LAKE CHAMPLAIN CABLE.

Plans of N. E. Telephone Co. to Connect Burlington With Plattsburg.

Burlington, Nov. 27.—Plans are being drafted by the New England Telephone & Telegraph company for the laying of a submarine cable across Lake Champlain next season. The route of the line, which is designed to connect Burlington with Plattsburg, N. Y., will be north from here through the islands to a point nearly opposite Plattsburg, and thence across the lake.

The new building being erected here by the company will be ready for occupancy by the division offices January 1, and the exchange will be transferred early in the spring. Large additions to the Burlington service will be made then, when the common battery system will be installed as a feature.

Rheumatism Cannot Be Cured Unless Uric-O is Used

The Red Cross Pharmacy is the Home of Uric-O in Barre.

The Rheumatic person is skeptical regarding the claims of almost any remedy advertised as a cure for Rheumatism and one can scarcely blame him for being so. All the plasters and liniments, embrocations and lotions never actually cured a case of Rheumatism. They may relieve it in one quarter; but it is sure to break out somewhere else. The only true way to cure Rheumatism is to drive it from the system, for as long as the Uric acid Rheumatic Acid remains in the blood one is never entirely free from the trouble. This is where the value of Uric-O as a permanent cure for Rheumatism comes in. It seeks out the Rheumatic poison in the blood, muscles and kidneys, renders it inert and harmless and drives it out of the system. That is why Uric-O is such an admirable and effective cure for Rheumatism.

The chief reason that Uric-O is such a wonderful cure for Rheumatism is that it is designed and prepared to cure Rheumatism and Rheumatism only. It does not contain any alcohol or other so-called tonics to make one "feel good" for the time being, but is composed of antidotes for the rheumatic acid poison in the system. This is the secret of its wonderful success. Rheumatism simply cannot exist in a person's system if Uric-O is used.

Uric-O is sold by The Red Cross Pharmacy, "The home of Uric-O" in Barre, at 50c and $1.00 the bottle, but if you still feel skeptical about its efficacy you can test it free of charge by cutting out this advertisement and sending same, together with your name and address, to the Smith Drug Co., Syracuse, N. Y., and they will send you a sample bottle free. To persons who write and say they have never used Uric-O, want to test it thoroughly and will agree to take it systematically according to directions, they frequently send a regular 50c bottle free.

Gov. Bell's Report at Grange Meeting.

The following recently appeared in The Denver Times in connection with a report of the meeting of the National Grange held at that city.

"In presenting this, my annual report, I come to you with only words of encouragement, for Vermont, during the year just passed, has only been doing things to make the order and its individual membership stronger for itself and with its neighbors. Fifteen subordinate Granges have been organized and many of the older Granges are adding new members to their roll. We do not think for a moment that additional movements always bring prosperity, for some of the smaller Granges, situated in the right sections, are improving their conditions and enlarging their influence for good.

"Two Pomona Granges have been organized with a large membership, one of these being named the Hazen Road Pomona Grange, named for a military road cut through the wilderness to Canada by Gen. Hazen, from orders issued by Gen. George Washington in the times of the Revolution, a large portion of this road still being in use and leading through a fine farming section. This Grange erected a fine granite monument within the limits of the highway in the town of Hardwick, that in the centuries to come the passerby may know that soldiers of the Revolution once passed that way, and also that such a Pomona Grange was also interested in historic matters.

"The Grange is much interested in local, state and national affairs, and schooling themselves in much that pertains to a more successful agriculture. Our school conditions are being improved, elementary agriculture and manual training schools are being considered. The legislature now in session will, I doubt not, before it adjourns, provide more funds and some new conditions to keep pace with the times.

"Good roads we are all interested in, and are continually improving our highways. Many, if not all of the states west of New England might learn from us regarding the improvement and care of highways.

"We are a state that once was burdened with timber, now interested in forestry, and are asking the woodsmen to spare that tree. If the young forests can be preserved a generation following can reap a rich harvest of spruce, fir and hemlock.

"The meetings of the many Granges add much of intelligence and social improvement, which, if properly continued, will be of great benefit to those who follow us.

"Our aim is to set the standard high and reach as near the mark as possible."

MUSHROOM CULTURE.

A Winter Crop Grown in Boxes in the Forcing Shed.

Mushrooms may be grown in boxes set on shelves arranged in the forcing shed, protected from frost and freezing, but require neither light nor sunshine. Boxes two feet wide and four feet long and one foot deep may be used. Fill each box half full of horse manure from the stables. The manure should be very dry, thoroughly pulverized and packed firmly in each box. Purchase a quantity of mushroom spawn brick at the seed store. As soon as the manure begins to heat break the spawn bricks each one into three pieces. Lay the pieces about four inches apart upon the surface of the manure in each box. Probably in about six days the side of the spawns next to the manure will begin to run downward. As soon as this occurs place a layer of finely pulverized horse manure over the surface of each box, covering the spawns. Beat the manure down firmly and in about two weeks put the mold on top. This must be two and one-half inches deep, well beaten down and made even on top. This should be moistened with lukewarm water. The mushrooms will be plentiful for two months if the contents of the box are kept moist.

