Childhood for New Mexico means that there will be big more carpet baggers lauded on us by the administration at Washington.—Socorro Chieftain.

The Rio Grande has gone down considerably within the last few days, and except for floating ice, crossing is good at any of the usual fords.—Rincon Weekly.

The Deming Headlight is more pronounced against the tramp nuisance than ever since a hobo walked off with the only overcoat the editor ever owned in his life.

The cold wave prevailing since Christmas has had a tendency to keep the ranchers at home, except when in direneed of the necessaries of sustenance.—Folsom Cricket.

That was encouraging railroad news which the Headlight furnished its readers last issue, and the chief beauty of it was that it is being verified every day.—Deming Headlight.

Four wells are now being put down by Pratt, Sears & Gill for the Lake artesian orchard, which is located nine miles south of town. The water will be taken from the wells with pumps run by gasoline engines.—Roswell Irrigator.

It is reported that "highbinder" Joe Turner has the ball fever, and proposes to give a dance on "Windy Point" at the Hamilton shaft house. Men will all wear snow shoes, and no ladies will be admitted with rings in their noses, as the affair is to be strictly non-Zulu.—La Belle Cresset.

United States Special Examiner D. K. Fitzhugh, having completed his work in this district, left for Fort Scott, Kan., which will hereafter be his headquarters. A week ago last Sunday the ranch house of John Baker, of Hay canon, near Weed, was destroyed by fire. The family was away from home at the time of the fire and everything in the house was destroyed, not even a change of clothing being saved. It seems hard for a family to be burned out of house and home and left to the mercies of this cold world.—Roswell Irrigator.

Ere the present year has elapsed it is hoped and expected that New Mexico will be a state, and that with statehood will come a wider recognition of her resources and a development in accordance with that recognition. That the resources are here, we know; that they will speedily be recognized far and near, we feel confident. Here's to statehood, and success to our own glorious New Mexico!—Las Cruces Republican.

The new smelting plant of the Graphic Carbonate Mining company at Kelly will make times lively at Magdalena and Kelly the coming summer. It will be a plant of one hundred tons capacity and while it will only smelt Graphic ores it will keep the mine working and will stimulate other work and thus give employment to quite a large number of men. What is needed is more work of this kind in our lead districts.—Socorro Chieftain.

Pursued by a Demon.

How many suicides, think you, reader, have been committed by persons driven distraught and hunted to their doom by the demon of chronic ill health? Countless. For instance, we know, do we not, that hypochondriasis is a monomania, a sort of minor madness produced by chronic dyspepsia? Again, insomnia, or sleeplessness, often a result of the same cause, culminates in a derangement of the reasoning faculties. It is, therefore, of momentous consequence to prevent the arrival of disease at its chronic phase, when it daily and nightly scourges the sufferer to a dangerously uncertain goal. No medicine known to science, as a means of arresting the maladies to which it is adapted, exists equal to Hostetter's Stomach Bitters. Among these complaints are chronic indigestion and insomnia, kidney and rheumatic ailments, constipation and liver trouble. Appetite is improved by the Bitters, the blood fertilized, and bodily substance and vigor increased by it.

So soon after the death of his brother William, Ralph C. Oldham is now bereft of his father, Samuel Oldham, who died in Maysville, Ky., of pneumonia, at 8:30 o'clock this morning, the sad tidings having been received by wire. The deceased was 78 years of age and is survived by two other sons besides Ralph, who has gone to attend the funeral.—Las Vegas Optic. Mr. Oldham has many friends in this city who will regret to read of his misfortune.

Your Boy Won't Live a Month.

So Mr. Gilman Brown, of 34 Mill street, South Gardner, Massachusetts, was told by the doctors. His son had lung trouble, following typhoid malaria, and he spent $375 with doctors, who finally gave him up, saying, "Your son won't live a month." He tried Dr. King's New Discovery, and a few bottles restored him to health and enabled him to go to work a perfectly well man. He says he owes his present good health to use of Dr. King's New Discovery, and knows it to be the best in the world for lung trouble. Trial bottles free at Pillsbury & Walton's drug store.

Not Husbands of Pretty Women.

