THE COURT OF APPEALS.

The Kansas City Court of Appeals has jurisdiction over the west 57 counties of the State. There are but two candidates for the Democratic nomination for Judge of this court; viz: Judge J. L. Smith, of Kansas City, and Judge H. C. Timmonds, of Lamar. Judge Smith is the present incumbent, and is a candidate for a third term. Before he went on the bench he served one term of four years as Attorney General. In 1886 he was elected Judge of the Court of Appeals, and, by lot, drew the short term of four years; in 1892 he was again elected for a full term, which is twelve years. So, up to date, he has held state office for twenty years, and if given another 12 year term, that would make in all thirty two years, and at that term he would be eighty years of age.

Judge Timmonds is judge of the 29th judicial circuit, composed of the counties of Barton, Cedar, Dade and Vernon. He is the judge who was called to Jefferson City last summer to try Senator Sullivan for soliciting a bribe for his vote in the senate. Sullivan is the only member of the legislature who has yet been convicted. Commenting on that trial, the Bar Monthly, a lawyers' magazine published at Kansas City, uses the following complimentary language:

"Judge Timmonds presided at the trial of Senator Sullivan, at Jefferson City, last August. At that trial Senator Sullivan was convicted of soliciting a bribe, to influence his vote as a senator on a certain bill pending before the Senate. In the absence of any statutory provision declaring the solicitation of a bribe by a public officer to be a crime, the principal legal question involved in that case was whether such conduct is punishable in this state as a common law misdemeanor. Judge Timmonds held it to be a common law offense, and, as such, punishable in Missouri. It was the first and only time the question was ever passed upon by any court in this state, and the written opinion handed down by Judge Timmonds was such a clear, logical and satisfactory disposition of the question as to receive wide publication and favorable comment in the metropolitan press of the state and attract the attention and interest of members of the bar generally."

So far, eighteen counties have elected and instructed their delegates to the Court of Appeals convention, which meets at Hollis Springs, July 26th. These counties are as follows:

GEO. C. ORCHARD.

Candidate for State Treasurer. Popular Southeast Missouri Democrat visits Morgan County and makes many Friends.

George C. Orchard of Poplar Bluff, Mo., candidate for the Democratic nomination for State Treasurer, visited Morgan county this week, met a number of Democrats and made many friends. Mr. Orchard is a life long, working Democrat and this is the first time he has ever asked a nomination from the Democracy of Missouri. He is the only candidate for a State office from the Southeast part of the State and is shaping fully upon a big majority for the ticket. Mr. Orchard is the leading candidate for State Treasurer and his strength, like Mr. Folk's sweeping victory, over the State, is not confined to any part of it.

He is strong with the people in every county and his nomination is generally conceded. Mr. Orchard has plenty of assuming manner of a student. Democrat and his visit to Morgan county will be kindly remembered by the Democrats of the county. He is carrying county after county from the Arkansas border to the Iowa line, and he now has a good lead in the race. Last Saturday Mr. Orchard carried the big Democratic county of Callaway. He has at present 11 delegates instructed and committed to his support and less than half the counties of the State have selected.

Mr. Orchard's Morgan County friends will give him active and earnest support at the primaries Saturday and it is believed he will carry the county by a good majority.

HON. JAMES COWGILL,

Of Kansas City, Candidate for State Treasurer.

We take pleasure in presenting to our readers the name of Hon. James Cowgill of Kansas City, for State Treasurer of Missouri. Mr. Cowgill has been in Morgan County this week for the purpose of becoming acquainted with our business men, farmers and stock men. He has been identified with farming and stock interests in this state with excellent success, and in general business affairs is well and favorably known. He has been recognized as a man of superior judgment, has filled several honorable positions, and is well qualified for the office of State Treasurer.

In 1882 he was elected Presiding Judge of the county court of Caldwell county, overcoming a Republican majority of 400. He discharged the duties of that office with fidelity, reflecting credit upon himself, giving entire satisfaction to his constituency.

In 1890 the Democracy of Caldwell county honored him by placing his name at the head of their ticket as the representative of the county in the 36th General Assembly, which action was ratified by the people at the ensuing election, notwithstanding there were two other tickets in the field, the Peoples party and the Republican, the latter having a majority of every one in the county. He was the first Democrat elected to the office of Representative from this county in 12 years. He filled the office with credit to himself and to the interest of all the people. He was one of the most popular men in the State Legislature and made friends with thousands of people throughout the state for his honorable and upright course while in the House.

In 1892 he was honored by his party in electing him Railroad and Warehouse Commissioner, which office he filled with credit to himself and party for six years.

RICHLAND.

Several of our farmers delivered logs at Glenstal Monday.

Miss Mary Parks who is teaching at Glenstal was at home sick last week but resumed her duties on Monday.

Prof. A. W. Parks came in Saturday and was shaking hands with his many friends at Sunday School on Sunday. This writer had the pleasure of looking through a part of his large collection of curios and relics which he brings from the other side of the globe, some of the most striking being a fine sword cane, a very rich silk Japanese robe and several Philippine suits, hats, etc. He also has a large number of pictures he had taken himself, showing the customs of the natives in the Philippine Islands, and is now engaged in giving illustrated stereopticon lectures throughout the United States and expects to give several lectures in this part in the near future.

Voters, look about the primaries on Saturday! Are you going just close by your actions that you do not believe in the kind of government we have been having.

Rally boys, and let them see on the other hand that you stand pat and vote for a pure and free government such as our forefathers, the founders of old imperial Missouri intended it should have. Down with corruption and up with a pure and free government.

Freezers and Mowers.

A smiling young Miss and a gallant Romeo,
Sat in the front yard, or at least on the portico,
They first ate cream from an up-to-date freezer,
Then they tripped over the grass and lothario squeezed her.
The grass had been nipped by a first class machine
Such as Tice Duff keeps to make the grass look green.
A freezer of cream on a nice neat lawn,
Is good for a lover or a workman of brawn;
An up-to-date freezer must mix up the cream,
Then a smooth running mower shaves the grass like a dream.
There's all kinds of freezers and mowers, you know,
Some clog, others wobble, and swing too and fro.
But if you want freezers or mowers just right,
Call on Tice Duff, his stock's out of sight.
