YANKTON DAILY PRESS AND DAKOTAIAN.

Vol. 1. YANKTON, DAKOTA TERRITORY, SATURDAY EVENING, OCTOBER 16, 1875. No. 150.

GENERAL NEWS.

The Indianapolis Journal has changed proprietorship.

Boston Corbett, who shot Wilkes Booth, has settled in Chicago.

The Cincinnati Enquirer says the time has come to split up the old parties.

The republicans of Massachusetts feel confident of carrying the old Bay state this fall.

Woodbury county, Iowa, voted against the herd law and the bridge tax.

A national hard money convention will be held at Cincinnati, October 25th.

Jay Gould, Sidney Dillon, Robt. E. Carr and Oliver Ames, who guide the destinies of the U. P. R. R., have been out west and returned east by way of the K. P. from Denver, reaching Kansas City Thursday evening. Immediately on their arrival the directors' car in which they were traveling was attached for $650, owing by the Union Pacific R. R. company to a wholesale firm in that town. Gould and Carr gave bonds and the car was released.

Dr. Saunders, of Clinton, La., was poisoned on the 11th with a solution of arsenic administered by Catherine Mathews, sister-in-law of John Gair. Gair and Robert Ray were arrested at Baton Rouge for instigating the act, and the authorities were taking them to Clinton, La., when they were met by a body of fifty armed men, who took Gair from the sheriff and shot him. The same night, the woman who administered the poison, was hung.

The Fastest Three Heats on Record.

At the special meeting of the Rochester (N. Y.) driving park, on Thursday, Lulu trotted against the time of 2:14 for a purse of $2,000. A large amount was invested in pools, three to one that she would not beat 2:14, two to one that she would not beat 2:15, and even up that she would not beat 2:16. She trotted the three heats with a running horse accompanying her in 2:16½; 2:14¾; 2:16, the fastest three heats on record The last half mile of the second heat was trotted dead against a heavy wind. Were it not for this Lulu would have beaten 2:14 badly.

Law and Order at Little Rock.

Chicago Inter Ocean, 14th.

A change seems to have come over the spirit of the Arkansas Leaguers. Last night at Little Rock three colored men were wantonly attacked, one of them killed outright, another mortally wounded, and the third slightly wounded. Two of the white men who were engaged in the killing were arrested and lodged in jail. The citizens for once discovered that a "nigger" had some claims to life, and an indignation meeting was called to express the sense of the community. The stores were for the time being closed, and a great multitude assembled. It was resolved that the assassins ought to be punished for their crime, and it was agreed that the law should be enforced to that end. The action of this meeting, composed of citizens of all parties and all colors, is especially significant, and indicates that the teachings of the INTER OCEAN have not been in vain. Let the Democrats at the South see to it that the murderers of colored people are punished in a few instances, and there will soon be an end of the massacres which have been frequent and so unjustifiable. We shall look with interest to see whether the people of Little Rock will permit their present ardor in favor of law and order to so far abate, as to finally release those whose crimes are so fiercely denounced now.

The Feeling Over the Elections.

WASHINGTON, Oct. 13.—The election news from Ohio and the northwest produces general satisfaction among republicans and dismay among democrats, but the result is not regarded as at all decisive as illustrating the popular feeling on the financial question. It is claimed that a very full vote was polled, and if such was the case, the republican majority, on a strict party vote, should have been much larger than it is, and it is estimated that fully twenty thousand republicans swallowed Allen in order to vote on the principal issue, as conscience and judgment dictated. Private dispatches received here from newspaper correspondents who have spent three months canvassing Ohio, place Hayes' majority between 5,000 and 10,000.

NEW YORK.

Sugar Refiners Rise to Explain.

NEW YORK, Oct. 16.—A meeting of the committee appointed by the sugar refiners Thursday was held yesterday, and it was decided to call a general meeting of refiners of the country, to be held in this city next Tuesday, for the purpose of taking such action as may be thought necessary to protect their interests. A careful investigation of the matter by a competent committee, which Secretary Bristow has promised to appoint, it is claimed, will show that no reduction of drawbacks ought to be made. That reduction is the amount retained by the government to cover the expenses of collecting the import duties, from one to ten per cent., which was made last March. It does not give American refiners undue advantage over their foreign competitors, but that it has only operated to stimulate American trade until it is beginning to assume a more healthy condition.

A TAR AND FEATHERING SCRAPE.

The Kelsey tar and feathering case which caused such commotion in this section at the time of its occurrence, has been disposed of. The Huntingdon, Long Island, jury, before whom George R. Banks and Royal Samnes were tried for riot and assault and battery on Chas. G. Kelsey, have returned a verdict of not guilty.

Wanted—Pork.

Vermillion Register, Oct. 15.

The corn crop in Dakota this year is more than double what it has ever been before. In addition to this, there is an immense amount of injured wheat, barley, and other small grain which is only fit for feed. This feed crop will not bear transportation, and there are no hogs in the country to eat it. Here is an opportunity for parties having a little means to double their money in a very few months. Our farmers want hogs; they must have them or allow their surplus feed to go to waste; they have not the money to send off for hogs, but if the hogs were here they could buy them in small quantities, and a mine of wealth could thus be introduced into the country. We are glad to know that this matter is attracting the attention of some of our moneyed men, and we trust it will receive prompt action on their part.
