A Thousand Tongues

Could not express the rapture of Annie E. Springer, of 1125 Howard street, Philadelphia, Pa., when she found that Dr. King's New Discovery for Consumption had completely cured her of a hacking cough that for many years had made life a burden. All other remedies and doctors could give her no help, but she says of this Royal Cure—"it soon removed the pain in my chest and I can now sleep soundly, something I can scarcely remember doing before. I feel like sounding its praises throughout the universe." So will every one who tries Dr. King's New Discovery for any trouble of the throat, chest or lungs. Price, 50c. and $1. Trial bottles free at J. H. O'Rielly & Co.'s drug store; every bottle guaranteed.

Last Year of the Nineteenth Century.

The year 1900 was welcomed and ushered in in the midst of a glorious sounding of bells, whistles and the firing of crackers, torpedoes, sky rockets and all sorts of fire arms. From every part of the city could be heard these sounds, and in the churches and homes of the city societies small parties had assembled to lend their support in making the event one long to be remembered.

CHRISTIAN ENDEAVOR CONVENTION.

A Large Gathering of Delegates Here from Throughout the Territory.

The ninth annual convention of the New Mexico Christian Endeavor Union opened this morning in the Congregational church, with a large delegation from the various Christian Endeavor societies throughout the territory.

Hearty and cordial addresses of welcome were given by Rev. Watson on behalf of the churches, Rev. J. M. McClure on behalf of the City Union of Young People, and F. A. Matthes on behalf of the committee of '99.

Although the secretary's report was not complete, owing to the fact that many societies failed to send in a report, a very good showing has been made along the various lines of Christian Endeavor work.

The president in his address made many timely suggestions for Christian Endeavor advancement, among them being the idea of local societies, or a group of societies, supporting a missionary in the home or foreign field; also the thought of the fifth gospel which comes through the life of every Christian Endeavorer.

The question of only holding a convention every two years was suggested, but was soon found to be unpopular as the majority of those present favored the annual gathering, and a motion to the effect that the annual gathering be continued, and that the gathering in Denver in 1900 be heartily endorsed, was unanimously carried.

The principal feature of the afternoon meeting was the three papers on "The Reason for the Pledge," J. L. Murphy, of Gallup; "Reason for the Committees," J. B. Brown, Albuquerque; "Reason for the Consecration Meeting," Mrs. Watson, Albuquerque, followed by an open parliament on these fundamental principals of Christian Endeavor when many important and helpful points in the papers were discussed with much profit.

There are more delegates in attendance here at this convention than ever attended any of the previous Christian Endeavor gatherings. Those present are Mrs. Sleight, Socorro; Miss Mordy, Las Cruces; Mr. and Mrs. J. E. Wood, Mrs. McKinley, J. B. Weatherhead, Miss Moore, Miss Morrow, Santa Fe; Miss Williams, Miss Gillispie, Prof. James Graham Military, Las Vegas; Miss Massey, Miss Sadie Blackwell, Miss Bessie Menaul, Raton; Miss Quick, Lake Valley; Miss Diel, Deming; Prof. Richards, Rev. P. A. Simpkin, Gallup. A reception will be given the delegates in the Baptist church this evening from 5 till 7. A cordial invitation is extended to all to attend the evening session, especially the young people of the city.

Transval Loss of Life.

Moralists are discussing the terrible loss of life brought about by the Transvaal war. Yet here life is sacrificed for a purpose—for an honest principle. It were better to preach against the needless sacrifice of life. Thousands of people succumb to ailments which might easily have been checked in the beginning. Dyspepsia carries off more people than are killed in war. The use of Hostetter's Stomach Ritters would save many lives. Constipation may seem a little thing, but it invariably develops into something worse, and the longer it is allowed to run the harder it is to cure. The bitters cures indigestion, constipation, dyspepsia and biliousness, naturally and permanently, without shocking the system. It is good for everybody.

Teachers Return.

