NIPPLD IN THE BUD.

Charles Maddox, a Forger, Comes to Grief in This City.

HIS OPERATIONS THIS MORNING.

Between the hours of 1 and 2 o'clock this afternoon the police force made an important arrest in the person of one, going by the name of Charles Maddox, and lodged him behind the bars of the city jail. The charge preferred against him is that of forgery. Soon after the doors of the First National bank were thrown open this morning, Maddox introduced himself to M. W. Flournoy, vice president, and in a few words made a statement of who he was and what he wanted. He claimed Riverside, Cal., as his home, but was seeking a new location, and thought that Albuquerque would be an ideal place in which to locate. He had in his possession a check for $18,000 on the First National bank of Riverside, which he desired to have cashed, as he wanted to invest it in real estate here at once. Mr. Flournoy informed Maddox what was necessary to be done before he could cash it here, and so the latter left the check with the banker for collection. Maddox returned to the bank in about an hour and stated to Mr. Flournoy, that as he left home rather unexpectedly and had spent nearly all of his change in traveling, he desired a small amount of pocket money until his check for $18,000 was honored, whereupon he tendered a check for $200 on the Citizens' Bank of Louisiana, of New Orleans, which he wished to turn over for cash. He was told to have a responsible person in this city endorse the check. Maddox claimed that he knew Rev. J. H. Marsh, pastor of the Congregational church, he would favor him that much, and in less than an hour he returned with the check which bore the name of J. H. Marsh. Not knowing the signature of the reverend gentleman, Mr. Flournoy hastily dispatched a messenger to the Marsh residence to learn if he had endorsed the check, and if so to send a facsimile of his signature. The messenger returned and reported that Mr. Marsh had not endorsed the check. In the meantime the bank had cashed the check and Maddox had departed.

A description of the man was furnished City Marshal McMillin, who notified his assistants on the force, and in a short time captured their man. He was searched and about $185 was found on his person.

After much questioning he finally confessed that he was "up again it," and willingly admitted that both checks were forgeries. Among the trinkets found in his pockets was a diary, box of morphine and a picture of his father's grave. He said he was born in London, England, and for a number of years had made his home in San Diego, Cal. He is a man almost 50 years of age, of a short, heavy build, gray hair and stubby beard, eyes slightly defective and wears a pair of steel-rim spectacles.

It is reported that he has been in this city for a few days, and has attended services at the Congregational church, where it is supposed he made the acquaintance of the pastor, and later resorted to the contemptible scheme to defraud the minister of the gospel.

At 3:30 o'clock this afternoon the would-be cook was taken before Judge A. J. Crawford, where he waived examination and was bound over in the sum of $2,500 to await the action of the next grand jury. In default of bail he was remanded to the custody of Sheriff Hubbell.

Good Advice.

The most miserable beings in the world are those suffering from dyspepsia and liver complaint. More than 75 per cent of the people in the United States are afflicted with these two diseases and their effects, such as sour stomach, sick headache, habitual costiveness, palpitation of the heart, heart-burn, water-brash, gnawing and burning pains at the pit of the stomach, yellow skin, coated tongue and disagreeable taste in the mouth, coming up of food after eating, low spirits, etc. Go to your druggist and get a bottle of August Flower for 75 cents. Two doses will relieve you. Try it. Get Green's Prize Almanac. For sale by J. H. O'Reilly & Co.

A powerful engine cannot be run with a weak boiler, and we can't keep up the strain of an active life with a weak stomach; neither can we stop the human machine to make repairs. If the stomach cannot digest enough food to keep the body strong, such a preparation as Kodol Dyspepsia Cure should be used. It digests what you eat and simply can't help but do you good. Push along every good move that tends to build up Albuquerque.

It looks very much like the legislature will pass a law putting gambling upstairs.

The new railway hotel and depot is moving along in good shape, and is beginning to show fine proportions.

City election next month. Let good men be nominated by the two big political parties for the various city offices.

This is fine winter weather; the best that can be found in any country and the warm sun brings out the eastern invalids that are now sojourning in the city.

The Thirty-fourth territorial legislature will adjourn sine die on the night of Thursday, March 21, and the next day will find the grand old capital almost deserted.

The Santa Fe is carrying hundreds of passengers at present. A colonist rate of thirty dollars from Chicago to Los Angeles is now in force and it is being taken advantage of by the people of the east.

