THE CHARGE UNTRUE.

Land Grant Railways Do Not Juggle With Forest Reserve Script.

A dispatch from Washington states that the secretary of the interior in response to a resolution introduced by Representative Wilson, of Idaho, and adopted by the house calling for information concerning relinquishment of lands in forest reserves by land grant railroads furnished a statement of such lands belonging to railways on forest reserves in the Rocky mountain states. The following are the figures:

Colorado, 234,827 acres; New Mexico, 67,743; Wyoming, 5,297. Lands relinquished by land grant railways and forest reserve scrip are as follows: Colorado, 20,950 acres; New Mexico, 1,469 acres. Lands relocated with forest reserve scrip are: Colorado, 9,926 acres; Wyoming, 7,231; New Mexico, 21,069 acres. It is charged that the land grant railways, by relinquishing denuded or non-timbered lands, within the reserves, for which they received forest reserve scrip, are making vast sums of money by filing this scrip upon valuable forest lands outside the reserves. The figures furnished by the interior department show that this charge is not sustained as to Colorado, Wyoming and New Mexico.

Land Commissioner Binger Hermann of the general land office sent to the house additional statistics as a partial response to the inquiry as to the extent of various forest reserves, the amounts of corporation, railroad and individual holdings within these reserves and what new reserves of extension were contemplated. He gives the number of acres of railroad, etc., lands at 2,594,160 acres; of individual entries, 1,245,951 acres; and of state selections, 228,279 acres. The total of lands relinquished in the United States up to April 6, 1900, is given at 382,928 acres; the area selected or located in lieu of such relinquishment, etc., 402,760 acres.

Beer War Threatened.

Albuquerque is threatened with a lively beer war. Recently W. J. Lemp's Brewing company, of St. Louis, secured an agency here for the sale of keg beer, and quite a number of saloons are now patronizing the new agency. Heretofore, the Anheuser-Busch Brewing company of St. Louis, and the local Southwestern company, have been supplying the trade with the foaming beverage, but now that a third party is in the field, it is stated as an absolute fact that the price will be considerably reduced, whether by the glass, or rather two glasses for 5 cents to the consumers, or by the keg to the trade, our informant failed to state.

At the conclusion of these services the procession followed the remains to Fairview cemetery where an appropriate and impressive service was held at the grave. The pall bearers were A. W. Hayden, R. Davis and A. J. Lamb, members of the Fraternal Union of America, and A. L. Harris, Antonio Ortiz and E. Weise of the Woodmen of the World.

Earthquake in this Territory.

The prolific Santa Fe correspondent whose wonderful pen extends all over the southwest, wired the following to the Denver Republican:

Suicide at Williams.

A passenger from the west, who arrived last night, informs The Citizen that on last Monday Angus Grant, about 50 years old, committed suicide by shooting himself with a shot gun in the heart. He had been cook for the railroad contractor, R. R. Coleman, but was discharged a few days ago. He grew despondent over the loss of his situation, and committed the deed while temporarily insane.

Open for Settlement.

To-day City Engineer Pitt Ross received by mail a communication from Hon. Manuel R. Otero, register of the land office, stating that the honorable commissioner revoked the suspension and restores to entry townships 8 and 9, north, ranges 2, 3, 4 and 5 New Mexico meridian. The letter furtner states that applications for tracts of lands in the above named townships will now be accepted at the general land office, and settlers will be allowed to perfect their claims.

The lands referred to in the above are located in the valley about eight miles south of Albuquerque and are commonly known as the Tajo settlement. The tracts were formerly claimed by certain people for land grants and have caused a great amount of trouble ever since 1886.

A STATEMENT CORRECTED.

G. W. Shutt Talks Again About the Low-Line Ditch.

The Citizen yesterday afternoon published the following paragraph:

The Albuquerque Land and Irrigation company, operating the low-line ditch, are paving off the employes this afternoon. President Hesselden, of the company, who has just gotten up from a sick bed, states that all the debts contracted up to date will be met.

George M. Shutt, of the Shutt Improvement company, called at this office last night and stated that the above paragraph is misleading, and places him and his company in a peculiar position before the public, after he had declared in unmistakable words the day before that the Albuquerque Land and Irrigation company owes his company $16,000 and had not paid them. Mr. Shutt stated that the only employes who received any funds from the Irrigation company yesterday afternoon were the members of the engineering corps, and the others, equally as anxious to receive payment, were allowed to whistle.

"What action will you take?" asked the reporter.

"I will leave on the night's train for Pueblo, Col.," remarked Mr. Shutt, "where I will consult an attorney and decide upon some future course of procedure. The Shutt Improvement company from any point of view and the small subscribers to the building of the low-line ditch, it seems to me, are the only losers so far in the scheme. As I stated in an interview published in Tuesday's Citizen, my company expended $15,000 to refit and enlarge our outfit in order to fulfill our contract as to the construction of the ditch, and, without my company receiving any pay, have between fifty and sixty workmen ready to pounce down upon us for the payment of their wages."

The Citizen representative, in his rounds yesterday afternoon, ascertained that a number of subscribers are very bitter in their opinions of the principal promoters of the ditch, and several declared that they were induced to subscribe to the ditch fund by representations from certain wealthy subscribers that sufficient funds would be forthcoming and that the ditch, when work was commenced, would be pushed rapidly to completion.