A number of passengers passed through the city last night en route to their homes after being in attendance at the Educational convention at Santa Fe during the present week. In the party of travelers were the following: Principal D. M. Richards, of Gallup; Professor Cook, of Socorro; Prof. C. M. Light, president of the Silver City Normal school; Prof. Hiram Hadley, of Las Cruces; President C. L. Herrick, Professors Hodgin, Hickey, Montoya and Paxton, and Misses Catherine and Blanche Fields, of Albuquerque, and Miss McCooch, of San Marcial.

THE DEATH RECORD.

James Hogan Answers the Summons—Death of a Young Lady.

This morning at 8:30 o'clock occurred the death of James Hogan at the late residence, No. 116 North Sixth street. The deceased had been a sufferer of consumption for several years, and came to this city two years ago with the hope of finally gaining back his former good health, but in spite of all efforts he was forced to succomb to the inevitable. Mr. Hogan was a barber by occupation, and up to last Monday noon was always found at his post of duty, in the shop of W. W. Butler on west Gold avenue. During his brief residence in this city he had won a host of friends by his bright cheer and jovial disposition, and the news of his death will be received with profound regret by all. The deceased was aged thirty-eight years and leaves a wife, two children, mother, father, brother and two sisters to mourn his death. Relatives have been notified of the sad event and to night a brother will reach the city, when final arrangements will be made for the funeral.

GREAT MASK BALL.

The Scott Moore Hose Company's Ball Last Night.

The fifteenth annual mask ball of the popular Scott Moore hose company—composed of well-known fire fighters—took place last night at the Armory hall, and proved, as usual and what had already been predicted by THE CITIZEN, one of the biggest and most pleasant successes of the holiday season.

The management had thoughtfully arranged rows of seats around the spacious room, leaving the floor entirely to the maskers and dancers, and every available seat was taken by spectators.

When the hour arrived for the grand march, there were at least 150 couples on the floor and in position, while the spectators numbered about 400 people more.

The sight as the maskers moved over the well-waxed floor was a pretty one, and the costumes represented almost everything conceivable.

The most original and up-to-date, however, was the perfect representation of President Kruger (Oom Paul) and Liberty (Cuba Libre), taken respectively by Will. S. Moore and Mrs. C. D. Whitcomb. Emil Mann assumed the character of body guard or orderly to Oom Paul.

The two English dudes were well taken by W. B. Bailey and C. E. Grimes, while "Tom" and "Jerry," two Weary Willies, were looked after in good fashion by H. N. Allen and Joseph Wilson.

The "Indian Chief" was Jim Cosgrove, while "Pocahontas" was assumed by two ladies, one of whom was Mrs. G. E. Denny.

Miss Evelynn Elliott appeared in an original make-up, which represented a basket of violets, while several young ladies were on the floor in costumes representing "Night."

The music was probably the best ever heard in Armory hall, the Prof. Di Mauro orchestra having been considerably improved by several new musicians.

The committees in charge of this successful ball were as follows:

Executive—Dr. W. N. Macbeth, chairman; Ed. Codington, John S. Trimble, William Mattocks and C. A. Hudson.

Reception—Fred. Lewis, chairman; O. A. Matson, Rose Merritt, Frank Lee, Samuel Pickard and Bert Baker.

Floor—Frank J. Wendell, manager; Mace Crosson, Orrie Smith, William Mattocks, Ed. Codington, Dan. E. Phillips, Ed. B. Harsch and Harry Johnson.

Acker's English Remedy will stop a cough at any time, and will cure the worst cold in twelve hours, or money refunded; 25 cents and 50 cents. J. H. O'Rielly & Co.

Gold Output.

Washington, Dec. 30.—Preliminary estimate of the gold and silver production in the United States during the year 1899, made by Mr. Roberts, shows the total gold production $70,649,170, an increase over last year of $6,233,670. Silver, $74,244 696; increase, $4,049,211. New Mexico is credited with $600,000. Colorado leads with an output of $26,000,000. Arizona produced $2,500,000.

