BERTHOLD OFF FOR BATTLE WITH THE FEDERALS AT ENSENADA

Greatly Outnumbered, He Still Asserts He Will Battle With Them for Victory or Death.

MEXICANS OPEN FIRE ON AMERICAN TOWN

No One Injured; Rebel Army Under Berthold and Leyva Leaves Mexicali at Midnight.

(Associated Press.)

Calexico, Mex., March 15.—Firing from the American side of the international line, Mexican customs officials at Algodones today sent a volley into the insurrectos, the latter replying by firing a volley into the American town of Andrade.

So far as known no one was wounded.

(Associated Press.)

Mexicali, Mexico, March 15.—The rebel army of 200 men, headed by Generals Berthold and Leyva, marched out of Mexicali at midnight in the direction of Ensenada with the intention of giving battle to any federals they might find. They are encamped today at Laguna, Salada, 15 miles southwest of here.

Berthold said he would promptly attack a small force of federals said to be holding Pinches Pass, a narrow mountain defile which commands the only route to Ensenada. He expressed confidence in his ability to defeat the detachment, but said he did not expect to get back alive.

Reliable reports say that the Mexican government has started a force of 750 men from Ensenada for the purpose of giving battle to the rebels. The rebels will be badly outnumbered.

"General" Stanley, with an independent force of 40 Americans, mostly former United States regulars, has gone east in the direction of Algodones.

Tia Juana Reinforced.

San Diego, Cal., March 15.—About 150 Mexican reinforcements arrived at Tia Juana, Mexico, this morning, making a force of 250 now defending that town. The border is reported quiet from Cerrito to Ocean.

Americans Not Killed.

Mexico City, Mexico, March 15.—The government today received a report of the battle of Casas Grandes, in which the rebels were defeated, from Colonel Cuellar. He states he took 40 prisoners, including 17 foreigners, and all those are receiving humane treatment.

Diaz Making Concessions.

Mexico City, March 15.—An application of the plan of Minister Limantour, who suggested the division and sale of the large estates for the benefit of the people, is hinted at in a reply made by President Diaz to a committee from Metztitlan, state of Hidalgo, who protested that their property had been seized for an irrigation company.

President Diaz is said to have given assurance that after cessation of the revolution the government planned to purchase and parcel among the people at a low price the big estates throughout the republic.

(Associated Press.)

Diaz Very Optimistic.

Los Angeles, Cal., March 15.—Charles A. Canfield, millionaire oil operator, returned from Mexico City yesterday and brought at first hand information of the health of President Diaz. Last Wednesday Canfield had an interview with Diaz at his palace in Mexico City and found him in excellent health.

In the opinion of Dr. Norman Bridge of the Canfield party, the president is in better health now than at any previous time in the last few years. In commenting on the Mexican situation President Diaz said:

"I do not consider the present disturbances in Mexico as serious or widespread as other outbreaks which have been noted in this country. In fact, I consider it not nearly so serious as some previous difficulties have been.

"It is a fact that there are bands of brigands also who escaped arrest, and are making their way into the mountains, but they will be suppressed.

"The federal government will prevail."

20 WORKMEN KILLED

Buried Under Mass of Wreckage When Wall Falls Down in Nashville, Tenn., Today.

Nashville, Tenn., March 15.—Fifteen to 20 workmen engaged in tearing down the walls of the J. H. Fall and company building, recently burned, were caught under a falling mass this morning. The men were mostly negroes and none have been recovered. In addition one is dead and a number are badly injured.

MISS ETHEL ROOSEVELT, WHO THIS MORNING VISITED INDIAN VILLAGE

DIAZ ABLE TO TAKE CARE OF THINGS SAYS DOHENEY

Concession Holder Under Mexican President Says Disturbances Are Not Very Great in the Republic.

Edward L. Doheney, multi-millionaire oil man of California passed through Albuquerque last night in his private car after having spent the past three weeks in Mexico. He has been visiting his properties in the district near Tampico and has also visited Mexico City.

