had passed a law legalizing the issue of \$200,000,000 worth of bonds. I would put the interest at a low figure, say 2.40. Two per cent would, perhaps, be a little too low."

John Sherman holds similar views, as do all of the prominent republican leaders and papers.
