THE FIRE ALARM!

The Electric Apparatus Arrived and on Exhibition.

Chief Ruppe is, of Course, Thoroughly Elated.

An Albuquerque Cake Walk Causes Bitter Controversy.

OTHER LOCAL HAPPENINGS

The new electric fire alarm apparatus arrived this morning and through the kindness of Manager Miller Chas. Ruppe was able to show the new system in complete working order at the Postal Telegraph office in the Navajo block. [illegible] the apparatus, Chief Ruppe with [illegible] members of the fire department, gathered in the office of the Postal company and [illegible] the system. Colonel Wm. Rynerson, who never knows a thing until he reads about it in THE CITIZEN, was there and completely [illegible] the electric apparatus and he pronounced the Chief's choice a gem. When a number of the citizens, who happened to be in the office, had been duly instructed in the mysteries of the new system, they wended their way back to the city, each one being well satisfied with the new system.

The apparatus is so constructed that it can indicate nine alarms at a time. The uniform alarm will be given by a bell striking at the rate of one stroke every five seconds for each box.

The alarm will be put on as the new work, two of the alarm boxes will be placed in the most populous parts of the city, and the third box will be placed on the corner of Railroad avenue and Second street, taking in a portion of two blocks of the business portion of the city. A key will be attached to each box and the others will be distributed among the police officers and at prominent places in different parts of the city. All of the keys are numbered and the man that is expected to know the number of the key held by each person to whom it is entrusted. Which a key is once opened another key is required to get the open the key out and put in the way it was. You always know who turned in an alarm and where to find the id [illegible] alarm.

I was announced that a box will be placed in the Park ward, [illegible] second ward, at least one box will be placed in the Fourth ward. [illegible] evidently doubt [illegible] numbers that ring the ward, and [illegible] the people [illegible] the ward.

An Albuquerque Cake Walk.

Several weeks ago the colored people of this city, who are quite fair, gave a very interesting cake walk. The girls had such a pleasure, excepting the stupidity of a young colored base ball player of Santa Fe, and he wrote a long article to "The Statesman," the colored newspaper of Denver, protesting against such practices. His interference in the affairs of an Albuquerque entertainment has brought out communications from C. I. Carter and E. K. Lawers, two colored citizens of this city, and they are peppering it shots into the anatomy of the Santa Fean also through the columns of "The Statesman." In an interesting war with words at long range, and Carter and Lawers, who see no harm in a cake walk among the colored people, have decidedly the best of the argument.

GREAT BUILDING REVIVAL

Heirs of Ambrosio Armijo Will Build Other New Buildings.

The heirs to the estate of Ambrosio Armijo have decided to erect a magnificent two-story brick structure on the ground formerly occupied by the old Armijo house, at the corner of Third street and Railroad avenue.

Architect E. B. Cristy is now busily at work on the plans and specifications which will be in readiness to contractors to bid on sometime next week. It will be a two-story structure with [illegible] feet front and 125 feet deep, and of solid brick. The first floor will be cut up into store rooms, and it has not been decided just what use the second floor will be put. Some of the heirs are now considering with regards to the subject of what shall be done with the second floor.

It is understood that as soon as contracts are made, work on the new building will be commenced and pushed to a speedy completion.

There seems to be quite a building revival in this city at the present time. Plans have just been completed for a two-story brick for a six room adobe building, which Raul Kleinsmith is going to build on Fifth street and Virginia avenue. The plans will be submitted to the contractors at once.

Policarpio Armijo [illegible] building on north Fourth street, a handsome approaching composition.

The brick work has been completed on George C. Bowman's new house on Water street and the carpenter work is now being done. When completed this will be one of the finest residences on the Highlands.

Catholic Mission in German.

Rev. Father Shulak, S. J., of Chicago, reached the city last night. He is the guest of Rev. A. M. Mandalari, pastor of the Immaculate Conception church. A grand mission in German will commence to-morrow morning at High Mass. It is the first time for the German Catholic population to be treated to a mission in their own language in this city, and undoubtedly all of them will appreciate the interest that the pastor, Father Mandalari, is taking in their spiritual welfare and will also do all in their power to attend the exercises, which will be held as follows:

Sunday, low mass at 7:30 o'clock with a short address. High mass at 10:30 with the opening sermon. In the evening, beads, sermon and benediction at 7:30.

During the Week.—At 6:30 a. m., mass, instruction, at 9 a. m., mass, instruction, at 7:30 p. m., beads, sermon, benediction. Confession will be heard by Father Shulak every evening from 4 to 5, and from 8 to 9.

Machinery En Route.

S. T. McKinney, of the Alton Mining company, operating "The Star" and other good mines out in Hell canyon, is still in the city and this morning received a telegram to the effect that the machinery for the tog mill, to be erected at "The Star," had been shipped and would undoubtedly arrive here on Tuesday or Wednesday of next week. It will probably go out to the canyon on Monday next. Said Mr. McKinney: "Soon as to be back here in time to receive the machinery, after which W. T. Trimble & Co. will load it on their big wagons and deliver it to me in the canyon." Mr. McKinney also stated that he is keeping a day and night shift at work on "The Star."

The Spanish Venus of Comfort.

May be possessed in no ordinary degree by those who use the panacea of the human race without complaint. We have never heard of one in individual, but those who use the enfeeling invigorant, which combats the germ of this affection, in conjunction with Hostetter's Stomach Bitters, a dose of which, as a preventive, is recommended, as well as a remedy for fever and ague, as well as a diuretic, tonic, is well established and amply attested during the last forty-five years, certain beyond all signification. It expurgates from the blood those germ principles which fanged the pain and misery of a complaint characteristic of this climate, which, if not checked, directed to invade the interminable life-currents when it takes a vital part. The Bitters, also a specific against malaria, liver complaint, and constipation, and, in fact, [illegible] the nerves and [illegible] is a pleasant cordial.

THE TENAS SCHOOL BOOK

Is Not Used in Our Public Schools, Says Mr. Nordstrom, Of Carlisle.

[illegible] Mr. Nordstrom, the superintendent of the Carlisle Indian school, [illegible] the Indian school question, [illegible] Mr. Nordstrom said: "I have not been in the city since the school year began, but I understand that the Tenas book is not used in the public schools. I do not know what it is, but I understand it is a book of Indian stories. I do not think it would be a good book for our Indian children to read, as it would be a book of fiction. We do not use any fiction in our schools. We use the regular public school books, such as are used in the public schools throughout the country. We have our own printing office and we print our own school papers, and our own school books. We have our own bakery, our own shoe shop, our own tailor shop, our own harness shop, our own carpenter shop, our own blacksmith shop, our own wagon shop, our own tin shop, our own painting shop, our own plumbing shop, our own steam heating plant, our own electric light plant, our own laundry, our own printing office, our own band, our own orchestra, our own baseball team, our own football team, our own athletic association, our own Young Men's Christian association, our own Young Women's Christian association, our own literary societies, our own debating societies, our own [illegible] and our own [illegible] and our own [illegible] and
