FAILURE TO GET BUILDING PERMIT IS EXPLAINED

H. P. Monn, a contractor accused of starting erection of a building on South Arno street without a permit, appeared before Judge George H. Craig in the city court this morning. He explained that he supposed the owner of the building was to get the permit, and the latter had been under the impression that he, Monn, would get it. The court directed that Building Inspector Morgan look over the structure this afternoon, and if it passes inspection a permit will be issued.

The cafeteria luncheon today was a remarkable success. Everything was well planned and there was no hitch. After the dismissal of the home-going pupils the luncheon crowd passed down into the lower corridor where they were provided with trays, plates, spoons and all manner of eatables. At the end of the long corridor was the checker, to whom the bill was paid, and beside the social success the financial result was gratifying.

The high school Y. M. C. A. secretary committee has been working night and day and up to noon today they had the largest totals for the days just past. They had a total of $737 for the first three days' work, which is the largest among the young men's teams.

A short auditorium assembly was called this morning to make final arrangements for the luncheon, which resulted in the affair being a great success.

KIRK BRYAN HURT ON GEOLOGICAL EXCURSION

Student Accompanying Him Seriously Injured When Train Descends on Party. Fred Luthy Escapes.

Kirk Bryan, of this city, instructor in geology at Yale university, was painfully but not seriously injured in an accident near East Haven, Conn., recently.

Mr. Bryan headed a party of students in research work along a railroad cut. Fred Luthy, son of J. F. Luthy, was among the boys. The party leaped out of the way of an approaching train into the path of another, the approach of which was hidden by a curve.

Mr. Bryan and a student, named Theobald were caught. Theobald was hurled by the train and suffered a compound fracture of the leg and a fractured shoulder. Mr. Bryan was painfully bruised. Luthy and the other students escaped injury.

Theobald's injuries were extremely serious, but a cablegram received by one of Mr. Bryan's friends states that he was expected to recover.

EARLY ALUMNUS OF REFORM SCHOOL IN TROUBLE

Florence Apodaca, a Springer "Pioneer," Under Arrest at Los Angeles on a Forgery Charge.

Word was received today by the police of the arrest in Los Angeles of Florencio Apodaca, 22 years old, of this city. He is charged with forgery, according to a telegram from A. C. Dodds, probation officer of the coast city.

Mr. Dodds' telegram asked the police here to tell him all they could about Florencio and his family.

There is a good deal Chief McMillie can tell Dr. Dodds about Florencio. According to the police the young man has a long record in their archives. He is alleged to have been mixed up in burglaries and bad check cases in this city.

He started in early. According to the authorities he was one of the first boys to be sent to the state reform school after its opening.

Florencio's biography will be sent to the Los Angeles probation officer. The police here don't think it will help Florencio to a great extent.

Basis for Exchange.

He had a drove of dispirited steeds and paused to give them a much needed rest. The storekeeper came out and looked them over casually.

"Want a horse?"

"Guess not."

"I'll take it out in goods," said the stranger. "I'll take it out in tobacco, in fact."

"Might do some business along those lines," responded the storekeeper, "if we kin agree on a basis."

"What's your basis?"

"Well, I'll trade with you, plug for plug."
