MARRIAGE GUIDE

His Loss was Her Gain.

"Well madam," said a fashionable physician to a wealth lady patient, "if you don't like my prescriptions, perhaps you had better try Parker's Tonic, or some other quack stuff" "You don't mean it Doctor," she answered, "but your advice may be good for all that. Sometimes what you call 'quack stuff' is the best and most scientific medicine after all." She got a bottle of Parker's Tonic and it cured her of neuralgia arising from disordered stomach and nerves. She told her friends, and now they all keep a doctor at home in the form of Parker's Tonic.

Parker's Pleasant Worm Syrup Never Fails

DR. JOHN BULL'S Smith's Tonic Syrup

FOR THE CURE OF FEVER and AGUE Or CHILLS and FEVER, AND ALL MALARIAL DISEASES.

The proprietor of this celebrated medicine justly claims for it a superiority over all remedies ever offered to the public for the SAFE, CERTAIN, SPEEDY and PERMANENT cure of Ague and Fever, or Chill and Fever, whether of short or long standing. He refers to the entire Western and Southern country to bear him testimony to the truth of the assertion that in no case whatever will it fail to cure if the directions are strictly followed and carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by a single bottle, with a perfect restoration of the general health. It is, however, prudent, and in every case more certain to cure, if its use is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long standing cases. Usually this medicine will not require any aid to keep the bowels in good order. Should the patient, however, require a cathartic medicine, after having taken three or four doses of the Tonic, a single dose of BULL'S VEGETABLE FAMILY PILLS will be sufficient.

BULL'S SARSAPARILLA is the old and reliable remedy for impurities of the blood and Scrofulous affections—the King of Blood Purifiers.

DR. JOHN BULL'S VEGETABLE WORM DESTROYER is prepared in the form of candy drops, attractive to the sight and pleasant to the taste.

SKY SCRAPING.

Wheat Jumps Up in Price Fully 5 1-4 Cents at Chicago.

CHICAGO, April 9.—It has been a day of the greatest excitement in speculative circles. Wheat opened all the way from 1 to 3c higher this morning than the latest of yesterday, with traders wild. The cause was a sudden drop in English consols on the report that the Russians had attacked one of the Afghan frontier posts.

At first the news was unconfirmed and the feeling was feverish. Soon, however, advices from official sources came in and speculators took hold with a will. Each cable was more warlike than its predecessor in nothing the feeling of the English people and the preparations for a gigantic and bitter war.

The market, strengthened by yesterday's unfavorable crop reports, was in a condition to respond quickly, and from the tap of the bell the floor of the exchange presented a scene of excitement never experienced in its history. Prices went up 4c in less than half an hour and the panic in the bear ranks was beyond description. There was a wild rush to cover and buying orders came pouring in from the outside. It is impossible to tell who the heavy purchasers were. Every member on the board seemed to be a buyer, and anxious to take everything he could get. The pit was a mass of yelling, sweltering humanity, and could customers at a distance have seen the mob and the telegraph operators buried in dispatches, they would have wondered how anything at all could be done.

Prices eased off a trifle from the very top but the advance for the day is fully 5 1-4c. To night it is hard to find a bear about the exchange. All declare wheat likely to sell above $1 before the new crop comes. Some say $1 30 and few dare say it will not. Commission houses almost unanimously are sending out dispatches admonishing their patrons against selling short at present. All agree that a formal declaration of war would be likely to induce a quick purchase of the surplus here by England and other European countries, leaving this country with the prospect of a short crop which would probably cause a bull market for some time.

CORN.

jumped up 1 3-4c and displayed some of its old time activity. Baxter, Warren & Fleming were heavy buyers, and the only reason that the advance was not more marked was because the short interest was so small. As heretofore, however, the friends of this article predict a steady and continued advance on supply and demand.

Origin of The Riel Rebellion.

In dealing with the present rebellion in the Canadian Northwest it is fair to ignore all the wild stories of Louis Riel's sedicious proclivities, and look directly at the demands of the half-breeds. In the first place it is not Manitoba that the Dominion is called upon to fight, but the settlements running almost 1000 miles northwest of Winnipeg on the Saskatchewan river, beyond the Manitoban boundary. The present outbreak is but a repetition of the rebellion of 1869, which was mainly a land fight. All of the Canadian Northwest was governed up to that year by the Hudson's Bay company, which sold out to the Canadian government for $15,000,000. The rule among the half-breeds was to locate their lands upon the rivers, the frontage being small, but the farms running back in some cases several miles. When the Canadian government got control it sent out surveyors to cut the country up into square blocks, entirely ignoring the river frontage. This, it will be remembered, was in the boundaries of Manitoba. The story of how the fiery, handsome and Catholic-educated Louis Riel put his foot on the surveyor's chain near Winnipeg and ordered him to stop, is one of the pictures of the rebellion of 1869 A rising was ordered, and a bill of rights drawn. The result of the matter was that while Riel was banished, and most of the demands for special provincial privileges were ignored, awards were made for disturbing the river frontage by granting the half-breeds each 240 acres of land. But this law, passed in 1870, applied to Manitoba only. Now the Northwest is filling up, and the same frontage system is being ignored. The present outbreak is therefore a repetition of the rebellion of 1869, led by the same man, with substantially the same demands. The French half-breeds want to be put under the land law of 1870, and this explains the coolness of the French Canadians toward the government in its efforts to suppress the rebellion.