THE MINNIE WRAY SUICIDE.

She Was Here in January and February, and was a Most Pleasant Lady.

Miss Minnie Wray, who committed suicide at the Palmer House, Chicago, the other day is quite well known to some of the citizens of Albuquerque, she having spent several weeks here in January and February last. She arrived here from Los Angeles, where she had gone from Lincoln, Neb., in the hope of securing a position as stenographer and typewriter, but find everything overdone there she came on to this city and took a room with Mr. and Mrs. J. O. Gideon First street. She remained here, as stated above, several weeks and Theodore Muensterman, to whom she presented herself as an acquaintance of his nephew, Fritz Berge of Lincoln, Neb., took some interest in her welfare and attempted to secure her a position. One day, however, when it looked very much as if the young lady would recive some work here, she called at Mr. Muensterman's shoe store and stated that she had received bad news from her home in Indiana and would leave immediately for that state. The next thing heard of the young lady was the announcement of her suicide at the Palmer house in Chicago. Mr. and Mrs. Muensterman and others, who came in contact with Miss Wray while she was here, state that she was a perfect lady in every respect, and a most accomplished stenographer and typewriter. The telegraphic accounts of her death give out the information that she was in love with Mr. Berge, who is a soldier in the Philippines, and being informed of his death she sought solace for her sorrows by committing suicide. Mr. Muensterman states that he has no information to the effect that Mr. Berge is dead.

FAREWELL RECEPTION.

Brilliant Affair Tendered Rev. F. H. Allen and Family.

After five years of faithful and efficient service in the Congregational church of this city, Rev. F. H. Allen has been called to a larger field of service, and the members of the church in order to show their hearty appreciation of his labors in the community and the cordial feeling they had for himself and family, tendered them a brilliant reception in the parlors of the church last evening.

The rooms were beautifuly decorated with palms, potted plants and a profusion of cut flowers, with numerous easy chairs placed in convenient corners, several stand lamps and an abundance of Navajo rugs upon the floor gave the whole scene a pleasing, cheerful and homelike appearance.

A host of friends regardless of religious affiliations, besides the members of the church and congregation, availed themselves of this opportunity to say goodbye and express their regret over the loss of a good family from the city.

During the evening delicious chocolate was served to the guests at a table presided over by Mesdames McGaffey and Hinoe.

Those who wished something more cooling seated themselves at tables and were served with sherbet and cake by the following young ladies: Misses Stevens, Fox, Anderson, Drury, Hamlet, Winston and Baldridge.

Toward the close of the evening Rev. T. C. Beattie gave a short farewell address, which was responded to in a few well chosen words by Mr. Allen. There was a note of sadness through the gathering all the evening, which reached its culmination in the singing of that beautiful hymn, 'God be with You Till We Meet Again.'

Mrs. H. B. Ray, chairman of the arrangement committee, deserves great credit and praise for the efficient manner in which this reception was planned and executed.

REV. KINNEY INTERESTED.

He Secures a Letter showing Rev. Gibson Guiltless of the Durrant Murders.

When the alleged "death bed confession" of Rev. Mr. Gibson, of San Francisco, in regard to the Durrant murders, was published throughout the country, and found its way into the columns of The Citizen, Rev. Bruce Kinney, of this city, wrote a letter to Rev. E. A. Woods, of San Francisco, relative to the matter. Rev. Kinney has received the following letter:

San Francisco, Cal., April 7.

Rev. Bruce Kinney, Pastor First Baptist Church, Albuquerque, N. M.

Dear brother—I have received your note with the enclosed clipping from the Albuquerque Citizen, in which you ask me as to the truth of the statement there published that "Rev. Mr. Gibson a few days ago on his death-bed confessed that he killed both of the victims," for the murder of which Durrant was executed in San Francisco a few years ago. In reply I would say, the Rev. Mr. Gibson is now pastor of the Emanuel Baptist church of this city, is alive and well and is preaching to large congregations every Sunday. Mr. Gibson is respected and honored by the churches and ministers of all denominations in this city and state. I resided here when Durrant was executed for the murder of two young women in the Emanuel church. No suspicion of wrong doing in conection with that tragedy attaches to the name of Rev. Mr. Gibson, and there was no doubt as to the guilt of Durrant in the minds of the public at the time of his execution and there is no such doubt to-day. In the interests of truth and justice I hope that those papers which published this statement of a death-bed confession, may also publish these facts of the case.

Fraternally yours,
E. A. WOODS,
Pastor First Baptist Church.

SANTA FE BOY IN LUCK.

Ralph McFie Secures Desirable Position in Manila.

A mining bureau has been established by the United States in Manila for the purpose of promoting the mining industry in the Philippine islands, and a few days before Ralph McFie arrived there Lieut. Charles K. Burritt was appointed superintendent of the bureau. The first day Ralph was in Manila he met Lieut. Charles Ballard, of Roswell, whom he was delighted to see, as they were Rough Riders together in Cuba. Mr. Ballard introduced Ralph to the new superintendent and added his recommendation as an intimate friend of both Mr. McFie and Lieut. Burritt. The result was that Superintendent Burritt immediately appointed Mr. McFie as his private secretary, and within a week after his arrival in Manila the fortunate young man went to work at a salary of $200 per month.—New Mexican.
