BULGARIA MUST NOW FISH OR CUT BAIT, SAY THE ALLIES

Her Decision as to Part in War Demanded Today in Terms Which Will Permit of No Further Dickering.

BOTH SIDES READY FOR SERBIAN CAMPAIGN

French Official Report for Sunday's Operations Claims Still Further Gains in the German Lines.

[By Evening Herald Leased Wire]

Paris, Oct. 44 (4:58 p. m.)—News of the landing of troops at Saloniki, Greece," says the Temps, "is awaited here from one moment to another."

Berlin, Oct. 4 (by wireless to Sayville).—It was officially announced today that two British monitors had been damaged before La Panne by German naval airships.

London, Oct. 4 (2:25 p. m.)—A dispatch from Sofia to Reuter's Telegram company, under date of September 30, says that M. Malinoff, leader of the Bulgarian democrats, has been designated by all the opposition parties to treat with the ministers of the entente powers. The Democratic leader already has begun the pour parler, according to the dispatch.

London, Oct. 4 (1:29 p. m.)—Bulgaria must make her choice today for an open alliance with the central powers and Turkey, or for neutrality. When her decision will be made known publicly rests with the censors, but it is regarded as unlikely that there will be delay in satisfying the widespread anxiety to know the best or the worst.

There is a marked division of opinion in London as to which side King Ferdinand and Premier Radoslavoff will choose. Notwithstanding the gains of hostility toward Serbia on the part of Bulgaria, the opinion is expressed by some well informed diplomats that Bulgaria will not fight and that the Bulgarian people would resist such a policy. Sofia continues to deny the existence of the military conditions on which the Russian ultimatum is based. Negative action, however, will not satisfy the allies, who demand that Bulgaria shall "openly break with the enemies of the Slav cause."

If the reports from Paris, Bucharest and Athens of the concentration of Teutonic troops on the Serbian frontier are correct, the promptitude with which Russia has taken up the German challenge is explained. According to these reports Field Marshal von Mackensen has got the eastern troop and is now near the Serbian border at the head of 250,000 German and Austrian troops with 2,000 guns. It is represented that he is ready to repeat against Serbia his phalanx movements, which cleared the Russians out of Galicia. In addition to this force, Bulgarians numbering 300,000 are said to have been massed along the eastern border of Serbia.

If action by the entente powers should become necessary this action would be undertaken by troops which are now in readiness to take the field simultaneously with the forces of Greece. The opinion is expressed here that a protest movement, such as would be undertaken, would be likely to disentangle the counsels of Bulgaria which for the moment seem obscure.

The results of the great recruiting rally in England on Saturday are not yet known, but it is generally understood that Lord Kitchener will get the necessary number of men by one means or another.

"I know how many men I want," he told the labor leaders. "I know their names and the numbers on their doors and if they don't come I will fetch them. Give me the men and munitions I want and I guarantee we shall have the war in the hollow of our hands."

GERMANS SAY ALLIES CANNOT RESUME OFFENSIVE

Berlin, Oct. 4 (via London, 2:38 p. m.)—A dispatch from the front published in the Lokal Anzeiger today says that the British and French losses in the new offensive have been so great that renewal of the attacks is not expected. German troops already have begun a counter offensive, this correspondent says, and have occupied "a particularly important part of the British front," after inflicting heavy losses on their opponents. He adds that the ground won by the British at Loos is gradually being recaptured in the daily battles which are in progress.

"The chief plan of the enemy," he continues, "was to break through between Rheims and the Argonne. This was rendered futile because the attack was broken by the wonderful bravery of our troops, the timely disposition of reserves and the use of our newly prepared entrenchments. Although he made repeated attacks the enemy never succeeded in increasing his gains.

"On the east flank we were enabled to win an appreciable advantage by a counter offensive."

FRENCH OFFICIAL STATEMENT CLAIMS FURTHER PROGRESS

Paris, Oct. 4 (2:28 p. m.)—French troops have continued to make progress to the north of Arras, according to the announcement given out by the French war office this afternoon.

