HOW IS THIS?

From Farm, Stock and Home, Sept. 15th:

* * * Well, well, and what will come to the ears of F., S. and H. next? The latest is a confidential statement by a representative of a manufacturer of an old, staple and standard farm implement, that since retail merchants compelled them to sign an agreement not to sell their implement to supply houses, they are now turning out precisely the same article, made from the same patterns, same material and by the same workmen, but painted and lettered differently, especially for supply houses at 20 per cent less than they get from wholesale dealers for the "real thing."

97 Cents for a 20-lb Box of Fine Crackers.

Less than 5 cents a pound for SODA, BUTTER, or OYSTER CRACKERS. The finest Butter, Soda and Oyster Crackers ever put on the market, at a price 50 per cent lower than our factory-to-consumer price.

At the remarkably low price of 97c a box you have your choice, and in ordering be sure to state whether you want Soda, Butter or Oyster Crackers.

A $11.00 Overcoat for $7.50

The owner of one of these fine Overcoats will be dressed in the latest fashion. There's a satisfaction in wearing perfect-fitting garments.

Our No. 505c. The illustration represents a high grade all wool Kersey Cloth Overcoat—in quality and price without an equal. It is made with double stitched overlapped seams, raw edges, heavy fine velvet collar, lined throughout with highly finished extra fine quality farmer's satin, deep facing of own goods, outside pocket and ticket pocket with flaps, two inside breast pockets tailored in the correct fashion for autumn and winter dress wear. There is a great deal of clothing being advertised mostly made in eastern work houses, some call them penitentiaries, which means not honestly made. It is our motto to serve the public honestly and give them just what they should have at the lowest living cost. No unfair labor is employed in making our clothing; the result is we get the highest class work. It costs you nothing to try us. We'll send you one of these special value coats on receipt of 97c, balance C. O. D., or if cash in full accompanies the order and the coat is found not as represented or satisfactory, send it back to us and your money will be refunded by next mail after the coat reaches us. Ask your banker, any express company or mercantile agency regarding our responsibility. Colors are navy blue or black. State color wanted. Sizes 34 to 44 chest measure. Price $7.50. Sizes larger than 44 inches chest measure will cost $1.00 extra. Send for our special clothing Catalogue M Booklet of samples. It is free.

THE ROBERTS' SPECIAL FARM FANNING MILL.

Send 97 Cents.

Fig. 40815a.

This Fanning Mill is of the standard type; that is it is constructed on the same general lines as most of the fanning mills offered the trade by other makers. However, as improvement is the order of the age, we have incorporated in this mill some very important features.

We will send this Roberts' Special Fanning Mill by freight, C. O. D., subject to examination. Examine it at the freight depot, and if found perfectly satisfactory and equal to fanning mills that retail at $20 to $25, pay the freight agent Our Special Price, $9 87, less the 97c, or $8.90 and freight charges. The mill weighs 120 pounds. Every mill is covered by a binding guarantee; more wind, more shake, carries more screen and will do more and better work than any mill you can buy for $20. Will separate wild seed from wheat in one operation, will separate the foul seeds, such as mustard, pigeon grass, etc., from flax at once going through the mill. It is a perfect cleaner of clover and timothy. Made of the very best material. We furnish with it one wire wheat hurdle, three sieves, wheat screens, wheat grader, corn and oat sieve and barley sieve. Capacity 90 bushels per hour. $9.87 is our special offer price. Order at once. Write for free Agricultural Implement Catalogue.

OTHERS have advanced their prices on Parlor stoves, but our contract with the manufacturers compels them to furnish us with these so we can sell them at a small profit at $21.41, $24.27 and $27.77. ☞ The greatest bargains ever offered.

IMPROVED "FAMOUS" CORN SHELLER.

Only 95 Cents.

We have entirely discontinued the manufacture of the little "Famous" sheller, and have seen that the introduction of one of larger size and capacity would be very acceptable to most of our customers. A sheller that is portable and can be used winter evenings, near the kitchen fire, to shell corn for the poultry, pop-corn and seed corn, will certainly meet those requirements, and is in demand even by those who own large shellers. It is very simple and will not get out of order, and will last an indefinite time. If turned rapidly it will shell from 25 to 30 ears of corn per minute, or as much as any larger expensive one-hole sheller. The tension is adjusted by a thumb screw in the back of the machine. The sheller is a perfect success and warranted to give satisfaction. Weight 15 lbs. Price, each **95c**

One of the best heaters in the market at a moderate price.

SAVE THE Retailer's Profit.

SAVE THE Wholesaler's Profit.

Take advantage of our contract purchase.

These stoves save 25 per cent or one-quarter in fuel—what more could you ask, when you consider their beauty? WE GUARANTEE THEM.

A LARGE STOVE takes less fuel than a small one for heat given. Bear in mind in ordering.

YOU would be proud to own one of these parlor stoves. The picture gives but a faint idea of their elegance. **Sent C. O. D. on receipt of 97 cents,** you to pay balance to your banker or freight agent on arrival at your depot.

Base Burner Parlor Heater—It is built to produce powerful heat with great economy of fuel. Correct proportions; artistic ornamentation. All sizes are double heaters; have air circulating flue, and heat may be carried to room above by attaching a pipe to collar on air flue and running it to a register in the ceiling. This pipe is for hot air only. Smoke passes through another pipe into chimney in the usual way.

As Our Greatest Leader for 1900—A wonder of value. The greatest achievement in stove making of the season. From this large illustration, printed from an engraving of a photograph taken direct from the stove, you can form some idea of the extraordinary value we are offering in a high-grade heater for this season, but the stove must be seen to be appreciated. You can scarcely imagine how it is possible to build a stove for the little money we are offering this to our customers.

