ARIZONA MINING NEWS UP TO DATE

Old Dominion to Extend, Jupiter Lease Group Sold, Oro Blanco District Being Re-Opened.

Phoenix.

Since the title to a group of mining claims in the Tip Top district was passed from W. J. Martin to the Harris Copper company the total holdings of the company in that district have been increased, by purchase and location, within the last two years to 30 claims. The company has maintained a small development force on its properties since it was first attracted to the district, under the supervision of Mr. Martin, vice president, and C. C. Harris, president. Before leaving for his home in Findlay, Ohio, earlier in the week, Mr. Harris announced that he had financed the company for extensive operations. Four large veins, with northerly and southerly trends, outcrop on the locations, one measuring 300 feet across. The latter is believed to be the iron capping of a large copper deposit. In a number of prospect holes sunk in the capping, assay returns show 6 per cent sulphur, with small values in gold, silver and copper.

In a shaft 75 feet deep, on another vein, the pay streak shows continuous the entire depth, with average values of $36 a ton in gold, silver and copper, the latter predominating.

The property is located three miles west of the confluence of the Black Canyon and Agua Fria rivers, at Goddard, in a schist belt, the vein fillings being principally lime and porphyry.

Adjoining the Harris group on the west are the holdings of the May Copper company, which has one shaft down to a depth of 195 feet. This is the deepest shaft within a radius of eight miles. It produced three carloads of ore that gave returns of 9 per cent copper to the ton, with lesser values in gold and silver.

W. J. Martin will return to the camp of the Harris company in a few days to push exploration of the property.

Much activity is now being manifested in the Oro Blanco mining district in the southern part of the territory, and from there south to the Mexican line, among mines which have heretofore been lying idle for many months. A force of men has been employed for work at the Montana camp, recently purchased by Captain William McDermott, Colonel L. W. Powell and associates. The machinery of the mine is being overhauled and preparations for active work are being made.

Lumber and materials for repairing the machinery at the Old Glory mine is on its way to the property. The affairs of the company have been arranged satisfactorily and operations have recommenced.

W. J. Partridge, manager of the Austerlitz mine is sinking his tunnel farther into the mountain and is producing ore from the ledge recently opened up.

A force of men has been started at work upon the Andrews claims, which were recently bonded by the owner, J. S. Andrews, to J. W. McDougald. Several payments have been made under the bond.

Many freight wagon loads of supplies are being taken out to the mines of the district from Calabasas via Amadoville.

A mining deal of far reaching importance was closed by Charles Keafer of this city when the Mint Mines and Development company transferred its lease and bond upon the Jupiter group of claims in the Gold Roads district to the Mines Development company of Nevada.

C. N. Miller has been negotiating with the Arizona Mint company for this group for some months and the purchase of the lease and bond by the Mines Development company followed after he had personally investigated the property.

The Jupiter group lies in close proximity to the Tom Reed, a mine which is making a phenomenal gold production. The development work upon the Jupiter consists of a number of shafts, all of which show ore from the grass roots. The vein matter is pharperetic quartz lying between dacite walls. The values vary from $8 to $50 and it has shown an average value of $13 across the vein. Picked samples running into the hundreds of dollars have been taken out.

It will be the policy of the new owners to sink a shaft on the vein to a depth of 150 to 200 feet, and then do some drifting and cross-cutting. Immediately to the west of the working shaft is a parallel vein which gives good values in shallow workings.

Douglas.

The Old Dominion continues the production of copper ore at about the same rate that it has been producing during the past year. The Miami is now getting well started in the copper game and promises to have a long run of prosperity. Speaking of the many new smelters now being planned in Arizona, Mr. Dowell stated that the Old Dominion was also planning for enlargement of the concentrating plant of the company at Globe and tests are being made now for that purpose.

Mr. and Mrs. James Taylor are in the city from El Tigre. Mr. Taylor brought in some unusual and rare specimens of ore which are now being assayed and turned into the real article. One of the specimens contains lead, zinc and native silver, a combination but rarely seen, while another piece shows gold, silver and copper.

MUCH PROGRESS ON THE SEWER AT ROSWELL

Fifteen Hundred Feet of Drain Laid in Pecos Valley City, on New Extension; Rapid Time Being Made.

