W. Reinhart was chosen president; D B Robinson, first vice president and general manager, and G L. Brooks, assistant general manager.

Mr Brooks states that a report was sent out about Mr. Seligman from Kansas to the effect that his health was exceedingly bad, which was untrue and alarming He says that Mr Seligman left home feeling badly, but the mountain air was bracing and when he left the banker he was feeling in good spirits and health.

They are Subscribing.

The Optic says: Out of thirteen members of the soliciting committee for the coming firemen's tournament in this city only three mustered for duty this morning, viz: James S. Duncan, D C. Winters and Dr. F E Olney. At noon the subscription list footed up over $800 and the west side and parts of the east side had not yet been visited.

Leacham were appointed a committee to select racing track and arrange for a training quarters for the company running team. W O Wood will handle the team. The boys will practice two or three times a week from now on until the latter part of May when they will get down to hard work. The Albuquerque and Santa Fe teams are doing a little training just at present It is said the hooks and No. 1 teams will be put to work shortly.

A Standard Bearer

In the crusade inaugurated nearly half a century ago against the professional ignorance of the old school of medicine, Hostetter's Stomach Bitters was a standard bearer. Its victories over disease, when the old time specifics proved abject failures, proved that the pseudo-philosophy which sanctioned the administration of violent remedies where the case required none, which laid down as unalterable rules, blood letting, violent purgation, the use of emetics and the employment of corrosive and cumulative poisons in simple cases of liver and malarial complaint, was in fact the worst of unphilosophy, contrary alike to the laws of true medicinal science, of hygiene and of common sense. Biliousness, constipation, chills and fever, as now treated by the Bitters, promptly yield where before they obstinately resisted old fashioned medication. So do dyspepsia, rheumatism and kidney complaint—all surely conquerable by this safe and really philosophic remedy.

Arresting Murderers.

Zenon Maes, Remijo Sandoval and Nestor Herrera have been jailed for taking part in the murder of Patricio Maes. It was thought this morning that the arrest of Manuel Maldonado would be effected this afternoon. He will be remembered as having resided in the household of Louis Sulzbacher for a number of years and by whom he was made a tempting offer to accompany the family to Kansas City. Subsequently, he entered the employ of D Winternitz, quitting his job when his mother got $500 pension money from the government, only a year ago.—Las Vegas Optic.

Back to Michigan.

N. W. Nelson and wife, of Manistee, Mich., arrived in Albuquerque six months ago to-day and left this morning for the north. They will stop for a few days with friends at Hutchinson, Kansas, and will leisurly travel on to their home, expecting to reach Manistee by the middle of May. Mr. Nelson is judge of probate of Manistee, besides one of the wealthy lumber dealers of that section of Michigan. They enjoyed a pleasant winter among Albuquerqueans, and will probably be among us again next winter.

W. A. Hawkins, a former lawyer of Silver City, well-known to the profession here in Albuquerque, will be married to Miss Gardner, of St Louis, next week. The groom was once a partner of the law firm of Conway, Posey & Hawkins. His affianced is said to be a lovely lady of rare culture.

The Value of Coins

The value of gold coin is in its weight; the value of silver coin is the government stamp on it. The value of Simmons Liver Regulator is the relief it gives from Biliousness and Sick Headache. A 25-cent package of powder has permanently cured many a one.

A few days ago Miner Stone, a colored man, was thrown from the railroad track east of San Marcial by the No. 1 passenger train, going south. He was badly hurt, and was taken to Socorro for treatment, where his death resulted from his injuries two days later.

Amado C. de Baca, editor, and Adelaido C. de Baca, business manager, of the Clayton, New Mexico, Democrat, are getting out a very creditable weekly newspaper, printed in both the English and Spanish language. The Messrs. Baca are from Bernalillo county.

A coal item: A new vein of coal, 5½ feet in thickness, has just been struck, down at Carthage, and the denizens of this "deserted village," as it were, are said to be wild with excitement.

E P. Brown, the coal superintendent for the Atchison, Topeka & Santa Fe road in Mexico, came up from El Paso last night and was at the San Felipe this morning.

Mrs. Louis Timmer, formerly a resident of this city, now of Gallup, is here on business, and is stopping at the European.

ARIZONA ITEMS.

The Citizen says that General Weaver's reclamation scheme has petered out.

The Casa Grande valley is the scene of much improvement, which has been made in the past few months.

Arizona has thirty-five thousand Indians on reservations. Some of the reservations cover the best land in the territory.

The Arizona statehood bill will probably not be reached until August. At least that is the opinion expressed by Chairman Faulkner.

The spring round-up commenced Monday on Salt river, and will probably continue for two or three months The range in the vicinity of Globe will also be worked.