While at the capital Mr. Doheney paid a visit to President Diaz and had a long talk with him regarding the oil business and incidentally learned a few things about the war in Mexico as viewed from the standpoint of Diaz. "The president is as well as ever and does not look a day older than he did ten years ago," said the oil man.

"I will not quote what the president said about the war situation, said Doheney. "But I can assure you that he is not at all worried about the situation and can talk on other matters for the hour without mentioning the war. It is evident that he does not regard the matter as a serious one and he believes that the government will quell the revolution within a short time.

"In the district about Tampico and all the way up the railroad to Eagle Pass there is absolutely no disturbance and it does not look as though there will be any. All of the war news we had while in Mexico we received from the border papers."

Mr. Doheney is the largest individual crude oil producer in the world and is the principal shareholder in many companies producing oil and manufacturing gas for lighting purposes. He is the owner of the Mexican National Gas company, which lights the streets of the City of Mexico. He is interested in many oil fields in California and was the first to put oil in use in that state many years ago.

He was for a number of years a prospector in New Mexico and Arizona, but did not succeed in uncovering mineral of any great value. Later he went to the suburbs of Los Angeles and there discovered oil. Within a year he had made more than $2,000,000 and he said at the present time to be worth approximately $100,000,000.

With Mr. Doheney in his private car were Norman Bridges of Los Angeles, E. Ramberger and J. Ramberger of Salt Lake City, Utah, Mr. and Mrs. Trees and Miss Dickerson of Pittsburg, Pa.

BLIZZARD IN NORTH

Drop of 70 Degrees in 18 Hours Recorded at Duluth; Below Zero There Today.

(Associated Press.)

St. Paul, March 15.—A sixty-mile gale swept over this city and surrounding country today, accompanied by zero temperature. Zero to twelve below was reported from the northwest, the low point being at Winnipeg.

Big Drops Recorded.

Duluth, Minn., March 15.—The temperature here this morning showed a drop of 70 degrees in eighteen hours, registering five below.

ROOSEVELT ON THE SITUATION IN MEXICO

Declares That All United States Demands Is Order Justice and Independence in Southern Country.

(Associated Press.)

El Paso, Texas, March 15.—"All that the United States demands of Mexico is order, justice and independence," declared Theodore Roosevelt this morning at a breakfast given in his honor in the Toltec club.

The colonel's remarks were the only utterance he has made on the Mexican situation and came as a complete surprise to members of his party.

The colonel's stay in El Paso was short, he leaving at 10 o'clock on the Santa Fe railroad for Albuquerque, where he will be met by Mrs. Roosevelt, Miss Ethel Roosevelt and Miss Landon, a friend of Miss Roosevelt. The ladies have been the guests of Judge Conley of the New Mexico territorial court at Silver City, an old-time friend of Colonel Roosevelt.

The colonel led up to his observations by stating that the prosperity of his neighbors was a condition of the prosperity of any man. He declared honest dealing between man and man was the only foundation of prosperity. The same thing is true of communities. He said he thought he spoke for all Americans when he said that all the United States demanded of Mexico was order, justice and independence.

MEN WANTED FOR FOREST SERVICE

Opening of New Branch in Appalachian Mountains Results in Demand for Men from Western Points.

District Forester Ringland is getting calls for men for the forest service in the new national forest which is to be established in the Appalachians as a result of the recent legislation authorizing the expenditure of $8,000,000 at the rate of $2,000,000 per year in estimating timber lands in New Hampshire and the Appalachian mountains and in the purchase of these timber lands for the government.

Mr. Ringland states that similar calls are being received in all the western field. The bill was among the fortunate ones that squeezed through the senate during the latter part of the session, having passed the house at the previous session.

The entire matter of the establishment of this new national forest is now in the hands of a committee of seven, consisting of the secretary of war, the secretary of agriculture, the secretary of interior, two senators and two representatives.

