A Scrap of Paper Saves Her Life.

It was just an ordinary scrap of wrapping paper, but it saved her life. She was in the last stages of consumption, told by physicians that she was incurable and could live only a short time; she weighed less than seventy pounds. On a piece of wrapping paper she read of Dr. King's New Discovery, and got a sample bottle; it helped her, she bought a large bottle, it helped her more, bought another and grew better fast, continued its use and is now strong, healthy, rosy, plump, weighing 140 pounds. For fuller particulars send stamp to W. H. Cole, Druggist, Fort Smith. Trial Bottles of this wonderful Discovery free at M. A. McFarland's Drug Store.

Prof. J. E. Deacon has been employed by one of the Johnson City churches to train the people in singing. He is the best qualified man we know for such a work, and the work itself is one of the most apparent needs in nearly all our churches. Many people would be attracted by good singing who would not otherwise attend church or Sunday school.—Morristown Pilot.

Money for Maimed Ex-Confeds.

KNOXVILLE, TENN., July 18.—Some six months ago W. B. Tate, a wealthy farmer of Grainger County, deeded $20,000 to the one-legged and one-armed Confederate soldiers of East Tennessee. The fund was distributed at Morristown equally among forty one maimed veterans. There was a large crowd present, and the stars and bars floated from the Opera House, where the distribution took place.

There is a little story for which we cannot vouch, says an exchange, that an editor once applied at the door of hades for admission. "Well," replied his sable majesty, "we let one of your profession in here many years ago, and he kept up a continual row with his former delinquet subscribers; and as we have more of that class of persons here than any other, we have passed a law prohibiting the admission of editors."

Murder Most Foul.

Strawberry Plains, July 15.—A most diabolical murder was committed on the farm of Col. Jno. W. Meek, two miles east of this place, at 8:30 tonight. James Stephens, a farm hand living in a log tenement house on Col Meek's farm was the victim.

It was just before retiring, and Stephens and family were sitting around a table on which there was a lamp throwing its rays about the room and lighting up a perfect picture of happiness and contentment.

Suddenly there was a flash, the report of fire arms, and Stephens fell from his chair a corpse. Investigation showed that the cruel assassin had placed the barrel of his weapon in through a small crack in the wall, and taking deadly aim fired a full charge of buckshot into the back of his head.

The murder is enveloped in the most profound mystery. Stephens was a quiet individual, who attended strictly to his own business. The murder has caused great excitement and every possible method is being resorted to by which the fiend can be captured.

Mr. E. Slattery, of Delhi, La., says her son, 14 years of age, had a dreadful time with ulcers, sores and blotches which followed chicken pox. After using many remedies withot benefit, she gave him Swift's Specific, which cured him sound and well.

We have sold S. S. S. since the first day we commenced the drug business, and have heard some wonderful reports of its effects. Many use it with best results to cleanse malaria from the system, and for blood poison scrofula and such diseases it is without a rival.

Colderwood, & Co., Monroe, La.

Mr. W. A. Tibbs is a printer in the office Jackson, Miss., Clarion-Ledger. He says that three years ago he was a victim of bad blood, which derived him of health and threatened serious consequences. He further says that he took S. S. S. and it cured him.

I have been sbject to painful boils and carbuncles over my body during the spring season, and after much useless doctoring I found a permanent cure in Swift's Specific. It is the monarch of blood medicines.

It Leads the Field, is the universal verdict of the ladies in regard to Peterson's Magazine. It always comes laden with an atmospere of elegance, and the fashions are as beautiful as they are sensible. The true secret of dress is to have pretty things at a moderate cost, and a glance at the August number will convince any woman that "Peterson" can teach her how to accomplish this. She will find also excellent stories, fine engravings and miscellaneous matter of the most varied and useful description. Every family should have this admirable periodical for a monthly visitor. Address Peterson's Magazine, Philadelphia, Pa.

Col. J. B. Killebrew returned Wednesday from New York and Philadelphia, where he has been several weeks on business connected with the development of the Tennessee iron and coal interests. Speaking of the movement of Eastern capital toward the South, Col. Killebrew said Eastern trust companies were making loans on Southern property for the first time in our history. Eastern capitalists have great confidence in the iron interests of the South, and may Pennsylvania manufacturers confess they can only compete with the South in the manufacture of steel.—Nashville American.
