The ceremony was performed by Rev. F. M. Wadley, of Linneus, in the church and was witnessed by a large audience. After the twain were made one they, with the invited guests, repaired to the residence of the bride's father, Mr. J. V. H. Bolter, where they found a bounteous feast awaiting them. Everything passed off nicely and smoothly, and all present enjoyed themselves very much.

—Vennor's weather probabilities for January are as follows: As will be seen from the forecast of December, I anticipate that New-Year's callers will have heavy sleighing this year from Montreal to Washington, D. C., and that a cold snap during the first quarter of this month will preserve it for that period. I expect blockades of snow in the United States about the 7th and 8th of January, and rainy days during the month will be exceedingly few.

The second quarter will open with heavy snow falls, and terminate in a cold snap.

The middle of the month will bring snow falls, which will terminate in milder weather toward the end of the third quarter. This thaw whichwill be interrupted by a brief cold spell, will extend from about the 18th of the month into February.

The record of this month will show it will have been a severe one, and the general conditions of the weather will probably remind us of some of what are called "real old fashioned winters."

Several of our county officers elect (all Greenbackers, "dont you forget it") assumed the duties of their respective offices on New Year's day. We noticed John Hale safely and comfortably ensconced in the Recorder's office, filing deeds and taking in the deeds on New Year's day. The new county court came into power on that day also, but will not meet until Febuary 7th. Col. Kemp also began his duties as prosecutor on that day. Circuit Judge—elect, J. M. Davis, became clothed with the power of that office on 1st inst; his first term will begin in this city on the 24th inst.

The other officers (excepting Andy Sportsman) took charge of their offices some time ago. Mr. Sportsman will take charge of the collectors office in March, we believe.

Medicine Township.

GOODSPEED'S, MO., Jan. 2, 1881.

We again take up the pen to let you and your numerous readers know that generally, we had a merry and happy time during the holidays; the roads and weather suited old and young; and now they are past we commence the duties of the new year with hearts full of gratitude and many new vows for the better during the coming year.

Our quarterly meeting last Sabbath passed off very pleasantly; had a good sermon by the Presiding Elder. For several reasons our protracted meeting was put off until the second Sabbath of this month, when we hope that every Christian man and woman will come to our help, and then with God's help we will have a good meeting and the much needed good be done.

Schools around here closed last week, but open again on Monday.

Willie Donovan returned home New Year's eve, and we, with a host of others, welcome him back, and hope he will be content to stay with us now.

R. Coleman has put up a new wind mill and pump for Mr. Rolls, Sen., and it is a beauty.

The members of the Manning church got up an oyster supper last Friday eve at the residence of Mr. Wallace. All pronounced it a pleasant affair. The proceeds of the evening was $18 and some cents. The members of the church tender their thanks to Mr. Wallace and his lovely daughter for their assistance and trouble. The object of the supper was to raise funds to finish their parsonage in your city.

Mr. Rickett killed the fatted turkey and brought forth his winter stores, and invited his children to come out eat with him.

Judge Donovan leaves in the morning for Jefferson City. We are proud of such neighbors, for he goes with the good wishes of all his neighbors.

Mr. Howland closed his singing school at the New York school house on New Year's night with a concert. The house was crowded. Judge Stewart made much fun by his songs. MORE.

Dawnings.

JANUARY 4, 1881.

The great wheel of time has brought about another moment for us to jot down a few items.

Since we last wrote Christmas has been here, and he brought with him, as usual, a grand Christmas tree for the Sunday School children of Dawn. It is estimated that there were at least $400 worth of presents distributed that evening. Everything passed off nicely, except that two or three parties claim that they did not get their presents after their names were called, the presents getting lost as they were passed through the audience.

It is a shame that any one should have fingers so sticky that a Christmas present would stick to them. It would be well it such persons were brought to justice.

The Welsh Congregational Church held a rehearsal meeting, both in the forenoon and afternoon, on Christmas day. The meeting was well attended and was quite interesting. So did the Baptist Church; the meeting there also, we understand, was a perfect success.

Hog cholera is still doing some damage in this section of the county. Mr. D. Lewis has lost over eighty head in the last three weeks. Mr. B. B. Peck, we understand, has been a pretty heavy loser; so has Mr. E. E. Evans.

