GRAYS AND INDIANS TO MEET TOMORROW

Tomorrow the Indians will play their last game this season, and they hope to add one more to their unbroken list of victories. They have played 19 games and won them all so far, but Manager Padilla of the Grays is making a sanguine and terrible vengeance on them for tomorrow.

Weeks will probably pitch for the Grays, but if he is still too sick to play, Young Weeks or O'Hannon will take his place. The red men will play Platero their ace pitcher. Don says the Indians hold better than the Santa Fe team does, and that it will take some pitching to beat them, but that he believes the Grays are up to it.

We're "trotting out" a "string of favorites" in the men's clothing business in this city.

The one best bet of the day in the Popularity Race is the (Live Dealer) hand tailored suits for men and young men.

Never left at the post---They cross under the wire ahead in quality, style and pattern.

The most critical judges agree that Washington Clothing is the best.

The shirt favorite of the Town!

(Livedealer)'s show the best form. White negligee---plaited or plain bosoms---neat stripes---and all the novelty patterns in the Manhattan.

The (Livedealer) hat wins by a head!

Dent gloves are never jockeyed out of place.

In the pacing class Nettleton shoes lead the bunch clear around the course.

M. MANDELL

SANTA FE HANGS IT ON PADILLA

Bad Weather and a Defeat Cause Grays to Lose Heart and They Return to Albuquerque Much Downcast.

After placing in the mind, being fained upon twice and petted with Bonstelow twice, the Grays returned to Albuquerque last night in a decidedly sorry frame of mind, which was not improved by having been defeated in fact. And at that, the Grays were not really just satisfied with the score. Three scores thought that it was 3 to 3 on the fourth, and official scorer, called it 13, so they had to let it go that way.

Rube Weeks held things down for the locals so that the score stood 3 to 1 in their favor until the first half of the sixth. Then the big fellow gave out, for he had been to the bad on the trip up and was forlorn in his uniform, and Santa Fe began to find him. He was winded from a home run in the previous inning, also.

Padilla put Young O'Hannon in the box, but he was unable to stop the rush or rather to the board that the Santa Fe runs were stating, and the Greys settled down to 10. It cost four home runs were the jolet ing of the two teams, but the Santa Fe team had a little the best of it, as the score said, and that called the game after.

Santa Fe will be here for a game next Sunday.

Manager Don says that the baseball excursions for this year will likely be pulled off on June 18 and 25, on which dates the locals and the Santa Fe team meet there and here.

SUPREME COURT IS POSTPONED

While nothing official has yet been given out on the subject, it is understood on the best authority that there will be no session of the supreme court on June 1st, as was scheduled, but that the court will adjourn over until August 15, at which time the docket will be taken up and the regular business of the court dispatched.

The difficulty of assembling a quorum of the members of the court at this time is assigned as the reason for the postponement. Judge McFie is still in Washington, and others of the judges are so situated as to make it particularly difficult for them to be in Santa Fe at the date set. As this is the time of the year when the judges usually take their vacation, it is likely that if the court had met as planned, an early adjournment would have been taken and on account of the inconveniences that would have been caused a number of the judges, it has been decided to postpone the session of the court until August 15.

DIES AFTER FOUR HOURS IN CITY

P. G. A. Middleton Arrives on Limited Expecting to Stay Months: Lives to Stay Hours.

P. G. A. Middleton, a prominent man of Barberton, O., who has been spending the winter in Arizona, arrived in the city at 5:35 last night on the California Limited, and was seized with a hemorrhage, dying at 10 o'clock, four hours after his arrival.

Mrs. Middleton had accompanied him to this point and was on her way east for a visit with relatives when news of his death reached her at Las Vegas. She returned to the city this morning.

The remains will be shipped to the family home this afternoon accompanied by the bereaved widow. Mrs. Middleton is a daughter of A. A. Moore, president of the Savings Trust and Banking company of Barberton.

POLLOCK GETS RARE NEW ZEALAND BIRD

R. R. Pollock of this city has received a specimen of the "Kiwi," an almost extinct species of bird, from New Zealand. The bird is sent by F. G. Raynor, husband of Mrs. Raynor, who spent the last winter here and who has lived in the city several months at various times.

The Kiwi is a wingless bird and is without means of defense except for its powerful legs, which it uses to kick at disturbers of its peace. Though aboriginal in New Zealand, the bird is now verey rare and specimens when caught bring 50 pounds sterling or about $250 in our money.

