The Democratic candidates for county offices in Iron county have tried to get an agreement with their Republican opponents not to make a "whoop-an-holler" campaign. When Democrats reform themselves to that effect it is evident that the political reformers are almost here. We wonder if it has struck this county.

Two colored campaign orators, Hon. J. T. Caston, of Jefferson City, and Hon. A. W. Lloyd, of St. Louis, addressed the colored voters of Potosi at the Colored Church Tuesday evening. Considering the good attendance present and the speeches were fine. Much enthusiasm was evoked by the speakers with their telling points in favor of maintaining the Republican party in power.

Desmond Black of Goodland, Iron county, has sold his farm of 1200 acres to Mr. A. V. Parker, of Lesterville, for $7,500. The land is said to contain good deposits of zinc ore, and Mr. Black states that Parker is really only the representative of the St. Joseph Lead Co., of Bonne Terre, that corporation being the actual purchaser of the tract. The new railroad now being built in that direction from Bismarck will traverse the land.

Organize Mothers' Circle at Hopewell.

The writer, with Mrs. W. E. Brookecke and Mrs. J. T. Rice of Irondale, visited the Hopewell school last Friday and while there organized a Mothers' Circle, assisted by the teacher, Miss Maggie Whelan. The following officers head the organization:

Miss Maggie Whelan, president.
Miss Louise Paul, vice-president.
Miss Maud Hawkins, secretary.
Mrs. Clara Bass, treasurer.

A very enthusiastic crowd of mothers was present to be taken into the organization, and we feel certain that much good will be accomplished by their interest and assistance.

A Pick and Shovel Club and a Junior Builder Club were also organized at the same time.

Prof. B. Fox of Potosi was present and delivered a most interesting address. Mrs. J. T. Rice read an article entitled, "The Mothers Duty to the District School," which said in part that the most improvements are brought about by parents visiting with the teacher, not by criticising or attacking the district board officers, and through mutual force, by the force of facts as to benefits derived from such a course, inviting the controlling power of the district to give the country school children what they are justly entitled to.

It is their purpose to begin grading on the new railroad there at once and keep the construction crew that is working out from this direction, and as soon as the roadbed is completed and the rails laid trains will be put in operation over the new line stretch of the new line between here and Caledonia at the earliest possible moment.

HOW WOULD YOU LIKE TO OWN A GOOD FARM?

How did your neighbor get his? Either he or some ancestor of his were SAVERS.

Saving is not altogether a pleasure and a joy to those who practice it. It means sacrifice, and self-denial. But it is a virtue for the young, and a necessity for all who would prepare for that period of life when the earning power is past.

If you will open a bank account, and persistently save, you can eventually be a land-owner and your own boss.

TEACHERS ASSOCIATION.

I have received requests from a few teachers asking to be excused from attending the Teachers Association to be held on Oct. 17th, 18th, and 19th. I have no authority to do this. The law makes it obligatory upon the teachers of the County to attend these meetings and the teachers, at their last County meeting, requested me to enforce the law. Under the law, the teacher is entitled to his two days pay for attending this Association.

Districts are as much required to pay their teachers for their two days attendance at the County Association as to pay them for regular work when the monthly report is filed.

Directors can not legally pay teachers for these days unless they present a certificate from the County Superintendent showing they were present at each session.

Patrons who want good seed corn should be present on the 19th, at the conclusion of the Children's Corn Farm, when the exhibit will be sold.

School officers should be present at the Association on the afternoon of Oct. 19th, when their duties will be discussed.

The Mothers' Club session to be held on the 18th, beginning at 7 p. m. will be of interest to all who are engaged in Child Welfare work.

Good speakers have been secured and the Superintendent asks that teachers, school patrons and others interested in bettering our public schools.

The premiums awarded at the St. Louis Fair and the Pierce Chautauqua will be announced at the Association.

B. FOX,
County Superintendent.

INDIRECT EYE TREATMENT

While came home in the middle of the forenoon bearing this note to his stern parent:

"Dear Sir: It becomes my painful duty to inform you that your son, William, shows decided indications of astigmatism, and his case should be attended to without delay."

The stern parent wrote beneath this message the following and sent Willie with it to the teacher: "Wump it out of the little cuss."

Can't Scheme For Booze.

During our Circuit Court last week Judge Huck found William Gholson guilty of violating the Local Option Law upon the following agreed statement of facts:

On July 4, 1912, defendant met Charles Crosslin in the city of Fredericktown, who remarked that he, Crosslin, would like to have a drink, whereupon Gholson said that he too would like to have one, and then Crosslin said he had 25 cents to contribute toward buying some whiskey if Gholson could get a prescription. Gholson said he would try, and he Crosslin to see if he could find some other parties to help buy the liquor. When Gholson returned with the prescription, Crosslin had found two other parties, John Francis and John McCarver, and the three each contributed 25 cents, which amount was handed to Gholson and he bought a pint of whiskey, and then the four drank the whiskey.

The information in this case was filed under Section 7227, which reads as follows:

"No person shall keep, store or deliver for or to another person in any county that has adopted or may hereafter adopt the local option law, any intoxicating liquors of any kind whatsoever."

In construing that section our Supreme Court has held that while a person has a right to order liquor for his own or family use, where such liquor is sent direct to the person using the same, the law contemplates that the buyer shall deal in his own name with the seller and that the seller shall send the whiskey direct to the buyer, knowing to whom he is sending it.

Following that decision Judge Huck found Gholson guilty of delivering liquor to Crosslin and assessed his punishment at a fine of $100 and cost, and granted a stay of the fine.

The judge stated that persons who take prescriptions for booze to a drug store to be filled, for persons other than themselves, must state to the party filling the prescription who the booze is for, if not for their own immediate use and delivers the same to them.—Fredericktown Dem. News.