The Vincennes, Ind., Star, ventures this assertion: "Take notice of all married couples you meet and you will probably be surprised to observe that men who give most evidence of being happy in the company of their wives are not, as a rule, the husbands of pretty women. Beauty of face counts for very little in the long run, and there is a law of compensation in nature which takes care that, as a rule, the best eggs shall not all be in the same basket. Young man, remember this when you are looking for a wife, and let the girls who lack beauty of features see to it that the good qualities which nature has given them are fully developed. Above all, let them cultivate these graces of mind and heart which will endure for ever."

Congregational Church at Gallup.

On New Year's day the members of this church held their annual meeting in Brown's hall at 2 p. m., when the reports for the past year were presented by the officers and committees, and elections held for the ensuing year. The report was encouraging in all departments. The following officers were elected:

Clerk, D. M. Richards.
Treasurer, Palmer Kistler.
Trustee, D. Clark.
Senior Deacon, J. C. Spears.
Junior Deacon, James Maxwell.
Deaconess, Mrs. S. Wells.
Organist, Mrs. Richards.

A unanimous decision was arrived at by the church to request Mr. Simpkin to remain as pastor for the ensuing year. Money was subscribed and paid at the meeting for the purchase of an organ for the church and Sunday school. The meeting also decided to establish a Christian Endeavor society, the first meeting of which will be held on Sunday evening next at 6:45. Part of the business was left over to an adjourned meeting, to be held January 15, at the close of the prayer meeting. After business refreshments were served and after a most pleasant and profitable meeting an adjournment was taken at 6 o'clock.—Gallup Gleaner.

A New Attorney.

A. H. Wycoff, Esq., was yesterday evening admitted to practice law in the district court. Mr. Wycoff comes formerly from Pittsburg, Pa., latterly from Denver, Colo., where he has been in active practice, being engaged in some of the heaviest cases, for the past nine years. He is a classical graduate of the university of Wooster, and possesses many other certificates and letters of ability as a lawyer and scholar. He will probably have his office in the First National bank building.

OUR WESTERN NEIGHBORS.

Current Items from Laguna, Wingate and Gallup.

Uncle Sam's men at Wingate are indulging in a partial release from drill regulations. Snow has unfitted the parade for regular drills, and a number of men are employed in putting up fence, the relaxation of the usual order. The daily exercise of the horses is the only approach to drill, and this is being made for the double purpose of exercising and gaiting the horses, the road over which the daily trip is made being measured and staked off for the latter purpose.

The reported trouble with Indians near Flagstaff lacked confirmation here, and as this would be the post first called in case of such trouble it seems safe to conclude that the case was overstated in the first dispatches. HOMES FOR THE HOMELESS.

A Generous Offer to the Chicago Armenian Relief Association.

Hon. Amado Chaves, of Santa Fe, territorial superintendent of public instruction, called at the New Mexican office yesterday to secure the address of Edward F. Cragin, chairman of the Chicago executive committee to aid the Armenians, and later he addressed that gentleman a letter thanking him for his suggestion of colonizing these people in New Mexico and offering to supply the necessary land free of cost. Mr. Chaves considers Mr. Cragin's idea the happiest solution of the Armenian problem that has yet been advanced. He has looked into the character of the Armenians and regards them as a very desirable class of settlers. In western Valencia county, along the line of the Atlantic & Pacific road, Mr. Chaves has extensive landed interests in a well watered and inviting locality, and he has proposed to Mr. Cragin to place at the disposal of the Chicago Armenian Relief association, free of cost, all the land they may desire up to 50,000 acres. Or if the committee deems best to locate the colonists on public lands, Mr. Chaves offers his services to enable the people to secure such locations.

Superintendent Peres Talks.

Superintendent of Schools, B. F. Peres, was met by a CITIZEN representative this morning and he said:

I will be absent from my office until next Saturday at 10 a. m. visiting schools. I have this day made an apportionment to the several districts in the county—$885.80. The new regulation caps have been issued, and it is the general opinion of the boys that they are a great improvement over the old ones. They look quite cold, however, and one has to look twice to recognize an old friend. Baldheaded men chin no longer say that their caps wore their hair off.

"Each member of our family uses it as occasion requires." W. R. Smith, Mt. Vernon, Ky.