The bird has a long bill, strong short legs and is covered with soft short brown and black feathers, each curly at the tip, like a miniature ostrich plume. Owing to its lack of wings it appears not unlike a short, round, coarse ostrich plume itself. The creature is stuffed and mounted and will be greatly prized by Mr. Pollock.

INDIANS DEFEAT THE HAPPYS SATURDAY

Murphy Unable to Keep Up Former Pace, and the Red Men Win Out by Score of Seven to Four.

Murphy's total inability to keep up the same sort of pitching that has marked his other games was the cause of the Happy's defeat at the hands of the local Indians saturday. The score was seven to four.

The Happys had things all their own way until the seventh, but after that the four-three score in their favor switched as the Indians filled the bases, got three runs and still had none out.

Lapsnik went in then and finished the game with no more runs.

Murphy had been pitching amateur ball for so long that the local fans have come to depend on his big arm replanted work all the time. Like every other pitcher, Leo has his bad day. Saturday's game was not one of his off-seasons, and he is not to be blamed at all. It is the first game he has pitched and lost this season. Charles Leubke of the Tuberculosis team and Gonzales of the sanitarium played with the Happys, but there was nothing doing to the strengthening line.

The Indians have now won six straight games, but Manager Don is promising them all sorts of defeat tomorrow, when they meet the Grays.

The game between the Happys and the Alvarados yesterday was called off by mutual consent.

SWASTIKAS DEFEAT SLUGGUPS

The Swastikas won from the Highland sluggers at Traction park yesterday by a score of 18 to 6. The Swastikas both hedded and batted better than the sluggers. Manager De Mello of the Swastikas announces that his team will play any team in the city except the Grays next Sunday.

GUARDSMEN RETURN FROM TIA JUANA

Major E. P. Bujac of Carlsbad and Two Fellow Officers Back From Watching Maneuvers.

After having watched the military maneuvers near Tia Juana, Lower California, for three weeks, as representatives of the New Mexico National Guard, Major E. P. Bujac of Carlsbad, Captain E. P. De Soner of Las Cruces and Captain Odell of Tucumcari, have returned to the territory, having been relieved as other New Mexico officers assisted to such duty. Major Bujac and Captain De Soner arrived in Albuquerque from the west last evening and left for their homes early this morning. Captain Odell of Tucumcari went from California via another road. Captain Odell contracted a severe illness while in camp near Tia Juana and for a time his life was despaired of. It is believed, however, that he will recover.

"There is going to be something big over in Lower California some of these days," said Major Bujac last night. "General Pryce has a following of about two thousand men. Nearly all Price's men are of the men under him have allegiance to no flag, no union, country or principle. As far as I was able to learn Price was no connection or working alliance with Madero. By middle or fall Price will continue to make trouble for some time to come. I understand that General Villegas, as an ambassador from Madero, is in Tia Juana now attempting to induce Price to come part with Madero. I do not believe they will hit it off. No one seems to know what Price's game is or what he is after."

Major Bujac, who is a Spanish war veteran, said the experiences he and his fellow officers had in and about Tia Juana were interesting and instructive. Major Bujac is a well known attorney of Carlsbad, being senior member of Bujac and Bujac.

"LAY OF THE BELL" BY U. N. M. CLUB

Cantata Tonight the Most Pretentious Attempt of Local College Organization to Date.

The most pretentious single effort the University Glee club has yet attempted is the cantata the "Lay of the Bell," which will be presented tonight at the Elks theater. The cantata will be rendered in English, translated from the original by Seidl. The music is by Andreas Romberg. Between the two parts of the cantata, a number of solos, duets and choruses will be rendered by members of the club.

Miss Helena Easpilades, the talented director of the School of Music at the University, will sing three solos. Miss Easpilades has never appeared in public in Albuquerque before this. Miss Rose Harsell, an alumnus of the University, who has been doing special work in the musical department, will also have a solo. It is quite likely that the cantata, sung under the direction of Miss Easpilades and the solos will cause a greater appreciation of the University's musical work than has yet been shown.

The cantata will commence at 8 o'clock. No admission will be charged.

SHEEP MEN HAVE HAD RECORD BREAKING SEASON

The most encouraging reports have been received in the last few days from the sheep men in the Estancia section. Conditions have been peculiarly favorable to the sheep industry this year, and ninety-five per cent of the lambs have been saved. This record is without precedent. All indications point to the biggest year the sheep men have had in a long time.

Coolest place in city to dine. Fashion Cafe.

