Weekly Citizen

ALBUQUERQUE. - OCT. 21, 1893

We must irrigate or dry up.

No secret political party can succeed in this country.

The republicans will carry New York and Ohio this year.

Cuba is fortified and the people will attend to the rest.

Nothing but free coinage of silver at a ratio of 16 to 1 will put a stop to the silver agitation.

It is reported that Chas. W. Greene has wrecked the Bear Valley Irrigation company at Riverside, California.

The democrats of Kansas have abandoned the idea of fusion with any party, and are now voting straight tickets.

The census of India for 1891 shows the population to be 287,223,430; only 6 per cent of the entire number can read and write.

Cuba is a word for Cleveland and to Cleveland is going to California by refusing to enforce the law against cheap Chinese labor.

The future prosperity of New Mexico depends on irrigation. The people should carefully study the best systems and adopt them.

Professor Hilgard, of the agricultural college, is at the World's Fair, and is ready to render assistance to the New Mexico exhibitors.

New Mexico was not represented at the Los Angeles irrigation convention. None of the delegates appointed by the governor attended.

The irrigation convention this week at Los Angeles was well attended, and the proceedings are interesting to the dwellers in the arid region.

In E. Fascal effort is being made to force the gamblers into upstairs rooms. The idea is that the evil will be reduced by putting it out of sight.

Let the energies of our people be devoted to the upbuilding of our home interests and the territory, either as a territory or state, will prosper.

The corrected report shows that the Vigilant passed the Valkyrie at the last moment in the yacht race yesterday, and has won three straight races and the champion cup.

Only six out of the forty-four states are represented in the present congress entirely by native sons. They are Maine, Rhode Island, Delaware, Maryland, South Carolina and Louisiana.

The prospects are good for some very lively elections this fall, considering that it is an off year. The bulletins from Ohio, New York and Iowa will be almost as interesting as of yore.

Fires lose annually in this country in about $250,000,000, and the attending loss of life is appallingly large. It has been proposed that a college or colleges be founded for the instruction of firemen.

Peary has his victories as well as war. Three Choctaws were killed in the Indian territory in the course of a quiet discussion on the relative merits of three aces and a full hand. The Indian question seems to be settling itself.

The New York Herald and other leading newspapers have discarded the Associated Press telegrams, and rely entirely on the United Press report and special telegrams. The big monopoly is losing its grip on the newspapers.

Bradstreet's shows that the bank clearings for September, in consequence of the derangement of the past summer, are smaller than in any month for at least five years past, and certainly smaller than in any September since 1885.

Kansas City is agitating the making of ten parks connected by boulevards, which would make that city one of the prettiest in the country. If Chicago had had its park system it could not have made a success of the World's Fair.

Tom Offer is somewhat pushed for money, but it is willing to pay $50 a week to some competent man who will stand at the door and beat the life out of all brainless idiots who drop in to call attention to the little errors they have discovered in the paper.

The government spends $30,000 a year to educate the 2,000 pupils in the schools of Alaska. An effort is now being made to raise reindeer in that northern corner of the country, and within the last year or so 250 head have been brought over from Siberia.

It is proposed to take the Viking ship down the Mississippi. It is to go by canal into the Illinois, thence to the Mississippi to New Orleans and around the coast next spring to Boston, where a pilgrimage will be made to all places connected with Ericksen's visit. It will sail for Norway in time to celebrate their independence day, May 17.

British India has under cultivation 131,232,180 acres. According to Prof. Wallace of Edinburg, there are 80,000,000 more acres capable of reclamation by irrigation, and desirable for wheat and other crops. There are under public works 20,000,000 irrigated acres. Under private and native works and wells, there are at least 15,000,000 more so cultivated.

The Citizen's circulation throughout New Mexico and Arizona has been largely increased during the past few months. At present this paper's daily issue is greater than the combined issues of its local contemporaries. Those who are doubtful as to this are invited to call in during press hours and view the mammoth stack of papers which constitute the daily issue of The Citizen.

