Money in Farming.

It is a notable fact that all farming interests improve where it is possible to utilize the water that the wells on the farm will produce. How few people think of the value of water for irrigation, and what could be produced at a minimum cost if it were used. The question has been heretofore how to get the water to the surface economically, and this has been accomplished by the use of Gasoline or Kerosene Oil Gas Engine, manufactured by Palmer & Ray Type Foundry, 405 Sansome street, San Francisco, Cal.
