The Markets

New York, Sept. 19.—Stock market trading during the forenoon, which was on a more moderate scale than at any similar period in the past fortnight, resolved itself into a contest between opposing professional interests, the bear faction showing greater activity.

Selling concentrated upon Steel, Union Pacific, Reading and other leaders but exercised little more than temporary effect. Speculative issues, including oils, equipments, coppers and shipping shares yielded to occasional pressure but this was overcome later when rails responded to a renewed demand. Sugar stocks also developed marked strength.

Bonds were irregular.

Chicago Board of Trade.

Chicago, Sept. 19.—Wheat prices tended downward today owing to increased selling pressure and to the absence of any urgent demand. Opening prices, which ranged from ⅛c to 1⅛c lower with December at $1.47⅜ to $1.48¼ and May at $1.48¼ to $1.49 were followed by a moderate additional setback.

Corn gave way with wheat after opening ⅛c to ⅜c down. Prices rallied a little but then sank lower than before.

In oats, heaviness prevailed as in other cereals.

Higher quotations on hogs lifted provisions.

Word of the purchase of the Argentine wheat at New York and of offers of more gave the bears a noticeable advantage until announcement was made that the Dutch government had bought the Argentine wheat. Subsequently, liberal sales to Great Britain turned the market sharply upward.

The close was unsettled at 1-1 to 1½c net advance with December at $1.47⅝ to $1.49 and May at $1.50⅝.

In later transactions there felt the effect of the bulge in wheat. The line was steady at a range varying from ⅛c decline to an advance of 5-8c net.