The amendment of Senator Squire of Washington is the best compromise yet proposed on the coinage question. It is really in the nature of a new bill, but its terms and provisions demonstrate that it has been the result of much study and careful preparation in order to satisfy both the radical extremists of either side of this overmuch debated question. By the terms of this amendment, American bullion, the product of the mines and refineries of the United States, may be deposited at any mint, providing the bullion is not worth less than $100, in exchange for standard dollars of the present weight. The value of the bullion is to be determined by the market price of silver on the day of the deposit, the difference between the commercial value and the face value of the coin to be retained by the government as seigniorage.

The Chicago Market is doing good work for the west. In its last issue it says: "New Mexico should be admitted to the Union as a state. The conditions are better than those of Wyoming were when she was recognized. Delegate Joseph has a good claim to admission. The citizens of Mexican descent are all loyal patriotic and reasonably intelligent. We should like to see a strong provision in any state enabling act for New Mexico, Arizona, Utah and Oklahoma recognizing the public control of natural waters and providing for the local administration of all waters and works, their ownership and supervision. It is time the territorial system was ended, and it would be a good thing to ignore the Indian Territory and let her come in sixteen states."

The hard times brought upon the people of Chicago by the attempt of the president and his advisers to secure the adoption of the single gold standard in the United States, has caused a vast number of people to think. If the government could see that the best thing it can do is to repeal the law providing for the purchase of silver, there will be a good deal saved in the next of July.

Texas overwhelmingly indorsed an anti-defiance, anti-force resolution, repeal the Sherman silver law. It was by the county that the people of Texas claimed for the United States, and claimed the liberty of speech and of the press. The question is the incidental one of a public question of the highest importance, the stability of the currency and the welfare of the country.

In speaking of municipal enterprises, the Kansas City Star says: "Public money is not to be expended for local enterprises. Every dollar taken out of the pockets of the people will be expended in opening the banks of the Missouri river to the society of Kansas City, which hundreds of thousands of dollars of public money have been spent."

"We congratulate President Cleveland and the country upon the suspension of gold exports, which administration papers, financial papers, closed mills, closed mines and hundreds of thousands of workingmen out of employment. This is suspicious, to say."

The post-office department is advertising for bids to carry the mails on the Star routes in New Mexico, Arizona, Utah and Idaho, from July 1, 1894, to June 30, 1898. Proposals will be received until 4 p. m., December 1st. Decisions will be announced on or before February 1, 1894.

There are several million pounds of wool produced annually in this territory that need scouring before being sent to eastern markets. Good business sense suggests the necessity of the establishment of wool scouring plants at two or three places in the territory.

THE RECLAMATION QUESTION.

The conservation of the flood waters which are annually going to waste and the reclamation of many thousands of acres in New Mexico should be the work of the general government. The rivers and harbors are improved at the expense and under the direction of the government in response to the demand of water traffic, and for the benefit of people residing in particular sections. Uncle Sam surely owes as much to the section of his country as to another and should not discriminate against the dwellers in the arid region in favor of those who reside in the humid bottoms of the Mississippi or on the gulf coast. He cannot in justice refuse to appropriate money for the reclamation of his arid domain. This matter should no more be left to private capital than should corporations be permitted to have title to and control of the great water courses of the country. It is as much the duty of the government to render, where possible, its arid lands available for cultivation and thus provide homes for industrious settlers, as it was to purchase and open for occupancy by home seekers, the Cherokee Strip.

The proper utilization of the water of this country for irrigation purposes is the country's hope, and the future development of New Mexico, as well as other arid sections, depends primarily on the development of these water resources.