A Marvel of the Stove Industry—There is not a maker of heating stoves in America that will not see our catalogue and be attracted by this most extraordinary offer, and the most astonishing thing will be how it is possible for any one to make the stoves for the money. Has nickel-plated high ornamental base, nickel-plated side rails, nickel-plated swing top, nickel-plated reflector plates, nickel-plated name plates, nickel-plated knobs and hinge pins, fancy urn. **Has Self-feeding Coal Magazine and Duplex Grate with Shaking Ring.**

Send the Full Amount of Money with Your Order, or, if you prefer, send but 97c; balance to be paid after received, and if you do not find you have got one of the handsomest heating stoves you ever saw, such a bargain as you never saw or heard of, such a stove as was never seen in your section at anything like the price, you are at liberty to return it to us and we will cheerfully refund your money.

BOB SLEDS.

We give below our new and revised line of Bog Sleds. We have dropped our last year's Cuckoo and have in its place our new Mandt Oscillator. The reason for this action is that we are confident that the steel knees on the Mandt will give much more satisfaction than the cast knees of the Cuckoo.

Important Notice in Regard to Shipments. Fro the benefit of our customers whose towns are located on the Great Northern or the Northern Pacific Railways west of Minneapolis, we will ship their bobs direct from the factory at St. Cloud, Minn., thus saving you quite an item of freight. Of course our customers who are located south or east of us, or for those whom we cannot save freight by shipping from the factory, we will ship from our stock in Minneapolis, and you will only be obliged to pay freight from Minneapolis. Please take note of this, and be sure when you purchase your bobs you don't buy from firms who ship from the factory entirely and which will necessitate you paying a great deal more freight.

Northwestern Manite Bob.

The Northwestern Manite is especially gotten up for our Northwestern trade, and is intended for use in Minnesota, Wisconsin, the Dakotas, and Montana, where great strength is needed without much oscillating. It is simple in its construction, strong and reliable. The runners are 2x6 inches, 7 feet long, 5½ feet on the run, ⅞-inch round start pins, held in place by wrought-iron straps. Made from best grade White Oak timber, painted blue, and well finished. Shipping weight about 450 pounds.

Price (either F. O. B. St. Cloud, Minn., or Minneapolis $13.47

Roberts Premier Bob.

The Roberts Premier Bob is made to our order and is the best oscillator made. In construction, strength, and durability it has no equal. It is made on very similar lines to our First Premium last year, which proved such a desirable sled. It is made up in the best possible manner, nothing but best white timber and other first-class material used. Sizes: No. 1. Runners 2x6 inches, 7 feet long, 5 feet 6 inches on the run, 4x6-inch beam. Weight 475 pounds. No. 2. Runners 2½x7 inches, 7 feet long, 5 feet 6 inches on the run, all other parts proportionally heavy. Weight 600 pounds. Price either at St. Cloud, Minn., or Minneapolis:

The Boss Oscillating Bob.

This Sled has a few distinguishing features which give it superiority over all sleds on the market. The Boss knee is attached to the runner by means of two ¾-inch start pins which are firmly cast in the standard and pass nearly through the runner. The lower part of the standards are flarred outward and fastened to the runner by bolts passing through shoe and runner. The knee being thus secured will stand an enormous strain. The knee is constructed with a curve horn, which serves to hold the skids in logging. There are two heavy cast plates bolted to the ends of the beams of the Boss, which prevents the splitting of the wood, and are so formed that when attached to the beam they fit loosely in the eye or opening of the knee, and in this way and in combination with the tompkin in the collar give the runner a perfect independent movement or oscillation. The beam plates are provided with jaws and hold the ends of the beams substantially. The beams of the Boss stand upright, and do not require a long reach like so many inferior oscillators to brace them, and interfere with their oscillation; hence the bobs are coupled through the beam, the only way that gives independence to each runner, and has more oscillation than any sled made. With our extension reach which can be attached to any of our sleds, the sled can be lengthened to suit the convenience of the user, without danger of breaking it, as in the case of a long reach. The Boss has been on the market ten years. It is made of the best White Oak timber, ironed whenever iron will increase its strength, and well finished.

We have three sizes, as follows:

(Priced either at St. Cloud, Minn., or at Minneapolis.)

No. 1, especially designed for Montana, Manitoba, North Dakota and Northern Minnesota. This size has a 2x6 9-foot runner, 5½ feet on the run, weight 450 pounds. Each, net $15.20
No. 2, built expressly for use in Southern Minnesota, Iowa, South Dakota and Nebraska, has a 2x4 5½-foot runner, 3½ feet on the run, weight 390 pounds. Each, net. 14.17
No. 3, a still lighter Boss, intended for same territory as No. 2, has 2x6 4½-foot runner, 3 feet on the run, weight 300 pounds. Each, net 13.70
Woods only, not ironed and in the white, per set 6.75

The Mandt Oscillating Bob.

We offer our New Mandt Oscillating Bob Sled as the best Oscillating sled known to the trade. We are carrying the Mandt Bob this season in place of our last year's Cuckoo, as we believe the steel knees on this bob will give much better satisfaction than the cast knees on the Cuckoo. The runners are absolutely independent of each other, never bringing up solidly against obstructions, but going over them with ease and without a strain, thus securing the easiest draft and making it the easiest running sled manufactured.

We carry this bob in two sizes, 5 and 6-foot runners.

(Prices are either F. O. B., St. Cloud, Minn., or Minneapolis.)