There has been almost continuous fighting in the vicinity of Nouvron and Quennevieres.

There also has been artillery fighting in the Champagne district.

A squadron of French aeroplanes has thrown forty bombs on the railroad station at Metz.

GERMAN OFFICIAL REPORT NOTES LOSS AND GAIN

Berlin, Oct. 5 (via London, 5:10 p. m.)—A further gain for the Germans in the struggle with the British near Loos was reported today by the war office.

The French succeeded in wresting from the Germans part of a trench near Givenchy.

GERMANS WERE READY SAYS FRENCH REPORT

Paris, Oct. 4 (2:20 p. m.)—The recent attack by the allies at Souchez was fully expected by the Germans, according to a correspondent writing from the front. All their first line trenches had been strongly manned, he says, and companies which had been depleted as a result of the continuous artillery fire had been brought to their full strength with the usual complement of officers.

TWO RUSSIAN SQUADRONS OUT BULGARIAN COAST

London, Oct. 4 (2:37 p. m.)—Two powerful Russian squadrons are reported to have appeared off the Bulgarian coast, near Varna, on the Black sea. This announcement is made to the Tribuna of Rome, according to the correspondent there of the Exchange Telegraph company.

ARMENIAN OUTRAGES MUST CEASE, SAYS U. S. TO TURKEY

Washington, Oct. 4.—Ambassador Morgenthau at Constantinople was instructed by cable today to inform the Turkish minister of foreign affairs that public sentiment in the United States was so stirred by the reports of the Armenian atrocities that unless the massacres ceased friendly relations between the American people and the people of Turkey would be threatened.

Arabic Situation Not Critical, Declared

While Latest German Note Is Not Satisfactory to Washington It Is Recognized as Making Concessions.

[By Evening Herald Leased Wire]

Washington, Oct. 4.—Although Germany's new note on the Arabic case is not entirely satisfactory to the United States, the situation is not considered critical at this time. This was stated today on high official authority.

The view held by President Wilson and state department officials on the note handed to Secretary Lansing in New York Saturday by Count von Bernstorff, the German ambassador, is that it was not specific enough on the points insisted on by the president. These are a disavowal of the sinking, assurances that the act would not be repeated and proper reparation.

Careful reading of the note delivered by the German ambassador has convinced administration officials that further negotiations on the question are possible and that there is still reason to hope that Germany will in the end accede to the wishes of the United States.

The note will not be answered formally immediately, but Secretary Lansing at a conference later this week with the German ambassador will inform him of the point the United States wants cleared up. After the conference the ambassador is expected to communicate again to government the views of the United States.

Germany's position now, however, more nearly approaches the stand of the United States than it did in the previous note on the same question. It is understood that the note gives satisfactory assurance that Americans traveling on unarmed liners will not be endangered by submarine attack in the future, but a satisfactory disavowal of the sinking of the Arabic is not given.

FAST CRUISERS TO BE IMPORTANT ADDITION TO OUR NAVAL STRENGTH

Fast Warships of Powerful Types Determined Upon as Absolute Necessity of Thoroughly Balanced Navy.

ESTIMATES FOR CONGRESS READY OCTOPER 15

President in Long Conference Today With Naval Secretary and House Committee Head.

[By Evening Herald Leased Wire]

Washington, Oct. 4.—President Wilson, Secretary Daniels and Chairman Padgett of the house naval committee, decided today at a conference at the White House that the naval program for the coming session of congress shall include the addition of fast battle cruisers to the American fleet. The navy now has none.

The conference discussed the naval estimates more than an hour. Afterward Secretary Daniels said the program had not been completed and he was not ready to make any announcement as to what increase he would recommend to congress. Mr. Daniels said, however, that the report made to him by Naval Constructor McBride, who returned from England last week after investigating naval lessons of the war, had convinced him that fast warships of powerful types were absolutely essential to a well balanced navy, toward which his recommendation will trend. He refused to say how many submarines congress will be asked to provide, but indicated his opinion that the submersibles will be recognized by important additions.