The people of New Mexico are intensely interested in the subject of irrigation, and, as shown by the resolutions adopted by the international congress, held in Los Angeles last week, men who have given the matter much thought, are opposed to the cession of the arid lands to the states and territories and believe that the question of reclaiming these lands "demands a broad, comprehensive and patriotic treatment that nothing short of the national congress can provide." It is to be hoped that the convention to be held in Deming next month will endorse this sentiment.

Sudden Death!

That Startling News Heading.

The public is becoming accustomed to the above heading, but nevertheless it always convays a shock. Sudden death in a vast majority of cases results from heart disease, manifested by any one of several of the following symptoms: Short breath, palpitation, irregular pulse, wind in the stomach, pain in side, shoulder or arm, under left shoulder blade, between shoulders or in bowels, irregular or intermittent pulse, oppressed feeling in chest, choking sensation, weak or hungry spells, difficult breathing, swelling of feet or ankles, dropsy. Dr. Miles' New Heart Cure speedily remedies all these. Sold by T. H. Burgess & Son on a guarantee, who will give you his elegant book, free.

Squire Devore, a lawyer and real estate agent of Guthrie, Ok., has been convicted of grand larceny for swindling a German emigrant out of $700 and will be sentenced to the penitentiary.

ARIZONA.

News from All Portions of the Neighboring Territory.

Five men wanted for chief of police in Prescott.

Arizona has 151 public schools with 6017 pupils.

Servant girls in Phoenix are a scarce commodity.

Several herds of antelope are reported near Prescott.

Prescott and Tombstone have each a lady notary public.

A Nogales girl, thirteen years of age, recently gave birth to a twenty pound child.

Dayton court in Apache county has been postponed until the 28th day of next month.

The criminal docket in Apache county for the November term of court contains fifteen cases.

The mortgage sales of the Bayless shops will take place at Flagstaff, on Wednesday, October, 18th.

There are nineteen different irrigating canals in the Gila valley, aggregating 118 miles in length.

Chalmers Gile and Graham county each received medals at the World's Fair for exhibits of cows.

The board of supervisors of Gila county offers a reward of $50 for killing predatory mountain lions.

Very many new locations of gold quartz claims are being filed in the office of the recorder of Yavapai county.

A $32,000 bond has been given in a mining property near Dos Cabezos, in which Gov. Hughes is interested.

A newspaper, called the Kyrene Croaker, is shortly to be established, and will be edited by Robert Graves, of Tempe.

The White Cactus company of Tempe is sending some splendid samples of furniture to Chicago for exhibition purposes.

Flagstaff farmers are realizing good results from their farms this season. Turnips, cabbage and other vegetables are fine.

Sheriff Dennine, of Flagstaff, has gone to Colorado after a man named Riley, who is charged with the crime of mayhem.

Postmaster Inspector Waterbury will recommend that the Yuma office be raised to a third-class, with allowance for clerk hire and rent.

The Wabash Cattle Co. in Apache county have offered a reward of $100 for the arrest and conviction of any one illegally branding their cattle.

Editor Russell, the Tempe editor who was arrested about three weeks ago for assaulting a man with a deadly weapon, has been released on a bond of $750.

Some of the finest grapes seen in Phoenix this year are second crop Mission grapes brought down from Mesa and sold to the local fruit stands. They are large and finely flavored.

A rich placer strike is reported in the Weaver district and numerous specimens of coarse gold have been brought to the city within the past two days, says the Phoenix Republican.

The Allison Brothers are doing a great work near Tucson in damming the Santa Cruz river to supply water for their canal. It is a big proposition but there is no doubt of its success.

The Phoenix Gazette says that many citizens of the Salt River valley are alarmed at the prospective invasion of the valley by Capt. W. H. Hardy and his army, of several thousand goats.

Judge McDonald, of Apache county, gives the age of his father, who is now living in South Dakota, at one hundred and seven years, if he lives until the 27th of this month. He says his father is enjoying excellent health.

During the last few days several car loads of cattle have been sent to California from southern Arizona. Everything points to a heavy demand this fall and winter for beef cattle in California, particularly in the southern portion.