Mr. Chalmers Reed, who was in the employ of H. Bushell for some time past, has changed his base of operations, he being now in the employ of Fisher Bros

Mr. Herbert Kittridge sprained his ankle Christmas eve, which caused him to miss the Christmas tree. He is now improving. VIDI.

Buggies! Buggies! Buggies!

To meet competition in cheap buggies, we have been compelled to put in stock an open buggy and a top buggy, which we can sell lower than the lowest, and we will guarantee them to be as good as any cheap buggy made. Call and see before buying. We keep on hand a fine assortment of buggies, spring wagons of our own make that cannot be excelled in finish or quality by any body, and at prices that defy competition.

Call and see us, your own carriage manufacturers, before sending your money away and being swindled in the bargain. 44tf STAFFORD & PRINGLE.

Turkey Bend Ramblings.

TURKEY BEND, Jan. 1, 1880.

EDITOR CRISIS—The weather has been very cold for several days but is now somewhat moderated.

Sleighing is excellent.

Miss Mary Silvey has the chills.

Mrs. Seyntha Dougherty is complaining.

Miss Rilla Hayden is quite sick; she has pneumonia.

Miss Mabel Hawkins has been indisposed for some time, with sore-throat.

A team belonging to Daniel Hayden ran a way last Monday. In the fracas one of the horses came near being killed.

The protracted meeting at "Scrougeout" is very interesting. There have been four additions—two by confession and two by letter. Joseph Walden is assistant minister.

Rev. J. E. Squires, who is going to school at Fayette, Mo., spent the the holidays at home. He was kicked by a horse last Monday which temporarly disabled him.

Prof. W. T. Dixon, who is teaching school, 112 miles Northwest of Chillicothe, came down last Tuesday and remained until Friday visiting his numerous friends in this community. Will looks very natural—has'nt changed one particle nor even his state of "single wretchedness."

Mr. Athan Bailey gave a Christmas so liddle last Monday night into the merry whirl of which we were admitted. We retired home about nine o'clock but before leaving took occasion to note the attendance of about twenty-five light hearted youths and maidens who, it was evident, were enjoying themselves lingely.

With about the same number we assemble in this next evening at the residence of Mr. B. B. Hayden where there was a "hop" and sociable combined. We remained until half past 10 o'clock; were pleased to observe that, like the above, everything went along lovely and all so far as we knew felt that it was pleasant to be there.

On Thursday evening we wended our way across the field through cold and snow to the residence of Mr. A. F. Bedell, where a party similar in character to the above, took place. A larger crowd gathered here and if we are allowed to decide, the young people generally manifested more animation than on either of the two previous occasions. With the exception of a single event every thing passed off pleasantly.

CHRISTOPHER COLUMBUS.

Cream Ridge.

CREAM RIDGE, Jan. 1st, 1881.

EDITOR CRISIS:—Thinking that a few items from this part of the "footstool" would be of interest to some of the readers of your paper, we append the following:

We have had plenty of weather during the last week of the old year, fresh air in abundance, especially on Wednesday, the thermometer on that day registering 20 below zero.

Owing to the severity of the weather, news items are as little scattering.

Our school is progressing finely under the charge of Miss Clara Gordon of Chillicothe. She gave an exhibition of their spelling on Christmas eve, which reflected great credit on Miss Gordon as a teacher, her school taking the "ribon" for best spelling. After the spelling the assembly was entertained with some good music by Miss Cassida, and the professors, O. and B. Blue.

The boys had a shooting match on Christmas, for turkeys. They say that shooting for turkeys is a rather uncertain way of getting one for a Christmas dinner, especially where Perry Sapp looks over that "long reach" rifle of his.

The Christmas tree at the Vinegar Flat Sunday School was an occasion of considerable pleasure to to those who were fortunate enough to obtain seats, but your humble servant couldn't see so much fun in standing in that jostling crowd, waiting in anxious anticipation to hear his name called to take possessession of some of the beautiful presents, but every name called was somebody else, so we decided then and there to quit, i.e. quit attending Christmas tree gatherings.

Looking around we discover that L. R. Heath and J. McDonald, who, with their ladies, have been of on a tour of some kind, have returned, and announce their intention o resuming business at the old stand.

