WHEAT GAINS ON BULLISH REPORT

Assertions That the Argentine Crop Is Much Smaller Than Expected Boost Prices.

Chicago, Oct. 25.—Alarming reports that owing to greatly increased damage from drought the estimated Argentine exportable surplus had shrunk to a sensational extent brought about a rapid advance today in the wheat market here. In the speculative pit there seemed to be no limit to the way offerings were absorbed. Selling was only by profit takers. Opening prices, which ranged from 1/8c to 2 3/4c higher, with December at $1.80 to $1.81 1/2 and May at $1.79 3/4 to 1.81 were followed by a rise respectively to $1.84 and $1.83 3/4.

Subsequently, the market out did even the high prices attained in the Leiter "corner" of 1898. The extraordinary bulge, however, led to foreigners taking to the selling side and forcing a sharp setback in quotations. The close was weak at 1/4c to [illegible]c net advance with December at 1.80 to 1.80 3/4 and May at 1.80 1/4 to 1.80 1/2.

Although at first corn was weak, the market soon rose with wheat. Signs of increasing receipts caused the initial depression. After opening unchanged to 3/4c lower, prices sagged a little further and then scored a substantial general advance.

The strength in corn disappeared when wheat turned weak. The close was heavy at 1/4c to 2 1/4c net decline.

Oats showed strength from the start. The reason was active export demand.

Higher quotations on hogs gave firmness to provisions. There was no pressure to sell.