HEAVY HAIL AT LAS VEGAS YESTERDAY

J. L. Galvin, a special agent for the Santa Fe, returned to the city last night after spending a few days in the northern part of the territory. He reported that the Meadow City had been visited by a heavy hail and rainstorm, which was really a record breaker.

The hail was six inches deep in spots and stood on the ground for quite a while. It did not do the damage that were larger ones would have done, but there were pieces of ice though they were small. Rain fell with the hail and made it very unmanageable. They said in Las Vegas that the hail was a record breaker for this time of the year, some as heavy having been seen there before.

RUSH FOR THE BIG SILK VALUES

If it were at all necessary to prove that the women of Albuquerque are thrifty shoppers, a glance into the Golden Rule dry goods store today would have produced the evidence. The management had announced fabulous values in summer silks, and the crowd was out to take advantage of them. The sale will be continued through Wednesday, the offerings including odds and ends of silks of various kinds, foulards, marquisettes, messalines, satins, silk collennes, etc. Attractive prices have also been made on short waists, ladies' union suits and night robes.

Special breakfast bill. New feature. Fashion Cafe.

HIGH SCHOOL GRADS HEAR SERMON

Nineteen Seniors Listen to Inspiring Address Upon "The Foundation of a Successful Life" from Rev. Williams.

The class of nineteen seniors who graduate from the Albuquerque high school this year listened to the baccalaureate sermon delivered by Rev. Herman F. Williams at the First Presbyterian church last night. The subject, "The Foundation of a Successful Life," was a practical and forceful exposition of the proper education for the young men and women of today. Rev. Mr. Williams urged upon the graduates to continue their studies in some higher institute of learning, never forgetting, however, that "the fear of the Lord is the beginning of wisdom." The church was well filled with the friends of the graduating class. Seated directly in front of the speaker were the seniors themselves and on the platform behind the preacher were grouped the ministers and members of the school board who assisted in the ceremonies.

The sermon follows in part:

He took the three important words in the text for especial definition. "Fear expressed a deep respect for Jehovah. It was akin to the word faith in the New Testament. It stood for a right relation to God. Solomon defined it practically when he wrote: 'The Fear of Jehovah is to Hate Evil.'

"Beginning means the opening or commencement or foundation. Just as the foundation of a house determines its size and shape so the commencements and foundations of every determine the character of the edifice.

"Wisdom is defined by Webster as knowledge, with the capacity to make due use of it, perception of the best end and means. Wisdom is therefore the human element that insures success in life. From this verse I accordingly glean the thought that a right relation to God is the true foundation to a successful life.

Now there are three factors that go to make up success. One is a purpose. The second is a plan. The third is a will. You must have them all.

"The successful life must have a purpose. And the heart must be right with God or the purpose will be false. God has placed us in the world to accomplish something. We are not here merely to exist.

But please consider that the purpose must be a lifelong purpose. Success in one enterprise or for a few years, or success in the world's concerns is not a lifelong success. You must take eternity into your reckoning. You may be successful in what you do but not successful in what you are. What does it profit you if you gain the whole world and lose your own soul?

"That purpose you select for your efforts must be God's purpose in you. An Italian painter of talent left his easel and brush to train as a champion boxer. His was a perverted purpose. He could not be a success. Soul, rich, educated, skillful, popular, did not find the way to success till he had found God and submitted to his will.

"Again, the mind must be right with God or the plan of life will be false. In other words your life must be a truly thoughtful life. There was a rich man with broad lands and abundant harvests. So prosperous was he that he ordered his servants to pull down his great barns that he might build greater, and he said to his soul, 'Eat and drink, for thou hast much goods in store.' But that night God said, 'Thou foolish one, this night thy soul shall be required of thee.' He had not been thoughtful.

"Accurate thinking must take God into its reckoning either as a premise or a conclusion. In fact, your life is not wisely planned unless warped to God's word. The ferry boat is warped to a cunning block on a cable stretched across the stream. As the craft is pointed up stream to the opposite shore the force of the current carries it forward to its destination. That cable is your life and its intricate. The cable is God's word. The current is the stress and opposition you will encounter. To them that love God all things work together for good.

"Behind your purpose and your plan you must have an invincible will. And the will must be right with God or your effort will be false. Discipline your wills for duty. Don't make them soft and erratic to pleasure. I once visited the armored cruiser Baltimore when she was lying off Iquique watching the insurgents. The chief engineer took me through the engine rooms and I commented on the steam theory and polished cylinders. Yes, he said, those are orders in the navy. The Spanish ships my engineers in the battle of May 1st were encrusted with filth in their engine rooms. That was one secret of their defeat. They had been not in good discipline, so that when the fight came, even with superior battleships, remaining the guns on shore, they were defeated.

