Satisfied at Last.

It is an old saying that the farmer is a hard man to please and satisfy; no sooner is he through complaining of too much rain than the necessity for irrigation stares him in the face, and starts him investigating the latest practical and profitable methods. Experience now confirms the claim that a Hercules Gasoline Gas Engine solves the problem of economical, reliable power; and for once the farmer is suited, for a Palmer & Rey Pumping Plant so operated gives him a chance of clearing his overgrown lands, and, in addition, of flooding his parched fields, besides using his engine for cutting feed, sawing wood and running churns, etc.