Nearly sixty people, all passengers and tourists, visited the Grand Canyon of the Colorado from Williams over the Santa Fe & Grand Canyon railroad last week. A party of ten easterners are now at Williams ready to make the trip.

Henry L. Newman, Jr., of Hereford, Otero county; Henry L. Newman, Sr., and John F. Coles, of El Paso, Texas, filed incorporation papers for the H. L. Newman & Son Cattle company; capital, $50,000. Headquarters at El Paso, Texas. The New Mexico agent is Henry L. Newman, Jr.

To determine whether the shore line has not been shrinking a corps of engineers belonging to the United States coast and geodetic survey department has been at work on the Pacific coast. It is believed that the results of their labors will show the Pacific to have sunk several inches within the century and to be going down now much more rapidly than the Atlantic.

When J. E. Hurley, general superintendent of lines west of this city, was here last Sunday, he met Mayor O. N. Marron, and they talked over the viaduct proposition. Mr. Hurley stated that he hoped to see work commenced on the viaduct in a few days. The well known railroader is now at Gallup, endeavoring to bring about a settlement of the miners' strike.

The penitentiary commission met at the penitentiary and transacted routine business. The members present were President F. H. Pierce, J. T. McLaughlin and Louis Ilfeld. Hon. Juan Navarro could not attend owing to committee duties in the legislature and Hon. J. Francisco Chaves on account of his absence from the city, being at Los Lunas to attend the funeral of Mrs. Isabel B. de Luna.

"On to Albuquerque" is the cry nowadays. Therefore, don't neglect your duty in subscribing to the proposition of the Santa Fe, Albuquerque & Pacific railway. It is learned that Senator Andrews, one of the principal promoters, will be here on March 25, with the Pennsylvania capitalists, to look over the proposed route, and to let contracts to begin construction work as soon after their visit as possible.

The Williams News, in commenting on the efforts of certain people to obtain from the Arizona legislature an appropriation for the Pan-American exposition at Buffalo, N. Y., says: "Seven thousand five hundred dollars, if appropriated for an Arizona exhibit at the Pan-American exposition, is a disgrace to the territory. It is time for Arizona to avail herself of some of the chances proffered her, which cannot be done on this occasion with $7,500.

Physicans have discovered that the "choker" is productive of cancer of the throat and that many young women have been treated in the hospitals of the country for the disease. The habit of wearing chokers was a compulsory one in the early days of American history, but its use was discountenanced by law. When a man was declared guilty of some petty crime in those early days he was punished by having his head put in the stocks in the public square of the town, where the populace might jibe and jeer at him. Now the society young man believes himself poorly dressed if he is not fitted up with this ancient form of punishment and the descendants of the rib that Adam lost have to follow suit.

Recent experiments show that all classes of foods may be completely digested by a preparation called Kodol Dyspepsia Cure, which absolutely digests what you eat. As it is the only combination of all the natural digestants ever devised the demand for it has become enormous. It has never failed to cure the very worst cases of indigestion and it always gives instant relief. Berry Drug Co. and Cosmopolitan drug store.

CANDIDATES FOR GOVERNOR.

There will be quite a number of candidates for the position of governor of New Mexico, at the expiration of the term of the present incumbent, says the Santa Fe Capital.

In addition to the application of Governor Otero whom we presume will be a candidate to succeed himself, we hear of the following others from New Mexico:

Hon. George H. Wallace, who was a prominent candidate for the position four years ago and who was the first choice of Mr. McKinley at that time, will be a strong applicant for the position. Mr. Wallace has a large following in the territory who are desirous of seeing him appointed to the office, besides many eastern parties of large influence with the president.

Hon. Quincy Vance, a personal and life-long friend of the president, will also be a candidate. Mr. Vance has strong backing both in New Mexico and in the east, especially in the congressional district formerly represented by Mr. McKinley in congress.

Hon. Frank A. Hubbell, the present efficient chairman of the republican central committee, whose labors during the last election produced such a splendid victory for the republican party, is being pushed forward by his many republican friends throughout the territory, and we learn will also be a candidate for the honors of governor of New Mexico.

There is a large element in the republican party who are desirous of having a man at the head of affairs in New Mexico who is a business man, and they believe should Mr. Hubbell be appointed governor he would be the right man in the place, and one who would inaugurate a business administration of affairs which would be of great benefit to the territory.

Pneumonia Can be Prevented.

