A GREAT EASTERN SALE OF

Ladies' Furs at 25% Discount

This big discount from regular price, viewed srom a business standpoint, seems foolish; more so on account of the fact that Furs today are worth in the world's market 20 per cent more than they were the day we made our purchase for this season's selling—than the fact that the prices they are now marked give us but a small profit margin. Nevertheless, we intend placing the entire collection in November Sale at a discount of 25 per cent off from regular price. All Furs sold by us are meretorious goods, London dyed, new skins and free from moths.
