RUPPE WRITES OF LIFE IN GUARD CAMP AT BORDER

Cots Provided for All Members of New Mexico Command and Army Shoes to Be Issued Soon After Muster In.

Camp life at "Camp Furlong," the mobilization center for New Mexico troops at Columbus, is described in the following letter from Major H. Ruppe of this city, commanding the Second battalion of the New Mexico regiment.

"Recruits are commencing to arrive here and in sufficient numbers.

"The battery has commenced on the physical examination preliminary to being mustered in as federal troops. A good many of the New Mexico boys will be turned down; others are not willing to be mustered in, although the latter class will comprise but a very small percentage of those here.

"This morning at 3 o'clock 27 motor trucks left with 300,000 rations for the front. About 15 armed Mexicans are said to have been seen three and a half miles south and about twenty miles west of here early today and cavalry went out to investigate them. Whether this is true or not I do not know, but the truck drivers and parties have seen Carranzista soldiers near here. Villistas are a scarce article between here and Nacozari, 120 miles from here.

"The boys with few exceptions are all jolly and feel fine. Although the camp has daily windstorms, we have plenty of shower baths and so we can at least keep clean. A thousand cots have been received by Major Scott, regimental quartermaster, through the United States quartermaster, Major Newbill. As I write to my best, the United States officers are doing everything possible for us. Provides now will have a roof to sleep on and when mustered in will be equipped with the United States army shoe, which is a dandy.

"The sanitary conditions are excellent. Refuse is burned immediately on the garbage incinerator which are provided each company. The manure accumulation from each company street is emptied each morning and disinfected to burning stress and oil on it.

"The days have been warm but nights are cold. I had to use another blanket. This makes three. I am going to keep from getting chilled.

"Officers mess is just going to start; it is an end to going to town for meals.

NOVEL SHOW AT THE CRYSTAL THE COMING SATURDAY-SUNDAY

The show which plays at the Crystal theater the coming Saturday and Sunday, is not only one of the best in point of numbers engaged, but one of the most novel ever offered on the amusement of Albuquerque theater goers, and for that reason is one of the most expensive. The Nashville Students this season include the following artists: Ed Tolliver, monologist (the man who talks about himself), Washington and Freels, musical act introducing a variety of musical instruments. Nashville Students male quartette, in the very latest and popular songs. Tom Harris, soft shoe and acrobatic dancer. Coy Henderson, hoop roller. The offering as a whole is colorful, well-dressed and altogether out of the ordinary of variety programs. The performers are all trained musicians. Don't fail to hear the Tuesday night free concert at the theater.

STRONG DEMAND FOR PHOTOGRAPHS OF MOVIE STAR

Someone in Albuquerque has a keen appreciation of the art in photography. W. H. Walton has made of Gail Kane, the celebrated movie star who spent last winter in Albuquerque with a company. Several weeks ago the Walton display case at 213½ West Central was broken open and a life-size photograph of Miss Kane, encased in a handsome gilt frame, was stolen. No trace of the picture has ever been obtained.

Tuesday night the Walton case again was forced open and several attractive small photographs of Miss Kane were taken. These latter were copies of photographs of the actress recently published in a popular magazine.

GONZALEZ PROVES HE IS ENTIRELY READY TO FIGHT

Prospective Recruit Alleged to Have Tried to Lick Policeman; Suspected of Wanting Gun to Settle Row.

One of Company L's prospective recruits fell into the hands of the police last night, and promptly proved, according to the police report, his entire readiness to fight. Moreover, says the same report, he proved that he was ready to fight with whatever weapons were at hand.

Manuel Gonzales, the would-be recruit, appeared at the armory early in the evening and told Lieutenant Greller, the recruiting officer, that he was keen to join the forces. The officer took his name and filed the application. Gonzales wanted to know if he couldn't have his equipment right away. He seemed disappointed when he found he couldn't.