Jose L. Perea, treasurer and collector of Bernalillo county, with his two able deputies, Jesus S. Garcia and Eugenio Yrisarri, have been exceedligly busy the past two weeks attending to tax payers at the court house. Yesterday and today the rush has been great, and as today is the last one before taxes become delinquent and the penalty added, the rush at the court house will be continued several hours after supper to-night.

MURDER AT FORT WINGATE.

A Soldier Causes the Death of Another on Christmas Day.

Thursday evening, Chester L. Lockett, was brought to Albuquerque from Gallup by the United States deputy marshal and lodged in jail, for the killing of Sheridan Phillips at Fort Wingate last Monday afternoon. To a representative of THE CITIZEN to-day, Lockett said that Phillips had often made threats to put out his life by stabbing him. On Monday the two men quarreled over the possession of fifty cents, and during the course of which Phillips said he was tempted to use his knife, and Lockett started to go to another building when Phillips followed. When the latter was reclining on a bed a few minutes after, Lockett picked up a rifle and discharged the contents in Phillips' head. Death was instantaneous. Lockett was placed under arrest and the trial was held before Commissioner Ed. Hart, and upon hearing the evidence the murderer was sent to jail to await the action of the grand jury.

Funeral services were held over the remains of the murdered man, and the body was given interment in the post cemetery.

The Planter's Dependence on Good Seeds.

Without good, fresh, fertile seeds, good crops are impossible. It is, then, of the most vital importance that you should exercise the greatest possible caution in selecting the seeds you are to plant the coming season. Since you cannot determine their fertility or freshness by sight, the only certain way to insure yourself against worthless seeds is to buy only those that bear the name of a firm about whose reliability there is no question. There are no better known seedmen anywhere, and none who have a higher reputation for integrity, than D. M. Ferry & Co., of Detroit, Mich. Ferry's seeds have been a synonym for good seeds for many years. Thousands of gardeners who continue to plant them season after season, do so with the full confidence that they will uniformly be found to be of high vitality, and most important of all, true to name.

Ferry's Seed Annual for 1900 is fully up to the standard of former years and will be welcomed by all who have learned to regard it as a thoroughly reliable and practical guide to planting. A copy may be obtained free by addressing the firm as above.

Accident on Railroad Avenue.

At the corner of Second street and Railroad avenue at 3:30 this afternoon, Francisco Armijo fell from his bicycle in front of a team of mules which were coming, down the line at a lively clip. The boy succeeded in clearing himself but the wheel got tangled beneath the feet of the steeds and was badly damaged. After the team and wagon had passed on a pale-faced lad was seen to pick up his wheel and carry it home. It was a narrow escape for the lad as he only had enough time to get out of the way of the team. A crowd soon gathered to the scene, which was the only excitement for the New Year.

It has been demonstrated repeatedly in every state in the Union and in many foreign countries that Chamberlain's Cough Remedy is a certain preventative and cure for croup. It has become the universal remedy for that disease. M. V. Fisher, of Liberty, W. Va., only repeats what has been said around the globe when he writes: "I have used Chamberlain's Cough Remedy in my family for several years and always with perfect success. We believe that it is not only the best cough remedy, but that it is a sure cure for croup. It has saved the lives of our children a number of times." This remedy is for sale by all druggists.

AFTER TWO CORPORATIONS.

Solicitor General E. L. Bartlett has brought quo warranto proceedings in the district court for Santa Fe county against the Colorado Supply company, and also against the Colorado Fuel and Iron company. The suit is entitled "The Territory of New Mexico ex rel. Solicitor General vs. The Colorado Supply Company," and "vs. the Colorado Fuel and Iron Company." The bill of complaint alleges that both concerns are doing business illegally in the territory, for neither has filed papers or charters of incorporation, nor notices of the appointment of a local agent in the office of the territorial secretary, as the statute requires. Both companies operate in the southern part of Santa Fe county, the supply company conducting a general merchandise business at Madrid, and the fuel and iron company conducting coal mining operations near Cerrillos and Madrid. Orders were served on the companies yesterday to appear before Judge McFie at Santa Fe, January 10, at 10 o'clock in the forenoon to show cause why writs of ouster should not be issued against them to prohibit them from doing business in the territory. It is also alleged that the Colorado Supply company is merely a branch of the Colorado Fuel and Iron company, and is conducting a company store on a basis prohibited by the statutes of the territory. The case is one of great importance, and will excite much interest both in Colorado and this territory, as both corporations involved are very wealthy and have great influence.