No direct reports have been received from Germany and Austria but general information regarding the German navy is in the hands of the navy department.

Secretary Daniels expects to have his estimates ready by October 15.

The need of increasing the number of midshipmen at the naval academy was touched on at today's conference and it was agreed that the corps should be brought up to the full capacity of the academy.

President Wilson will confer on Wednesday with the advisory board headed by Thomas A. Edison. Mr. Edison now is in Washington discussing plans with Secretary Daniels.

Morgan City Again Hard Hit by Tornado

Second Hurricane Sweeps Louisiana Coast This Morning: Three Killed and Heavy Property Loss.

[By Evening Herald Leased Wire]

Morgan City, La., Oct. 4, (by telephone to Houston, Texas)—Three persons are dead and the property damage heavy as a result of a tornado which struck this city shortly before 10 o'clock this morning. Wire communication, just recovering from the recent West Indian hurricane, was again demoralized with New Orleans.

The only wire working out of the city this afternoon is a telephone circuit to Houston, Texas.

The tornado swept in from Berwick bay, from where the business section is reported being damaged and passed toward Assumption Parish where, unconfirmed reports say, several persons were injured.

GEORGE EDWARDES, NOTED ENGLISH MANAGER, DEAD

[By Evening Herald Leased Wire]

London, Oct. 4, (1:15 p. m.)—George Edwardes, the well known English theatrical manager, died in London this morning after a long illness.

George Edwardes was one of the best known theatrical managers in the world. He was chairman and managing director of the Gaiety Theater company, sole lessee and manager of Daly's theater and had an interest in several London theaters.

The theatrical manager produced fifty-four original pieces in the course of his career. He made several visits to New York in connection with his productions.

Governor Calls Meeting Here October 12

"All Those Interested in Getting New Mexico Properly on the Map" Asked to Geographical Society Meet.

[By Evening Herald Leased Wire]

Santa Fe, N. M., Oct. 4.—"All those interested in placing New Mexico correctly on the map" are urged by Governor McDonald to attend a meeting called by the executive for October 12 at the state university in Albuquerque, at which a state geographical board is to be organized to co-operate with the United States geographical board and at the suggestion of that body.

Border Trouble Is Tough Luck for Snake Trade

Most Important Item Out of Mexico Today Is Hardship Wrought on Rattlesnake Fanciers by Bandit Outrages

[By Evening Herald Leased Wire]

Brownsville, Tex., Oct. 4.—Mexican bandit outrages have put a sudden stop in this section to the somewhat extensive business of rattlesnake catching.

Large-sized rattlers abound in the brush along the border and curio dealers sell them to shows and parks all over the country. Mexicans ordinarily do the snake catching, but since the Mexican outlaws have invested the brush the snake catchers will not venture into the brush for fear of being shot as bandits.

ANDERSON WAS VICTIM OF DUM DUM BULLET

San Antonio, Texas, Oct. 4.—Captain A. V. F. Anderson, Twelfth United States cavalry, who is at Fort Sam Houston hospital recovering from a dum dum bullet wound received in the fighting with Mexican bandits at Progresso, will return to his regiment within ten days, it was announced today at the post. The bullet penetrated Captain Anderson's arm with a minute puncture but emerged in a tear two and one-half inches across.

Officers on the border are forwarding to southern department headquarters other evidences of the use of dum dum bullets by the Mexicans, including many unfired cartridges with the noses of the bullets cross-filed and nicked.

MAZATLAN FORCES MOVE ON CHIHUAHUA IN FORCE

El Paso, Texas, Oct. 4.—The Carranza consulate today announced that Mazatlan forces under General Luis Herrera are marching in two columns upon Chihuhua City. Chinipas, fifty miles southwest of Guerrero, on the railroad, and Moris, thirty miles southwest from Guerrero, were said to be in the hands of Herrera's troops. The neighboring towns of Ocampo and Conchano are said to be also occupied.

