The Simple Life

has for its basis PERFECT HEALTH. The clear brain, the healthy stomach, the bodily organs exercising in harmony, are the first essentials of a Simple Life—

A LIFE OF PEACE AND SATISFACTION.

No one can know the pure delight of simple living whose nervous system is kept in a state of tension by Constipation, Indigestion, Dyspepsia, Biliousness and other diseases due to inaction of the liver.

The Simple Way to seek the Simple Life is to seek the remedy for these conditions. This remedy has been found in our great product—

ST. JOSEPH'S Liver Regulator

(In Both Liquid and Powder Form.)

It has made life brighter and happiness and peace possible when all was dark and distressed. It reaches the centers of life and purifies them. It encourages the liver, stomach and bowels to a freer and more natural activity.

It is the Simple Way to a Simple Life of Health, Peace, Contentment.

Many persons attest this fact who have realized its truth by actual experience.

St. Joseph's Liquid Liver Regulator is prompt in action, exceedingly palatable and pleasant to the taste. It is sold by druggists and dealers at 50 cents a bottle.

St. Joseph's Liver Regulator in powder form is put up in tight tin boxes and retails at 25 cents a box, five boxes for a dollar. It may be taken dry or made into a tea or pillets. Full directions accompany every bottle and box.

Colored People

Rev. S. G. Baker - - Editor

Adolphus Walker is the happiest man in town over the advent of a fine bouncing girl at his home, which was left by the stork on last Friday evening. Mother and babe are said to be doing very well.

The Rev. William Morgan preached a very interesting sermon to an appreciative audience at Bethel church last Sunday afternoon. His discourse was well received by all who heard him.

Mr. Silas Thompson, one of the most thrifty truckers of Garfield, was in the city last week, selling vegetables from his garden, which is known to be one among the finest in that section. Give us some more men of the Thompson type, and we will be greatly helped in the solution of the great problem that confronts us as a race in the midst of the peculiar environments to which we are subjected in these latter days.

Mr. and Mrs. William Dunn, of Glenwood, were in the city last Saturday evening circulating among their many friends.

Mr. A. M. Patterson was in the city last Saturday from Lake Helen. As usual, he was on business.

Mrs. M. M. Morrison, the assistant principal of our city graded school, made a very pleasant visit to her relatives and friends at Orlando last Thursday, returning Sunday.

Prof. F. F. Hadly, the principal of the Tampa graded school, spent Thanksgiving in the city with his relatives and friends. He returned on last Sunday night.

The Revs. L. B. Bacon and B. W. Phillips made their regular monthly trips to their churches last Sunday. They both express themselves as being successful in their work.

Mrs. Hettie Roundtree is on the sick list this week. Her host of friends hope to see her at her post of duty soon. She is a faithful member of Bethel church, and a member of Bright Star Court of H. of J.

It is somewhat encouraging to those who muse over the condition of affairs as they obtain in regard to our people as they struggle for a fair showing in this great republic to see the step that was recently taken by the friends of the race in Atlanta. It was there that the better class of the dominant race extended invitations to and arranged for the better class of persons of our race to purchase season tickets and to attend a certain high class theater at that city, where just not long since all classes of them denied admission into anything of that kind in that city. This is just what should be done at all times and in all places. Let the better class of those who have all the wealth, the power, the law, in their hands extend to the better class of our people a helping hand, and encourage them to be good, law-abiding citizens, and not class all together, and we assure them that there are some among us who are well deserving the encouragement that may be given us. Both races have elements among them that menace the peace and harmony and the safety of all alike. It is they who stir up strife and hatred between us and cause blood-shed and needless expenditure of money to keep them under subjection; while there are some among us who, regardless to the strenuous and varied conditions of their environment, adapt their modus operandi to the circumstances, try to make their own sunshine and prove themselves worthy of the trust reposed in them. It is this class who need help and encouragement.

The teachers and pupils of the Orange City school will give a concert and entertainment next Friday night at the school house, the proceeds of which will go to pay for their organ. Friends are asked to attend and help this worthy cause.

The Interstate Commerce commission has announced that a hearing will be given at Jacksonville December 20 to consider complaints which the Florida Growers' and Shippers' Protective Assn. has filed in regard to transportation rates maintained by the Florida East Coast railway. The East Coast Fruit & Vegetable Growers' Assn. will also take part in the proceedings in behalf of the shippers. The growers are demanding a readjustment of citrus fruit and vegetable rates in order that Florida products may compete on an equal basis with the crops produced in other sections of the country, particularly California.

THE NAVEL ORANGE.

As a little piece of history we reproduce the following from the Woman's National Daily, which may prove interesting and at the same time give information about a fruit that is in some demand on the northern market. Read this and you may learn something:

The first we know of the navel orange, which is very valuable not only on account of its fine quality and taste, but also because of its being seedless, is of a single tree that was found growing on the northern shore of the Mediterranean sea. This was about the year 1565, or nearly 350 years ago. A monk in a monastery in that far away country painted a picture of the fruit and wrote a description of it, both of which may be seen in the library of the Roman Catholic University at Washington, D. C. Grafts of this tree were taken to Spain by the Moors several hundred years ago, and from Spain the trees were carried to South America by the Spaniards.