Says the Yuma Times: Senator Fair expects to leave in few days for home, although he may make another trip to the springs, fifty-two miles southwest of Yuma. He is full of praise for the beneficial effects this climate has had upon his asthmatic troubles

Finally Settled.

Washington advices announce that the secretary of the interior has decided the coal contest between Muller and Coleman in favor of Muller, reversing the commissioners' decision, holding that Coleman had the preference of right to purchase the coal tract in the Santa Fe land district and that he was not disqualified for making entry by reason of being then a deputy United States surveyor

This case grew out of the location by Frederick Muller, of the firm of Muller & Walker, some three years ago, of the O'Mara coal claim, near Cerrillos, above Albuquerque, and which was also filed on by Sherrard Coleman Muller made the first filing and Coleman made also a filing covering the same quarter section. Both parties did the necessary work and both claimed the priority of discovery and right to enter. Both parties, after doing considerable work, made application to purchase the forty acre tract. Coleman, having made the first application to purchase, threw the burden of contest upon Muller. The usual notices and papers for contest were served and the taking of testimony began in the Santa Fe land office, before A. L. Morrison, register, and W. M. Berger, receiver, which lasted about forty days.

In Arizona.

Vicente Silva, the vindictive, bloodthirsty murderer, is said to be running a saloon down in Prescott, Arizona, in company with a fiddler, whose front name is Dionicio, and who accompanied Silva from Los Alamos, after the latter fiend in human form had so brutally stabbed and beaten to death her whom he had sacredly promised at least to honor and protect, probably secreting her mangled and lifeless body in a well. Parties down that way have sent to Las Vegas for a photograph of Silva, taken when he wore a full beard.—Optic.

Our better halves say they could not keep house without Chamberlain's Cough Remedy. It is used in more than half the homes in Leeds. Sims Bros., Leeds, Iowa. This shows the esteem in which that remedy is held where it has been sold for years and is well known. Mothers have learned that there is nothing so good for colds, croup and whooping cough, that it cures these ailments quickly and permanently, and that it is pleasant and safe for children to take. 50 cent bottles for sale by T. The U. S. Land Court.

In the United States court of private land claims Wednesday the court announced its decision confirming the Bartolome Fernandez or San Miguel spring grant, which was tried and submitted Tuesday. The grant is situated in Bernalillo and Valencia counties, calls for 25,176 acres, and is claimed by Roman A. Baca, represented by Attorneys Catron & Spiess, and David Trujillo and others represented by J. H. Purdy.

In the United States court of private land claims yesterday, rather a spirited contest was in progress over the San Miguel del Bado grant, calling for 315,000 acres in San Miguel county. Ex-Vice President Levi P. Morton claims a half interest in the property, having purchased some years ago from Geo. H. Pendleton. Gen. E. L. Bartlett and F. W. Clancy appear in his behalf and contend that the grant was made to one individual and should be confirmed to his heirs. Messrs. Veeder, of Las Vegas, argue that it is a community grant, belonging to the community of San Miguel, on the Pecos river, and should therefore be confirmed to their heirs and those who settled there prior to 1846 United States Attorney Reynolds admits it to be a community grant, but contends that confirmation should be limited to those strips of land actually given into the possession of the claimants by act of the alcalde.

He Will Step Out.

This morning, Prof. W. B. Creager, superintendent of the government Indian school, received notice from Washington, D. C., that his resignation as superintendent of the school was accepted and that Col. John Lane, special Indian school agent, will arrive in a few days to relieve him of his duties. Mr. Creager was appointed superintendent by President Cleveland's first Indian commissioner, and had he served until the coming May he would have been in office five years, about eleven months over the four-year term. He has made a most excellent superintendent, and the school under him has flourished to such proportions that it is to-day one of the biggest Indian schools in the United States. Now that the professor will soon be foot loose, it is understood that he will engage in the newspaper business He will first visit Phoenix, A T., and probably make an offer for one of the newspapers of that town.

A Moonlight Party.

Last evening about 6 o'clock, the following happy gathering of people got into Trimble's "Jumbo" and all took a moonlight drive across the mesa to the mouth of Tijeras canon: Rev. T. C. Beattie and wife, Mrs. A. E. Crosby, Misses Ellen Jenkins, Etta Vaughn, Maud Ellis, Elma Hubbs, Dora Laird, Winnie Fancher, Ada and Emily Philbrick, Lucy Seelinger; Messrs. Louis McCrea, Newton Cozine, Robt. Jenkins, Guy Ellis, A. and C. Strong, John Munn, Thos Burton, Elmer Haggerty and E. C. Fesler. The party stopped at Trimble's ranch, where they made a big bonfire, boiled coffee and ate a magnificent lunch prepared by the ladies. Guy Ellis was chief fireman, and kept the fire well supplied with pinon brush. All report having a grand time, climbing the mountains and sitting on large rocks in the immediate vicinity telling pretty moonlight and love stories to each other. They started for home at 11 o'clock, and arrived in town at 12:40 a. m.