What Does This Mean?

The New Mexican suggests to Mr. R. E. Twitchell the propriety of being more careful about his grapevine telegrams to THE CITIZEN and other papers. As he conveys them by word of mouth he should at least see that they are truthful.

Does the above item, taken from the New Mexican, have a bearing on the barroom fight between Gov. Thornton, editor of the New Mexican, and Chas. M. Shannon, in which the "last democratic governor of New Mexico" got the worst of the bargain? This paper desires to inform the New Mexican that it keeps, at a regular salary, half a dozen special correspondents at Santa Fe, and they have instructions to watch closely the doings of the worst public officials New Mexico ever had or ever will have. They are plundering the territory just as Cleveland is looting the treasury at Washington.

An Old Soldier Cured of Chronic Diarrhoea.

During the war, John L. Base, of Mill Creek, Ill., contracted chronic diarrhoea, which inconvenienced him very much and at times, greatly impaired his strength. It certainly would make an old-time "mule-skinner" laugh to see the jauties of the Moquis and Navajos in moving freight with their diminutive horses and wagons.—Holbrook Argus.

The Atlantic & Pacific railroad company has paid its taxes to the county treasurer of Navajo county. This is one corporation that believes in doing the right thing by the people.—Holbrook Argus.

The Winslow Mail wants the county commissioners to have the county printing done at home. We had not supposed there was a county board in Arizona that would entertain a proposition to do otherwise.

Twenty carloads of range cattle were received yesterday over the Maricopa & Phoenix railway and twenty more will come in this morning. They are mostly range steers shipped from Benson.—Phoenix Republican.

The Phoenix Republican says the Detroit Copper company at Morenci will put in about two hundred thousand dollars' worth of new machinery at their plant in Morenci, the heaviest of which includes boilers, engines and blowers.

In reply to a telegram this morning from the New York World to the Prescott National bank, asking what that institution would do if given an opportunity to invest in the proposed bond issue, Cashier Woodruff replied that the bank would take $50,000 on a three per cent. basis.—Prescott Journal-Miner.

A runaway occurred yesterday afternoon on Central avenue, in which Mr. Fred. Mank and Miss Clara Buford had a narrow escape from serious injury. The horse which they were driving took fright and ran away throwing them out of the buggy. They were both slightly injured.—Phoenix Herald.

The two Chinese opium cases which have been agitating the Mongolian element for several days, have been settled by the Chinamen pleading guilty to the charge and paying a nominal fine. The authorities will continue to prosecute all Chinese found smoking opium, in the hope that they will get discouraged.—Phoenix Republican.

On Tuesday some hoodlum threw a good sized rock with force through the car window when the train on the G. V. G. & N. railroad was passing the vicinity of Thatcher. The rock struck Mrs. Clark and her little boy, who were en route to Thomas. The injuries were not serious, but this does not lessen the heinousness of the offense.—Stafford Gardian.

A party of surveyors, headed by W. C. Condon, of this city, is said to be busy at the mouth of Queen Creek canon, at the eastern edge of Superstition mountain, platting the ground for a dam and reservoir whereby will be irrigated thousands of acres of the wonderfully fertile, but unirrigated plain that lies between Superstition mountain and the Sacaton hills.—Phoenix Republican.

E. A. Shepherd, convicted last week of smuggling, was fined $200 in the federal court yesterday morning. He paid the fine and left for Nogales. Shepherd had an unpleasant experience on New Year's day. He was arrested by Marshal Paul, who had never seen him before, on a description of an offender who is wanted in the east. He was locked up in the city jail for about five minutes, when it was discovered that a mistake had been made.—Tucson Star.

Seven Prescott small boys, ranging in ages from 10 to 12 years, formed a company and left town yesterday without knowledge of parents or guardians. They had one burro packed with a sack of flour and some other provisions. They all had guns. They had gunny sacks for bedding. They left word with a son of Mr. Lemon to notify their parents after they were well out of town. Nothing had been heard of them up to the hour of going to press.—Prescott Courier.