No Boxes for Two.

Telephone girls sometimes glory in their mistakes, if there is a joke in consequence, says the Boston Record. The story is told by a telephone operator in one of the Boston exchanges about a man who asked her for the number of a local theater.

He got the wrong number, and without asking to whom he was talking he said: "Can't I get a box for two to-night?"

A startled voice answered him at the other end of the line. "We don't have boxes for two."

"Isn't this the theater?" he called, crossly.

"Why, no," was the answer, "this is an undertaking shop."

He cancelled his order.

The greatest danger from influenza is of its resulting in pneumonia. This can be obviated by using Chamberlain's Cough Remedy, as it not only cures influenza, but counteracts any tendency of the disease towards pneumonia. Sold by all Dealers.

Failed to Connect.

"Sir, I have no home," began the seedy looking man, according to the Philadelphia Ledger, "and—"

"No taxes to pay, no rent, no coal bills, no worry over the rise in milk prices! Permit me to congratulate you."

"I have no job, and—"

"Lucky chap! No danger of being fired."

"But I am serious. I have no money, and—"

"No temptation to spend it foolishly on able-bodied beggars. Why, you're a veritable child of fortune. Good day."

Many persons find themselves affected with a persistent cough after an attack of influenza. As this cough can be promptly cured by the use of Chamberlain's Cough Remedy, it should not be allowed to run on until it becomes troublesome. Sold by all Dealers.

If you are suffering from biliousness,

At last there has arisen a defender of the hookworm. He lives in Norfolk. He says the hookworm actually performs a good, even philanthropic, office. It keeps the blood thin, so people in hot climates can stand the fierce rays of the sun. Except for the hookworm there would be a great many cases of heat prostration where none is now known. By keeping the blood properly thinned, the hookworm gives those who harbor it time to be courteous and practice the amenities of life. This Norfolk philosopher thinks the Northern people need hookworms and offers to send them a supply.

A Hearty Appitite.

is what most babes have, but is of no benefit to them if they have worms. Be sure your baby is not troubled with them. Sure symptoms—always hungry, rings under the eyes, not gaining in weight and yellow complexion. A few doses of White's Cream Vermifuge will expell all worms. It is a positive cure and reliable. Price 25 cents per bottle. Sold by all druggists.

GROWS WALNUTS ON OAK TREES.

From the Sacramento Bee.

Up in Calaveras county there is a new kind of genius who might be called the walnut wizard. His name is E. M. Price and he grows them on oak trees. State Superintendent of Public Instruction Hyatt discovered him while attending a teachers' institute in Calaveras county last week.

From all accounts Price has done something almost as startling as Luther Burbank. Burbank made the peopling of the desert with spineless cactus possible and Price hopes to people the forest with walnuts.

The Kind You Have Always Bought

In Use For Over 30 Years.

THE CENTAUR COMPANY, 77 MURRAY STREET, NEW YORK CITY.

Price does not mean to plant walnut trees in the forest but to graft branches on oak trees and let them bear. His experiments so far have demonstrated the feasibility of such an enterprise. The oak trees all about his home in the Calaveras hills are engrafted with walnut stocks and some have grown fruit. None of the nuts have matured yet, however, and the puzzling question has arisen. When they are ripe what will they look like, walnuts or acorns? And what will they taste like, acorns or walnuts?

The walnuts Price has grown on ordinary trees are three times bigger than the walnuts in the markets. The result he has achieved by a long series of experiments. Price has improved the quality of other kinds of nuts.

The peculiar properties of Chamberlain's Cough Remedy have been thoroughly tested during epidemics of of influenza, and when it was taken in time we have not heard of a single case of pneumonia. Sold by All Druggists.

USEFUL CONTRIVANCE.

Mrs. DeFlat—Can you show me anything new in folding beds?

Dealer—Only this, madam, and it really is quite a success. On arising in the morning you touch a spring and it turns into a washstand and bath tub. After your bath you touch another spring, and it becomes a dressing case with a French plate mirror. If you breakfast in your room, a slight pressure will transform it into an extension table. After breakfast you press these buttons After breakfast you press these buttons at once, and you will have an upright piano. That's all it will do, except that when you die it can be changed into a rosewood coffin.—Tit-Bits

General Booth of the Salvation Army in a report says his organization can not handle one-tenth of the application for help. He says the conditions in London and throughout all England are the worsst in that country's history. One person out of every thirty-two in London is a pauper. One hundred thousand ablebodied workmen are starving with their families and hundreds of thousands of menare walking the streets. Even the jails are turning away men anxious for imprisonment with food and shelter. The increase of the unemployed is twelve per cent over last year. No work for the masses and the political turmoil over the Lloyd George budget is threatening the dsiolution of the House of Lords, and is paralyzing the recent incipient trade revival.