The Difference.

THE CITIZEN, of Albuquerque, says that S M. Folsom received a sentence of only five years, not thirty-five, as the the territorial press has generally stated The error originated with the Albuquerque press.—Las Vegas Optic.

The error originated with the Optic, because of that journal's ignorance of legal arithmetic. Five times seven does sometimes make thirty-five, and we can readily see how the vulgar and unlearned might fall into the error of imagining that it always does. Five years on each of seven counts would mean thirty-five years, if you should multiply consecutively or conspicuously, but when you multiply concurrently or conjunctively it means only five. It makes a great difference in the law whether you say come out here McCarty, or McCarty, come out here.

Will Go to New York.

Major A. S Towar, well-known in this city, and paymaster of the United States army, has been ordered to proceed from Fort Marcy and take station in New York City. He is to be succeeded at Fort Marcy by Major Kilbourne, now on duty at Omaha, late appointee from the signal corps. Major Towar has been on duty in the west for twenty years; he is an excellent officer and an elegant gentleman whose host of friends throughout New Mexico, Arizona, Colorado, Wyoming and Nebraska will join THE CITIZEN in congratulating him over this big step toward promotion. His chief clerk, A. W. Butler, will accompany him to New York.

A Surprise Party.

Mrs. Luke Walsh, residing midway between the new and old towns, entertained her many friends last evening by giving a surprise party in honor of her sister, Miss Nellie Martin, who is visiting her from Colorado. The gay party of ladies and gentlemen congregated at 9 o'clock, and "tripped the light fantastic" until a late hour. An intermission was taken at 11 o'clock, and all enjoyed a feast of cake and ice cream. The whole affair was a grand success, pronounced so by those who were lucky enough to receive invitations, and Miss Martin, who will go east in a few days, will remember the event of last evening and her many Albuquerque friends.

Those who never read the advertisements in their newspapers miss more than they presume. Jonathan Kenison, of Bolan, Worth Co., Iowa, who has been troubled with rheumatism in his back, arms and shoulders read an item in his paper about how a prominent German citizen of Fort Madison had been cured He procured the same medicine, and to use his own words: "It cured me right up." He also says: "A neighbor and his wife were both sick in bed with rheumatism. They was over to my house and said they were so bad he had to do the cooking I told him of Chamberlain's Pain Balm and how it had cured me, he got a bottle and it cured them up in a week. 50 cent bottles for sale by T. It is said that Gen. McCook will visit Fort Whipple soon on a tour of inspetion, after which he may make reports favoring the rebuilding and enlargement of the post, in which event it is talked of piping water from a large spring at the head of Government canon for the use of the post.

Increase the appetite by the use of Ayer's Cathartic Pills. They cause the stomach, liver and bowels to perform their functions properly, do not debilitate by excessive stimulation, and are not irritating in their action. As an afterdinner pill they are unequaled.

The Indians of northern Arizona have a boomerang branding iron. It is made of light steel and placed on the head of an arrow. Then with unerring aim it is shot with such force that it cuts a flesh mark on the animal, and when it heals it looks like it had been burned.

The gavel was accepted and the assistant adjutant general instructed to convey the thanks of the department to the people of Louisville for their handsome present.

Whereas, The city of Louisville, through its mayor and general council, its Commercial club and its Grand Army posts, has extended to the Grand Army of the Republic, and especially to this department, a sincere and urgent invitation to hold the annual encampment of the organization for 1895 within her hospitable gates,

And, whereas, it is the sense of this department that this generous invitation should be accepted in the same cordial spirit in which it is made,

Now, be it resolved,—That the past commanders and delegates from this department be, and they hereby are, instructed to vote as a unit at the annual encampment of 1894, at Pittsburg, in favor of the city of Louisville as the place for holding the annual encampment for 1895.

On motion of Commander Downs the encampment then proceeded to the election of department officers for the ensuing year. The name of Comrade George W. Knaebel was presented and there being no opposition the assistant adjutant general was instructed to cast the vote of the department for Comrade Knaebel, which was done, and the commander-elect then thanked the encampment for the honor conferred upon him, and pledged himself to the discharge of the duties of the position to the best of his ability.

EX-OFFICIO.

W H. Whiteman, J A. Ross, Smith Simpson, Thomas Harwood, W. S. Burke, A. B. Stanton, J. R. Hudson, D. L. Sammis and E. G. Ross.

Col W. S Williams, of Socorro, and Capt S. H. Day, of Santa Fe, are among the visitors.

A camp fire will be held at Medler's hall on Second street this evening.