Miss Mate Holdridge one of Chillicothe's fairest young ladies, who for several days has been visiting friends on the ridge, returned home to day, accompanied by Mrs. R. A. Davis.

Mr. Minor Burt, and Miss Flora Woodford, Mr. Herb. Woodford, and Miss Alice Burt, paid Cream Ridge a flying visit on New Year's eve.

If we were not convinced that we'd written enough, we'd give you an item on Dr. Hoaf.

We will close by wishing you a happy New Year. If this finds a place in your paper you may hear again from GRAY EAGLE.

IT STANDS HIGH.

THE

GLOBE - DEMOCRAT

PROSPECTUS.

In issuing its prospectus for 1881, the GLOBE-DEMOCRAT can make no promise for the future that is more reasonable and more in accordance with its record in the past. In the Presidential year it has proved it was competent as the organ of the Republican party in the West, advocating the principles of that great party of reform and nationality, and always has exposed of the wrongs of fraud. We shall continue the course and principles of the past, so long as the Republican party remains true to the mission on which it was born. Ably yours again.

The election of James A. Garfield and Chester A. Arthur as President and Vice-President of the United States, is a matter of congratulation to the Electoral Vote, and the people, and prosperity of the country for four years. We believe that the new Administration will wear well, and will stand hold, be it children, and will be the best part of it, and while the success to its success and integrity, is well as it is to the principles of the organization which placed it in power. The GLOBE-DEMOCRAT firmly hopes to give to President Garfield a cordial and earnest support. I believe that he will do the right as he sees it, and not be will being to the dictatorship of his Presidential chair a clear head, an honest heart and a determination to serve his country to the best of his ability. Certain Conditions now exist in the United States better than they have been for years, and all that we expect from a good President.

The Republican party is now more thoroughly united and a more harmonious team it has been for many years. There are very few "sorrys" in it and no "groaning for the leeks." The campaign this has just closed, would tend to bring into a solid union all the conservative and thinking men in Garfield's administration, and will contribute to long continued peace to it. The south-ern states have been solidly united—defeated so far for the best candidate it has had in twenty years—and not likely in a year to present the unfortunate fact which the Republican party had to meet in the 2nd of November, 1880.

A Wide national policy than that in the Garfield and purposes, the GLOBE-DEMOCRAT will devote days and attention to the subject of emigration, and will do its to invite the thrifty farmers and mechanics of the East and of Europe to settle on the fertile lands of the Southwest, and especially of the State of Missouri. Take what they have, adjust our affairs for the past, and now that there are four years ahead of us free from the throes of and excitement of a national political nature, we shall be enabled to give a vigorous thought and energy. There is room in the industry, industry in the great City of St. Louis for a million more inhabitants, and there is land enough in our country to feed the World (real estate dealers, do not take this in personal homage to the West to the facts capable of being shown on the subject) will be one of the special aims and efforts of the GLOBE-DEMOCRAT.

No newspaper, East or West, is better equipped than the GLOBE-DEMOCRAT for the collection and publication of news from all parts of the World. Our list of special correspondents covers all the news centers in the country and in Europe, and they are all instructed to score no pains and expense in presenting the latest and most reliable information. Examine it carefully, it promptly by telegraph. Our special telegraph service has been greatly increased and improved in the past year and it is now inferior to no rival in this direction, and we will spare no every opportunity to improve it in journal as an impartial record of our age and the world over. Our World readers will get the full benefit of this service in a fortnight from the most important dispatches sent the Dutch Gazette, DEMOCRAT.

The commercial report the GLOBE-DEMOCRAT has always been unrivaled among Western dailies. No journal in the West pays so much attention to fullness and accuracy in giving a faithful reflex of the markets from day to day and from week to week. In this department we shall always keep pace with the advancing condition of St. Louis and the West to at that is to be expected from a great newspaper devoted to the commercial interests of the Mississippi Valley.

We shall aim, in addition to a weekly record of our current events, to present our readers with a newspaper for the Farm, the Family, and the Fireside. Special attention will be given to these special departments, which have been conspicuous features of the GLOBE-DEMOCRAT.

No indeed, we warn delinquents, especially those who owe for more than one year, and particularly those who owe for more than *two years*, that we are on the War Path and are after their scalps.