Besides conserving the finest body of hardwood timber in the United States it will protect the navigable streams of the south, which have their source in these forests, the latter being the primary purpose of the establishment of the new forest reserve.

FIRST ORDER FROM WASHINGTON WILL DAMAGE CAUSE OF REBELS

'Smuggling of Arms and Ammunition Across Border Must Cease," Declares Order of American Officers

CONSTERNATION IN EL PASO THIS MORNING

Declaration of Limantour That Americans Will Be Shot Causes Alarm; American Troops Still Arriving.

El Paso, Tex., March 15.—"The smuggling of arms and ammunition across the Mexican border from El Paso must cease."

This in substance is the order received by the United States federal officials here today.

It is supposed the order emanated from Washington to the representations of the Mexican government that El Paso has been the chief point from which help has been sent to the insurrectos and the place in which the insurrection was planned and fostered.

The assertion of Minister Limantour that hereafter Americans caught fighting with the insurrectos will not be shown any special "mercy" has caused consternation here. The fate of the fifteen Americans captured at Casas Grandes is still unknown.

"Target Practice" Heavy.

San Antonio, Tex., March 15.—The ninth cavalry and Fourth artillery are due here today. This will make possible the formation of the army division under General Carter. A large amount of ammunition is also due in a few days.

General Carter answered intimations that this ammunition was intended for use in intervening in Mexico with the statement that it would be used in target practice. Three-inch field pieces will also be used in the target shooting.

Will Shoot at "Texas."

New York March 15.—The old battleship Texas, now known as the San Marcos, which saw service in the Spanish war, will leave the navy yard this afternoon in tow for lower Chesapeake bay, where she will undergo experimental explosive tests.

She will be shot at by heavy guns and the effect of the big shells will be carefully noted. A dozen cats and a lot of chickens will compose her crew during these tests. Otherwise service conditions will be maintained on the vessel, her machinery and guns remaining aboard.

Intervention Near at Hand.

Washington, March 15.—With the prospect of the suspension of the Mexican constitution so as to establish practically martial law throughout the country, it was believed here today that the invasion by the American troops was much nearer at hand than at any time since the mobilization was ordered a week ago.

The situation, developing from the desperate move of President Diaz, will be war without quarter. As the Diaz soldiers will have the right to kill whomsoever they please, without trial, the insurrectos have determined to do likewise.

It is pointed out by officials of the Mexican soldiers that permission to shoot anyone "caught stealing" gives the soldier full power to judge whether a man is stealing and in effect gives him a free hand to commit murder as he chooses.

This state of affairs is expected to develop a sudden and disastrous crisis in the internal situation in Mexico, with probability of greater damage to foreign interests than ever before.

Many believe that it will quickly present what President Taft has termed cause for intervention.

Federals Kill Americans.

Douglas, Ariz., March 15.—The American commander of the 26 rebels that joined Blanco's forces at Cinegas Springs, claims that he came direct from Casas Grandes, Chihuahua, and was present at the battle there. He claims that Madero gained a final victory; that Madero's brother was wounded slightly in the wrist, but that Madero was not injured.

He states further that the federals turned a cannon and machine guns on four houses occupied by American families where American non-combatants had taken refuge, and bombarded these until the occupants were killed.

He said also that there were only seven Americans fighting in the ranks taken prisoners, the others escaping and later rejoining Madero's forces.

This American commander stated that Madero took the city, gathered up all supplies and marched out. The prisoners captured by the federals during the first day's fight, he declared, were compelled to gather up and bury the dead, numbering 192, of which all were federals excepting 42.

It is impossible to verify these statements here.

It is now certain that Blanco is acting in conjunction with Madero.

EX-PRESIDENT ROOSEVELT, WHOM NEW MEXICO WELCOMES TONIGHT

CHARGE DISMISSED AGAINST BOSS GEORGE B. COX

Judge at Same Time Reprimands Cox for His Published Interview Criticising the Court and Jury.

Cincinnati, O., March 15.—George Gorman in the court of common pleas today dismissed the criminal charges against George B. Cox, the Republican leader.

