Covering Capacity Means Less Coats of Paint

B. P. S. Paint is exceptionally strong in covering power. By "covering power" is meant the ability of paint to completely hide or cover up the old, dirty and disfigured surface.

The better the covering power of paint, the fewer coats needed—the weaker the paint, the more coats needed—and the more coats applied, the bigger the paint bill. Further, the more coats applied on a building, the thicker the coating of paint, the thick paint is always liable to blister and peel. The thinner the paint is applied—so long as the surface is covered—the better.

On account of its strong covering power two coats of B. S. P. Paint will produce a more solid, even surface—will cover better—than three coats of improperly made, hand-mixed or prepared paint.

The reason B. P. S. Paint has such strong covering capacity—money-saving ability—is due to the fact that,

1st—It is made on a perfect formula, containing just the right proportions of lead, zinc, and linseed oil;

2d—It is so thoroughly mixed and finely ground that it spreads out easily, covering evenly and smoothly every part of the surface to which it is applied.

Money is saved or wasted according as paint has or has not good covering capacity.

Save money by using B. P. S. Paint. Owing to the purity of materials used, perfect formula, and absolute accuracy and thoroughness of mixing and grinding, B. P. S. Paint gives the best possible results in easy-working qualities, covering and spreading capacity, fine finish and durability.

A. A. Smith & Bro. respectfully call your attention to the enormous cut price sale now on at their store. Their $2.98 shoes for ladies and gentlemen have become extensively known throughout the state of Vermont and justly so as you save from 52c to $1.02 on every pair you buy, and this fact has created a demand for this line of shoes that exceeds the most extravagant expectations, and, best of all, they are like old friends, "They wear well." Why pay $1.50 to have your shoes tapped when you can buy a $2.50 or $3.00 shoe at $1.98? Prices in children's shoes cut accordingly. Spring shirts that formerly sold for $1.25 now 89c. Lot 75c shirts, 49c. They can save you 25 per cent. to 35 per cent. on Waltham watches, charms, rings, or anything in the jewelry line. Get their prices and prove the statement for yourself. See their advertisement on page 5 of this issue.
