Attention! 2

A GEORGE BERNARD SHAW play was chosen as the basis of the Fraternity Follies of 1914 which takes place Friday evening because amateur acting could be excused if a literary treat was offered. To these, however, who really do not like Shaw, and for those who like him and won't admit it, other attractions are offered, particularly some good music. This is an advertisement but need not be taken with the usual grain of salt.

500,000 ACRES OF STATE LANDS SOLD IN A YEAR

Heavy Demand, Says Land Commissioner; $175,000 Recently Received in Cash with Important Contracts Pending.

"The year just closed will show a total of 500,000 acres of New Mexico state lands sold, according to State Land Commissioner R. P. Ervien of Santa Fe, who arrived in the city this afternoon with the governor and party in an auto. Mr. Ervien leaves tonight for Deming and Silver City.

"The total of state lands contracted for will easily reach half a million acres," said Mr. Ervien. "Already the sum of $175,000 in cash has been paid in for state lands and yesterday a contract was closed for 70,000 acres in Eddy county at five dollars per acre, while a contract is about to be closed in Grant county for 50,000 acres. The demand for these state lands is increasing and they are being closed out fast."

GOVERNOR'S PARTY HERE TO LOOK AT ROADS

Arrives with Land Commissioner and State Engineer to Hold Conference with County Road Board.

Governor W. C. McDonald, Land Commissioner and Mrs. Ervien and State Engineer and Mrs. French arrived this afternoon from Santa Fe overland in a Buick touring car driven by Tony Chiesum of the local Buick agency. The purpose of the visit is to inspect the road work being done in Bernalillo county, to examine autos with a view of purchasing one for the state road board, and to hold a conference with the county road board. The party was met at the north end of the North Fourth street road by John S. Beaven, chairman of the county road board, and A. F. Van Deinse of the electric light company in Mr. Van Diense's car. The party started from Santa Fe in two autos, but the car of Mr. Ervien stripped its gears a short distance out and the rest of the trip was made in the Buick.

With the exception of Mr. Ervien, who goes south, the party will stay here all night.

Cerillos Coal—hard or soft—yields more heat and less ashes per pound than any other in the local market. Costs no more. Ask the "Stove Man." Hahn Coal Co. Phone 91.

SANTA FE LEGAL DEPARTMENT WILL MOVE TO ALBUQUERQUE

Capt. W. C. Reid of Roswell to Succeed Judge H. L. Waldo as General Solicitor for New Mexico

TWITCHELL TO GO WITH ARIZONA CORPORATION

Changes to Take Effect in Near Future; Albuquerque Man Mentioned as Successor to Twitchell.

According to a semi-official statement received in Albuquerque, Judge H. L. Waldo, the veteran solicitor for the Santa Fe in New Mexico, is to retire from the railway service in the immediate future, and will be succeeded by Captain W. C. Reid of Roswell, former attorney general of New Mexico and now solicitor for the railroad in the Pecos valley.

Ralph E. Twitchell, for many years assistant to Judge Waldo, also is to resign and has accepted a position as general counsel for one of the large Arizona mining companies, which will make it necessary for him to make his home in Phoenix.

Col. E. W. Dotson of this city, for years local solicitor for the railroad, it is understood has been tendered the position held by Mr. Twitchell; this latter, however, lacks confirmation.

The legal department for this state is to move its headquarters to Albuquerque as soon as Captain Reid takes charge of the work.

Judge Waldo's Long Service.

It has been known for some time among railway men that Judge Waldo desired to retire from active practice of law, and for a number of years past the detail of the solicitor's office has been transacted by Mr. Twitchell, although Judge Waldo has had general direction of business. Judge Waldo has been solicitor for the Santa Fe more than thirty years, having been appointed to the position in 1883 soon after the completion of the railroad to Albuquerque.

He was born in Jackson county, Missouri, on January 16, 1844. He is the son of Lawrence Ludlow Waldo, who was engaged in merchandising over the old Santa Fe and Chihuahua trails, and who, in 1847, was shot by the Mexicans when returning from Santa Fe, N. M., to his home in Westport, Mo.

Judge Waldo received a very limited education in the common schools of his native county; he attended the University of Missouri part of one year. In 1862, with the caravan of George Bryant, he crossed the plains to Santa Fe. Returning to Westport, the following year he removed to California, where he read law and was admitted to the bar of that state. On January 10, 1876, he was appointed chief justice of the supreme court of New Mexico by President Grant, holding the office two years.

