KILLED IN COURT.

Jake Ackerman Shot Dead by the Wife He Had Beaten.

Memphis, Tenn., April 30.—Jake Ackerman, a well known thief, highwayman and train robber, was arrested Monday night on a charge of wife beating.

This morning when the case was called in the police court, the prisoner and his wife were standing side by side. Ackerman spoke to her, and at the same time handed her a written request for some clothes.

The woman bent her head for a moment to hear what he had to say, and then, without warning, drew a revolver from beneath her cloak, and presenting it within half an inch of Ackerman's abdomen, pulled the trigger, and before anyone could realize what had happened she fired three shots at her husband, who fell to the floor and writhed in agony, and an hour later was dead.

Ackerman was a notorious crook. He had served terms in the penitentiaries of Mississippi, Louisiana, Kansas and Nebraska. The burglaries, robberies and confidence games he is accredited with are innumerable. At the time of his killing he was wanted at Omaha for the robbery of Morgan's silk store.

Mrs. Ackerman, whose maiden name was Lizzie Broderick, comes from a respectable family of Camden, Mo., and had been for years an inmate of various bagnios throughout the country, but always a staunch friend of her husband, notwithstanding his cruel treatment of her. She killed him she said, because she was afraid he would murder her if he got out.

A DESPERATE MAN'S JUMP.

Head First Through a Car Window With His Hands Tied Behind Him.

Columbus, Cal., April 29.—Yesterday Vince Story an escaped convict who had been recaptured in Georgia and was being taken to the penitentiary, was seated in a fast passenger train with his hands tied with a rope. When passing through Edgefield county, the guard left his side to get a drink of water. The window by the convict had been left open and Story, with his hands tied behind and the train making over forty miles an hour, sprang through the window. The train was stopped but nothing could be found of the daring convict.

The American turf is more important institution than it is generally supposed to be. It is estimated that it furnishes a livelihood to over 50,000 people.

The editor of the Soux City Journal thinks Senator Vest is fully as good a poet as he is a statesman. Perhaps the editor is a better judge of poetry than he is of statesmanship.

The cares of state wear heavily on President Carnot, of France. Since his election he has lost thirty pounds. In this country men frequently fatten while in office.

A Scrap of Paper Save Her Life

It was just an ordinary scrap of wrapping paper, but it saved her life. She was in the last stages of consumption, told by physicians that she was incurable and could live only a short time; she weighed less than seventy pounds. On a scrap of paper she read of Dr. King's New Discovery, and got a sample bottle; it helped her, she bonghl a large bottle, it helped more, bought another and grew better fast, continued its use and is now strong, healthy, rosy, plump, weighing 140 pounds. For fuller particulars send stamp to W. H. Cole, druggist, Ft. Smith. Trial Bottles of this wonderful Discovery free at all druggists.

A FIVE WEEKS' FAST.

Strange Case of an Ohio Farmer Who Laid Down to Die.

Findlay, O., April 23.—Much excitement was caused in Blanchard township this county, to day by the discovery of Peter Powell, a well-known farmer of that locality, in an old barn, where he had been lying for the past five weeks without food and water. He was still alive, and was immediately brought to this city for medical treatment.

His case is one of the strangest ever recorded here. Last fall Mr. Powell received injuries through being run over by a cow he was leading, and soon vomited blood, which caused some sort of a stricture of the throat from the excessive strain the vomiting produced. The stricture grew worse and eight weeks ago Mr. Powell could no longer retain any solid food. He refused medical assistance and five weeks ago disappeared as completely as if the earth had opened and swallowed him. A long search was prosecuted by his family, but without success, until to-day, when an old barn was torn down and he was found concealed in an old hay press.

He was able to talk, although woefully emaciated, having lost 146 pounds of flesh during the period of his disappearance. He has not tasted food or water for five weeks, and says that when he first concealhimself to die alone he grew so hungry he felt like eating his own arm, but for the past three weeks he had no desire for food. He will die, as he is not strong enough to stand a surgical operation for his throat trouble.

Bismark has been all his life an earnest student of English literature and knows it thoroughly. He speaks the language easily and writes it correctly. If the prince is going into German parliament and means to be a reformer he should read the "Declaration of Independence," written by Thomas Jefferson, and the Constitution of the United States, written mainly by Alexander Hamilton —at least inspired and directed by him. The public men at the beginning of this republic were constructive statesmen. They were builders and not afraid of making a departure.

The same firm which 31 years ago completely revolutionized the Threshing Machine trade by inventing a new Threshing Machine, —so much better than any machine before known, that all the builders of the old style Threshing Machines stopped making them and copied the new machine as closely as they dared —have now made another advance, and in their New Vibrator present a Threshing Machine containing entirely new features in separation and cleaning, which place it as far ahead of any other as the old Vibrator was ahead of the "Endless Apron" machines. Every Farmer and Thresherman should *at once* get full information regarding the *NEW VIBRATOR,* which will be sent *Free* on application to

ADRAIN STCOK FARM!

It is with no small degree of pleasure that I present my stock to the public the ensuing season of 1890. And it is with pleasure and gratitude that I look on the satisfactory results of my efforts in improving horses that has proved valuable sellers.

We find that those who have patronized pure bred sires have been highly pleased. With these efforts the present demand for good draft and road horses is much greater than the supply and are likely to be for a long time to come.

My horses are of the best solid colors that can be got. I have choice selections of Draft and Road horses which will be shown to one and all.

Parties are invited to examine my stock before breeding elsewhere.

Parties from a distance can be accommodated with pasture for their stock till service is rendered or longer.

Pedigrees will be furnished at barn.

I extend many thanks to my patrons for their liberal patronage of the past.

The following Stock will make the season of 1890 at Adrain Stock Farm.