This disease always results from a cold or an attack of the grip and may be prevented by the timely use of Chamberlain's Cough Remedy. That remedy was extensively used during the epidemics of la grippe of the past few years, and not a single case has ever been reported that did not recover or that resulted in pneumonia, which shows it to be a certain preventive of that dangerous disease. Chamberlain's cough remedy has gained a world-wide reputation for its cures of colds and grip. For sale by all druggists.

AMUSEMENTS.

Miss Oliver at Columbus Hall---"The Steam Laundry" at Neher's Opera House.

THE COMING ATTRACTIONS.

MISS OLIVER.

Miss Oliver, who will appear at the Columbus hall to-night, is in receipt of the following complimentary letter:

Winnipeg, Feb. 18, 1901.—Your visit to Winnipeg was a great triumph. By the sheer excellence of your work you made in your two evenings' entertainments a large number of enthusiastic friends. As to the "Pilot," I was a little nervous. I knew that in the first night in the "Little Minister" Barrie could take care of himself, but of Ralph Connor I was not so sure, and I think that the "Little Minister" and his company lend themselves more easily to the stage. They are all used to the society of nice people, but "Bill" and "Hi" never saw a crowd in "biled shirts," and poor Given would have fled if you had called her to face the audience; and, as for the "Pilot," well he has seen a little of that, but it is not in his line, and yet, dear Miss Oliver, you did the trick. They came forth naturally, early, just as I have seen them in their own free west, and it rejoiced my heart to see them again. I think you did wonderfully well. You see they might so easily, become vulgar—some of them—and yet you saved even "Bill" from that. You have a rare gift. The fine reserve, the subtle interpretation, the clear enunciation, and the sympathetic intonation, all of them qualities so necessary to good reading, you possess.

I am glad my children are in your hands. I feel quite safe about them. I would hate to have them massacred nightly to make sport for an American audience. We all join in good wishes to you. Yours very truly,

CHESTER W. GORDON,
(Ralph Connor.)

"THE STEAM LAUNDRY."

Wiedeman's big show in "The Steam Laundry," a farce comedy written on an entirely new theme is the attraction at the Neher opera house for one night, Tuesday, March 5.

The average farce comedy of to-day has no plot and is a mass of nonsense, but in this case the story is one of absorbing interest, and holds the attention of the play-goer from the rise to the fall of the curtain. Choruses, medleys and seven unique specialties are introduced in the play and the solo orchestra under the direction of Professor McDonald, is a feature that will please lovers of classical music. The average theater-goer is averse to attractions that carry a band and orchestra as they say, "The whole show on the street." With this company the musicians are carried for musical purposes alone and the cast is made up of clever people selected for their fitness in their respective roles. The parade is something new in the history of amusement annals, and is headed by the Red Huzzars in gorgeous uniform of the Prussian cavalry. The second band is the laughing hit, "The Laundryman's Outing," a Chinese band with native instruments. The concert in front of the theater each evening at 7:15 is worth coming out to hear. Professor McDonald and twenty solo musicians will introduce a concert of classical and modern music.

"A BREEZY TIME."

For the last few years it would seem as if the public has been seeking that class of plays having as their fundamental principle, the creation of merriment.

Working for this idea, the author of "A Breezy Time" has given an amusing and well-told story that Fitz & Webster's clever company of comedy players have succeeded in elaborating into an enjoyable entertainment. Meritorious from the fact that it not only has all the elements of music and fun, but its story is coherent and full of well sustained interest.

The three acts of "A Breezy Time" have been happily impregnated with music, songs, dances and amusing specialty features, all of which are introduced in an easy and perfectly legitimate manner, and the presentation gives a bright and crisp entertainment.

The finale of the last act was arranged by Fitz & Webster in which they introduce a number of "Rag Time" airs, closing the show with a grand cake walk by the entire company.

"A Breezy Time" will be at the Neher opera house, Saturday night, March 9.

HARR WAGNER.

This great lecturer will appear at the Columbus hall on Tuesday night, March 12. The San Francisco Call, in commenting on his lecture recently at Stanford University, says:

Harr Wagner, editor of the Western Journal of Education, lectured in University hall last night to a large audience. His subject was "The Problems of Liberty," illustrated with sixty views, many of them reproductions of historic scenes, including Angelo's "Statue of Moses," "King John Granting the Magna Charta," "Henry the VIII and Anna Boleyn," "Queen Elizabeth," "Massacre of St. Bartholomew," "Gutenberg's First Proof," "The Fall of the Bastile," "The Spirit of '76" and "Liberty Bell." Mr. Wagner, in treating of "The Problems of Liberty," gave some vivid pictures of the conditions that prevail at the present time, as well as of the times when people fought for the rights of private judgment and constitutional liberty. The eloquent simplicity of the language used, the intense human side of the history shown, and the artistic quality of the views, kept the audience interested from the beginning.