Bought a Grant County Mine.

The Orion Mining company, owning extensive property in the Jarillas, have purchased the Dundee mine at Shakespeare, Grant county, from A. J. Melbury. The veins on the mine are permanent, well defined quartz fissures and mineral bearing from the surface, carrying copper, gold and silver values. Every shaft sunk on a vein in the camp to a depth of from 100 to 200 feet shows a continuous pay streak of shipping ore. Prospect shafts prove the camp to have profitable ore shutes.

J. I. Bevry, Loganton, Pa., writes: "I am willing to take my oath that I was cured of pneumonia entirely by the use of One Minute Cough Cure after doctors failed. It also cured my children of whooping cough." Quickly relieves and cures coughs, colds, croup, grippe and throat and lung troubles. Children all like it. Mothers endorse it. Berry Drug Co.

Wounding of Rainbolt Confirmed.

J. F. Cook, of Socorro, was here yesterday and he practically confirmed the report of the shooting and probable fatal wounding of William Rainbolt, a deputy sheriff of Chaves county. A short time ago several desperate characters escaped from the Roswell jail, and Rainbolt and a man named Allen followed them across the Jornado del Muerto, coming up with them between Engle and Polomas. Rainbolt called to them to surrender, but one of the men wheeled about and fired two shots, both bullets piercing the breast of Rainbolt, whereupon the desperadoes continued their escape. Allen then took charge of Rainbolt and it is thought that the wounded officer is now at Palomas in Sierra county, where he is dying.

FAMOUS DAM CASE.

Judge Parker Renders Decision Against Government.

Dismisses the Complaint and Dissolves the Injunction.

Albuquerque Enjoys a Lively Sunday Afternoon Runaway.

OTHER LOCAL HAPPENINGS.

Judge F. W. Parker, of the Third Judicial district court, who came up from Hillsboro this morning, has to-day mailed to the clerk of the court at Las Cruces, his decision and findings in the famous case of the United States of America vs. The Rio Grande Dam & Irrigation Company et al., being the suit brought by the government to enjoin the defendants from constructing their dam and reservoirs at Elephant Butte in Sierra county, New Mexico. The court finds that the waters of the Rio Grande passing El Paso, occasionally in seasons of high and protracted floods, reach Rio Grande City, the head of navigation, but doubts that they reach that point in quantities sufficient and in such form as to substantially add to the navigable capacity of the stream, nor is such fact satisfactorily established from the evidence. The court in conclusion finds that the intended acts of the defendants ... constructing their dams and reservoirs, and the impounding of the waters of the Rio Grande at Elephant Butte, and in appropriating the waters of the Rio Grande, will not substantially diminish the navigability of the Rio Grande within the present limits of present navigability, viz: Rio Grande City, Texas, and Brownsville, Texas, and orders that the bill of complaint of the government be dismissed and the injunction dissolved.

It is thought the United States attorney general will order an appeal of the case taken to the territorial supreme court.

Judge Parker will leave for Santa Fe to-morrow morning.

Lively Sunday Afternoon Runaway.

Yesterday afternoon a country team of horses, hitched to a sixteenth century carriage, made things lively all over town. Near the Catholic church the horses took fright at a lady passing who wore a red-colored dress, a man's shirt and cravat, and dashed around the corner to Fourth street. At the Golden Rule rooming house corner one of the wheels flew off, and the horses, with the remainder of the rickety vehicle, darted across Stamm's vacant lots and down Gold avenue to the corner of Second street. They turned the corner of Second street and shied into Coal avenue, running toward the railway. A telephone pole was in the way at the corner of First street, and one of the horses struck the pole a fearful blow, falling to the ground but not killing itself. The vehicle by this time was almost a complete wreck, and soon after the horses and rubbish were moved away.

