CHIEF WITNESS IN M'NAMARA CASE SPIRITED AWAY BY DEFENSE

Burns Detectives Foiled in Their Effort to Have Trio Arrested for "Obstruction of Justice."

PINKERTON SLEUTHS WIN IN FIGHT HERE

[illegible] to let very few people in Albuquerque, a bottle of wine and [illegible] were sought in this city for a week, in which a force of Burns detectives representing the District Attorney's office in Los Angeles and a force of Pinkerton sleuths representing the defense in the Jesse J. McNamara Times dynamiting case, fought each other to an effort to win over to their side E. E. Dickleman, for six weeks a worker in the Pinkerton cafe here. Dickleman was a clerk in a Los Angeles hotel in the fall of 1910 and it is said that he is the man who claims that he can identify John J. McNamara as the person who asked for a room in the New Baltimore hotel on that city on the night before the Times dynamiting. It has always been contended that McNamara was not in Los Angeles at the time of the explosion.

The culmination of the battle between the detectives came Tuesday night when Dickleman was spirited away by E. Hannerstrom, who is a brother-in-law of Clarence Darrow, chief counsel for the McNamaras. Dickleman and Harris were secretly passed out on the Santa Fe limited Tuesday night by two Pinkertons. Dickleman left Albuquerque only after the Burns detectives had endeavored in every possible way to prevent him from leaving. Efforts were made to have all the Pinkerton crowd, and Dickleman arrested on a charge of "obstructing justice."

Dickleman was never subpoenaed to testify in the dynamiting case, so it is said, but was depended on by the state as an important witness. It now appears that Dickleman has been won over by the defense and that when the proper time comes he will appear in Los Angeles and testify for the McNamaras. It is commonly reported on the streets today that Dickleman exhibited large sums of money before his departure and admitted that he had received the money from the McNamara crowd, the funds to be used in getting out of Albuquerque and staying away from Los Angeles.

The Burns detectives are still in Albuquerque. The chief detective interviewed several prominent attorneys today, evidently for the purpose of gaining knowledge of New Mexico statutes with reference to the Dickleman business.

Hannerstrom, who directed the case in Albuquerque for the McNamara people, was introduced to Dickleman by a local man who had first ascertained that Dickleman had no objections to having a conference with Hannerstrom.

It is believed that by this time Hannerstrom, Dickleman and associates are outside New Mexico and that no steps will be taken to attempt to secure their arrest.

The Los Angeles papers are playing the Dickleman story up strongly and Albuquerque is receiving much advertising throughout the country as the result of the affair.

HAGERMAN LOSES OUT IN CHAVES CONVENTION

Cahoon Heads the Delegation Which is Instructed First for Jaffa and Will Then Be for H. O. Bursum.

(Special Telegram to Evening Herald)

Roswell, N. M., Sept. 21.—At an enthusiastic convention of the Republicans of Chaves county last night, H. J. Hagerman was defeated in his attempt to control the convention. The delegates claimed for Hon. Nathan Jaffa as the favorite son in the Pecos valley for governor and instructed the delegation first for Mr. Jaffa and then for H. O. Bursum if Mr. Jaffa was not nominated at the Las Vegas convention.

It is understood the Hagerman's plans will be to call the Lincoln and Otero republicans into a joint convention if one be put with in the territory or work with the Democrats.

The following delegates to the state convention were elected:

E. A. Cahoon, O. O. Astron, G. A. Friedenbloom, T. A. Stanclift of Roswell, W. A. Vickers of Hagerman, W. C. Hamilton, Dr. C. L. Parsons, W. S. Prager, Dr. H. L. Fischer, Kenna, A. P. Hill Dexter.

LINCOLN DELEGATES ARE UNINSTRUCTED

Carrizozo, Sept. 21.—The Republicans of Lincoln county held an enthusiastic convention at Carrizozo today at which H. B. Hamilton, Jr., was the presiding officer. The delegates to the state convention were uninstructed, but six of them are for H. O. Bursum, two are for Nathan Jaffa and one is for Miguel A. Otero for governor. If the unit rule is enforced all will be for Bursum.