At the same time he declared Cox's charges published after the grand jury indictment the jurymen were "insolent and false."

In dismissing the charges Judge Gorman followed the finding of a majority of the members of three attorneys appointed to investigate the circumstances of the published interview.

DICK EAGLE GIVEN THREE YEARS

Enters Plea of Guilty to Killing Laguna Red Man; Given Three Years By Valencia County Court

Dick Eagle is again in the territorial penitentiary, having entered a plea of guilty when his case came up on docketing at Los Lunas. The court sentenced Eagle to serve three years, the leniency of the sentence resulting from the fact that the Indian has already spent two and a half years in prison and seven months in a county jail while awaiting trial.

When the court told Eagle that the previous incarceration was taken into consideration in sentencing him, the Indian thought that it was to be taken out of his sentence of three years and that he would have only a few weeks to remain in prison. His feeling was so profound that the attorneys could not muster courage enough to tell him the facts and he went back to the penitentiary believing he would not be there long.

Eagle is a Cherokee and a member of the Strong Hearts, an Indian secret order. The emblem of the order is a red spade of the bones of deers, polished and strung together. During his appearance in court Eagle wore his vest and still had it when he went to prison. Edward A. Mann, district attorney, found while talking with Eagle, that several of the men used by the members of "Strong Hearts" were identical with several signs similarly used in Masonry. The Indian could tell him nothing of their origin or how long they had been in use. Eagle killed a Laguna Indian.

JURY SECURED.

Viterbo, Italy, March 15.—After much difficulty the jury was completed today for the trial on charges of murder of 36 members of the camorra. The trial commences this afternoon.

ROOSEVELT PARTY IS ENTERTAINED AT LUNCHEON

Mrs. Robert Smart Hostess at Elaborate Luncheon in Honor of Distinguished Guests; Affair Takes Place at One O'Clock.

One of the most elaborate luncheons in many months was given by Mrs. Robert Smart this afternoon at 1 o'clock at the Smart residence, 122 North Second street, in honor of Mrs. Roosevelt, Miss Roosevelt, Miss Landon and the members of their party.

A feature of the luncheon was the profusion use of cut flowers, which filled every room of the large house. The dining room was in three shades of rose carnations with bouquets of lilies, nasturtiums and greens.

The table was artistically arranged in massive vases of glass, bordered with sweet alyssum and interspersed with large bouquets of carnations, the color scheme being rose and white.

The dining room was literally circled with a bower of asparagus with a profusion of yellow and white jonquils and daffodils. These flowers were used lavishly and tastefully in the decoration of the long table which was dominantly appointed in rose and white.

During the novelty silver participants in the entire nothing a floral mount of primroses, carnations, hyacinths and greens to the serving ends of this silver extended a continuous line of infinite elegance, a great vase, trestles, candelabra, candelabra and so on of silver.

The company sat for two splendid courses of the table prepared over by the attentive hostess, and adjourned in season for the indoor reception of the Albuquerque.

The guests were: Mesdames Roosevelt, Chase, Long, Brooks, Ivan Grunsfeld, Davis, B. Spitz, Ramsey, Whitney, Gray and Miss Roosevelt, Miss Landon and Miss Constance Abbott.

TO CENSOR PICTURES

Moving Picture Films Busy on Mexican Revolution to Be Cut Out in Future.

Los Angeles, March 15.—District Attorney John D. Fredericks said today that rigid censorship would be exercised over all moving picture films dealing with the Mexican revolution. Many of the moving picture companies take all their pictures here, and you have been quite busy of late at Glendale and the Santa Monica canyon, which afford excellent scenery for film views. Through a labor agency they have secured Mexicans here for the pictures.

It is contemplated that scenes of cruelty and horror have been worked into many of the films. Fredericks takes the position that the presentation of such pictures might cause bitterness among Mexicans in this country. The labor agency has been requested by Chief Engineer Sell, and it is understood that the taking of pictures dealing with the revolution will stop.