The banquet at the Palace hotel in the evening will be a never-to-be-forgotten event, and the arrangements being made for it are most thorough. Mr. Estabrook is expected to arrive here Tuesday, and will be the guest, while here, of Hon. and Mrs. T. B. Catron.

The injured boy was taken to a physician where proper attention was given.

Badly Used Up.

John Wicks, a miner, is in the city and he is a pretty badly used up man. He states that he worked for the Gillette Mining company of Silver City for some time, but desiring to return to the Cochiti district he called for his time and received what was due him, about $13. He then left Silver City for Deming, and en route met two other men, who also claimed to be miners, but without money. He volunteered to help them along and suggested that when they reached Deming he would make a kicker with some one connected with the railroad to bring the three to Albuquerque for what money he had. "The two new made friends," said Wicks, "turned out to be desperate tramps before reaching Deming, for they attacked me and after slugging me over the face and head robbed me of what money I had and then escaped."

Wick's left eye, in fact his whole face, shows that he was roughly handled, but whether by the two tramps he met or by being thrown from a train while stealing a ride, for he says he beat his way from Deming to this city, remains to be investigated.

AMERICAN CASUALTIES IN PHILIPPINES.

London, Jan. 2.—The success of General French's column is confirmed by an official dispatch to the war office this afternoon from Cape Town, dated January 1, as follows: French reports to-day from Colesberg by heliograph as follows: "Leaving at Rensburg holding the enemy in front half of the Suffolks and a section of the Royal horse artillery, I started thence at five in the afternoon of December 31, taking with me five squadrons of cavalry, half of the Second Berks and eighty mounted infantry, carried in wagons and on guns. I halted four hours at Madoer's farm and at 3:30 this morning occupied a kopje overlooking and westward of Colesburg. The enemy's outposts were taken by surprise. At daylight we shelled the laager and enfiled the right of the enemy's position. The artillery fire in reply was hot from a fifteen pounder using Royal laboratory ammunition and other guns. We silenced the guns of the enemy's right flank, demonstrating with cavalry and guns north of Colesberg toward a junction, where a strong laager of the enemy was holding a hill and position southeast of Colesberg as far as the junction. Our position cut the line of retreat via road and bridge. Some thousands of Boers with two guns are reported retiring toward Norvalspont. All Remington's scouts proceeded toward Achterland yesterday morning. Slight casualties, about three killed, few wounded. Details later."

Independent messages from Rensburg filed on the evening of January 1, supplement General French's dispatch but slightly. According to them the British were still shelling the Boer position at 5 o'clock, Monday evening, and expected to enter Colesburg to-day. British losses were three men killed and seven wounded. No officers killed or wounded. The Boers are supposed to have suffered heavily from the accuracy of the British artillery fire. General French's statement that the Boers were using a fifteen pounder and Woolwich ammunition evidently refers to one of the British guns captured at Stormberg. The Boer strength in the engagement with General French was estimated at five thousand to seven thousand men.

ANOTHER SKIRMISH.

London, Jan. 2.—The war office received the following from Cape Town under to-day's date: Colonel Pilcher reports through an officer in command at Orange river: "I completely defeated a hostile command at Sunnyside laager this day, January 1, taking the laager and forty prisoners, besides the killed and wounded. Our casualties, two privates killed, Lieutenant Adie wounded. Am encamped at Dover farm, twenty miles northwest of Belmont and ten miles from Sunnyside."

Proclamation Against Peonage.

Manila, Jan. 2.—A naval officer who has arrived here from Guam brings a proclamation issued by Captain Leary, naval governor of that island, decreasing against peonage, the order to take effect February 22. The prologue to the proclamation declares that the Spanish system of peonage, amounting to slavery, is a menace to popular liberty and a violation of the privileges guaranteed by the American constitution. Captain Leary also deported all Spanish priests for reasons sufficient to him.