MAYTORENA AND ADVERTISING AGENT OUT TO WASHINGTON

Nogales, Ariz., Oct. 4.—Governor Jose Maytorena, Villa chieftain in Sonora, accompanied by L. Rossado, an attorney of Mexico City, a secretary and a publicity man, were en route to Washington today to attend the next Pan-American conference on Mexican affairs. The Maytorena party left here last night in an automobile for Tucson, Ariz., where they boarded an overland train.

MAYTORENA PASSES EL PASO WITHOUT A STATEMENT

El Paso, Texas, Oct. 4.—Former Governor Jose Maria Maytorena of Sonora, Mexico, passed through here today, accompanied by a staff of secretaries and a publicity man, en route to Washington to attend the Pan-American conference on peace in Mexico.

Maytorena was met at the depot by Miguel Diaz Lombardo, minister of foreign relations of the Villa government, who arrived from Chihuahua City today, and George C. Carothers, special agent of the state department.

After a brief conference Maytorena re-boarded the train, continuing his journey without making a statement as to his plans in Washington. It was understood, however, that he proposed to represent the state of Sonora and those who elected him to office under the Madero government.

Schenectady, N. Y., Oct. 4.—Virtually all of the 10,000 unionized employes of the General Electric company except the blacksmiths, core makers and moulders, struck today for an eight hour working day. Machinists led th walkout which continued throughout the day. There was no disorder in connection with the strike.

MORGAN HOUSE SAYS GREAT LOAN TO ALLIES HAS BEEN FULLY SUBSCRIBED

No Subscriptions Will Be Received After 10 o'Clock Tomorrow Morning, Says Head of Underwriting Syndicate.

ROCKEFELLER SAID TO HAVE PUT IN 10 MILLION

Amounts Subscribed by Money Kings May Never Be Known As Syndicate Regards Them as Confidential Clients.

[By Evening Herald Leased Wire]

New York, Oct. 4.—An imperial announcement, indicating the success of the Anglo-French loan, was made today by J. P. Morgan and company. It was to the effect that no subscriptions to the underwriting will be received after 10 a. m. tomorrow.

The statement of J. P. Morgan and company follows:

In behalf of the managers of the underwriting syndicate of the Anglo-French external loan, J. P. Morgan and company announce that no subscriptions toward the underwriting will be received after 10 o'clock tomorrow (Tuesday) morning."

John D. Rockefeller was reported today to have subscribed to the $500,000,000 Anglo-French bond issue. It was said his subscription was among the largest taken by individual investors, and approximated $10,000,000.

At the Standard Oil company's offices here a member of the Rockefeller staff declined to comment on the report. Overtures looking toward Mr. Rockefeller's participation were made about two weeks ago by J. P. Morgan.

There is small likelihood that Mr. Rockefeller's participation ever will be officially announced, unless he sees fit to state it. The syndicate managers have decided not to make public the list of large individual subscribers on the ground that these subscribers are their clients and that to talk of their affairs would be a breach of confidence.

President Will See Second of the Games

Announced Today That Nation's Chief Executive Will Occupy a Box at Saturday's World Series Contest.

[By Evening Herald Leased Wire]

Philadelphia, Oct. 4.—President Wilson will see the Phillies and the Red Sox battle for the world's baseball title next Saturday at the second game of the big series to be played at National league park here. The president and a small party of friends will view the game from a box on the right field side of the grandstand near the home players' bench.

Mr. Wilson was invited to the games in this city about two weeks ago by President William F. Baker of the Philadelphia club and an acceptance was received last week.

Mr. Baker made no announcement of this fact, however, until today, preferring the information to come from Washington first.

There is a possibility that several members of the cabinet will accompany the president.

