THE DOMESTIC DEPARTMENT.

Hints of Information Which May Come in Handy in the Work of the Housekeeper.

A little charcoal mixed with clear water is an effective preparation with which to disinfect or deodorize a sink.

When a stylographic pen sticks and refuses to unclap, hold it over a lighted match for a moment, and it will loosen, says the Brooklyn Eagle.

For the use of the pastry cook an improvement on the old style beating spoon is one supplied with short prongs for creaming butter and sugar.

Effervescent tea is the name given to a temperance beverage recently introduced in England, and which is said to be extremely pleasant and refreshing.

The hop vine is a favorite subject for study by the mineral painter, and an exquisite little stein in faint brown shades with a hop vine decoration in delicate green is exceedingly artistic.

From Germany comes the suggestion of the use of glass tubs in the bathroom. The models already adopted are transluscent, about two and a half inches thick and annealed so as to be durable.

Exceeding pretty, although rather showy, are the new lamp shades, composed of cut glass beads in attic effect, finished with a scalloped edge at the top and deep fringe. They come in various colors.

For shading the candles, which have become a recognized feature of dinner table decoration, even on informal occasions, there are solid globes of paper sweet peas, mingled with a few moss rosebuds.

If the glass stopper of a bottle seems immovable, put a drop or two of glycerin in the crevice around the stopper and and await the result. In an hour or two is will be a comparatively easy matter to remove the stopper.

A novelty in Irish point curtains shows colored designs upon a black net foundation in stained glass effect. One such pair is an exact copy of a famous memorial window, even the "leas" being initiated.

Egyptian net is the newest thing in the curtain line and is so named because the distinctive decoration is a star on a groundwork of net. Curtains of this fabric are ruffled along the edge and are particularly good for bedroom or boudoir use.

EVERYTHING UNDER ONE ROOF

Surprising Discovery of a Man from Up the State in New York Hotel.

"I never appreciated the completeness of your big hotels," said the traveler from up the state, relates the New York Sun, "so much as this trip.

"I got in about seven one night and went to one of them. I had to get into my evening clothes in a hurry and hustle to keep an appointment.

"I'd just begun to get ready when I discovered that I couldn't open my trunk. Something was wrong with the lock and I thought I was up against it for fair.

"On general principles, I hit the button for a bellboy and told my troubles.

"'Is that all?' he says. 'I'll send the locksmith up in a minute.'

"'Do you keep a locksmith on all the time?' I asked.

"'Sure,' he says.

"In about five minutes a man floated in with an outfit that would have opened a burglar-proof vault. He had the trunk open while I was taking off my coat and vest.

"That that wasn't all. He had to take the lock off, so I said:

"'Where'll I send this to now so's I can get a new lock on in a hurry tomorrow?'

"'Send it out!' he says. 'You don't need to. I'm only the night locksmith, and I haven't got all the tools handy, but if you'll send for the day locksmith in the morning he'll put a new lock on it for you in a few minutes.'

"And he did. Maybe that's nothing new for you New Yorkers, but to a man from a cross-roads village like Rochester, it seemed about the limit on having everything under one roof."

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's catarrh cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