ROOSEVELT TONIGHT WILL BE GUEST OF PEOPLE OF ALBUQUERQUE

Arrives Here at 6:45 and from That Time Up to 11 Tonight His Time Will Be Fully Taken.

ROUSING RECEPTION HERE IS A CERTAINTY

Apartments at Alvarado Decorated for Roosevelt Party; Address at Opera House at 7:30 This Evening.

Every detail of the reception and banquet to be tendered Theodore Roosevelt here this evening, when he and his party arrive from El Paso, has been completed and the only living ex-president and strenuous Rough Rider, will be given a characteristic Albuquerque greeting.

Messages received in the city from railway officials in charge of the train which will bring the Roosevelt party here this evening, stated that every effort would be made to reach the city ahead of the schedule, but that the train would arrive at least no later than 6:36 p. m.

Mrs. Roosevelt, Miss Roosevelt and Miss Landon, Miss Roosevelt's friend, arrived in Albuquerque this morning. After breakfast at the Alvarado, where apartments had been reserved for them, they took a short stroll about the city, and at 9 o'clock they motored to Isleta, where they spent the morning viewing the Indian village and talking with the Indians.

They were accompanied on the trip by John W. Elder, mayor of Albuquerque, Mrs. Elder, Mrs. Solomon Luna and Miss Constance Abbott.

On their return to the city, the noted guests dressed for luncheon at the Alvarado and at 1 o'clock they were the guests of Mrs. Robert Smart at her residence, where an elaborate luncheon was served.

Both Mrs. Roosevelt and Miss Ethel Roosevelt are pleasant, unassuming women, easy of approach, and possessing personalities that made instant friends of the Albuquerque ladies and made their visit of more than ordinary pleasure.

They talked interestingly of New Mexico and of Albuquerque. Miss Ethel Roosevelt was especially interested in the Indians, their homes and their customs and in the scenery of the southwest.

Alvarado Handsomely Decorated.

Manager Smithers of the Alvarado well sustained the reputation of the big Harvey house in the arrangements made for properly entertaining the city's guests.

A handsome suite of rooms which had been reserved for the party, were decorated in flowers and greens. A reception room formed the center of the suites, with adjoining rooms for Mr. and Mrs. Roosevelt, Miss Roosevelt and Miss Landon. The rooms were numbers 7, 8, 9 and 11. The apartment reserved for Mr. and Mrs. Roosevelt was decorated in hyacinths and roses, interspersed with greens. Miss Roosevelt's room was in white and pink roses, and Miss Landon's room was in carnations and greens.

In the center of the reception room was a table garlanded with jonquils, roses, carnations and greens.

The lobby and parlors of the Alvarado were prettily arranged with roses, carnations, palms and greens for decorations, while the floors were covered with a number of the handsomest Navajo rugs in the Harvey collection.

The most elaborate decorations, however, were in the big dining room. Palms, greens, roses and carnations were used in profusion, while potted plants of many varieties were skillfully employed.

The large table at which will be seated the ex-president and the mayor together with the reception committee and members of the Roosevelt party, was placed at the south end of the room. The other tables were arranged in sections down the room, each being illuminated with countless candles. Covers are laid for seventy-five guests. The menu will be one of the most elaborate ever served by the Alvarado.

Boy Scouts Enjoy Visit.

The Boy Scouts of Santa Fe, some fifty strong, arrived here last night and have been "campaigning" strenuously ever since. Immediately upon reaching the city the boys were given a substantial meal and they proved equal to the occasion. After the dinner, some of them accompanied the local Scouts to moving picture shows and until bed-time, they were entertained in various ways.

This morning the boys were up bright and early and were taken for an auto ride over the city. During the afternoon they were the guests of the local scouts.

John Borradaile, scout master, had the youngsters well in hand and the little fellows reflected great credit upon themselves by their orderly and gentlemanly conduct at all times. They made an excellent impression upon the parents and friends of the local Boy Scouts and with every one they met during the day.