It was known at the offices of the ball club today that there are about ten applications for every reserved seat in the Philadelphia grounds. The management has not opened any of the mail received since Saturday noon, as it would be useless to handle any more applications.

NATIONALS BEGIN TO TUNE UP FOR RACE

Philadelphia, Oct. 4.—The Philadelphia Nationals began tuning up today for the world's series with the Boston Americans which opens here on Friday. Only three games—with Brooklyn—remain on the Phillies' regular schedule.

Speculation as to how the rival managers will use their pitchers in the coming struggle is attracting most attention. It is generally believed that Moran will use Alexander in the opening contest.

The Phillies' management has announced that there will be no public sale of tickets. The long line which usually formed two and sometimes three days in advance of the opening come to purchase seats will be missing.

Labor Leader Says Rockefeller Plan Is Surrender

Secretary of American Federation Declares Its Fundamental Principle Involves Giving Up of Rights.

[By Evening Herald Leased Wire]

Denver, Colo., Oct. 4.—John D. Rockefeller, Jr., today motored to Boulder, where he inspected a stretch of public highway recently improved through the expenditure of a part of the $100,000 given by the Rockefeller Foundation to provide work for unemployed coal miners after the strike of 1913-14. He expected to return to Denver in time to attend a meeting of the directors of the Colorado Fuel and Iron company this afternoon. At this meeting final action will be taken, so far as the company is concerned, on the adoption of the Rockefeller industrial plan.

At all Colorado Fuel and Iron company camps today balloting began in a referendum vote on the Rockefeller plan. The result of the miners' vote was expected to be known in two or three days.

Mr. Rockefeller, before starting for Boulder, conferred with Governor George A. Carlson at the latter's office. No information was forthcoming as to the matters discussed in the interview.

Near Boulder Mr. Rockefeller visited a road building camp of convicts from the state penitentiary.

NO CHANCE FOR SUCCESS, SAYS LABOR LEADER

Washington, Oct. 4.—Secretary Frank Morrison of the American Federation of Labor today made this statement commenting upon the announcement of the Colorado Fuel and Iron company's plan for dealing with its employes:

"Mr. Rockefeller's plan is significant. In his alleged collective bargaining plan he yields more than any other employer hostile to the trade union movement. Great corporations have been using every device that can be conceived by their ablest representatives to prevent employes from organizing in trades unions, financed and controlled by the workers.

"Mr. Rockefeller says he acknowledges the principle of collective bargaining—and to enforce his conception of this theory creates a union and evolves a comprehensive plan that, the press states, is financed by the Colorado Fuel and Iron company. We are told these workers will be 'permitted to present their grievances.'

'Organized workers present their grievances through the power of their economic organization. They enforce their rights to have a voice in the disposal of their labor power. Mr. Rockefeller's plan provides that workers will be 'permitted' to present grievances. If one dissects this theory he sees that the power that 'permits' can also withdraw at any time he elects.

"Herein is the fundamental difference between the Rockefeller plan and that of the trade unions. One develops independence, the other relies on the graciousness and good will of the employer. There can be no compromise between the two theories, for if workingmen are to be really free their right to regulate their own lives must be acknowledged.

"Mr. Rockefeller's welfare plan contains nothing new—it is only a repetition of efforts made by employers to keep their workmen satisfied. I am sure that time will demonstrate that the plan prepared by Mr. Rockefeller for his employes in Colorado will prove a full cousin to the other schemes of like character inaugurated for the sole purpose of preventing organization of employes that will enable them to secure improved conditions."

China May Return to Monarchial Government

Popular Vote Ordered to Determine Whether or Not Recently Created Republic Shall Slip Back.

[By Evening Herald Leased Wire]

Peking, Sept. 4.—Regulations governing the election of members to a people's conference, which shall decide whether China shall adopt monarchial form of government, have been passed by the state council, acting in the capacity of a legislature.

The primaries will be completed on November 5 and the final vote cast in the provincial capitals ten days later. If the vote favors a monarchy the restoration of that form of government will be promulgated.