The board of supervisors of Coconino has ordered suit against the bondsmen of County Treasurer Cornish to recover $7,604.47, the amount short in the treasury that was deposited in the Albuquerque National Bank, when that institution suspended in June.

The Kingman Miner says: J. F. Luthy, of Albuquerque, is in the city. Mr. Luthy has large and valuable interests in Mohave county that he is out looking after. He left for Salt Springs this morning to inspect mining property preparatory to putting men at work.

There are more mines being worked in the Bradshaw mountains this year than before in several years. Also there were never so many gold mills in operation. No less than ten small mills have been erected during the last six months and they are all turning out gold bullion in paying quantities.

It is learned that two companies of soldiers left Fort Whipple the other day for San Carlos to strengthen that post. It is thought that owing to the fact that the Kid has again commenced depredating, the annual reunion of troops from all over New Mexico and Arizona on the 29th of the month at Fort Grant will not take place.

On his recent visit to the southern part of the territory Acting Governor Bruce met several cowboys who had been present at the rodeo in the Sulphur Springs valley and those in south Pima. They say that losses in the ranges by drouth and starvation, including cows and calves is about 50 per cent, the largest loss yet on record.

Notwithstanding the close times the necessary money to irrigate the Hualapai valley, on the line of the A. & P. railroad, in western Arizona has been obtained. It will be the most unique, as well as the most gigantic irrigation scheme on the continent, something like a million acres of valley land being subjected to water from ditches. The A. & P. runs for about twenty-five miles through the valley, and as soon as the irrigation scheme is commenced, a scramble will be made for choice farms.

The Williams News says: There are at the least calculation 1,500,000 feet of lumber piled in the Sagebrush company's yard at this point, and, at the rate the mill is turning out this product, by spring an immense area will be covered. The company is now shipping on an average of three cars of lumber daily, and the prospects are favorable for an increase in the near future.

Recent discoveries of rich gold and copper ores on the south side of Graham mountains give promise of a mining excitement in that direction. A number of parties from Pima and other places in the valley have gone to the mountains to make locations on the newly discovered ledges.

Business on the Southern Pacific road is improving. Every day long trains heavily laden with merchandise pass through Tucson, going either east or west. All of the company's extra men in that city have been put to work.

The Tombstone Mining & Milling Co.'s mines have never looked better than now, and if silver would reach 85 more men than ever before employed on these properties would be added on the pay roll, says the Prospector.

Frank Dobbins, of Tucson, has made application to open at the Midwinter Fair an Arizona Indian village, where the Indians will be engaged in manufacturing arrow heads, knives, pottery, baskets, etc.

The governor of Arizona has issued a requisition upon the governor of Texas for Edwin S. Reeds, a school teacher, who is charged with seducing one of his pupils in Cochise county.

The press of Arizona is united in commending the action of the senate in unanimously confirming the nomination of Sam F. Webb collector of customs for Arizona.

The Colorado river rose to twenty feet four inches during last week, the highest point by eleven inches ever known at this season of the year at Yuma.

The miners working in the placer diggings of the Caloneda Oro are said to be making fair wages with good prospects of doing better.

Several men are reported placer mining on Snow creek, a few miles west of Prescott, making from $2 to $4 per day each.

P. F. Faison, of North Carolina, special Indian agent, is on a tour of the Indian agencies of Arizona.

The city authorities of Tucson feed all tramps at the depot and also see that they are kept moving.

The total attendance at the Tombstone public school is 201.

Quail shooting near Phoenix is very good this year.

TERRITORIAL NOTES.

District court is in session at Hillsboro.

The Amizett gold mines in Taos county are showing up well.

The Plaza hotel at Las Vegas has closed, leaving only one hotel in the town.

An effort will be made at Santa Fe to grade and macadamize San Francisco street.

Eddy is proud of its graded schools, Ere long its high school will be graduating pupils.

