EDDY COUNTY SHEEP CLEAR SO FAR.

Federal inspectors, Dock Vest and Dr. Miller, of Carlsbad, were in Lovington Tuesday and called at the Leader office to get a glimpse of one of the home papers through our exchanges, and we succeeded in gaining from them some information as to the sanitary condition of the sheep and cattle of our plains, especially those of Eddy county, as this is their territory to look after. Mr. Vest states that out of about 87,000 head of sheep already dipped, and one bug as they call them has been found. He also says that while they have not started on the dipping of the cattle yet, the herds all which they have seen so far seem to be as clear from ticks as do the sheep.

New Mexico is noted for her healthy cattle and while often at our expense in comparison with the lice and south disease, we may well call up our health record. The sheep dipping is nearly finished and it is a good thing, because it seems more would be likely to lose more from dipping in this cold weather than from disease—Lovington Leader.

Your application to make final proof made out free at this office.