Last evening, the Albuquerque Silver Cornet band, under Leader Fluke, marched to the San Felipe where they serenaded Gen. Fairchild and other visiting Grand Army veterans. The general was introduced to the band boys by Major Whiteman, after which he made a short address, thanking them for honoring him and his comrades with such fine music.

The American flag floats gayly at the top of the pole at the San Felipe hotel and Grant's opera house. Flags are floating in front of several stores in the city.

The Grand Army encampment continued in session, after the last report received and published in THE CITIZEN yesterday afternoon, Comrade Downs offering the following resolution:

That all the posts of this department are hereby advised and requested to make special efforts for the reinstatement of members who have been suspended for non-payment of dues, and that such comrades be reinstated upon the payment of such small sum as the post believes to be within his ability. Adopted unanimously.

Comrade Knaebel offered the following resolution which was adopted unanimously:

Whereas, This encampment has been credibly informed of the fact that applicants for pension, having been duly examined as to their disabilities, by physicians resident at the place of the homes of such applicants, pursuant to orders from the Pension department and, therefore, by orders from such department have been directed to go and be again examined as to their disabilities at a place miles away from the homes of such applicants and without provision being made by such department for the railroad fare and other expenses of such applicants in going to and returning from the place of such re-examination;

And, whereas, such applicants are, as a rule, sick and poor:

Now, therefore, be it resolved that this encampment strongly condemns such action of the Pension department in requiring such applicants to be re-examined at other places far from their homes and protests against the same and respectfully requests the Pension department to speedily change the unjust custom complained of.

On motion of Comrade Stover, the matter of printing reports of the proceedings of this and the preceding session of the department encampment, was referred to the council of administration, with power to act.

Comrade Downs moved that a committee of three be appointed by the department commander, to be known as the Pension committee, to have general charge of pension matters, and to bring before the Pension department, and if in their judgment it may be thought proper, to also bring before the next National encampment, such facts in connection with the general cause of pensions and the rights of pensioners, as in their judgment may be thought advisable.

On motion of Comrade Downs the city of Santa Fe was selected as the place for holding the next annual encampment of the department.

A recess was then taken for fifteen minminutes.

Upon re-assembling, commander Whiteman called Junior Vice Commander Bigger to the chair for the purpose of installing the officers of the department elected to serve for the ensuing year. The installations were carried out in proper form, the new commander, Comrade Knaebel, was duly inducted into office, and upon taking the chair made a few remarks which were well received by the encampment.

On motion of Comrade Stover it was ordered that the council of administration cause the name of "LINCOLN" to be engraved upon the gavel presented to the department by the people of Louisville.

The 11th annual session of the territorial encampment of the department of New Mexico, was then closed in due form.

No small objection which young folks had to the old-time spring medicines was their nauseousness. In our day, this objection is removed and Ayer's Sarsaparilla, the most powerful and popular of blood purifiers, is as pleasant to the palate as a cordial.

SOCORRO COUNTY MINES.

What the Miners are Doing in the Vicinity of Socorro.

From the Advertiser.

Kelly camp is increasing its output of ore and shipments are heavier than for sometime past. All look for good times there

The owners of the Columbus mine at Water canon have commenced to assort their dump. They calculate at least 500 tons of ore which they will have treated at the mill in the canon.

Richard Burnell was in from Water canon and reported a large force of men at work on the Wall street, and the mill handling all the ore

John J. A. Dobbins and Charles Adelman have the contract on the Thwaite, et al property. The mine has a very strong lead and bids fair to become a good one. The formation is good.

W. H. Smyth is working the Plymouth claim in Water canon, a most promising claim belonging to himself and C. S. Bahney. A good vein running high in both gold and silver promises to make this one of the most valuable properties in the camp.

Nathan Hall and T. P. Chase brought in some very fine gold, and report finding it near the Oro Fino, in Water canon, but on vacant ground. They have made a location on the ground.

A contract has been closed between the owners of the Columbus mine in Water canon and the Coplen concentrator, by which 100 tons of ore will be immediately taken out and delivered at the mill.

Borrowdale, Russell, Bartlett and others who are interested in the late gold strike at the point of the Magdalena mountain are working a large force of men and are sanguine that they have a good mine The property joins the Vincent mine at Camp Lesson.

The starting up of the Coplen concentrator in Water canon is attracting general attention to the mines of that district, and a steady influx of miners and prospectors may be expected. A number of prominent mining men have announced an intention of visiting the district on a tour of inspection of mines and mill. This is encouraging, as the owners of properties are confident of them, in fact, they have every reason to believe that they will stand inspection, when gold is being produced.

Lack of vitality and color-matter in the bulbs causes the hair to fall out and turn gray. We recommend Hall's Hair Renewer to prevent baldness and grayness.