ANDREWS' OPERA COMPANY.

L. M. Crawford a well known theatrical company manager and owner of opera houses, and who has been in the city for the past few days, stated last night that he had secured subscriptions to the amount of nearly $2,000, which would guarantee him in bringing here the celebrated Andrews' opera company, and that the company would appear at Neher's opera house for three nights—March 18, 19 and 20. Advance seats can still be secured at the store of O. A. Matson & Co.

Editor's Awful Fright.

F. M. Higgins, editor Senaca (Ill.) News, was afflicted for years with piles that no doctor or remedy helped helped until he tried Bucklen's Arnica Salve. He writes two boxes wholly cured him. It's the surest pile cure on earth and the best salve in the world. Cure guaranteed. Only 25 cents. Sold by J. H. O'Rielly & Co., druggists.

ESTANCIA LAND GRANT CASE.

The famous Estancia land grant case was argued in the United States supreme court at Washington last week. M. G. Reynolds appeared for the government and John H. Knaebel, of Denver, for the claimant, who is Joel Parker Whitney. The claim is for 415,000 acres in Valencia county.

A Thousand Tongues

Could not express the rapture of Annie E. Springer, of 1125 Howard street, Philadelphia, Pa., when she found that Dr. King's New Discovery for Consumption had completely cured her of a hacking cough that for many years had made life a burden. All other remedies and doctors could give her no help, but she says of this royal cure: "It soon removed the pain in my chest and I can now sleep soundly, something I can scarcely remember doing before. I feel like sounding its praises throughout the universe." So will every one who tries Dr. King's New Discovery for any trouble of the throat, chest or lungs. Price, 50c. and $1.00. Trial bottles free at J. H. O'Rielly & Co.'s drug store. Every bottl guaranteed.

MUNICIPAL MATTERS.

Considerable Business Brought to City Council's Attention.

The customary semi-monthly meeting of the city fathers was held last night in the city building and all members of the council were present. A list of new bills was presented and referred to the respective committees for approval. Following are the bills which have been ordered paid:

A. J. Maloy	$1.15
James T. Johnston	5.75
W. H. Hahn	4.45
E. J. Post & Co.	7.50
L. B. Putney	1.85

The clerk of the board of education notified the city council of a vacancy existing in the board from the Third ward, and asked that this be included in the annual call. The matter was referred to Mayor Marron.

A petition signed by nearly a score of taxpayers on West Railroad avenue was read, asking the council to have the street car track lowered to grade between Eighth and Fourteenth streets. It was referred to the street committee.

During the month of February City Marshal McMillin's report showed $412 in collections for fines; 286 meals served; 97 arrests made.

The total collections for the month as reported by the city clerk were $567.50.

Following is the treasurer's report:

RECEIPTS.

Balance February 1	$ 9,059.27
Received from C. K. Newhall, collector	3,326.51
Received from C. W. Medler, clerk	377.45
Received from Thos. McMillin, marshal	471.50
	$13,234.73

DISBURSEMENTS.

Warrants paid	$ 216.51
	$13,018.22

According to the report of Chief Rappe it required only $218.98 to pay all expenses of the fire department for February.

The firms of J. Korber & Co. and E. J. Post & Co. submitted bids to the council for a new street sprinkler.

The council does not feel able to afford a new sprinkler, but as one is necessary they have begun figuring on where they might reduce expenses. A committee composed of Aldermen Leonard, McKee and Beaven was appointed to investigate the matter.

It was moved and seconded that the fire department be supplied with an improved nozzle, the cost of which being $9.50.

Clerk Medler was authorized to ascertain from John Fleming, mayor of Silver City, the amount necessary to contribute to the expenses of the Municipal League.

The following polling places and boards of registration for the coming spring election were named by the mayor and confirmed by the council:

First Ward—Cigar store of Richards; A. J. Richards, L. A. Tessier, Emil Mann.

Second Ward—Beaven's coal office; Pat Powers, Ed Harsch, Jas. Furlong.

Third Ward—O'Reilly's drug store; F. W. Schmallenck, P. J. Murphy, George Fraser.

