County Agent Keeps Busy.

I. F. Gillmor, Mercer county's agriculturist, will be kept exceptionally busy the last of the week. Tomorrow, W. H. Smith of the animal husbandry department of the University of Illinois will be here and will visit as much of the county as possible on that day, looking over the herds. Mr. Smith had intended to put in several days here, but has found it impossible to do so on one trip. He will return at times when he can do so, and will complete the investigation a day or two at a time. On Thursday night Agent Gillmor will be in Burgess. He will meet the farmers of the Burgess vicinity in the town hall for the purpose of becoming better acquainted and of discussing important farm topics which may be broached. Friday Mr. Gillmor will go to Edgington to judge the grain at the community fair there. In the afternoon a farmers round table will be held and important matters discussed. On Saturday he will be in attendance at a meeting of the officers of the Mercer county farmers' institute, to be held at Norwood. The purpose of this meeting of officers will be to complete more definite plans for a farmers' institute, to be held in this county in the near future, probably the week of Dec. [illegible]

REST ROOMS ARE NEEDED FOR GIRLS

Social Service Department to Gather Paper and Rubber Saturday, Oct. 28, to Secure Funds.

A topic that is becoming of more general interest each day and one that is worthy of every woman's best thought and plan is that of a central place for gathering of the girls and young women of the city. There are at present nearly 1,000 members in the Rock Island Woman's club. These women are working together on various committees and in the departments and they are all more or less interested in music, in steel and in becoming more efficient household managers. They are interested in the civic and social betterment of the city. And they are finding, in gathering in this beneficial way, there are kept a mutual interest, discussion of which helps each one, and, too, they are discovering very nice people whom they had never known before. If the young women of the city could be gathered into a central place where new interests might be acquired, new acquaintances of mutual benefit be found, what good might not be accomplished?

There are playgrounds for the children, but is there offered a playground for the girls of the community who most clearly need one? Does the community offer them a club house where they may meet and entertain their friends? Is there any chance for inspiration and self expression? Any opportunity to broaden their minds? Where can a young girl who must spend several hours between trains spend her time unless she walks the streets? There has been no place provided, until very recently, when a room in the Association house was fitted for that purpose. This is a subject that should receive the most earnest thought of every citizen.

There is, however, at present a movement on foot for the establishment of a central rest room for young girls. The members of the social service department of the Rock Island Woman's club is working hard toward this end. They have set aside Saturday, Oct. 28, as paper and rubber day, and ask that all interested save the papers and rubber, tie them in bundles and place them on the curb at 1 o'clock that they may be collected by wagons sent out by the department. The committee members ask that bundles be kept in till 1 o'clock, however, and there will be less opportunity of them being lost.

HEBREW CLUB PLANS FOR BENEFIT DANCE

The regular meeting of the Young Men's Hebrew Association was held last night at the synagogue at Twenty-second street and Third avenue. In spite of the unfavorable weather quite a number attended. The association decided to give a benefit dance in the near future and a special meeting will be held tomorrow evening to determine the date. It is probable that the basement of the synagogue will be secured for temporary club rooms for the association and later on a model gymnasium will be fitted out.