After the rhubarb and asparagus have been removed in spring from the forcing shed to the garden the forcing shed may be converted into a mushroom garden for the summer and fall, the shade provided by it being one of the necessary things in mushroom culture, writes a grower in Ohio Farmer.

Farm Brevities.

The cheap scrub is the dearest animal on the farm.

If you are moving an old fence, fill the post holes at once.

Half the families who own their own homes are farmers.

The corn crop alone is enough to make you thankful.

Farming and wearing out the soil are two different things.

Feeding whole corn is practically wasting part of the feed.—Kimball's Dairy Farmer.

Cervantes.

Cervantes composed the most agreeable book in the Spanish language during his captivity in Barbary.

ABOUT THE STATE.

Items of Interest Gleaned From Our Exchanges.

Charles W. Allen, of Derby, an employee of the Boston & Maine railroad Co., has filed a petition in bankruptcy. He has liabilities of $303 and assets of $93.

Mrs. Harriet Holley Gilbert, of Dorset, celebrated her ninety-second birthday anniversary November 2. Her son, Prof. G. H. Gilbert, of Northampton, Mass., with his little son, Arthur, was with her on the occasion. Mrs. Gilbert is a "real" daughter of the American Revolution.

Judge John H. Watson, of Montpelier, who is expected will preside over the December term of Bennington county court, has not been in the county at court since the December term in 1902, when he presided over the court that convicted Mary Rogers and imposed the sentence on her.

Word has been received that Bishop Charles Henry Fowler, of New York, of the Methodist church, who was scheduled to preside at the session of the Vermont Methodist Conference to be held at St. Johnsbury in April, is very ill of Bright's disease and in all probability will not be able to preside.

The Rutland Railroad Co., is having serious difficulty on account of the scarcity of freight cars. Rutland firms are embarrassed because of the difficulty in getting out shipments and in securing fuel. It is possible, unless relief comes soon, that some plants will have to be shut down temporarily.

"Jim" Daley, who was arrested on a charge of horse stealing at Island Pond, as the result of a hearing was held in the sum of $500 for the action of the county court. Unable to procure the required bond he was committed to Guildhall jail. He asserted that he was no thief, but merely used the team to go to North Stratford, N. H., for "booze."

Fenwick W. Watkins, of Burlington, a colored student and a member of the sophomore class, has been elected captain of the University of Vermont football team for next season. This is the first time in the history of athletics at the institution that a colored man has been offered the captaincy of an athletic team. He is said to be one of the most popular men in the college.

George E. Adams, for six years manager of the E. Crosby & Co., flour and grain warehouse at Brattleboro has bought the wholesale flour, feed and provision business of Van Deusen & Foley of Springfield, Mass. He will move to Springfield about December 10, and will organize a stock company to carry on the business. Mr. Adams is one of Brattleboro's rising young business men.

The opening of the next term of the Windsor county court is set for December 4, the Hon. James M. Tyler, of Brattleboro, presiding, and the Hon. Charles H. Maxim, of Pomfret, and the Hon. Milo S. Buck, of Cavendish, assistant judges. The county court docket contains 296 cases. Of the 246 civil cases and fifty state cases, forty-nine are set for jury trial. The court of chancery has 34 cases. There are fifty-two divorce cases, of which thirty nine are old entries. Of the state cases, five are for burglary, eighteen are liquor or intoxication cases, and five are for adultery, the larger part of the others being for larceny.

GOT HIS HAIR BACK.

Was Perfectly Bald When He Started to Use Newbro's Herpicide.

Frederick Mannell, Maryland block, Butte, Montana, bought a bottle of Newbro's Herpicide, April 8, '06, and began to use it for entire baldness. The hair follicles in his scalp were not dead and in 30 days he had hair all over his head. On July 3 he writes, "and today my hair is as thick and luxuriant as any one could wish." Newbro's Herpicide works on an old principle and with a new discovery—destroy the cause and you remove the effect. Herpicide destroys the germ that causes dandruff, falling hair and finally baldness, so that with the cause gone the effect cannot remain. Stops falling hair at once and a new growth starts. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Rickert & Wells, Special Agents.

Theatrical Folks Wed.

New York, Nov. 27.—Harry S. Smith, author of the libretto of many of the light opera and musical comedy successes of recent years, yesterday said that he was married in Boston last Friday to Miss Irene Bentley, who is at present playing at the Colonial theatre, Boston, in "The Belle of Mayfair." Mr. Smith returned from Boston Sunday night.

Had a Close Call.

"A dangerous surgical operation, involving the removal of a malignant ulcer as large as my hand from my daughter's hip, was prevented by the application of Bucklen's Arnica Salve," says A. C. Stickel of Miletus, W. Va. "Persistent use of the salve completely cured it." Cures cuts, burns and injuries. 25c at Red Cross pharmacy.