Fourth Ward—Walton's drug store; W. Y. Walton, W. N. Macbeth, H. S. Knight.

The matter of granting a right to place and maintain lines in the city to the American District Telegraph company of New Mexico was referred to the street committee for their consideration.

For the weakness and prostration following grippe there is nothing so prompt and effective as One Minute Cough Cure. This preparation is highly endorsed as an unfailing remedy for all throat and lung troubles and its early use prevents consumption. It was made to cure quickly. Berry Drug Co. and Cosmopolitan drug store.

How to Cure the Grip

Remain quietly at home and take Chamberlain's Cough Remedy as directed and a quick recovery is sure to follow. That remedy counteracts any tendency of the grip to result in pneumonia, which is really the only serious danger. Among the tens of thousands who have used it for the grip not one case has ever been reported that did not recover. For sale by all druggists.

La Grippe Quickly Cured.

"In the winter of 1898 and 1899 I was taken down with a severe attack of what is called la grippe," says F. L. Hewett, a prominent druggist of Winfield, Ill. "The only medicine I used was two bottles of Chamberlain's Cough Remedy. It broke up the cold and stopped the coughing like magic, and I have never since been troubled with grippe." Chamberlain's Cough Remedy can always be depended upon to break up a severe cold and ward off any threatened attack of pneumonia. It is pleasant to take, too, which makes it the most desirable and one of the most popular preparations in use for these ailments. For sale by all druggists.

Robbed the Grave.

A startling incident, in which Mr. John Oliver of Philadelphia was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying Electric Bitters, and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50c., guaranteed, at J. H. O'Rielly & Co.'s drug store.

CANCER Cannot be Cut Out or Removed with Plasters

Surgical operations and flesh destroying plasters are useless, painful and dangerous, and besides, never cure Cancer.

No matter how often a cancerous sore is removed, another comes at or near the same point, and always in a worse form. Does not this prove conclusively that Cancer is a blood disease, and that it is folly to attempt to cure this deep-seated, dangerous blood trouble by cutting or burning out the sore, which, after all, is only an outward sign of the disease—a place of exit for the poison?

Cancer runs in families through many generations, and those whose ancestors have been afflicted with it are liable at any time to be stricken with the deadly malady.

Only Blood Diseases can be Transmitted from One Generation to Another

—further proof that Cancer is a disease of the blood.

To cure a blood disease like this you must cure the entire blood system—remove every trace of the poison. Nothing cures Cancer effectually and permanently but S. S. S.

S. S. S. enters the circulation, searches out and removes all taint, and stops the formation of cancerous cells. No mere tonic or ordinary blood medicine can do this. S. S. S. goes down to the very roots of the disease, and forces out the deadly poison, allowing the sore to heal naturally and permanently. S. S. S. at the same time purifies the blood and builds up the general health.

A little pimple, a harmless looking wart or mole, a lump in the breast, a cut or bruise that refuses to heal under ordinary treatment, should all be looked upon with suspicion, as this is often the beginning of a bad form of cancer.

Mrs. Sarah M. Keesling, 401 Windsor Ave., Bristol, Tenn., writes: "I am 47 years old, and for three years had suffered with a severe form of Cancer on my face, which the doctors in this city said was incurable and that I could not live more than six months. I accepted their statement as true, and had given up all hope of ever being well again, when my druggist, knowing of my condition, recommended S. S. S. After taking a few bottles the sore began to heal, much to the surprise of the physicians, and in a short time made a complete cure. I have gained in flesh, my appetite is splendid, sleep is refreshing—in fact, am enjoying perfect health."

HOLE IN THE LUNGS

There are thousands of men and women, as well as ever with holes in their lungs; consumption stopped.

Consumption stopped is consumption cured. What does it?

Some change in the way of life and Scott's emulsion of cod-liver oil.

With the emulsion, give some attention to circumstances: change from a dark damp close room to a sunny dry airy one; from city to country; from hard to an easy life; indoors to out.

A hole in the lungs once healed is no worse than a too tight waist or waistcoat.

Take the emulsion, and give it a chance to heal the wound.

We'll send you a little to try, if you like.
SCOTT & BOWNE, 409 Pearl street, New York.

Danger of Colds and La Grippe.

The great danger from colds and la grippe is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for these diseases we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that it is a certain preventive of that dangerous malady. It will cure a cold or an attack of la grippe in less time than any other treatment. It is pleasant and safe to take. For sale by all druggists.