Roswell, N. M., June 26.—The workmen under C. J. Wagner, contractor, and Fred J. Beck, of the city water department, are making rapid strides in the building of the sewer system for East Roswell. Out of the 3,450 feet that will compose the system, there has now been laid 1,500, which means that after ten days of work, the task is about half finished. The big ditcher is working nicely and the crew is laying between three and four hundred feet of the pipe every day. This work means the digging of the ditch, laying of the pipe and covering with earth a complete job.

It is worse than useless to take any medicines internally for muscular or chronic rheumatism. All that is needed is a free application of Chamberlain's Liniment. For sale by All Dealers.

CHICHESTER S PILLS

(Signed) TOM GRIFFIN.

Native Hay, old crop, extra choice. No weeds or musty bales. By the bale or ton. E. W. Fee.

FRIJOLE DAY AT WAGON MOUND

Example of Colorado Cities in Holding 'Melon Day' and Similar Festivals to Be Followed.

Wagon Mound, N. M., June 26.—Following the example of those Colorado towns which celebrate a certain day each year, set apart to emphasize the particular local product in which most of the people are interested, Wagon Mound will hold a "Bean Day." On these days, a feast of the local product is served free to all who come. It is great advertising for the towns, and great enjoyment for the people.

At the meeting of the Jubilee Association, September 20 was set apart as "Bean Day," and Wagon Mound will be advertised far and wide on account of this unique dinner.

PROMINENT MEN ASKED TO SPEAK AT FT. SUMNER

Governor Mills, Judge E. A. Mann, Chief Justice Pope and Others Requested to Address People July 4.

Fort Sumner, N. M. June 26.—Governor Mills, Judge E. A. Mann, Chief Justice William H. Pope and other prominent New Mexico citizens have been invited to address the people of Fort Sumner and vicinity on July 4th. A special train has been chartered which will leave Clovis at 8 a. m., returning in the evening. The people of Fort Sumner are sparing neither time nor pains to make this the greatest celebration ever held on the cut-off. The Clovis band has been engaged and it is estimated that over 200 people will come from that city alone.

Receiver Enrique H. Salazar left today for Las Vegas where he will arrange to bring his family here to make their permanent home. Mr. Salazar recently completed the largest and most expensive residence in the valley. He will return about July 15.

Earickson and company shipped six cars of alfalfa from here this week and the work of harvesting and shipping has hardly begun. There is an unusually large acreage of cantaloupe and sweet potatoes planted this year and the indications are at present that the yield will be the largest in the history of the valley. John J. Weinmann who was formerly connected with a chicago commission house is here directing the growing of cantaloupes and expects to ship ten cars of the product to eastern markets.

Thursday was Post Card Day and a large number of Fort Sumner people responded to the call and observed the proclamation issued by Governor Mills. It is estimated that over 500 post cards descriptive of the valley and New Mexico in general were sent through the mails.

RAILROAD PROMOTERS ARE IN ARTESIA

(Special Correspondence to the Herald)

Artesia, N. M., June 26.—Promoters of the San Diego, El Paso and St. Louis railroad are in Artesia this week and state the work will soon begin on road at this point toward El Paso.

Artesia is making preparations to celebrate the Fourth.

Today the Eastern railway train south bound pulled into Artesia with a flat car of telegraph poles on fire. The Artesia fire department responded to their call and soon extinguished the flame, although posts and car were considerably damaged.

The Artesia Ice Plant resumed business this week after having been undergoing repairs for some time and is now turning out a fine grade of ice.

Dr. L. Taylor and family have as their guest Mrs. H. H. Taylor of Herford, Texas.

Miss Laura Starkey, daughter of Mr. C. S. Starkey arrived Thursday from Aurora, Ill, to spend the summer.

S. A. Turner and daughter of Parsons, Kan. have come to Artesia to reside.

Miss Leslie McNeil of Dallas, Texas, is the guest of her aunt, Mrs. J. B. Atkeson.

The following officers were elected for the Woman's club: President, Mrs. J. B. Atkeson; first vice president, Mrs. A. C. Keindth; recording secretary Mrs. E. B. Kemp; corresponding secretary, Mrs. J. D. Atgood, treasurer, Mrs. M. M. Inman; auditor, Mrs. J. P. Lowrey; custodian, Mrs. M. A. Corbin.

The uniform success that has attended the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy has made it a favorite everywhere. It can always be depended upon. For sale by all druggists.