The delegates are H. B. Hamilton, Jr., of Carrizozo, J. H. Canning at Carrizozo, Fred Dubois of Corona, Clement Hightower of Capitan, W. E. Blanchard of Richardson, William Brady, George D. Barber and Henry Lutz of Lincoln and I. Perea of Arabella.

SIERRA COUNTY FOR BURSUM FOR GOVERNOR

Hillsboro, N. M., Sept. 21.—At the Republican county convention held here Tuesday, the delegates who favor H. O. Bursum for governor defeated those who favored Miguel A. Otero. The delegates chosen were F. H. Winston of Fairview, H. A. Wolford of Hillsboro, Robert Martin of Cuchillo, Watson of Engle and W. H. Bucher of Hillsboro. A resolution was adopted endorsing the nine ballot.

RIO ARRIBA IS FOR MIGUEL A. OTERO

Espanola, N. M., Sept. 21.—The Republican county convention yesterday was an enthusiastic and well attended gathering. Sixteen delegates to the state convention at Las Vegas were chosen and while they were not instructed, they will cast their first ballot for ex-Governor M. A. Otero. However, the convention endorsed William G. Sargeant for state auditor, and Alexander Read for district attorney. The same delegates that are named for the convention at Las Vegas are also named for the district convention at Santa Fe. As San Juan county has already instructed for Alexander Read, he is certain of nomination for district attorney for Santa Fe, Rio Arriba and San Juan counties. Ex-Governor L. Bradford Prince, Hon. Thomas D. Burns, Colonel Venceslao Jaramillo, District Attorney Alexander Read and other leaders of the county were in attendance and declared that Rio Arriba county will give a record breaking majority for the ticket on November 7th.

The delegates named are: T. D. Burns, Ed. Sargeant, Alexander Read, Benigno Hernandez, O. O. Carr, A. D. Narvas, Venceslao Jaramillo, John Sargent, M. A. Gonzales, Silviano Borrial, L. B. Primes, Julian Trujillo, Jose Amado Lucero, Narciso Sanchez, Pleasant Hill and W. G. Turley.

BOOKER T. PASSES THROUGH CITY ON WAY TO COAST

Distinguished Colored Educator Passenger on Limited En Route to California: Makes Interesting Talk.

Booker T. Washington, the noted national negro educator and leader and president of the Tuskegee Normal and Industrial Institute of Tuskegee, Ala., was a passenger on the California limited this morning.

Dr. Washington alighted from the train on the express of taking a little exercise during the half hour wait in Albuquerque. He was recognized by several people as the station while he was being escorted by his friends until the time came for his train to leave.

Dr. Washington talked most interestingly of his work among his people and of what is being accomplished in behalf of the industrial education of the negro. The names of the negro race, he said are rapidly coming to realize that the old educational system having in view which teaches them to be mere members of society and to neglect the useful labor which the world's progress demands, is a useless and unwise manner. He would not discuss the recent lynching of a negro at Coatesville, Pa., but gave it as his opinion that the relations of the races are becoming more cordial and more strained every day.

Dr. Washington is on his way to California in the interest of his educational work.

KANSAS LAD GOES THIRTY MILES TO SCHOOL

Fifteen Year Old Boy Lives Fifteen Miles From Salina and Rides in and Out Each Day on Motorcycle.

Salina, Kan., Sept. 21.—Going thirty miles a day to attend school is a part of the work of Karl Dalrymple of this county, who is taking advantage of the Barnes High School law and attending the high school in Salina. The young man lives fifteen miles northeast of this city. He makes the trip here and back on a motorcycle. He started the first day last Monday, and declares he will not miss a day unless he is ill. He is not sure just what he will do when the snow flies and the weather gets cold, but he expects use his motor cycle and he says it will not keep him out of school.

Young Dalrymple helps with the cows both morning and evening and does the other chores about the farm. He leaves home about 8:30 and so far has not been tardy, and usually has a few minutes to spare. School begins at 9 o'clock. He frequently makes the fifteen miles in twenty minutes, but does this only when the roads are good. He has never consumed as much as thirty minutes on the road.