In 1883, when the law department of the Santa Fe was systematized, he was appointed its solicitor for New Mexico.

During his long residence in this state as judge and as corporation attorney Judge Waldo has won for himself not only the highest respect but the warm friendship with all of the thousands with whom his work has brought him into contact.

While Colonel Twitchell has not announced definitely that he will leave New Mexico, his friends in Las Vegas say that his mind practically is made up to accept the position tendered him by the mining corporation of which his brother is president.

Colonel Twitchell's long residence in the state and his notable literary work, especially his historical research and writing, have given him a national reputation and have made him one of the state's foremost citizens.

Captain Reid, who is to succeed Judge Waldo, has been connected with the Santa Fe legal department for many years. He retired from the railway work for a time to become attorney general of the territory under Governor Herbert J. Hagerman, returning to his practice at Roswell following Mr. Hagerman's retirement from the executive chair.

It is expected that the changes and the removal of the offices of the legal department to Albuquerque will take place during the next few weeks.

BOATRIGHT AUCTION DRAWS CROWD

The announcement that D. H. Boatright is to close out his entire stock under the hammer of Auctioneer Ed. Frank attracted a big crowd of eager shoppers to the Boatright store this afternoon for the first session of this unique sale.

The auction is to be continued until the entire stock is disposed of, and it is announced that not an article in the house is reserved. That means that the people of Albuquerque are to get some notable bargains in merchandise of the very highest class, and it is a safe guess that every afternoon and evening for the next fortnight will find a crowded house at Boatright's.

Did you know you could get Cerrillos Anthracite Coal for furnace use at $5.00 the ton. Ask the "Stove Man" at the Hahn Coal Co. Phone 91.

ANNUAL FRATERNITY SHOW FRIDAY NIGHT TOPIC OF INTEREST

With examinations now out of the way and registration going on today, the next event of importance in university circles is the "Fraternity Follies," which is to be staged by the Sigma Tau fraternity at the Elks' theater Friday night. This event is the annual show put on by the fraternity.

Rehearsals have been re-commenced with energy since examinations last week and the show is rounding into form well. With several days yet to polish up the production it is assured that the performance will have the finish characteristic of theatricals presented by "the university crowd."

Many novel stunts have been arranged for the affair, one of which will be the presence of all the fraternity boys not engaged in the actual acting or stage management as ushers. To prevent the crowd from finding out which of the fraternity are taking part on the stage the ushers will be masked. No announcement of the cast will be made, nor will any credit be given any individual for direction, stage management, musical direction or other work. The piece will be presented simply as the product of the whole fraternity's efforts.

Boils Are a Bad Indication

No Time Should be Lost in Purifying Your Blood.

At the first appearance of pimples and boils the blood should be given a good scrubbing internal bath with S. S. S. the greatest blood purifier known to man.

This remarkable remedy has the peculiar action of soaking through the intestines directly into the blood. In a few minutes its influence is at work in every artery, vein and tiny capillary. Every membrane, every organ of the body, every excretory becomes in effect a filter to strain the blood of impurities. The stimulating properties of S. S. S. compel the skin, liver, bowels, kidneys, bladder, to all work to the one end of casting out every irritating, every pain-inflicting atom of poison; it dislodges by irrigation all accumulations in the joints, causes acid secretions to dissolve, renders them neutral and scatters those peculiar formations in the skin that cause boils and other skin eruptions.

And best of all, this remarkable remedy is welcome to the weakest stomach. In a very brief time S. S. S. has the reconstructive process so under control that all eruptive places heal.

You can get S. S. S. at any drug store. Beware of any effort to sell you something claimed to be "just as good." If yours is a peculiar case and you desire expert advice, write to the Swift Specific Co., 212 Swift Bldg., Atlanta, Ga.

ANNOUNCEMENT IS MADE OF KURN'S SUCCESSOR

C. H. Bristol of Pueblo Becomes General Superintendent of Santa Fe With Headquarters in La Junta

[By Leased Wire to Evening Herald.]

Pueblo, Colo., Jan. 26.—Important railroad changes in Colorado were made known here today when it was announced that C. H. Bristol, division superintendent of the Santa Fe, had been named to succeed J. M. Kurn as general superintendent with headquarters at La Junta. Mr. Kurn becomes president of the Detroit, Toledo & Ironton railroad with headquarters at Detroit, Mich. Mr. Bristol will be succeeded here by J. E. McMahon of Clovis, N. M., on the Pecos division of the Santa Fe.

ten years," said the witness. "It is

SEEKING TO COMPEL OFFICIAL OF ARMOUR CONCERN TO TESTIFY

[By Leased Wire to Evening Herald.]