A little later Policeman Charley Maine arrested him for alleged drunkenness and disorder. According to Maine, the prospective recruit had two big rocks in his pockets and attempted to use them on the policeman. Maine in his report stated laconically that he "beat him to it."

After locking his prisoner up Maine added "concealed weapons" to the charge, and filed the rocks as evidence.

It is the police theory that Gonzales had a row with somebody and set out to settle the score. The police idea is that he wanted the grand equipment in order to get a gun, and, failing that, he went into a state of preparedness with the rocks.

After the arrest Lieutenant Greller decided that Gonzales might not be a desirable recruit, but Chief of Police Gallegos thinks a ready fighter like Manuel might develop some real soldierly qualities under army discipline. Anyhow, the police would rather like to see Manuel roped in the army and shipped to the border.

Manuel's case was continued at this morning's session of the police court.

Lieutenant Greller is to consider the case.

NOBODY BARRED AT COWBOYS' REUNION AT VEGAS IN JULY

Las Vegas, N. M., May 18.—All cowpunchers will look alike on July 4, 5, 6 and 7, during the second annual Cowboys' reunion. The reunion association, the only one of its kind made up of, controlled and managed by ranch owners and the real hands, will not bar a brother puncher from any section of the world from competition in any of the events, no matter what his reputation as a "hoofed" performer may be.

The show was organized primarily to furnish a good time for the men of the range and one of their ideas of a hilarious lounge is a meal of steak with the best riders and ropers from all parts of the country, followed in the evening by a good old-fashioned swamping of saloons. It may be accepted as already demonstrated that they will prove themselves competent to compete with any outside talent that may come in—and indications are that it will be numerous.

Five thousand "bucks" have been "corralled" as prize money, every bit of it in good, hard cash. Other prizes that are offered are additional to the 5,000 silver washers, and if there is anyone who thinks competition will not be keen, he should submit his opinion for a referendum.

Railroads, autos, wagons, buggies, broncs, burros and doubtlessly "schoolers" will bring the population of the surrounding country to Las Vegas to see the big show. The Reunion association will provide a program that will keep something doing every minute during the four days' show, morning, afternoon and night. There will be entertainment for all kinds of folks, men folks, women folks and kid folks.

IF KIDNEYS ACT BAD TAKE SALTS

Says Backache is a sign you have been eating too much meat, which forms uric acid.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and lazy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels, removing all the body's urinous waste, else you have backache, sick headache, dizzy spells, your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good physician at once or get from any good pharmacist about four ounces of Lithia Salts, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer is irritating, thus ending bladder weakness.

Jad Salts is a fine mixture for regular meat eaters. It is inexpensive, cannot injure and makes a delightful effervescent lithia water drink.

MAYOR TRYING TO END DIFFERENCES WITH ALDERMEN

Said to Be Hopeful of Restoring Harmony Shattered by Hust, Gilbert and Haggard; Trio Quit Chairmanships.

Efforts to settle the differences that have arisen between Mayor Wells and three of the councilmen were said today to be under way and likely to succeed.

The rumors of internal trouble in the administration came to a head yesterday with the reported resignation of Dr. Hiller as chairman of the finance and all-night committees, of A. E. Gilbert as chairman of the water committee, and Jesse Haggard as chairman of the police committee. Dr. Hiller is said to be vexed because he claims the mayor presented his selection as president of the council. Mr. Gilbert is said to resent the fact that Alderman Tingle was made chairman of the street committee. Mr. Gilbert feels that his deposition as chairman was a virtual accusation of inefficiency.

What if anything has rankled Mr. Haggard has not been made clear. He is a Republican, and may be dissatisfied with administration policies on general principles.

The mayor said today that he had nothing to say at this time on the situation. It is known, however, that he expects to bend every effort to compose the differences and restore harmony.

The mayor said he hopes to be able to push the unpaid municipal matters pending to city council consideration, and he is sure he feels that anything short of complete harmony between all the members of the city administration at this election would be little less than a calamity.