When you want a physic that is mild and gentle, easy to take and pleasant in effect, use Chamberlain's Stomach and Liver Tablets. Price, 25 cents. Samples free. Every box guaranteed. For sale by all druggists.

THE LEGISLATURE.

HOUSE

The legislative council having taken a recess to 10 a. m. Tuesday, only the house transacted business of state yesterday. After forty minutes had been consumed in reading part of the journal of Friday's proceedings, the balance was dispensed with, and the house got down to work. By unanimous consent Mr. Sanchez of Valencia introduced a resolution on the death of Mrs. Luna, and the same was read and unanimously adopted.

The following new bills were introduced, ordered translated and printed and referred:

House bill No. 181, by Mr. Barnes, specifying the mode, time and place for inflicting the death penalty; committee on judiciary.

House bill No. 182, by Mr. Barnes, to amend chapter 37, acts of 1899; committee on judiciary.

House bill No. 183, by Mr. Read (by request), an act authorizing the secretary of the interior to purchase for the United States from the Indians of New Mexico, lands for school site purposes. Mr. Read called Mr. Sanchez to the chair and asked that this bill be taken up at once. He explained that the measure had been offered at the request of the secretary of the interior and Professor Crandall, head of Indian education in this territory, and was designed to clear up any question as to whether the Indians could sell part of their lands to the government to be used as sites for school buildings. The bill passed unanimously.

House bill No. 185, by Mr.Ascarate, relating to practice in district courts; committee on judiciary.

House bill No. 186, by Mr. Sanchez of Mora, providing for the payment of outstanding indebtedness of counties; committee on finance.

House bill No. 144, by Mr. Barnes (by request), providing for the indexing of county records, was taken up, slightly amended and passed, only Mr. Slaughter voting in the negative on the first roll call. In explaining his vote, Mr. Slaughter declared the present law quite good enough, and said this bill would entail thousands of dollars expense upon the counties. Then Mr. Gutierrez announced that he would change his vote to no; Mr. Bateman and Mr. Bowie followed, desiring to change their vote; Messrs. Trujillo, Chaves, Sandoval and Gomez did likewise. Mr. Barnes said he had no special interest in the bill, but considered the present system of indexing insufficient and practically useless; that this bill would cause the indexing afresh some 8,000 public papers at a cost, in Colfax county, for example, of about $400 only. Mr. Bateman said the bill provided for an entire new index by the county clerks, and upon further examination he considered it a good and timely measure, therefore, on second roll call he voted aye. The bill on second call of the roll passed, 9 to 12.

House bill No. 139, by Mr. Bateman, relating to the duties of county treasurers in the giving of bonds, seeking to make such officials absolutely liable for all public moneys coming into his hands, came up on an adverse report presented by Mr. Sanchez of Mora, from the committee on finance. Mr. Bateman moved the rejection of the committee's report, and in an explanatory speech, cited section 746, Compiled Laws, the present law on the subject, which he said would have to be modified if the law making powers sought to make county treasurers responsible, absolutely, upon their official bonds for the safety of the moneys coming into their hands. The bill also explicitly sets out that treasurers, if they deposit funds to draw interest in a bank, shall deposit same in the bank offering to pay the highest rate of interest for the use of such funds. Mr. Barnes supported Mr. Bateman's ideas, citing an instance where $2,000 in interest that should go into the public treasury annually found its way into the treasurer's private wallet. He thought the passage of the bill would add from $1,000 to $5,000 annually to the revenues of the various counties. Mr. Chapman opposed that feature of the measure "forcing" treasurers to make deposits in the bank paying the highest interest. Mr. Slaughter said there was nothing in the bill "forcing" the treasurers to make such deposits, but if they were made the treasurer shall select the one paying the highest rate of interest and require a proper indemnifying bond for such funds. Mr. Valdez thought even the present law was too severe upon the county treasurers, and considered it an injustice that treasurers should be made responsible upon their bonds for moneys deposited by them in bank. Mr. Bateman's motion to reject the finance committee's report was lost, 6 to 15, and the bill was tabled indefinitely on motion of Mr. Gutierrez.

House bill No. 10, or rather a substitute therefor, a refunding bond act, was taken up and indefinitely tabled, its provisions being practically identical with those in council substitute for council bill No. 15, which has already passed the house, and is again pending in the council. Adjourned to 2 p. m.
