A Double Hanging.

SALINAS, Cala., Dec. 5.—Soloman Torres and Jose Manuel Solo were hanged at 10:44 this morning for the murder of Ah Din, a chinaman, on the 20th of December last. Before ascending the scaffold the condemned men requested that some of the visiting sheriffs be permitted to perform the last duties of the execution. As the resident sheriff had been most kind to them during their confinement, they did not wish him to mar his past conduct toward them. In accordance with their wishes, Sheriffs Dakin and Bennett adjusted the nooses and caps. When the trap fell Torres dropped, broke his neck and died in six minutes. Solo fainted, presumably from strangulation the noose being drown too tight and had to be shov d from the platform. He died from strangulation in nine minutes. Two hundred and fifty people witnessed the execution. Among them a number of Chinese.

Done up in Good Shape.

SAN FRANCISCO, Dec. 5.—A Chronicle Prescot, A. T., special says Judge Howard today sentenced the convicted Polygamists, Ammon M. Tenney, Bishop P. J. Chrestoperson and C. J. Kemp, each to pay a fine of $500 and be imprisoned three and a half years in the United States house of correction, Detroit, Michigan. Much sympathy is expressed for Kemp, who leaves two wives and twelve children in destitute circumstances. He desired to plead guilty, but was prevented, under pain of excommunication from the Mormon church. The sentences of Bishops Wm. J. Flake and James F. Skensen, who pleaded guilty, were each fined $500 and six months confinement at Yuma.

One More Idiot Gone.

CINCINNATI, Dec. 5.—Leo Heller, a young iron worker, attempted to kill Miss Linn in the office of Justice of the Peace During, but being prevented by the latter deliberately shot himself dead. Heller had been paying attentions to the girl who tired of him. He threatened her and she had him arrested therefor. Heller, 'Squire During and the girl were alone in the office to day preparatory to the trial, when Heller drew his pistol and pointed it at the girl saying: "I'll give you satisfaction." During sprang at him and prevented him from killing Miss Linn but could not keep him from killing himself.

Beecher Was not Present.

NEW YORK, Dec. 5.—Francis D Moulton was buried from his late residence, Lexington avenue, today. Rev. E. B. Coe of the Fifth avenue Reformed church officiated. Among those present were many of the deceased employes, his former partners, J. P. and Geo. O Robinson, and Franklin Woodruff and Chas. Adams, commissioners from the produce and mercantile exchanges, and many other persons.

A $50,000 Fire.

NEW BRUNSWICK, Dec. 5.—Fleschman's distillery and yeast factory at Millstone was destroyed by fire this morning. Loss $50,000; insured. The government books and property were saved. A half million dollars in liquor stored in the bonded warehouse was also saved.

Atchison, Topeka & Santa Fe R R

Passes through the territory from northeast to southwest. By consulting the map the reader will see that at a point called La Junta, in Colorado, the New Mexico extension leaves the main line, turns southwest through Trinidad and enters the territory through Raton pass. The traveler here begins the most interesting journey on the continent. As he is carried by powerful engines on a steel railed, rock ballasted track up the steep ascent of the Raton mountains, with their charming scenery, he catches frequent glimpses of the Spanish peaks far to the north, glittering in the morning sun and presenting the grandest spectacle in the whole Snowy range. When half an hour from Trinidad, the train suddenly dashes into a tunnel from which it emerges on the southern slope of the Raton mountains and in sunny New Mexico.

At the foot of the mountain lies the city of Raton, whose extensive and valuable coal fields make it one of the busiest places in the territory. From Raton to Las Vegas the route lies along the base of the mountains. On the right are the snowy peaks in full view while on the east lie the grassy plains, the

GREAT CATTLE RANGE OF THE SOUTHWEST,

which stretch away hundreds of miles into the Indian Territory. The train reaches Las Vegas in time for dinner.

LAS VEGAS,

with an enterprising population of nearly 10,000, chiefly Americans, is one of the principal cities of the territory. Here are located those wonderful healing fountains, the Las Vegas hot springs. Nearly all the way from Kansas City the railroad has followed the route of the "Old Santa Fe Trail," and now lies through a country which, aside from the beauty of its natural scenery bears on every hand the impress of the old Spanish civilization, grafted centuries ago upon the still more ancient and more interesting Pueblo and Aztec stock. Strange contrasts present themselves everywhere with the new engrafting of American life and energy. In one short hour the traveler passes from the city of Las Vegas with her fashionable

HEALTH AND PLEASURE RESORT,

her elegant hotels, street railways, gas lit streets, water works and other evidences of modern progress, into the fastnesses of Glorieta mountain, and in full view of the ruins of the old Pecos church, built upon the foundation of an Aztec temple, and the traditional birthplace of Montezuma, the culture-god of the Aztecs. It is only half a day's ride by rail from the Las Vegas hot springs to the old Spanish city of Santa Fe. Santa Fe is the oldest and most interesting city in the United States. It is the territorial capital, and the 333d anniversary of the settlement of the Spaniards in that city will be celebrated there in July, 1883. From Santa Fe the railroad runs down the valley of the Rio Grande to a junction at Albuquerque with the Atlantic and Pacific railroad, and at Deming with the Southern Pacific from San Francisco, passing on the way the prosperous city of Socorro and the wonderful Lake Valley and Percha mining district, finally reaching Deming, from which point Silver City is only forty-five miles distant and may be reached over the S. C. D. & R. R. R. The recent discoveries of chlorides in Bear mountains, near Silver City, exceed anything in the Rocky mountains in richness. Shipments of the ore have been made to Pueblo that run as high as 45 per cent pure silver.