The boy is 16 years old and has passed through the graded schools in the country district where he lives. The Salina high school is the nearest school of the kind to his home.

TAKEN AT HIS WORD.

It was 5:59 and the treasurer was crowded.

"What have you left?" a prosperous purchaser inquired of the treasurer.

"How many, sir?" the treasurer asked.

"Two."

"I have two left in the twelfth row," the treasurer said, taking the tickets from the rack. "They're the last two seats I have left in the house."

"How much?" the other asked cautiously.

"Two dollars," was the reply.

"Two dollars," the patron repeated "I can't stand for that."

"Well, will you stand for a dollar?" the ticket dispenser inquired.

"Gladly," the other cried, scenting a bargain, and laying a dollar on the ledge.

The treasurer replaced the two tickets in his rack, and handed out another, after placing the bill in his cash drawer.

"There they are, sir," he said. "First door to your right."

The man hurried inside and "stood" for a dollar. The wily treasurer, taking him at his word, had sold him two admission tickets.—Lippincott's Magazine.

THE PLAIN TRUTH

Mr. W. F. Moore, a well known hydraulic engineer, was recently sent to the Willard Section by Messrs. Krakauer, Zork & Moye, of El Paso, Texas, to make a report on the future possibilities of that locality.

The following letter is the reply to one addressed to Mr. Moore, by Mr. Sellers, inquiring as to how he was impressed with the country surrounding the new town of

WILLARD

El Paso, Texas
September 7th, 1911.

Col. D. K. B. Sellers,
Albuquerque, New Mexico.

Dear Sir:—

Complying with your request it is with pleasure I give you my idea of the future prospects of the Willard valley.

In my opinion that valley offers the best inducements to investors of anything in the irrigation districts of New Mexico.

Land in the shallow water districts of that valley, near the town of Willard, is very fertile, and with the amount of water I know to be underlying it at reasonable depth, will surely make pumping very profitable.

There is no reason but what this valley should develop into one of the best farming settings in the new state. It is only a question of a short time, if conducted with the proper efforts, and if you will see such the case.

Yours very respectfully,
(Signed) W. F. MOORE,
Hydraulic Engineer.

STEEL STOCKS GO DOWN TO A LOW LEVEL

Selling Orders Rush in from All Over Country and Prices Are Knocked Down to the Same Basis as 1908.

(By Evening Herald A. P. Leased Wire)

New York, Sept. 21.—Selling of United States steel again unsettled the stock market today. The slump in these shares yesterday and reports that voluntary dissolution of the corporation was contemplated resulted in the receipt of selling orders from all parts of the country and prices were easily capsized. The weakness of these issues extended to the remainder of the list, but supporting orders were given to prevent demoralization and the railroad shares were relatively steady. Trading in steel stocks dominated the market. The increase of the discount rate for the Bank of England and other factors which ordinarily would be accounted of influence on securities, attracted no attention.

Another outburst of selling of United States steel shortly before noon drove it down to 57½, a loss of four points.

Amalgamated copper sold at 52, the lowest figure for several years. Sears, Roebuck slumped five points. Union Pacific preferred and Bethlehem steel preferred (pay) and general electric drew. Bonds were easy. The market closed weak.

A final raid against United States steel broke it to 58, the lowest of the day, but the decline was more orderly and there was less excitement than at any time of the day.

Large blocks running up to 6,000 shares changed hands and the aggregate business done in this issue for the day was well over 500,000 shares. Prices weakened moderately and there were breaks in obscure specialties.

MONTREAL ELECTRIC LIGHTS TO GO OUT

Montreal, Sept. 21.—A Montreal French newspaper has advised a novel scheme for letting the people of this city know results of the election. It has arranged with the public lighting companies to shut off all lights in the city at 9 o'clock for an interval of ten seconds if Laurier wins and for two intervals of ten seconds each if Bordon is the victor. Inasmuch as more than 90 per cent of the houses of Montreal are lighted with electricity the citizens will be able to know which way the country goes without leaving their homes.

A unique feature of today's polling was voting of three hundred Chinamen in a district otherwise almost wholly French. They enjoy the right of franchise because they were born in Hong Kong and are therefore British subjects.