A well 265 feet deep has been bored at Fort Stanton that supplies 44,000 gallons of water in 24 hours.

Bobby Welsh and Harry Slater will fight at Las Vegas to night for a purse and the middleweight championship of the territory.

Misses Belle Greene and Nora Holmes, of Fredonia, Kan., who have been in charge of the Mescalero Indian school, boarded the train for Fredonia, having retired from the service.

Sealed proposals will be received at the office of the board of county commissioners of the county of Taos until the 6th of November for the purchase of $4,000 of county current expense bonds.

Cards were received at Santa Fe announcing the tidings that Mr. James Leon Seligman and Miss Ruth Van Bentheusen Stevenson would be joined in wedlock at Salt Lake City on the evening of Tuesday, October 24.

The officials of the Atchison, Topeka & Santa Fe have notified the executive committee of the Irrigation convention that a rate of one and one-third fares will be in force for that event. The Southern Pacific officials have granted a similar rate.

The Deming Coal company put a force of seven men to work on their properties near Rincon Monday, and expect to ship coal into Deming before the first of the year. Several new veins have been discovered and the coal taken out is of the best.

The Springer Stockman says: Quite a number of saloon men throughout the county walked up and plead guilty to violating the Sunday law. At the beginning of this term twenty-eight such cases were pending, the most of which were disposed of.

The Catholics of Springer are making an effort to add some much needed improvements to their church building. It is intended to line the wall on the outside with brick and make some other changes which will greatly improve its appearance and convenience.

All Free

Those who have used Dr. King's New Discovery know its value, and those who have not, have now the opportunity to try it free. Call on the advertised druggist and get a trial bottle free. Send your name and address to H. E. Bucklen & Co., Chicago, and get a sample box of Dr. King's New Life Pills free, as well as a copy of Guide to Health and Household Instructor, free. All of which is guaranteed to you good and cost you nothing. T. H. Burgess & Son's drug store.

THE RAILROADS.

Brief Facts Concerning Track and Train.

A receiver has been asked for the Duluth & Mesaba railroad.

In the offices of the Grand Central depot at New York there are 40 Yale graduates.

The ticket broker at Lincoln has abandoned that field and will move to Trinidad.

The Northwestern claims to have carried 103,000 passengers to Chicago Oct. 7, 8 and 9.

The Santa Fe has determined to extend its Colorado Midland branch to the Cripple creek mining district.

The shops were paid off this afternoon and checks for points in the west will be issued early in the week.

Texas lines have reduced rates to the World's fair to about a cent a mile via Kansas City or St. Louis.

George J. Gould thinks it is a good thing for Union Pacific stockholders that the road has gone into the hands of a receiver.

There were nearly 3,000 people killed on the railroads of the United States during 1892, of whom over 2,000 were employes.

Since Jerusalem has become a railway terminus, eight hundred buildings have been added—dwellings, hotels, stores, shops.

The annual convention of the Traveling Passenger Agents' association has been called for New Orleans, La., on January 9, 1894.

The Wagner Palace Car company has recently introduced gas as fuel for cooking in buffet cars in place of oil, with great success.

Since the middle of September a majority of Chicago roads have more than made up in passenger earnings, what they have lost in freight earnings.

Shipments of Texas cattle to Chicago fell off 90,000 head last month, as compared with September last year, scarcity of cattle having caused the decrease.

The appeal of the Atchison, Topeka & Santa Fe road from Justice Lockhart's court was filed in the district court. This is the case of the company vs. Wandell.

The test of oil burners made by the Pennsylvania on some of its locomotives did not prove satisfactory and the engines are being reconverted into fuel burners.

Traveling men, through E. B. Russell, chairman of the Indiana association, are again agitating the issuance by railroads of a 5,000 mile interchangeable mileage book.

Passenger traffic on the narrow gauge is showing a material increase of late. Many people are coming to New Mexico from Colorado points in anticipation of a hard cold winter up there.