Wildman, Peters, Goldman Co., it is said, have taken a lease on the Gardiner mill of this city, and on January 15 it will be turned over into their hands. The question of whether the Yuma prison and the town of Yuma are located in Arizona or California, is again before the courts in the case of D. A. West, who killed a Cocopah Indian at Yuma. The attorneys of West claim that both the territorial prison and the town of Yuma are in California, and will push their case on this presumption to the supreme court of the United States. Prominent California lawyers claim that nearly 3,000 acres of land, including the town of Yuma and the prison, is located within the boundaries of California, and that they can prove it.

Terrible Accident at Morenci, Arizona.

On New Year's day at the Clifton Copper company's mines at Morenci, Irwin Carvil, son of Capt. W. M. Carvil of this city, who was doing the blacksmithing for the mine, while carrying some drills into the mine, was caught by the engine of the ore train coming out of the tunnel and thrown upon the track and run over. His left foot was cut off and both legs broken at the knee cap. It is reported that he was otherwise severely bruised and injured. On Sunday morning's train his father and mother left for Morenci to care for him and bring him home as soon as he can be moved, if he survives his injuries. Further particulars are anxiously awaited by the many friends of the family here.—Silver City Eagle.

THE JAMES CASE.

The Gallup Pugilist Found Guilty of Adultery.

The following was taken from the court proceedings in the New Mexican:

In the matter of the United States vs. John James, principal, J. J. Keegan and P. J. Jones, bondsmen, serre facias in criminal case, the judgment of the court was 1 cent damages and costs. In the action of the United States against John James for adultery, the court fined the defendant $10 and costs and ordered him committed until fine and costs were paid.

The circumstances surrounding this case have awakened some interest. It seems that James deserted his wife and family of small children and ran away to Gallup with a frowzy headed adventuress with whom he lived until arrested. He was brought before the United States court at the former term, and, chiefly through the intercession of his abandoned wife, he was released on bail. Messrs. Keegan and Jones, of Gallup and Cerrillos becoming his sureties. Then he showed his gratitude by jumping his bond and departing for Wyoming, whence he was brought back by the United States marshal.

THE KOAH DEATH.

Verdict of the Coroner's Jury. What Aldrich Says.

The coroner's jury, empanelled to investigate and report upon the death of Ace Koah, an account of said death appearing in THE CITIZEN of yesterday, returned a verdict at 2 o'clock this afternoon that the "deceased came to his death from causes to the jury unknown."

It was thought for the benefit of the public that a post mortem examination of the remains would be made, but, for some reason, such an important examination was not held.

Frank Aldrich, the surviving partner, who suffered at the time of eating the meat, supposed to be poisoned, and from which Koah partook and finally died, stated this afternoon that he is now convinced that Koah put poison in the food, expecting that both would die. Aldrich gives as his reason that on last Sunday night Koah rolled over in bed and remarked: "The reason you are getting well is because you are stronger," and on Monday night—Koah died Tuesday morning—he made the same remark to Aldrich.

The remains were buried by Undertaker Strong, the expenses being borne by the county, in Fairview cemetery this afternoon.

A good many tired men and women could get rid of that pain in their backs if they would try Parks' Sure Cure for the Liver and Kidneys. The trouble is usually there, and Parks' Sure Cure reaches and cures it. Sold by Dr. Thos. H. Burgess & Son.

W. H. Saunders crossed about 3,000 head of range cattle at the Harper & Pollock ranch Sunday. He is taking them to put on his range, eleven miles east of Magdalena.—Rincon Weekly.

Health and strength carry us through dangers and make us safe in the presence of peril. Disease germs do no harm in a healthy body. A germ is not a big thing, and it is only physical weakness that makes it dangerous. A perfectly strong man with rich, pure blood, has nothing to fear from germs. He may breathe the bacilli of consumption with impunity. Nature is continually working to throw off any impurities that may come into the body, but if there is a weak spot where the germs may find an entrance, the tissues, then the trouble begins. Disease germs propagate with lightning like rapidity. Once in the blood, they quickly fill the whole body. The only way to get rid of them is to kill them. This is what Dr. Pierce's Golden Medical Discovery is for. It purifies the blood. This means that it kills the germs, but that is only part of what it does. It assists in the digestion of food and puts the digestive organs in a perfect condition. It stimulates the secretion of digestive fluids, so