"Enduring success requires that the orderly man will with the power of the spirit of God. Ponce de Leon sought for the fountain of eternal youth. But he failed to find it. Old age and decrepitude overwhelmed his glory and ambition. It need not be so with you, Jesus said. He that believeth on me as the Scripture hath said, from within him shall flow rivers of living water. This was spoken of the Holy Spirit as John explains.

"With a purpose selected in the fear of God, and with plans formed in the fear of God and with a will made strong in the fear of God, you have laid the foundations of success.

"Solomon was wise, rich, powerful, famous. But riches, power and fame eclipsed his wisdom, enticed him into pleasure, seduced him from the God of Heaven. At end, sad, sadened, repentant, chastened he confessed his folly, and left to us words these admonitions with reference to life that is worth living. The fear of God is the beginning of wisdom. This is the end of the matter; all hath been heard. Fear God and keep his commandments, for that is the whole duty of man. Remember also thy Creator in the days of thy youth, before the evil days come and the years draw nigh when you shall say I have no pleasure in them."

DELANEY RESIGNS AS MANAGER OF WESTERN UNION

Veteran Telegraph Man Retires From Wire Business; Opened First Up Town Office in Albuquerque.

Lawrence T. Delaney, for many years manager of the Western Union Telegraph office in Albuquerque and one of the pioneer telegraph men in New Mexico, has resigned his position and as soon as his successor is appointed will retire permanently from the telegraph field. Mr. Delaney has led an interesting and varied career in telegraphy and has watched the industry grow from practically its infancy. Mr. Delaney began his career in Cincinnati, later coming west to Kansas City, Trinidad, Durango and finally to Albuquerque. In this city in 1888 he opened an uptown office for the Western Union, the office being located first in the second floor of the Cromwell block in the rooms now occupied by Dr. L. H. Chamberlain. Albuquerque and the telegraph business grew and the Western Union opened a much larger office on a second floor in the Whiting block, its present location.

Mr. Delaney managed the office from 1888 until 1895, resigning to engage in other business. In 1906 Mr. Delaney was again appointed manager and has held the office continuously until this date. It has not yet been announced who will succeed Mr. Delaney as manager.

A telegraph man with wide experience, an expert in all branches of the service, Mr. Delaney has proved a competent and able manager for the Western Union company and courteous and popular with telegraph patrons. Many people in Albuquerque, especially business and professional men, will sincerely regret Mr. Delaney's withdrawal from the service. Mr. Delaney expects to leave early in June for a visit to his old home in Cincinnati, after which he will return to Albuquerque.

"ROSE O PLYMOUTH TOWN" TOMORROW

Varsity Show to Be Produced at Elks'; Everything Is in Readiness for Best Play Yet Attempted by Amateurs.

With costumes borrowed from a collector and absolutely authentic and correct in every detail, with scenery especially painted by a talented artist for the occasion, and with more than two months of steady rehearsing back of them, the cast of the University's annual play will appear tomorrow night to better advantage than has that of any previous production.

The dress rehearsal was held Friday and the cast has since been resting, so that there will be none of the lag that usually accompanies amateur plays due to late rehearsals the night before.

The play is good in itself, especially well adapted to production by amateurs and offers almost unlimited opportunities for character portrayal. Miss Ross' training has brought out the finer points of the lines and business and the students will have a large audience tomorrow night, practically professionals for this one play, at least.

No one will be seated during acts and the house rule in this regard has been usually been abrogated at horse shows, being strictly enforced.

Suggestions for Graduation Gifts...

We have the kind of gifts that the young people will appreciate—the useful kind, the jewelry kind, the kind that will always keep our presents in memory. Here are some ideas:

Waterman Ideal or Conklin self-Filling Fountain Pen.

A Book—Commencement Edition of a standard work or an artistic college song Book.

Pennants.

Box of pretty stationery.

MATSON'S
Mail - Orders - Solicited

Mrs. Hornbeak (in the midst of her country). Mr. woodpecker, what's this country coming to? Here is an article entitled "A Reformer in Every Two Sunday-dented teachers."

Farmer Hornbeak—It's because—How thick mockingbirds do drink!—Puck.

Mr. J. D. Rockefeller would go broke if he should spend his entire income trying to procure a better medicine than Chamberlain's Colic, Cholera and Diarrhoea Remedy for diarrhoea, dysentery or bowel complaints. It is simply impossible, and we have everyone that has used it said so all druggists.