The Santa Fe and Union Pacific railroads both announce a tourist's winter rate to California points of $60, fifteen days to transit limit in both directions, tickets good for six months.

Director General De Young of the California Midwinter Exposition, has asked western roads to make a round trip rate not to exceed $75 from Chicago to San Francisco from Jan. 1 to June 30.

Thomas Yeomans died at the sisters' hospital, up at Trinidad. He was run over by a freight train at Aguilar, which cut off both his legs, and he was taken to that city and placed in the hospital for treatment.

Members of the Rio Grande grievance committee are still in Denver, making up the expense account while on duty. The bills will amount to $6,000 or $7,000, which the Rio Grande company has kindly offered to settle.

An examination of that portion of the Inter-state Commerce commission's report which relates to railway accidents reveals the fact that if one makes 35,542,282 railway trips of one mile each, or one trip of 35,542,282 miles, he is liable to be killed.

Rather a striking illustration of how trade and money getting make strange bed fellows is furnished by the Jaffa-Jerusalem railway. The concession for the railway was obtained by a native of Jerusalem, it was built by a French company, while the engines and carriages manufactured in the United States run over rails made in Belgium and most of the remunerative part of the passenger traffic is drawn from British tourists.

Court Martial.

A general court martial is called to meet at Fort Marcy to-day. Col. Edward P. Pearson will preside, and Lieut. Stokes will act as judge advocate. The remaining members will be Dr. Kimball, Capt. J. T. Kirkman and Clayton S. Burbank, Dr. Wales, Lieut. Stottler, Littell, Harrison and Wilhelm. Captain Burbank and Lieutenant Wilhelm and Dr. Wales have been ordered here from Fort Stanton. Among the serious cases coming before the court is one of assault upon an officer at Fort Stanton.—New Mexican.

Poultry and Pet Stock Show.

The New Mexico Poultry association will hold its first poultry and pet stock show on January 23, 1894, and continue some four days. The association desires 100 members before that time, and also that every one send some pets, chickens and otherwise, to the show, as it is the intention to make the affair one that will show that New Mexico can produce anything in poultry, etc., with profit to those engaged in the business.

A Cold-Blooded Murder at Cerrillos.

Bob Friday shot Zenon Baca on the street at Cerrillos about 9 o'clock on Saturday night. They had a few days previously quarrelled over a young woman. Early in the evening Friday borrowed a revolver and went man hunting. He met Baca on the street in company with two companions and walking up to him said: "Did you call me a——?" "No," replied Baca, whereupon Friday drew his gun and shot Baca through the abdomen. Marshal Thomas O'Donnell arrested Friday. Baca was removed to the house of a friend and died yesterday afternoon. There was some talk of lynching Friday and he was hurried out of town Saturday night, brought to Santa Fe and placed in the county jail. His preliminary hearing will be had before Judge Seeds on Wednesday.

Friday is a half breed, about 25 years old, and his mother resides in San Pedro. He is the son of old man Robt. Friday who a score or more years ago resided in Santa Fe, and who was shot and killed on Water street, just below the jail. Baca is also about 25 years of age and his mother resided in Cerrillos. He was a quiet and inoffensive man. The trouble grew out of the attentions of the two men toward a notorious woman named Maria Socorro, late of Santa Fe, and known at Cerrillos as "Broncho Mary." Marshal O'Donnell says that Friday borrowed the weapon, killed his man, returned the gun to its owner and was arrested inside of six minutes.—New Mexican.

General Labor Notes.

The system of federation among all railroad brotherhoods is being pushed.

The Salvation Army expects 30,000 destitute men will be in San Francisco next winter.

Eighty nine years ago the first concerted action for the reduction of the hours of labor began.

Chief Crowley, of San Francisco, will assist the labor council of that city in locating Chinese criminals.