Chicago, Jan. 26.—The petition looking to court action to compel Frederick W. Ellis of Armour & Company to answer certain questions asked by the interstate commerce commission about the Armour car lines was completed here today by P. J. Farrell of the commission and J. H. Wilkerson, United States district attorney.

Charles M. Sechrist, general manager of the Pacific Express, testified that the company used 13,000 refrigerator cars in carrying fruit and vegetables from the Pacific coast. The company was formed, he said, to insure the proper handling of those commodities. Formerly the Armour car service was used.

"There has been great advance in fruit growing in California in the last ten years," sai dthe witness. "It is necessary to provide cars every day in the year, whereas formerly it was necessary to have them only at certain periods."

South Dakota Law Annulled.

Washington, Jan. 26.—The South Dakota law making railroads liable for double the amount of loss sustained by property owners through fires originating from locomotives, unless the loss was paid in full in sixty days, was annuled today by the supreme court as violative of the fourteenth amendment.

DIXIE QUINTETTE HIGHEST CLASS OF NEGRO ENTERTAINERS

That the Dixie Quintette, the attraction secured by the Women's club as the first number in the Redpath-Slayton lyceum course, at the Elks' theater next Saturday night, is composed of negro entertainers of the very highest class, is the testimony of every city which has heard the mellow voices and the droll fun of this aggregation; and they have been entertaining crowded houses

THE DIXIE QUINTETTE.

everywhere. One newspaper says, regarding the appearance of this troupe.

"The Dixies are without exception the highest class negro entertainers on the platform today. It is worth the price of admission alone to hear old Ed Williams of the famous team of Williams and Walker of eastern fame, tickle that banjo of his. His songs are rich. Then there is Paul Turner, by all odds the biggest negro basso from a standpoint of reputation and depth, in the country today. Why just to hear Turner give "Old Black Joe" is worth going through a couple of blizzards to hear. And can you imagine any music more enjoyable than a real, first class negro quartette singing the old plantation melodies or some of our latest songs, like the "Mysterious Rag" or such like?

Bryan Induced to Speak.

New York, Jan. 26.—William Jennings Bryan, secretary of state, paid a brief visit to Mayor Mitchel at the city hall today. It was just a personal call he said.

The secretary came to New York from Washington to deliver an address tonight at the annual banquet of the American Asiatic association. He will speak on the Chinese loan question.

GLASS OF SALTS CLEANS KIDNEYS

If your Back Hurts or Bladder bothers you, drink lots of water.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless saltS which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

STATE ENGINEER TO STIR UP GOOD ROADS SENTIMENT IN MORA

Las Vegas, N. M., Jan. 26.—State Engineer James A. French of Santa Fe is expected to visit Las Vegas this week, and with members of the local road commission will make a trip to Mora for the purpose of arousing the spirit of good roads among the citizens and the road board of Mora county. Mr. French has not stated just what day he will arrive here.

The value of good roads is shown effectively by the fact that since the Mora road in San Miguel county has been placed in good condition, more freighters from Mora county bring their products to Las Vegas than they do to Watrous, which formerly received a large amount of Mora business. The improved Mora road is a big asset to Las Vegas.

The recent efforts of the San Miguel county road commission to repair the road to Mora are directly responsible for the increase in the freighting traffic.

Former Senator Casey Dies.

Washington, Jan. 26.—Former Senator Lyman R. Casey, of Jamestown, N. D., died at his home here today from heart failure. He served from 1889 to 1893 and was 77 years old.

All the cheering refreshment that tea ever brought to womankind is blended in Ridgways Tea

(40)

--by-products

THIS term was applied to various materials resulting from the manufacture of different materials used in every day life. These "By Products" as they were called, were often thrown away but now are sometimes found to be of the greatest possible value to the community.

Dyes, perfumes and ammonia are made from gas tar resulting from the manufacture of coal gas.

Gas coke is another by product resulting from the manufacture of coal gas. Genuine gas coke is principally pure carbon which contains more heat than any other form of fuel available. It is one of the most valuable products of a coal gas plant as it forms the most economical fuel for household use. Heat your house with coke and save money.