Dispatches from Peking on September 22 said that the council of state had advised President Yuan Shi Kai to call a citizens' convention to act on a new constitution which would decide the monarchial question. Today's dispatch indicates the giving of such authorization and shows that definite steps for the election of members of the body which will make the decision have been taken.

NEAR ANARCHY IS THE SITUATION IN THE CLIFTON COPPER MINE DISTRICT

Strikers, Without a Leader, Fight Among Themselves as to Demands to Be Made on Mine Managers.

MANAGERS ASKED TO RETURN TO CAMP

Lordsburg, New Mexico, Today Summarily Orders Out of Town Organizer Regarded as Fomenter of Strikes.

[By Evening Herald Leased Wire]

Phoenix, Ariz., Oct. 4.—Messages today from Clifton, where several thousand copper miners are on strike for improved conditions of labor, said that John Christy, a representative in the state legislature, was prepared to leave for El Paso, Texas, bearing a petition to three mine managers who fled the strike zone Saturday night, asking them to return.

The petitions are signed by business men of Clifton and are said to have been circulated at the suggestion of officials of the Western Federation of miners, who want the strike settled without serious disturbance.

Norman Carmichael, J. W. Bennie and Milton McLean, the men who went to El Paso, are managers of three of the large mines of the district.

The forty-eight militiamen ordered to Clifton by Governor George W. P. Hunt were expected to arrive late today.

Clifton, Ariz., Oct. 4. (By telephone to Phoenix.)—Peace officers of Clifton faced a delicate situation here today in their efforts to preserve order among hundreds of striking copper miners.

Adjutant General Harris, of Arizona, who left El Paso Sunday, was expected today to visit the disturbed copper section with a view of reporting to Governo Hunt if the situation demanded a proclamation declaring martial law.

No serious disorders had occurred in Clifton last night but reports from the Metcalf and Morenci camps said that miners there were threatening serious trouble. Reports from the camps, however, gave no definite information.

The most serious trouble here occurred during Sunday when a mob of angered strikers assaulted Engineer Thomas Simpson and Fireman Mike Penn, who were in charge of the engine which took Norman Carmichael, J. W. Bennie and Milton McLean, the three mine managers, to Lordsburg, N. M., on Saturday night.

Simpson and Penn were severely beaten before making their escape in an automobile.

Several hundred miners visited the home of Superintendent Flynn at the Clifton smelter Saturday night. Some of the men ordered him to leave the district at once, while others demanded that he remain to represent the mining companies.

Flynn told the miners he was ready to comply with their orders as soon as it was decided what he should do. He then suggested that the men obtain instructions from the president of their union.

While the miners were seeking these instructions, Flynn went to a local hotel, where he was placed under a guard of a deputy sheriff. The escape of the three mine managers Saturday night on a locomotive which they chartered occurded while strenuous attempts were being made to stop them.

As the miners learned that the managers were preparing to depart, a Mexican laborer swore to a complaint charging them with inciting a riot. The warrant was given to Sheriff Cash, who tried to stop the engine at Duncan, thirty miles from here. The engine passed through Duncan at high speed.

Joe Larrieu, a deputy sheriff who was at Lordsburg, then was notified to stop the three men. He obtained a complaint charging them with being fugitives from justice. The charge, however, was dismissed.

LORDSBURGERS TAKE SUMMARY ACTION WITH STRIKE FOMENTER

Lordsburg, N. M., Oct. 4.—A. Tribolet, an organizer of the Western Federation of Miners, who arrived here from Clifton yesterday, was given twenty-four hours in which to leave town.

It is reported that Charles H. Moyer, president of the Western Federation of Miners, who arrived here from Clifton yesterday, was given twenty-four hours in which to leave town.

El Paso, Tex., Oct. 4.—E. E. Ellinwood, Arizona attorney for the Phelps-Dodge interests, issued a statement today from temporarily opened offices in El Paso, regarding