A suggestion is made by a San Francisco paper that the unemployed of that city be sent to the old gold diggings.

There are 24,000 mill men out of employment in Philadelphia by the closing of many industrial establishments.

The workingmen of San Francisco are petitioning the board of supervisors not to let out work to contractors, as is now being done.

The railroad employes of Pennsylvania have a state legislative board; the object is to see that none but those in favor of labor are elected on any ticket.

The Chinese Consul-General, Consul and Vice-Consul expressed a hope in San Francisco the other day that, however the Geary act might fare, the highbinders might be deported.

Captain McKee, of the Salvation Army, has the management of the free labor camp in San Francisco. Nearly 600 men are fed daily. The unemployed men at the camp represent forty-four different trades and occupations.

Here is good deeds: During the past six months the Life Boat station of the Salvation Army, in San Francisco, distributed 50,000 5-cent meal tickets, gave shelter to 18,000 homeless men and women and procured employment for 8,000. "Throw out the life-line."

Keep it out of the Paper.

"Keep it out of the paper" is the cry which the newspaper publisher, daily hears. To oblige often costs considerable, though the party who makes the request does not realize it. A newspaper is a peculiar piece of property in the public's eye. The news gatherer is stormed at because he gets hold of one item, and is abused because he does not get another. Young men and often young women, as well as older persons perform acts which become legitimate items for publication, and then rush to the newspaper office and beg the editor not to notice their escapades. The next day they condemn the same paper for not having published another party, doing the same thing they were guilty of, forgetting, apparently, their late visit to the printing office. The subscribers expect to read the news and there is always wonder, when for charity sake, an item on the street and in everybody's mouth is not found in the next issue of the paper.

Ho! For Deming.

The Santa Fe road has a one and one third rate from all points to the Irrigation Convention at Deming, which is to take place November 7.

Las Vegas, Bloossburg and Raton will send uniformed divisions, and all points, where a Knights of Pythias lodge exists two delegates for each lodge will leave for the town of Deming to be present at the annual session of the Grand Lodge to be held on November 9.

The delegates from Mineral Lodge are M. W. Teal and E. D. Fluke and from Montezuma, Dr. Chamberlain and Peter Isherwood. Others may go from this city.

Roswell Fair.

The fair was a greater success than the most sanguine had hoped. A conservative and observant citizen says that it will be of more than ten thousand dollars advantage to this country, and we think he is putting it light. Chaves county has shown what she can do in the way of raising crops in a manner that admits of no doubt, and her superiority over all other sections will no longer be a disputed question.—Register.

Coming Back.

The Tennessee Jubilee singers will return to Roswell, thence to White Oaks and over to Albuquerque. Their houses were small for so meritorious a company, which consists of ten highly accomplished students, graduates of the Nashville college for colored people. The baritone singer is a real wonder, while the balance of the company is beyond doubt above the average as singers and actors.—Eddy Current.

Victory.

The Greatest the World Has Known.

To many a man, stricken on the field of battle, the cry of victory has fallen gratefully; but even more grateful to an individual is a realizing sense that by the use of Dr. Miles' Restorative Nervine he has achieved a victory over any nervous affliction, such as prostration, sick headache, poor memory, dizziness, sleeplessness, neuralgia, convulsions, spinal irritability, St. Vitus dance, etc. Testimonials of thousands of such cures are in possession of the Dr. Miles Medical Co., Elkhart, Ind., Restorative Nervine is sold by T. H. Burgess & Son, the popular druggists, on a guarantee. Ask for a book, free.

GIFTS TO LADY TEACHERS.

Two Costly and Beautiful Gold Watches and Chains to be

Given by The Citizen to Two of the Most Popular Lady Teachers

IN NEW MEXICO AND ARIZONA.

The Citizen offers two beautiful Gold Watches and Chains to the two most popular lady teachers in New Mexico and Arizona.

