THINGS THAT NEVER HAPPEN

Rickert's Livestock Letter

Kansas City Stock Yards, Oct. 23.—The cattle market showed extraordinary energy last week, completely absorbing the run of 45,000 cattle and 12,000 calves, second largest week on record, and fairly clearing the decks of all previous week's receipts. Not only that but the market Thursday was strong to 25@50c higher on all kinds of fat cattle, receipts falling off to 12,000. Receipts today dropped to 15,000, and prices are up 25@50c higher on practically everything.

Bulk of the 100 to 200 pound feeders at $3@3.50, and 100 to 200 pound feeders at $2.50@3.

Cows and Heifers.

Bulk of the cows and heifers sold at $6@6.50, and cows and heifers at $5.50@6. Bulk of the cows and heifers at $5@5.50, and cows and heifers at $4.50@5. Bulk of the cows and heifers at $4@4.50, and cows and heifers at $3.50@4. Bulk of the cows and heifers at $3@3.50, and cows and heifers at $2.50@3. Bulk of the calves at $4@4.50, and calves at $3.50@4. Bulk of the calves at $3@3.50, and calves at $2.50@3.

Hogs.

Hogs from Chicago set the pace for the market here, and offered here every week top $9 higher. Receipts 11,000 head. Packers made a big concession and in trade like a higher opening tomorrow. Packers are not accumulating any material, and the advance in futures today indicates their weak position. Receipts of hogs are fairly liberal, but fresh meat trade requires large numbers, leaving an inadequate remainder for smoked and salt meats. Corn at a dollar a bushel makes present hog prices legitimate, and any economical system of fattening hogs will get market rewards the coming winter.

Sheep and Lambs.

Receipts of 12,000 head sold at steady prices, best westerns $10.35, middle class westerns $10.25, feeding lambs $9.90 to $10.15, a drove of New Mexico feeding wethers weighing 90 pounds at $8.40. Fat ewes worth around $6.75, feeding ewes $6.25 to $6.75, breeders $7.60 to $8.50, practically no change vs. the ewes coming, which would sell around $5.00. Receipts are running behind last October, and the situation here favors the selling side, up north here that Thursday 15 cents above Chicago Friday.

A NEW FRUIT PUNCH.

A very pretty fruit punch has for its foundation frozen fruit. Take a large enameled ware bowl, or even enameled tub, and mix the scrape from each unsulfured water thru and in the juice, but more than the juice of one lemon to two bottles of grape juice. The juice this any fruits crushed. Slices of pineapple are good, whole berries look well and add enough thin slices of cucumber for the flavor of the vegetables are the improvement. The sugar is here, so the ice sent on the top and the bottle serving add a couple of pints of club soda or any plain sparkling water. This gives a quart to the punch which is quite enough. The use of carbonic water is necessary now to insure the danger of getting in the hot well-meaning such as other kinds, water not made of.

Chicago Board of Trade.

Chicago, Oct. 26.—Reports in Argentina gave an advantage today to the bears in wheat. Although the consequent break in prices was the signal for renewed buying, which caused a sharp upturn in the market, the strength failed to last. It did not appear that a general ending of the drought had taken place in Argentina, but the fact that some moisture had been enjoyed seemed to diminish greatly, at least for the time being, the speculative buying power in the pit. Opening prices, which ranged from the same as yesterday's finish to 1½c lower, with December and May both at $1.19 to $1.19, were followed by a little further sag, then a temporary boost, with a slumpsterm fresh setback.

The finish was unsettled at the same as yesterday's latest figures to 1c higher with December $1.20½ to $1.20¾ and May at $1.20¼ to $1.20¾. Fine weather and enlarged country offerings prevented corn from making as good a late upturn as wheat. The close was nervous at ½c to ¾c net decline.

Corn weakened with wheat. The movement of new corn from first hands also acted as a bear factor. After opening unchanged to 1c lower, the market showed some capacity to recover but not relatively as much as wheat.

Oats were directly depressed by news coming in the Argentine rains. For the most part, however, prices were governed mostly by the action of other grain.

Lower quotations on hogs pulled down provisions. Selling, however, was not heavy.
