This is one of the finest works out on the subject we have examined. It is closely condensed into chronological order from an unpublished "Cyclopaedia of Money and Finance." Contains 16 chapters. Covers the ground from 1600 to 1893, and is thoroughly reliable in every particular. Price 50c postpaid. For sale **AT THE DAWN OFFICE.**

A PAPER OF THE PEOPLE.—THE KICKITAT LEADER should be in every home in Southern Washington. It is fearless and aggressive, ever ready to defend the interest of the people. It is hated and feared by the political shysters of its own county. THE LEADER has had one of the hardest fights ever encountered by any paper. All Populists should give it their support. Subscription price, \$1. per year. If you have the money, send it along; if not, give us your name anyhow. Address THE LEADER, Goldendale, Wash.

We have just received a copy of "The Autobiography of a \$100 National Bank Note," by Frank E. Richey, the editor of the St. Louis illustrated Populist paper, VOX POPULI. The story is told, of course, as though the \$100 bill had written it. In it the early history of the banks and of the Greenbacks, and the secret inside workings of the present banking system is charmingly told. The work contains some 35,000 words and is profusely illustrated with more than twenty cuts, making it the best literary bargain that was ever offered at 10c. Bristling with facts, figures and illustrations and containing a stirring story concerning the latter day White Slavery of the National Banking system, and touching deeply the national life, this story will sell by the million and profoundly impress the political thought of the time on one of the most vital subjects before the People.

Silver Is The Issue.
 Appreciating the magnitude of the financial question and the importance of having statistics and other data on the subject compiled in durable form suitable for frequent reference, we have published a book of this character, and are now ready to supply the demand. It is a little book of forty-six pages, entitled the "Elementary Principles of Money and Statistics on Silver and Gold," edited and compiled by W. H. Harvey, chairman of the bimetallic executive committee of the state of Illinois. It gives the elementary principles of money; the statistics on both silver and gold; the gold standard arguments and the answers to them; reviews the coinage laws, and contains other valuable information. It will be mailed post paid to any address on receipt of 10 cents. Address, COIN PUBLISHING CO., 115 Monroe Street, Chicago.