First—A Gold Watch and Chain, beautifully encrusted with diamonds, costing The Citizen $125. This Watch and Chain is on exhibition at M. C. Nettleton's, this city, where the teachers and their friends are invited to call and see it.

Second—A Gold Watch and Chain, one of the prettiest in the city, costing $75. This may be seen on exhibition at Arthur Everitt's jewelry store.

These watches will be presented to the ladies entitled to receive them on Thanksgiving Day, 1893, by a committee of gentlemen teachers who will act as judges of the voting contest, canvass the vote and announce the decision.

At 6 o'clock in the evening on that day the contest will close, and the announcement of the winners' names will be made in The Citizen the next afternoon.

The decision to be made by the votes of the people. All you have to do is to cut out the coupon, which will appear in each issue of The Daily Citizen from this date until Thanksgiving Day, 1893, inclusive, write the name and address thereon of the person you wish to vote for and forward it to The Citizen, Albuquerque, N. M.

Those who prefer not to be troubled with sending in coupons may record their wishes in the following manner: For each subscriber to The Daily Citizen six votes will be recorded for each week of subscription, and for each subscription at $2 per year to the Weekly Citizen fifty-two votes will be recorded. For each daily subscription by mail twenty-five votes will be recorded for each month of subscription paid. Thus, if a person wishes to cast 52 votes, he will forward $2 and indicate to whom he wishes the votes credited. City subscribers who have the paper delivered by carrier, can have their votes recorded in the same manner by paying 60 cents per month in advance.

Here is the coupon. Cut it out, write thereon the full name and postoffice address of the person you wish to vote for, being careful to write plainly, and send or bring it to The Citizen, No. 113 Gold avenue, Albuquerque, N. M.

MOST POPULAR LADY TEACHER.

NAME .....

P. O. .....

ALBUQUERQUE DAILY CITIZEN.

(CUT THIS COUPON OUT.)

This Ballot good till October 28.

A committee consisting of County Superintendent Whiting, Prof. Ramsay of the Territorial University, and Prof. Hodgin, principal of the Albuquerque public schools, will have charge and supervision of the counting of the votes.

The names of contestants will be published in the Saturday Citizen until the contest closes.

Send in the coupons. They will be carefully recorded in a book kept for the purpose. Address all letters,

The Daily Citizen,
Albuquerque, N. M.

SICK-HEADACHE

Makes life miserable. All other ailments are as nothing in comparison. Women especially know its suffering, and few escape its torture,

THE RELIEF AND CURE IS

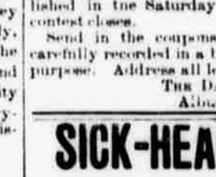
SIMMONS LIVER REGULATOR

Many people take pills, which gripe and purge, weakening the body. More take Simmons Liver Regulator, liquid or powder, because more pleasant to take, does not gripe, and is a mild laxative, that also tones up the system. The relief is quick. It is Nature's own remedy, purely vegetable.

"I never found anything to do me any good until I used Simmons Liver Regulator. It has been three years since I first used it and I have not had Sick Headache since. I sent my sister (who had from one to two attacks of Sick Headache every week) one-half of a package, and she has not had it since."—C. S. Morris, Brownsville, W. Va.

EVERY PACKAGE

Has our Z Stamp in red on wrapper. J. H. ZEILIN & CO., Philadelphia, Pa.



Cook's Cotton Root COMPOUND.

A recent discovery by an old physician. Successfully used monthly by thousands of Ladies. Is the only perfectly safe and reliable medicine discovered. Beware of unprincipled druggists who offer inferior medicines in place of this. Ask for Cook's Cotton Root Compound, take no substitute, or inclose $1 and 6 cents in postage in letter and we will send, sealed, by return mail. Full sealed particulars in plain envelope, to ladies only, 2 stamps. Address Pond Lily Company, No. 3 Fisher Block, Detroit, Mich.

Sold in Albuquerque and elsewhere by all druggists.
