CALL FOR COMMITTEE MEETING

The members of the Republican County Central Committee of Okanogan county, Washington, are hereby requested to meet at the town hall in the town of Okanogan, on the 14th day of March, 1916, at the hour of 2 o'clock p. m. for the purpose of appointing the number of delegates for the various precincts of the county, providing for the time and method of electing the same, and the place of holding the republican county convention, directed by the State committee to be held on the 20th day of April 1916, and for the transaction of such other business as may properly come before the committee.

Okanogan, Wash., Feb. 14, 1916.

J. HENRY SMITH,
Chairman.

Senator Jones of this state was among the few senators who, by their votes, refused to stand behind the president in his foreign policy, thus demonstrating that they do not believe that Americans have any rights that a foreign nation is bound to respect. Now Senator Jones claims that he has had telegrams from his constituents endorsing his stand in this supreme crisis. One of these endorsements was signed—now mark well the names—by W. H. Paulhamus, T. Gerstmann, Louis Ganwich and C. Habig. If the Kaiser should issue a manifesto to the effect that Americans would travel at their peril on trains running between New York and Chicago, the chances are a thousand to one that Senator Jones would at once introduce a resolution in the senate warning Americans from traveling on the New York-Chicago route, and at once and immediately Messrs. Paulhamus, Gerstmann, Ganwich and Habig would wire Mr. Jones endorsements and congratulations. Mr. Jones in "crooking the pregnant hinges of the knee" where safety may follow fawning, serves notice that it is no longer honorable nor respectable to be a native American.

There is not an American citizen having the interest of his country at heart, and love and sympathy for his fellow man, who does not sincerely and devoutly hope this country may not be dragged into war. The vast majority are willing even to submit to numerous indignities, in order to continue peaceful relations with all other countries. At the beginning it was realized that in the very nature of the unprecedented war, with the new elements of destruction entering therein, occasions would arise in which the rights of American citizens would be abused. Those rights have been abused, brutally abused, yet by the exercise of patience and forebearance even to the limit of what looked like pusillanimity sometimes nothing more serious has resulted than tedious and voluminous diplomatic corresponence. The situation at the present time is more grave than at any period since hostilities commenced, and yet all right thinking men trust that existing differences may be adjusted without the resort to arms. No one can read the shocking account of the savagery of the present war without breathing a prayer that America and Americans may be spared such a fearful ordeal.

An important meeting will be held in Oroville Saturday to take up the matter of holding a district fair at this place next fall. Much interest has been manifested in the proposition among residents of the surrounding country, and it is up to the town people to lend every possible assistance in carrying out the plans. The Commercial Club and Civic League should be well represented at the meeting tomorrow. It will be an open meeting and everybody will be welcome.

One of the most terrific battles of the war has been raging around Verdun, on the French front, for the past week or more and the slaughter has been frightful. No decisive results have been obtained, although slight gains have been made by the Germans at a fearful cost in blood. After reading of the murderous fighting, the barbarous methods resorted to in the taking of life, the agony of the thing appalls one and creates a desire for peace at almost any cost.

The fine Italian hand of Bryand is seen in the opposition to the president's foreign policies that has created such a furor in congress. And yet Bryan at all times insists that he is friendly to the administration. Such double dealing in any one else would be looked upon as hypocrisy, but in the patron saint of the democratic party it may be considered a virtue.

The republican county central committee is called to meet at Okanogan next Tuesday to arrange for apportioning delegates to a county convention and to transact such other business as may come before the meeting. Every precinct in the county should be represented.

W. H. Paulhamus announces that he is not a candidate for governor this year. It is just possible that Mr. Paulhamus had an honest change of heart and returned to the republican party without calculating on any personal advantage. He should be given the benefit of the doubt.

The serious split in the democratic congressional ranks over the president's attitude at this critical period in our foreign relations is more evidence of the happy harmony (?) in the democratic party.

Who will be inaugurated president one year from last Saturday, March 4.

There was some symptoms of a revival of high life on the streets Tuesday morning when a dog disagreement led up to an exchange of blows between the owners of the animals, but things speedily dropped back to the graveyard placidity that has prevailed since fighting whisky was removed from the daily bill-of-fare.

LET'S ALL CO-OPERATE

We maintain a high class repair shop and service station, advertise Oroville and our Garage, but need your co-operation. Give us your business and we will give you efficient service at a reasonable cost. Let's all co-operate to make the Oroville Garage an attraction for all car owners and automobile tourists in adjacent territory. When in Oroville make your headquarters at the

Oroville Garage and Machine Shop

The brief spring magic realizes the desire of everything in nature to put on new, bright and beautiful attire, and like nature, all women are just as anxious to get rid of everything that is dark and gloomy.

With its big 3⅞-inch bore x 5-inch stroke FORTY horse power motor, this Studebaker rivals most of the Sixes on the market both in POWER and in flexibility of operation. It has driving, brute power that masters any hill or the roughest going you ever met. And yet it is power so marvelously adapted to the car's weight that it is as economical of fuel as most cars with much less power.

It's a motor that makes this new Studebaker a wonder to drive, and we'd just like to have the opportunity of taking you for a trial run, anywhere you say, as long as you say, as HARD as you say. Come in today.
